Supplement to the Hawaiian Gazette.

HONOLULU, WEDNESDAY, MARCH 3, 1880.

LATEST FOREIGN NEWS.

The steamer Zealandia arrived about half-past nine o'clock on Tuesday morning, the 26th instant, and left the port of San Francisco about 4 o'clock Tuesday afternoon, the 27th, the delay having been caused by the non-arrival of the English mails before that time.

Pacific Coast Items.

The cold and stormy weather continues, more snow having fallen in the mountains than in many years. Trains were delayed to some extent, but have generally gone forward more or less regularly.

The workingmen in San Francisco are making formidable demonstrations against the Chinese. Meetings have occurred and are stirring up the passions of the populace. A procession of several thousands, headed by a special committee, has been organized, and has marched through the streets of San Francisco, and business of all importance and manufacturers of all kinds (save that they discharge Chinese employees, of very large number of these people have in consequence been discharged; several establishments have given notice that they will have to close out their business in consequence. Meetings are being held in Sacramento to discourage all sorts of demonstrations against the Chinese. An anti-Chinese convention, composed of representatives doing business in 19 towns of the State, from employing Chinese, is in session in Sacramento. A memorial from the convention, and others to the legislature, has been referred to a special committee in true sand-lot style.

The fine Grammar School building in San Jose was burned to the ground. It has only recently been completed at a cost of over $250,000, and was one of the finest wooden building this side of the mountains, if not on the continent.

The raids of Chinese along the line of the Gila River have caused great alarm in Arizona.

The United States troops in Arizona have received a severe lesson from the Apaches. The Indians were suddenly upon the soldiers in a narrow gorge, and before they could prepare were fired and desperately attacked and routed.

The hundred barrels of sugar have been manufactured by the Alvarado Beet Sugar Factory this season.

The combined sales of the Williamson Valley Railroad have completed, and a rich agricultural country is open to settlers.

Dispatch, February 27.—Gen. Wm. McMicken arrived here in large enough for furnishing timber for the Pen d'Oreille division of the Northern Pacific Railroad, has contracted with twenty men who are to receive loggers and river drivers, to start from here next week, preparing to begin work spring and summer.

Dispatch, Oct., February 9.—At 11:30 a. m. to-day the last spike necessary to complete the branch of the Southern Pacific Company to connect the Southern Pacific, Texas and Santa Fe Railroad to San Antonio was driven by Governor Wallace—General Hobbs and staff, with the officers and other gentlemen of the road, were present representing at Santa Fe.

Canada.

Ottawa, February 10.—It is reported that the wife of Oliver Mowat, Jr., from near Glasgow, Scotland, arrived here last week, bringing three girls and one boy, all of whom disappeared and all doing well.

Central America.

On the 20th of January the first section of the Nicaragua Central Railroad was formally opened and a special train with the President and officers of the road, went from Corinto to Eucuntla, a distance of 18 miles. The road is spoken of as well constructed, well equipped, and Premier Barrios stated to one of the party that he intended to have the road pushed through to the City of Guatemala without delay.

South America.

A rumor is said to be imminent between Chile and the Argentine Confederation. Chile was afraid, the Argentine, it is said, have purchased the Italian ironclads Fusa and Venice.

Director General of the National Observatory, Cordoba, Argentine Republic, telegraphs that a great meteor is passing the sun in a northward direction.

Europe.

London, February 12.—The Duchess of Marlborough, owing to the Lord Mayor of London, acknowledging the receipt of $2,000, says the Commissioners, in order to guard against famine in Ireland, have purchased 200,000 worth of provisions for distribution there.

London, February 12.—The return of a Conservative has been a heavy blow for the opposition. The Government are justified in regarding the battle as decisively fought as a vote of confidence more decided and unmistakable than that at Liverpool. London, February 23.—William Hagarty O'Leary, Fellow of the Royal College of Surgeons of Ireland, and Home Rule member of Parliament for Drogheda, is dead.

London, February 25.—The *Daily News* owns that the Ministerial election was a mistakable Liberal victory.

The Board of Officers of the Chamber of Commerce have appointed a Committee to receive funds for Ireland to be forwarded to the Persian Steam. The Board refused to endorse Parnell.

Relief measures have already had a beneficial effect, and a more hopeful spirit is growing among the people.

A Paris correspondent, writing on the subject of Greek negotiations, says: The British Foreign Minister, on the 12th of January, proposed mediation between Greece and Turkey by a technical committee who would decide upon a reasonable and military frontiers. The French Cabinet did not object to this proposal, but requested to know exactly what lands and principle would be adopted. Other Powers adhered to the proposition with similar reservations.

February 26.—The situation of the hour is "Bull Run." Russell's letter in the *Daily Telegraph* in reply to Sir Garnet Wolseley's charges. This has not appeared. It will be remembered the gallant correspondent assumes the no less gallant correspondent of great exaggeration and transparent untruth. That might have been endured. Dr. Russell has run the gauntlet of such accusations before and has come out scathless, but Wolseley also charges that Russell was hurried. Russell advises Wolseley to send official reports, which he says will confirm allegations of the scores of troops in Natal alone, the custom of which he offers to prove if challenged. He makes a very strong presumption to prove that panic, bad discipline, cowardice in troops, drunkenness, theft, insubordination, pillage of property, even to chickens and ducks, robbery and insolence, were prevalent features of the campaign.

France.

Paris, February 10.—Pere Loyson's memorial to the Municipality of Paris, for the use of a church, has been rejected.

Albert Grevy is a candidate for the Life Senatorship made vacant by the death of M. Cremieux.

Spain.

Madrid, February 9.—Gonzales, the would-be regicide, has been sentenced to death.

Madrid, February 7.—Official dispatches are received giving further details of the recent hurricane in the Philippine Islands. Twenty-five vessels of various classes were wrecked, including four foreign frigates. A large number of other vessels were damaged. Forty-six persons were drowned.

Germany.

Berlin, February 12.—The semi-official *North German Gazette*, referring to the warlike interpretation by French newspapers of the German army bill, says: The French army estimates for 1880 were barely 500,000 francs, while they now exceed 800,000,000 francs. The French army is better armed and numerically stronger than the German army. The Russian army has also been immeasurably increased. From the language of some French semi-official journals, it would appear certain that if the parties they represent obtained power, they would immediately plunge France in war. In view of this danger, Germany, though earnestly wishing peace, the Government, for her own safety, must follow the example unfortunately set by her neighbors in their immense armaments.

Berlin, February 12.—The preface to the Socialist bill, which will be brought forward in the Reichstag, points to the manifest spread of Communistic ideas in France, and the supposed identity of Communists' and Socialists' aims.

It is reported on fair authority that a special alliance is about to be concluded between England, Germany and Austria.

Russia.

St. Petersburg, February 16.—The *Vedomosti* declares the idea of Persian occupation of Herat, under British guidance, cannot be entertained.

A St. Petersburg correspondent writes that General Skobeloff will only command the Tekke expedition if the force be fixed at 100,000, to which the Minister of War has hitherto refused to accede. It is possible that General Gourka will be appointed.

A Berlin dispatch says: Russia has been sounding Berlin and Paris firms with a view to a heavy loan.

Turkey.

During a fete a barrack, three stories high, near Constantinople collapsed. Two hundred soldiers were killed and three hundred injured thereby.

British India.

London, February 15.—A dispatch from Lahore announces that orders have been sent to Candahar for the army to advance to Ghuznee early in March.

General Roberts sent a native envoy to Ghuznee to confer with Mahomed Jan.

Peshawur, February 15.—In view of the expected attack on British troops around Cabul by the end of February, preparations are being made to enable General Bright's division to move up and reinforce General Roberts.

Last Year's Failures.

New York, January 17th.—The mercantile failures for 1879 were 6,658 in number compared with 10,478 in 1878. In the amount of liabilities, the decrease is marked. In 1877 the indebtedness due by persons who failed was $234,000,000, while in 1879 the liabilities were only $98,000,000.

The *Financial Chronicle* of to-day referring to Dun & Barlow's exhibit of business failure during the past year, says: Fully one-half came within the first quarter of 1879. It also shows that the only city in the United States separately reported upon, where there has not been a decided decrease in failures during 1879 is San Francisco.

Boston shows 170 failures during the year against 325 in 1878; New York, 219 against 383; Philadelphia, 189 against 257; Cincinnati, 74 against 216; Chicago, 85 against 362; St. Louis, 56 against 167; San Francisco, 221 against 222. The statement shows that in six cities first named the liabilities amounted to only one-quarter of the previous year's total, while in San Francisco the liabilities increased last year about 16 per cent., being $5,217,111. Another table shows that while in all the remainder of the country only 1 in every 149 in business failed, there was in California (we have not the figures to give San Francisco by itself), 1 failure in every 36 in business, and the Pacific States and Territories, which depend largely upon California for their prosperity, 1 failure in every 61 in business. The *Chronicle* draws the following moral from the above: During the past two years California has been attempting to put fetters around capital, being in a state of depression. Her people have been attempting legislation which shall deprive capital of its natural earnings, to force prosperity. Do we not, in these statements of failures, plainly see written the results of this movement? Cannot our legislators heed the lessons thus taught?

Mr. Gladstone in a recent speech on "Beauty in Manufactures," observed that very few of the industrial productions of America have any beauty at all—a remark which was greeted by his audience. "The circumstances of their national existence," said Mr. Gladstone, "down to the present time have, from the scarcity of labor and other causes, compelled them to do a thing in the shortest and most effectual way for answering the immediate purpose, and the beauty of production has been entirely overlooked. I may illustrate this to a pursuit to which I have myself personal relation—the cutting of wood. The American axe is an axe not intended to cut a tree away quickly. The American does not care a pin about beauty of work; his object is to clear ground.

From London, Purchased and Made to Order

FOR J. T. WATERHOUSE,

And For Sale by my Sons, J. T. & H. Waterhouse, at my Stores,

Consisting of

A VERY FINE ASSORTMENT OF STAPLE GOODS

Secured in the months of June and July, during an unprecedented depression of business in England, and purchased at the VERY LOWEST POINT, since which duplicates of some of them have advanced from 25 to 50 per cent. These goods are not purchased to keep in stock to look at, but to go into consumption as early as they can be sold, so that "BONA FIDE" purchasers will have a good opportunity to purchase advantageously.

The cream is always on the top of the milk, when not heavily watered, which we do not profess to do. My motto in business, for upwards of 46 years, having commenced on my own account in America in 1833, "A Nimble Nine Pence Before a Slow Shilling." All my sons succeed me in this respect. The Cargo consists of

Dry Goods, Hardware, Groceries,

With a great variety of other goods, but have kept out of skates and copper-warming pans, so that an experience or upwards of 28 years as a Merchant here, is suggestive that my selection ought to be good; and I flatter myself I have done it better this time than before, making the best of my experience. Amongst the numeration of goods can be found

PRINTS, LUSTRES, CLOTHING,

With Good Monkey Jackets, Ladies' and Men's Socks, Stockings, Undershirts, Drawers, Umbrellas,

A GREAT VARIETY OF NEW DRESS MATERIAL,

Blankets, Plantation Hats, Superior Saddlery and Rugs; Superior Bits, Sugar and Rice Bags, Burlaps, Paris and Commandry Shawls, various styles; Hessians Large Sacks for Coal, Wheat Bags, Seaming Twine. Wrapping Twine, Fish Lines and Hooks, Sundry Toys, Single and Double Barrel Guns, Breech Loading Guns, Fine English Sporting Powder, Shot, Eley's Caps, Marbles, Ladies' Glasses, Croquet Sets, Cricket Chairs,

Prints, Muslins, Clothing, Monkey Jackets.

A Great Variety of Dress Goods!

Woolen and every other kind of Shirts, including some specially imported for Ship Carpenters, as they have a heavy strain on their shirts; a great variety of Quilts, Stationery,

Something hard to beat, you must find it out.

Blue, Red and White Flannels, Jim Cracks, &c., &c.

Sheet Lead, Corrugated Iron, 24 gauge, also Plain Corrugated Iron, Genuine Portland Cement, the genuine Stowe ridge Fire Bricks, No. 1 quality; Hoop Iron, Galvanized Spikes, Horse and Mule Shoes, as well as nails to suit; Spades and Shovels, a new kind of Patent Tinware, the first ever imported here; Saddles and Bridles, new patterns and something good, both Gent's and Ladies'; Agricultural Tools of the American pattern with best English steel; Charcoal Irons, Hinges, Rat-Traps, Screws, Tools.

A New Kind of Strong Oil Cloth, choice patterns,

Carpets, Rags, Feather Pillows, a nice assortment of Brass and Iron Bedsteads, single and double; Enamelled and other Hollow-ware, Tea Kettles, Galvanized Buckets and Tubs, Fencing Wire, annealed, of 3 sizes; Hubbuck's White Zinc and the best White Lead, with Dry Salters Goods.

A FULL LINE OF CROCKERY AND GLASSWARE

Suitable for these Islands.

Knives and Forks, Butcher Knives Steels, Saws, hand, ripping and meat; Pruning Knives, Steel Pens, Carving Knives and Forks, Tea and Table Spoons, Coffee Pots, Hoes, Go's and Mattocks.

Anchors, from 1500 lbs. to 100 lbs.,

Chain Cables, from 1 1-2 inch to 1-2 inch.

Topsail Sheet Chains, various sizes.

All the above have been tested, and the Certificate—free of charge—supplied with them, and sold at three cents per pound less than they have recently been landed from California.

The above will be sufficient to give a bird's-eye view of the importation.

Orders from Town and Country respectfully solicited.

VANITY FAIR!
IT IS WITH PLEASURE WE ANNOUNCE that our Vanity Fair Tobacco and Cigarettes, in their various styles, have been adopted by the French Government. Below we quote from the *Rochester Democrat and Chronicle*:
"It is a matter of pride to Rochester, as well as to the firm directly interested, that yesterday a Cable dispatch was received stating that the French Government had adopted the Tobacco and Cigarettes manufactured by Wm. S. Kimball & Co., of this city. We should explain, perhaps, that all tobacco sold in France up to this time has been manufactured by the Government. Of late the demand for other makes has arisen, and the Government, to meet it, allowed English and American manufacturers to enter goods for competative test, with a view to the adoption of the best. The fact that Wm. S. Kimball & Co. have come out far ahead of all other manufacturers in both countries, is unmistakable proof that their goods are the best the world produces. Their Tobacco and Cigarettes will henceforth be on sale in Paris as freely as in New York, but no other make, except the French, will be found there. In other words, the French Government, on the report of its experts, declare the goods of Wm. S. Kimball & Co. the best in the world."

CALIFORNIA ELASTIC TRUSS
RUPTURE CURED
CALIFORNIA ELASTIC TRUSS has proved a godsend to me, for it entirely cured my painful rupture in nine weeks, from which I have suffered for five years. I took your advice and wore it day and night. *You have conferred a lasting favor on me, for which accept my gratitude.*—MRS. H. E. S. LATHROP, San Jose, California.
CALIFORNIA ELASTIC TRUSS has substantially cured me of a bad case of rupture of 30 years standing. I have tried all kinds of trusses, both steel and elastic, and never received any permanent relief until I tried yours. I feel that I am perfectly cured.—ALFRED J. BURKE, chief mail clerk S. F. *Daily Evening Post*. Send for catalogue.

DR. J. COLLIS BROWNE'S
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From W. Vesalius Pettigrew, M. D., formerly Lecturer at St. George's Hospital, London: "I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhœa, and other diseases, and am perfectly satisfied with the results."
"Earl Russell communicated to the College of Physicians that he had received a dispatch from Her Majesty's Consul at Manila to the effect that cholera has been raging fearfully, and that the only remedy of any service was CHLORODYNE."—*See Lancet*, 1st December, 1864.
CAUTION.—BEWARE OF PIRACY AND IMITATIONS.—The public are further cautioned; a forgery of the government stamp having come to the knowledge of the Board of Inland Revenue.
CAUTION.—Vice-Chancellor Sir Page Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant was deliberately untrue, which, he regretted to say, had been sworn to.—*See Times*, July 10, 1864.
Sold in Bottles at 1s. 1½d., 2s. 9d., 4s. 6d. and 11s. each. None is genuine without the words "Dr. J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer J. T. DAVENPORT,
33, Great Russell St., Bloomsbury, London.
