COMMERCIAL.

HONOLULU, SEPT. 25, 1880.

Business is for the most part brisk, but our readers, in view of the great Monsoonal change, are looking forward to a better state of affairs in the near future.

The foreign arrivals for the week are: Am bark Fanny Fern, from Port Gamble, Gr bark Gustav Bruns from Whampoa, Haw bark Kalakaua from San Francisco, and Hall company, City of Sydney from Auckland.

The departures for the same time were bark Lady Lampson for San Francisco, Am bark Amie for Port Townsend and Hall company, City of Sydney for San Francisco.

PORT OF HONOLULU.

Arrived.

Sept 21—Am bk Jessie Pike, Stover, from Port Townsend.
25—Gr bk Gustav Bruns, Trumbach, from Whampoa.
25—Haw bk Kalakaua, Jones, from S F.
25—Am s s City of Sydney, Dearborn, from Sydney and Auckland.

Sailed.

Sept 21—Br bk Lady Lampson, Marston, for S F.
24—Am bk Amie, Nordquist, for Port Townsend.
25—Am s s City of Sydney, Dearborn, for S F.

MEMORANDA.

Report of bark of Kalakaua, Jones, Master.—Sailed from San Francisco, Sept 7th, at 3 p m, with light s w winds and thick fog; and on the following morning at 5 a m, sighted off Duxbury reef. Remained there until 1 p m, then got under weigh with a light wind from W, which freshened till we got the anchor in that. N. Long. 126 36. In Lat 39 51. Long 126 8, saw a large school of sperm whales, course bad, moderate breeze with cloudy weather.

EXPORTS.

For San Francisco, per Lady Lampson, Sept 22—[illegible] sugar, 6,300 grain sacks, 44,200 lbs dry and [illegible] green hides, 21,000 lbs rice, 40 bales tamala, 43 bags awa. Val. Foreign, [illegible]. Val. Dom. $[illegible].

For Port Townsend, per Amie, Sept 24—Ballast.

For San Francisco, per City of Sydney, Sept 25—[illegible] sugar, 140 bags rice, 1 bale pulu, 19 pkgs hides, [illegible] horns, 1 box plants, 18 bls goat skins, 224 dry skins, 250 sheep pelts. Val. Foreign, $[illegible]. Val. Domestic, $[illegible].

IMPORTS.

From San Francisco, per Ella, Sept 25—[illegible] kegs nails, 7 bbls glassware, [illegible] cases gin, Hackfeld & Co; 250 sks grain, Hackfeld & Co; 50 cs gin, A Herbert; 112 sks ground oat feed, H Mackay; 50 cs beer, J Lucas; 2 cases [illegible], Wilder & Co; 20 cs beer, J Lucas; 1 bbl [illegible], H S Crabbe; 1 cs ales (handling), J Sale; 1 case, 125 pkgs groceries, Rn, A W Pierce & Co; 125 bbls salmon, 200 bbls flour, 300 bbls beer, 60 kegs grain and feed, 400 sks [illegible], 10 cases brandy, 10 cases whisky, 10 kegs brandy, 5 cases [illegible], 10 pkgs [illegible], 75 [illegible], 2 Bower & Co; 25 bbls flour, 50 cs [illegible], Mr Bishop; 50 cs [illegible], Mr Rhodes; 50 cs [illegible], Mr Lewers; 50 cs [illegible], Mr Cummings; 50 cs [illegible], Mr Ashley; 50 cases [illegible], Mr Wright; 50 cs [illegible], Mr Ehlers; 50 cs [illegible], Mr Ena; 50 cs [illegible], Mr Wakefield; 50 cs [illegible], Mr Rhodes; 50 cs [illegible], Mr O'Brady and 50 Chinese.

From San Francisco, per Kalakaua, Sept 27—J J Holstein and wife, Mrs Holstein, Master Holstein, G W Wright, Miss Emma Hildebrand, M Walsh, J Boggs, C F Bird wife and 4 children, R C Morris, J W Bevans, J Brown, J Schaef, Ah Pu, Long Fin.

Editor Gazette:—The following letter, from one thoroughly acquainted with the bearing of American policies on our Hawaiian interests, and able to take a most intelligent view of "our situation," was entrusted for the meeting of Maui citizens for memorializing the King, and kindly given on request for publication.

JAS. M. ALEXANDER.

PETERSON, September 13, 1880.

DEAR SIR:—I regret that I cannot attend the meeting called for to-day at Mr. Baldwin's. I should like to be present and express to my neighbors my views of the present critical state of affairs in regard to the recent conflict of the King and some of the individual acts of the legislature. By indorsing the legislature to grant a subsidy to a Chinese line of steamers the King has, in my opinion, done great, if not irreparable, injury to the best interests of these Islands.

The treaty, in so far as it is the act of the United States Government, and aside from the political considerations involved, was a concession to the people of the Pacific States, and intended to cultivate friendly relations with the Islands.

It is well known that those people are very hostile to Chinese immigration, and the moment it appears to them that the Chinese and their interests are being fostered by this government and that these Islands are under the patronage of the King, likely to become a Chinese colony, they will no longer desire to maintain reciprocal relations with them.

The King must know this very well, and yet by royal message and otherwise he has induced the legislature to pass an act which is hostile to American customers, and which the people of California, who labored so hard for the treaty, will regard with great disfavor.

It has been said that some people cannot bear prosperity and it may be that the prosperity which the treaty has brought to the Islands has led the effort of turning the heads of those in power.

If the King sought the removal of the treaty regs only for a limited time, and that its renewal, under the most favorable circumstances, will be very difficult and can be effected, if at all, only through the influence of the people of the Pacific Coast, especially of California, but I can assure the King that that influence will never be exercised in favor of the treaty so long as he encourages Chinese immigration to these Islands and Chinese lines of steamers to compete with those of America. The King should be told (and perhaps he should plainly be told) that the loyal people of the Kingdom, and he outside, reside at open from his ill-advised, and, as I regard it, unfortunate position, relative to Chinese interests. He might also to call about him in the Cabinet, men of the first standing and character in the community—men whose names alone will furnish a guarantee of good government and stability in the future. It would perhaps be in vain for me, a stranger here, to call attention to the unprecedented speculation in some lines, but to the unprecedented expenditure made by the public legislature. Nevertheless, I cannot but express to the feet not forget that they are to be met by taxation alone. I understand that such large appropriations would have been impossible before the treaty and if the folly of the King should result in destroying it they may be impossible thereafter. Very truly yours,

FRANK MCCOTTRY.

TO MR. JAMES ALEXANDER.

Sheep-herding is not bad business these days particularly if your customer not only pays in advance, but presses the money on you. Let us all herd sheep.

The building on the east corner of King and Nuuanu st. old stand by, is to be demolished or removed, and something else erected. It may be all right that Nuuanu street has become a Chinese alley, but it is not all right that nothing but wood goes up along that odorous avenue. We all used to say, "enough, what a fire when it starts along that row." But we shall have to say wherever and several other standard phrases, there enough. The fire department has got about decided its view to fire capacity. It will be done when some of these fine days with a gale blowing the fire starts. It is a good place to get out of. Officials, can you not step in and compel an occasional fresh by way of fire-proof buildings?

One or two funny incidents occurred at that friday gathering at Kaumakapili, on Monday evening. What was the meeting for anyway? David Malo advised everybody to go home and mind their own business, and not trouble the King. Another said, Mr. Kaai, very sensible, that "nothing should be gathered on moon," and applied it to frequent and ill considered changes of cabinet. It seemed to be the idea of some before going there that the petition of the meeting, was to dictate the prize of mutton, and our reporter failed to hear anything of the kind, although he expected to when the representative of the other office came to make a speech.

Monday nothing whatever! the inauguration of a new business for Honolulu. Mr. Dodd started a line of—"buses," we were about to say—a line of hacks, from town to Waikiki. Everybody ought to patronize himself well freely of this new equipment, by far an early seat both. The fact is, half of the community does not know that in this climate the most charming time of day is before seven o'clock in the morning, with the trade winds cooling and equal the soft freshness of the air, clearness and beauty of the atmosphere and hills as the first blush of day lights up the eastern sky. Marie Antoinette and her friends once drove ten miles out of Paris, starting in the dim and misty night, just to witness the glory of a sunrise, a sight some of them had never seen.

ISLAND LOCALS.

ABOUT TOWN.

Mr. Thurston has returned from Maui.

How about getting wooded these days?

Bowen's Hawaiian Guide needs considerable correction.

It is reported that Mr. Gibson returns to Lanai to look after his sheep contract.

Mrs. Thacher's specimens of skill shown at Mr. T. G. Thrum's are well worth a visit.

We presume we shall shortly hear of the exact sum paid to our contemporary as subsidy.

Every one will be rejoiced to hear of the restoration to health of the young princess Kaiulani.

The *Express* says that it has attained honor, because the GAZETTE makes frequent mention of it.

Colonel Claus Spreckels returns by this steamer to the Coast. He has three months' leave of absence.

Answer to conundrum of last week—"Why is Bush like Cushinancy?"—The boy, oh! *where* was he? Consult recent political events.

The *Genghis Khan* has arrived with 219 Chinamen on board. Seeing the state of the labor market this must be a god-send to somebody.

The Amateur Musical Society has, we understand, started in in good form. We hope soon to have a concert from our local talent.

There will be a special meeting of Hawaiian Lodge No. 21, F. & A. M., on Friday evening next, Oct. 1, 1880. Visiting brethren invited.

Dodd's idea of omnibuses and bathing at the Park is an excellent one; we hope he will be well patronized. Anything to get us out of the groove.

If the actions of the two horses which have lately been blessed with olive-branches should in the distant future marry, much wealth will be centered upon one interest.

How about the ridiculous music now? Our friend has got things mixed. The wine in this instance have brought forth a mountain which will be apt to topple on him.

The weather still continues very showery, keeping our hill sides green, and our butter at a reasonable price. Thousands of our house wives must remember the butter famine of a year ago. The heat was intense on Sunday.

The *Express* continues its manly, honorable, and high-toned tactics of stirring up a Hawaiian prejudice against foreigners. But it is indicrous to observe how laudatory it becomes when speaking of Gibson.

The early-closing movement is so far successful that several of our leading houses propose to close at 2 p. m. on Saturdays, beginning this week, and continuing so excepting on the Saturday preceding the up-steamer mail day.

The hot and sultry weather of the latter part of last week, was succeeded by a night of electrical discharges and rain on Monday morning. The rainy season sets in very early. Are we ready for it, or must fever come again?

We understand that $10 Treasury notes are once more in circulation. They will be a boon to the community. We have of late been wearied to death carrying sums of $10 $1 in silver about in our pockets.

The *Kuokoa* and GAZETTE alive to the situation issued extras on Monday for the enlightenment of the multitude and the dissemination of useful information. The extras were in eager demand and were read from title to foot.

Yesterday the wind, as if to make up for its languor of a few days past, puffed and blew like a young hurricane. It was one of those provoking pulse-rousing nightly in one way for a second and the next trying to knock you down from the other.

We are growing so used to situations these days that nobody is scared at all when a steamer comes along with measles or small-pox on board, or a new Ministry is announced, or anything else supposed to be startling is offered. It must be on account of the climate.

The *Wednesday Express* eke out its space this week with a row of Hawaiian puns, as—for instance, "What great bird watches over the welfare of Hawaii under the law? The eagle," and "what woman was elected to the Legislature? D. R. Wahine."

On Sunday morning last the Sunday schools which have their headquarters at Kawaiahao and Kaumakapili churches respectively, held their quarterly exhibitions. To those who would see and hear original Hawaiian ideas these occasions afford a rare opportunity.

True piety always commands our respect. We consider the notice of "poor Johnson's" death is in such excellent taste that comment upon it is needless. As we cannot come up to this style we intend to get up a hearse, take an agreement to be furnished with such items; what will the gentle shepherd charge?

There is a capital article by Mr. Parker translated into the *Press*. Mr. Parker deserves the esteem of every thinking man in the community for the part he has been standing in the breach between the native and foreigner too long unsupported. We trust to see his work appreciated by our solid men shortly.

The sale of two or three lots on the plain last Wednesday was well attended and the bidding brisk; Mr. Charles Hirram became the purchaser at $300 each. There are but few of these lots left. The proximity of the plains makes that a most desirable quarter for residences.

Considerable money has been subscribed among the public spirited of the community for a Catholic school for boys, which it is proposed to start at the old stone museum of Mr. Armstrong. It is perhaps a matter of surprise that with their energy in educational matters this has not been done before by the Catholics.

If there is one thing more admirable than another it is pure, disinterested patriotism. How noble it has been of our honorable friend the shepherd to get a subsidy from Government for his paper, and to get a contract of 2,000 Lanai sheep. This is true self-abnegation. The shepherd, like Jesus, is an honorable man.

The *C. S. Bishop* is on its sea-legs again and is off for Kauai. The *Malie* leaves on Thursday. The Garden Island has plenty of steam communication now. We can well remember being on Kauai for a fortnight without any mail. Of course the present advantages are due to the Rush Ministry.

Still they go, on this occasion we hope for the last time—Messrs. Rush, Hanes and Jones have gracefully retired and are replaced by Mr. H. A. P. Carter, Interior; Mr. W. L. Green, Foreign Affairs; Mr. Walker, Finance, and "acting" Attorney General, pending the arrival of Mr. W. N. Armstrong, Esq., our heavy writers on the subject.

We hear that the new music hall is rapidly approaching completion; the roof will be on during the next week and the fixtures, &c., ought to be finished within a month or six weeks at latest. It will be a neat place and the guarantee to supply chairs, scenery, dropscenes, and a company, and we are sure the affair will prove a success.

It seems that we may have a visit from Mr. Moody. He is probably in California now and will perhaps respond favorably to the invitation sent him by the Young Men's Christian Association and others to pay us a visit. Mr. Moody is by no means a sensational speaker as some imagine, but is earnest, solemnly in earnest and who so evidently believes all he says, as to attract the respect and attention of all who hear.

The Government and the Board of Health should consider the immediate necessity of a general vaccination to guard against the danger of small-pox. It should be remembered that we have several parts of entry, as at Kaneohe, Hilo, and Koloa, where there is no Board of Health to determine who action is necessary, if vessels shall arrive having small-pox on board. It is a case for several centres of prevention.

The progress of the new Palace, we understand, has been retarded by the change in the Minister of Interior; we may expect now that work will be definitely resumed. We were lately informed that since Mr. Sterling's departure work had almost come to a stand still on account of no one knowing exactly what plan was to be followed or where all the materials were. Such were the advantages to His Majesty's comfort of the Bush administration.

The Eastern integration of our valued friend must have got the better of him when he wrote the words elemental oblivion. Would our r. replicant, who has so unmercifully castigated those whose eyes have not rested on the spicy isles of the southern sun-bathed seas, and whose ears have not drank in the melliflorous phrases of the mighty and much-married Prophet, have we caught the style? It sounds sheer nonsense, but then we are but disappointed newspapers.

The country has assuredly not been "marching straight to ruin" when it has been instilling Foreign Representatives, giving curb bridle powers to such responsible and honorable people as Mormon and meddling in business, Oh, no! Viewed through the medium of Eastern spectacles the country has embarked upon a career of unmixed prosperity. We would not for a moment insinuate that the above is a joke.

A celebrated case once decided the immoral ringing of bells to be a nuisance. Residents in the neighborhood of Richards, King, Punchbowl streets and Palace walks, will begin to think of invoking the aid of the courts to still the niche. If the voice of the army doth not lower itself. It makes one remember a Chinese method of warfare to inspire the hearts of the enemy with terror by the most hideous and unearthly yells. The enemy is already inspired, so the rolling night times might stop here. May be it will with the morning of a new Cabinet.

A meeting was held on Thursday night at the school-room in St. Alban's Cathedral close, for the purpose of electing members to the Synod proposed to be convened next month. The rules following were those recommended by the Pan-Anglican gathering, which assembled and debated at Lambeth under the Presidency of the Archbishop of Canterbury. Two representatives of the lay portion of the communion of Honolulu were elected, Messrs. Hatton and Jordan, with a proviso, however, that if the other gentleman was invited to represent some other constituency he should be at liberty to do so. The meeting accordingly elected a substitute who should represent Honolulu in the event of Mr. Jordan preferring to sit for any other district.—*Saturday Press.*

A gentleman from Kooloau, Oahu, informs us that in the vicinity of Waikane heavy floods had been the order of the day, doing great damage to the rice crops, fences, etc. On Sunday last the heaviest rain storm was experienced, which caused all the streams to rise at a fearful rate, and compelled the inhabitants to seek places of safety.

Messrs. Payne and Xavier, prestidigitateurs, give only one performance this week at the Theater, on Saturday evening next, when will be produced the thrilling decapitation act, which is rarely attempted, only by the most expert in this line. The Indian mail-bag trick is well done by Professor Payne, and is really worth seeing. Those gentlemen have thus far been successful in executing all their tricks in a superior manner and defying detection by the keenest observer.

The *City of Sydney* arrived about 10 o'clock on Monday morning and the sight of a yellow flag soon indicated that something was the trouble. It turned out to be measles, of which there was a case ten or twelve days before arriving at Honolulu. After a little delay the ship came to the wharf and was placed under a species of quarantine there. Whatever passengers were going away were not permitted to go and come, but once on board were compelled to stay there. The steamer got away again about 11 o'clock in the evening.

Honolulu is treated with a variety of sights which we need not to see, but with our never failing progress (?) we are getting all the sights. It is growing to be no uncommon thing to see an advertisement travelling about the streets, a cart covered with transparencies with music or bell within, or a clown distributing cards. Oh, we are getting along. The only thing which has not yet appeared to thrive is the old-fashioned organ grinder. He comes and grinds, but the delighted crowd does not respond worth a cent. Perhaps the whole crowd is not possessed of a cent, for no one seems to stop and listen but kanaka boys and women, and cents are uncommon with them.

HAWAII.

A sharp earthquake shock was felt at Hilo on Thursday Sept. 23, at 3:15 p. m. It was by far the severest shock that has been felt at Hilo for some years.

Petition from Maui.

TO HIS MAJESTY THE KING: We the undersigned, now residing on the Island of Maui, after deliberation and conference, beg in this manner to express to Your Majesty our sentiments on a subject of great moment.

The removal of Ministers of Government contrary to the principles of constitutional monarchies, and the appointment to their places of ministers in whom we have no confidence, have caused us deep solicitude.

Prudence dictates that Governments long established under and guided by principles which have proved themselves wise and sound, should not for light and transient reasons depart from such governing principles. One of the fundamental principles on which this Government was founded, is that wise and able men should be chosen as its Ministers of State; that they should be responsible; and should not be removed contrary to the wishes of the intelligent and responsible portion of the community.

We firmly express our united opinion that frequent changes in the Government, contrary to the principles of constitutional monarchies, tend to weaken and enfeeble it, and that the manner of the removal of the late Ministers and of the appointment of their successors has injured the credit of the country at home and abroad; and it has become a matter of such serious importance, that we feel constrained to make this protest. Faith in the stability of the Government is being destroyed, property values and securities are imperilled, and unless confidence is restored, ruin threatens us.

We regard the attempts by whomsoever made to cause animosities between the Hawaiian race and the foreign population, as acts of the basest hostility to all classes, jeopardizing the best interests and lives of the community, and the continuance of our present Government.

We recognize our duties to the Government, as good citizens, to support and defend it, provided it is administered in accordance with the principles of civilized Governments.

We also recognize our right to a good Government, to protection and security of our property, our homes, and our lives, and this we respectfully demand.

Sam T. Alexander, P. J. Phillips, Ed. Hoffman, M. R. Eckhardt, Geo. E. Beckwith, Jas. Rasan, Jas. M. Alexander, William O. Smith, A. C. Smithart, Akau Gilid & Co, F. P. Morrison, Amasa Pratt, A. N. Notice to the Public.

To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or silver, bears our trade mark on both case and movement. Gold cases are stamped "A. Witch Co., Waltham, Mass., sterling silver," and are accompanied by guarantee certificate, signed B. S. Robbins, Treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of other distinguishing marks.

This caution is rendered necessary by reason of the fact that our cases are frequently separated from our movements and put into worthless movements of other makers, and vice versa, thus affecting injuriously the performance of the watches and vitiating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary, also, because Boston merchants so to do, and yet we would add, that there is great fraud in the moral quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from one to two per cent. from the quality claimed to be. This is a fraud upon the purchaser, and accounts for the low price at which such inferior articles have been sold.

We take this occasion to announce that we have recently added the very popular grades of full plate movements, known by the marks "Wm. Ellery," "Appleton, Tracy & Co.," "Waltham Watch Co.," "P. S. Bartlett," and "Broadway," giving to them but only a locally suggested appearance, yet great additional value. Attention to these such of the best results of our experience and study for twenty years as can be useful to the public in form of watch. We give these new model watches special recommendation to all who look for good performance and good value for money, and trust that the alterations have been made with the view of pleasing practical watch makers, as well as watch wearers.

We shall, therefore, be of this opinion to warn the public against the sale of "worthless watches." The superiority of Waltham goods, in all grades, is now so generally acknowledged that our competitors, home and American, seem to have no resource but to present the attraction of low price. These goods being inferior to ours, they have themselves for what they can get.

Proper positivity and knowing a good watch from a bad one, very often allow a small price to decide them. William Worth, the eminent English Chronometer Art and Labor Tactics, in a recent lecture delivered before the "Trades Guild," says:

"I know that the public in general are set upon having cheap things, being so ignorant that they do not know when they get them cheap, also so ignorant that they neither know nor care whether they give a dear for the dear. I know that the manufacturers, so called, are so set on cheapness, not to mention to the street, competitors of cheapness, out of excellence, that they meet the bargain hunters half way, and, to satisfy them, offer them worthless wares at the cheap price they are asked for, by means of wear can be called by no prettier name than fraud."

We are much subject of this in what the public wonder or regards, of "watches." Good whether handsome or not, must work well, and not engineer has pride in his job, employed; interest and pleasure in the work are both satisfying, and both are so vital in good watch making. Low price, especially in watches, means low quality, with no performance of high equals.

Our interest was, and our (pulling) is, to make good watches, whatever the cost; (pulling) money in this single purpose, we have made improvements (finally and really) on the cost, by means of discoveries and improvements in machinery and by manufacturing on a modified plan, together, and we can truly say, Waltham Watches in their respective grades, are the best watches made; and as to the lower grades, other are within the reach of everybody who desires value. Our prices are as low as they ought to be, and as low as they will be. Watches cannot be made for nothing, even by machinery. We say to the public, buy a good watch, while you are about it, and pay a proper price for it. The money you pay is always dearer the best watch you can get, and you don't be deceived by cheapness—quality demands better than price.

For American Watch Co., of Waltham, Mass.

ROBBINS & APPLETON,
Sole General Agents, New York, U. S. A.

All the above line of Waltham Watches for sale at the Store of M. McINERNY, Sole Agent for this Kingdom.

Also, Agent for the GORHAM SILVERED SILVER-WARE. The Trade supplied at the LOWEST PRICES.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS WILL BE received up to the 11th day of October next at the office of the Minister of the Interior, for the erection, finishing and completion of the wood work, and all other works on the interior of the New Palace appertaining thereto, together with the painting, graining and other interior decorations.

Plans and Specifications, together with all information required, to be seen and given at the office of C. J. Wall, Architect, No. 27 Merchant street.

Proposals for the above mentioned works are to be addressed as such to the Minister of Interior.

A bond in a sum equal to the full amount of estimate to accompany each bid, and the Minister of Interior reserves the right to reject all or any bids.

By order of the Minister of Interior.
