UNITED STATES PATENT OFFICE, WASHINGTON, February 5, 1862.—On the Petition of CHARLES GOODYEAR, Jr., Executor, &c., of CHARLES GOODYEAR, deceased, praying for the extension of a patent granted to the said Charles Goodyear, April 25, 1848, for an improvement in making bellows articles of India rubber, for seven years from the expiration of said patent, which takes place on the 25th day of April, 1862:

It is ordered, that the said petition be heard at the Patent Office on MONDAY, the 14th day of April next, at 12 o'clock, and all persons are notified to appear and show cause, if any they have, why said petition ought not to be granted.

Persons opposing the extension are required to file in the Patent Office their objections, specially set forth in writing, at least twenty days before the day of hearing; all testimony filed by either party to be used at the said hearing must be taken and transmitted in accordance with the rules of the office, which will be furnished on application.

The testimony in the case will be closed on the 31st day of March next; depositions and other papers relied upon as testimony must be filed in the office on or before the morning of the day of the argument, if any, within ten days thereafter.

Ordered, also, that this notice be published in the National Republican, Washington, D. C., and New-York Tribune, New-York, N. Y., once a week for three successive weeks, the first of said publications to be at least sixty days previous to the day of hearing.

OFFICE OF ASSISTANT COMMISSARY GENERAL OF SUBSIST., STORE, No. 4 STATE-ST., NEW-YORK, Feb. 18, 1862.

ARMY SUPPLIES.—PROPOSALS will be received by the undersigned, until 4 o'clock p. m. on MONDAY, the 24th inst., for supplying, for the use of the United States Army SUBSISTENCE STORES, to be delivered in New-York or Brooklyn, as follows, viz:

For delivery on the 5th of March, 1862:

1,250 barrels of first quality EXTRA MESS BEEF—The meat to be new and packed in full hooped oak barrels, with iron hoops.

1,250 barrels of first-quality extra superfine Southern, St. Louis, or other brands of FLOUR, suitable for keeping in a warm climate. The barrels to be lined.

1,125 bushels of first-quality new WHITE BEANS, well cleaned and dry—to be packed in good, bright, well-seasoned flour barrels.

275,000 pounds of prime RICE, in barrels, like sample to be seen at this office.

232,500 pounds prime RIO COFFEE; bidders will state the price at which the whole or any portion thereof will be roasted, ground, and packed in barrels like samples to be seen at this office.

9,750 pounds of TEA, ½ Oolong, ½ Souchong—boxes to be well stamped, in perfect order.

235,000 pounds of dry, light yellow COFFEE SUGAR, barrels to be new, and of the best in use for the purpose.

42,500 pounds best quality of ADAMANTINE CANDLES, to be 16 ounces to the pound; one-half sixes, the remainder twelves.

105,000 pounds of good hard SOAP.

2,138 bushels of good, clean, dry, fine SALT, in clear, tight south barrels, or in other strong, tight barrels adapted to the purpose—with all old marks obliterated by painting the barrels.

750 bushels best quality PEACH BLOW POTATOES, in good, ordinary, well-coopered barrels. To weigh 60 pounds net to the bushel.

11,000 gallons good MOLASSES or SIRUP, in half barrels with at least four iron hoops.

500 gallons double rectified WHISKY.

For delivery on the 15th of March, 1862, the same quantity as above.

For delivery on the 25th of March, 1862, the same quantity as above.

For delivery on the 27th of March, 1862, the same quantity as above.

Also for delivery on the 6th of MARCH, 1862:

2,000 pounds of best quality common SPERM CANDLES, sixes, 16 ounces to the pound.

20,000 pounds prime RIO COFFEE, to be packed in double sacks of one hundred pounds net each; inside sack to be of strong, close-woven, twilled cotton stuff, or of other material equally adapted to the purpose, samples of which must be exhibited; outside sack of first quality new and strong gunny cloth; both sacks to be sewed close, and the package to be made very compact; corners of the outside sack to be drawn, wound, and sewed strongly.

Proposals for different articles must be on separate sheets of paper.

Small samples to accompany proposals for all articles except meats, the boxes containing them to be carefully labeled on the side.

Each bid must have a printed copy of this advertisement annexed to its head, and must be specific in complying precisely with all the terms. Each bid, to have consideration, must contain the written guaranty of two responsible citizens as follows:

"We, the undersigned, hereby guarantee that should all or any part of the above bid be accepted it shall be duly fulfilled according to its true purport and conditions."

Proposals must be indorsed, "Proposals for Subsistence Stores."

All persons proposing for the whole or a part of any article, and not having the precise variety of stores above described, but having articles of similar kinds, are at liberty to send in proposals for supplying them, which will receive attention according to price and adaptation to the wants of the service.

Proposals who can furnish the proper articles, but need an increase of time, can state the time when they can be ready for their deliveries. In all cases not specially excepted, the deliveries must take place at the time specified, in failure of which the United States reserves the right to purchase to make good the extent of the failure.

Cartage or lighterage will be required from the seller if the establishment is inconveniently remote from ordinary points of delivery in the cities of New-York or Brooklyn. Bidders proposing to make deliveries elsewhere than as above specified must state the price for their stores at their proposed places of delivery.

Certificates of inspection by professional packers or inspectors, *other than the party furnishing the provisions*, will be required for all the meats, certifying on the part of the seller their present quality and condition and the immediately preceding inspection. The meats will also be examined and passed upon by Robert P. Getty, Inspector on the part of the United States. The seller's name, place of business, with date of purchase, is required on each package of every article. Boxes to be strapped with light green hickory straps.

All the stores will be carefully inspected before their delivery, and compared with the retained samples. Returns of weights, signed by a professional Public Weigher, must be furnished whenever required.

Payment is hereby agreed to be made in such funds as may be furnished by the United States.

Proposals, where bids are not accepted, are requested to send for their samples on FRIDAY, the 28th inst.

A. B. EATON, Lieut.-Col. and A. C. G. S.

NAVY DEPARTMENT, WASHINGTON, February 20, 1862.

IRON-CLAD STEAMERS.—The Navy Department will, until the 24th of March next, receive proposals for the complete construction and equipment of IRON-CLAD VESSELS for river, harbor, and coast defense.

These vessels, with the exception of those for the Mississippi River and its tributaries, will be propelled by steam; those for the Mississippi River and its tributaries may be propelled by paddle wheels. The hulls will be either wholly of iron (which would be preferred), or of iron and wood, or wood alone, as the propositions may consider most suitable for the object proposed, but their sides and decks must be protected with an iron armature sufficient to resist the heaviest shot and shells.

The vessels for the Mississippi River and tributaries are not to draw more than six feet water when fully equipped and armed, at which draft they are to be able to maintain a permanent speed of nine knots per hour in still water, and carry sufficient coal in the bunkers for six days steaming at that speed. Their armament will consist of not less than six eleven-inch guns.

The vessels for harbor defense are not to draw more than twelve feet water when fully equipped and armed, at which draft they are to be able to maintain a permanent speed of ten knots per hour in smooth water, and carry sufficient coal in the bunkers for seven days steaming at that speed. Their armament will consist of not less than from two to four eleven-inch guns.

The vessels for coast defense are not to draw more than twenty feet water when fully equipped and armed, at which draft they are to be able to maintain a permanent speed of fifteen knots per hour at sea, and carry sufficient coal in the bunkers for twelve days steaming at that speed. Their armament will consist of one or two fifteen or twenty-inch guns.

The guns of the vessels for harbor and coast defense are to train to all points of the compass without change in the vessel's position.

The propositions must state the number of vessels, subject to the election of the Department, which the party proposes to furnish complete in every respect, embracing armor plating, steam machinery and equipments of all kinds, ready for service, excepting only the ordnance and ordnance stores and provisions; the proposition must be accompanied by descriptive specifications, drawings and models of such character that the work could be executed from them.

The place of delivery must be stated; the time within which the vessel or vessels are to be completed, and also the total sum to be paid for each.

It will be stipulated in the contract that one-fifth the total amount will be retained by the Government until six days after the reception of the vessel, in order to give a trial, the remaining payments being made with due regard to the proper performance and progress of the work; the contract will also embrace forfeitures for failure to perform the conditions specified.

The bids must be accompanied by the guarantee required by law, that, if a contract is awarded, it will be promptly executed; and the names of the parties who are to become the sureties to the amount of the face of the contract will also be stated.

The Department will consider any other propositions that may be presented in which the draft of water above named is not exceeded.

The Department will be at liberty to accept or reject any or all the propositions. F12 2aw1w

SEALED PROPOSALS are invited till the 10th day of March, 1862, at 12 o'clock m., for supplying the U. S. Sub. Dep't with 4,000 head of BEEF CATTLE on the hoof.

The Cattle to be delivered at Washington City, and each animal to average 1,300 pounds gross weight; no animal admitted which weighs less than 1,000 pounds gross.

The Cattle to be delivered at such times and in such quantities as the Government may require. No Cattle will be required under this contract before the 1st day of April, 1862.

Heifers and Bullocks not wanted.

A bond with good and sufficient security will be required.

Government reserves to itself the right to pay in Treasury Notes.

No bid will be entertained when put in by contractors who have previously failed to comply with their contracts, or where the bidder is not present to respond to his bid.

Bids to be directed to Maj. A. BECKWITH, C. S., U. S. A., Washington, D. C.

FORM OF BID.

I, A B, do hereby propose to deliver to the Government good Beef Cattle on the hoof for —— per hundred pounds gross weight. The Cattle to be delivered at ——, according to the terms of the enclosed advertisement. The Cattle to be weighed on the scales, and the weight so determined to be the purchase weight. I hereby agree to give a good and sufficient bond for the fulfillment of the contract, and to receive Treasury Notes in payment for the Cattle.

Medical.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names according to the organs it attacks. In the Lungs, Scrofula produces tubercles, and finally consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood you cannot have health; with that "life of the flesh," healthy, you cannot have Scrofulous disease.

AYER'S SARSAPARILLA

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches, and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Disease, Female Weaknesses, which are caused by internal Ulceration, and indeed the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures given it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten and does greatly shorten the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of

AYER'S SARSAPARILLA,

although it is compounded of ingredients, some of which exceed the best of SARSAPARILLA in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders; purge out the foul corruptions that rot and fester in the blood, to be replaced by health and vigor.

AYER'S CHERRY PECTORAL.

The world's great remedy for Coughs, Colds, Incipient Consumption, and for the relief of consumptive patients in advanced stages of that disease. This has been so long used and so universally known that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all that it has ever done.
