COMMERCIAL.

HONOLULU, FEBRUARY 1st, 1882.

Business continues to improve, and with settled weather, so that our vessels can discharge and receive freights at the various Island ports, we hope to see busy times and renewed [illegible] throughout the group. From the other Islands [illegible] are being full of sugar awaiting [illegible] at this port, and it is also likely we will soon be able to report the planters of their surplus sugars.

The foreign vessels in port do not move off as slowly. The Lady Lampson sailed on Saturday for San Francisco with a full cargo of wool; the B. F. Sturges sails to-day for the same port, to be followed by the W. H. Dimond on Saturday next. The Discovery and Forest Queen are awaiting the arrival of freights from the other Islands.

The Mauna Loa visited at Makaweli recently, on her third trip to that port, and was discharged in the remarkably short space of three days, and sailed again for the Sound.

Advertising columns appear the copartnership of Sam'l G. Wilder & Co., of Maliokoia, Hawaii, [illegible] to do a general merchandise, shipping and commission business at that place. From the well known high standing of the gentlemen composing this firm, we predict a successful business career for them in the near future.

We have two cargoes from San Francisco by the Caledonian and Pomeroy, and one from Liverpool by the Duke of Abercorn, to report. These, together with our recent importations, makes our stock of goods on the market very full and complete.

Mr. Adams will hold several important sales this week. On Thursday he will dispose of the superior furniture at the residence of F. A. Hassinger, Esq., Nuuanu Avenue, near the second bridge; on Thursday, a large lot of liquors, etc., by order of Messrs. Theo. H. Davies & Co.

Mr. Gibson in the House.

EDITOR GAZETTE: As an occasional listener to the debates during the last Session of the House of Representatives, I was more than once struck with the attitude assumed by Mr. Gibson when speaking, ostensibly to the House, in effect to the crowd assembled outside the railing, or looking in at the windows, almost exclusively natives. On those occasions Mr. Gibson stood with one shoulder or more nearly his back to the chair, and his face turned over the other shoulder directly towards the audiences outside the rail. I forget the tone of his remarks at that time, but there could be no mistake as to whom they were addressed, viz., the natives outside the bar.

A. SOJOURNER.

The *Advertiser Sentinel* has a letter from Mr. T. H. Rose of Wailuku, Maui, which rebuts the charges made by the *Chronicle*. The letter deals especially with the character of Jamison, which it rakes down pretty heavily. It also gives a sketch of our system of labor, adverts to the difficulties of the planters in obtaining labor, and their losses by Chinamen running away, and finally winds up by pointing out that Californian reports to this country have swelled from $680,000 to $2,000,000.

ISLAND LOCALS.

ABOUT TOWN.

Dr. Tisdale of Kohala is in town.

All the liquor shops will be closed to-day.

The Bethel Social will take place to-morrow, it is sure to prove an enjoyable affair to those who attend.

Mr. Joe Carter's election squib on Monday last, contained a resume of Mr. Gibson's Mormon affairs.

The Band will give their second moonlight concert to-morrow (Thursday) evening at Emma Square.

Some progress is being made with the tower of Kawaiahaiu Church. Work goes on slowly, however.

Dodd is enterprising, he runs his busses to suit the school children, consequently, a full load going and coming.

Fort Street School is perfectly graded, as time goes on the whole country will have to wheel into line upon this point.

On Sunday last a wrecked buggy was noticed near Mr. Ward's well on King street. The reporter did not find out the owner.

The Amateur Musical Society will not meet on Friday next on account of Mr. Berger's engagement at the Firemen's Parade.

Rev. Dr. Damon and Mrs. Gale returned on Sunday from a tour of Hawaii and Maui. The Doctor is looking the better for his short vacation.

The *Advertiser* is loading sugar for the New York market. She will sail shortly carrying some 600 tons. Another vessel will be freighted in a short time.

The Supreme Court went out to view a fence the other day; a wicked friend suggests that they got on it, but the implicated idea was at once coughed down.

Mr. Wm. Castle is putting up an office in the space between Robertson & Co.'s store and the Post Office. It is an excellent situation for a lawyer's office.

The Band gave a concert on Monday evening. There was the usual good attendance, the programme was well rendered. What would Honolulu be with'x its band.

The steamer *Likelike* will leave next week on Thursday, February 9th, at 4 p. m. She will only touch at Kowalohia and Malokaoa, and will arrive at Honolulu at the usual time.

The regular monthly concert of prayer for Missions will be held to-night at Fort Street Church. The Standing Committee will meet immediately after the public meeting.

The weather remains still obstinately very gloomy, there is an occasional burst of sunshine, but the sun is quickly obscured by clouds, the wind has been blowing pretty strongly too.

The Teacher's meeting will be held next Thursday, there were so many attractions last Thursday, that it was thought wiser to give up the projected meeting; nothing will be allowed to interfere with the coming meeting.

A San Francisco letter to the New York *Nation*, is pretty strong in its strictures upon the Railroad contracts with Mr. Spreckels. It also revives the old Chinese charge, that the Government of the United States loses $2,000,000 annually by the Treaty.

The Post Office authorities would like it known that Australia is *not* into the Universal Postal Union, and that the postage is 12 cents as heretofore. A number of letters sent for the last three until were short paid; there is now no fund for short paid letters.

The cheeky bill sticker plastered a couple of Mr. Joe Carter's manifestoes on the *Advertiser's* sacred boards, they were speedily removed, however. The public, represented by two small boys, shivered in the boxes as it saw the delinquent documents immolated.

We are informed that Marshal Parke leaves in the *Likelike*, to investigate the recent case of insubordination and riot at Hanakapaiolo, and that the Rev. Father Leonore of Waikuku has been requested and authorized by the Acting Consul for Portugal, to represent him in the affair.

A horse, attached to an empty dray, charged up from the wharf along Fort street; fortunately the frightened animal was brought to a stand by Wilder's lumber yard; had it continued its course there must have been a severe accident on Fort street, which was well filled with carriages at the time.

Some interesting correspondence will be found on our fourth page. That upon Mr. H. M. Whitney's letter was delayed from last week when the paper was pressed for room. The letter upon Chinese labor is written by a practical man, who understands his subject well and deserves careful consideration.

Some friends who have been visiting the other side of the Island report crops looking very well; rice is especially spoken of as in fine condition. The roads are not nearly as bad as might have been expected after the severe rains. The ride to Wilder's Point, Kolos, was completed in 3¼ hours, pretty good time.

There are two or three Latin quotations in the present issue. Apologies are made to the *Saturday Press* for their unavoidable use; a special devil has, however, been supplied with translations, and if the staff of that journal will call round at the office they can be accommodated with the English version free of cost.

Mr. Wodehouse will await the arrival of the Portuguese Commissioner before he commences his investigations into the alleged cruelties, which have been brought to the attention of the British Government, through the *Chronicle* articles. The Hawaiian Government have offered Mr. Wodehouse every facility to carry on his enquiries.

The Hawaiian cartoonist is to the fore again: he has been giving the public some amusing hits upon current events. This kind of thing serves to keep a community alive. The last cartoon was in favor of Mr. Joe Carter. He is represented as vaccinating the Kanakas; while the doctors, with their noses in their books are mooning away.

The *Duke of Abercorn* brings the first shipment for the Marine Railway, of cars and locomotive for filling the space on the reef. The greater portion of the material is in the *Little Bell* now or days out. All the lumber is 10 days out from Puget Sound in the *Henry Buck*. The engineer Mr. Crundall, and twenty skilled mechanics, will arrive by steamer, late April 15th.

While digging post holes for a fence round the Kindergarten School House on Nuuanu avenue, one of Mr. Waterhouse's laborers turned up an old idol. The figure is very small, but it is well preserved. Considering how rare all Hawaiian curiosities are, Mr. Waterhouse must consider himself lucky to have obtained possession of this stray specimen, so long buried in the earth.

It is said that ladies are going to join in the new Athletic movement, this is as it should be; the fact was mentioned to the office devil, unfortunately, and he was to the fore again as usual. "Certainly" said he "why shouldn't they; they have plenty of experience, it is their business to trap, he's a trapeze!" The visitor to Cunha's a few minutes afterwards found the young gentleman across after a rapid descent from one of the windows.

We hear that Mr. J. Williams the well known and popular operator, who has been with Mr. Dickson the past few years has bought the latter's photograph gallery, intending to refit the same in a first-class manner. We understand that Mr. Williams has already sent to San Francisco for a first-class operator and new instruments. We wish him success in the enterprise and think the public will appreciate his efforts to maintain a first-class gallery in Honolulu.

The Firemen's Parade will take place on Friday evening. This is a new departure, formerly the parade was held during the day. It is found, however, that a number of the members object to losing a day's work; the change has been made to accommodate these men. Great things are promised. There is to be a torch-light procession, a visit to the Palace, where the firemen will offer their congratulation to their fireman king, and there are to be other amusements. There is little doubt that the change will be popular.

An entertainment will be given at the Music Hall next Saturday evening. Miss Jennie Boyer will make her last appearance before the Honolulu public. Mr. Xavier, the illusionist, will present an interesting act, entitled Sophistry of the Nineteenth Century, and Mr. Edwin Browne intends to show the public the Canopy of Phidias, a new and startling mystery; this is one of Maskelyne and Cooke's celebrated tricks. This will be followed by classical groupings of Roman and Grecian statuary, and the whole will conclude with an amusing topical burletta, the member from Lehua, Mr. Browne is energetic and deserves a full house.

A GAZETTE reporter visited the ware house of the new Union Feed Company. He states that this evidently enterprising firm have a very fine stock of goods in their line on hand. The Company have leased one of the stores belonging to Judge Widemann, which were erected by him on the old Edinboro' house property; the building is fireproof and rat-proof, an important matter when storing wheat, corn and other grains. Two or three varieties of hay will be kept on hand, some for horses, and cheaper and inferior qualities for dairies. The new firm say it is their object to sell at a reasonable figure, to keep a good supply of feed always on hand, and to avoid running up prices.

A contract has been made with Mr. F. Cooke for returning the South Sea Islanders to their homes. The schooner *Julia*, Capt. Tierney in command, will sail within a few days carrying upwards of fifty South Sea Islanders. The government offered these people considerable inducements to remain. Mr. Bingham had a long conference with them, in which he put before them the advantages of remaining. They all stated, however, that they preferred to go home. They had left home to see the world and to acquire a little property and their wishes in both respects had been amply satisfied; they were anxious to get back themselves and especially anxious to take their children back. These people belong to an island where there is very little warfare being carried on; it is thought that those, who belong to islands that are in an unsettled condition, will prefer to remain here, to running the risk of getting knocked on the head in some of the many fights that are daily occurring.

Burglars continue to trouble our once almost thieveless community. Last Thursday, some evil disposed person entered the servant's room at Mr. Mark Robinson's residence, and carried off her watch and chain. The girl heard the thief in the room, but was too frightened to cry out until the rascal had made off. Mr. Nott has strong suspicions of some one entering his house a few nights ago, and misses a plated tea pot. There are some bad lads about Nuuanu valley who are developing into accomplished sneak thieves; not so long ago, the premises at Kaaha were entered, and a clock carried off. Chase was given, but the thieves got off in the darkness. The police had better keep a sharp look out for suspicious characters. The residents have an idea that a couple of native boys are at the bottom of it all.

Notwithstanding the counter attractions on Monday evening, of a moonlight concert by the band; the meeting of the athletes; and various political gatherings,—there was a goodly attendance of ladies and gentlemen at the vestry of Fort Street Church, the occasion being the monthly meeting of the Temperance Association. Rev. A. O. Forbes presided; very excellent music was provided by Mr. W. W. Hall, Mrs. Palmer and Miss S. King, with Mrs. A. F. Judd at the piano. Dr. C. T. Rodgers gave a short but pithy extemporaneous address; Mr. Jas. Dower twisted with excellent effect Burns's best poem—"The Cotter's Saturday Night," and appropriate remarks were made by Messrs. F. C. Ackerman, Jr., Capt. Jackson, Rev. Dr. Damon, Rev. Mr. Forbes, Harry Swinton, jr., and others. Dr. Hyde gave notice that the next monthly meeting will be held in conjunction with the "Gospel Temperance" gathering which convenes on Saturday evenings at the Bethel vestry.

Late last Thursday, a stabbing affray occurred in Smiths' Lane. The locality is among the worst in Honolulu. It appears that a man named Woolham knocked at the door of a room, in which another man, named Jack Brown, was sleeping. Brown came to the door, and without any parley, struck Woolham a severe blow in the mouth. The latter defending himself, the assailant drew a knife and wounded Woolham in the hand and cheek. Hearing the row, a native known as Jim Crow, who was interested in the house, ran in and tried to interfere. Brown turned upon him and inflicted a severe wound in the left groin. Brown then took himself off. The wounded men went to Hale-dom, and it was only through a side channel that the police heard of the affair. Crow has been removed to the Hospital, and there is every hope that he may recover. Brown is being looked for by the police. There were several young men in the house, at the time the row occurred, but during the turn it was taking, they got out of a window, and what in vulgarity termed "pet." All hands were under the influence of liquor at the time.

The meeting of the Honolulu Athletic Association took place on Monday evening. About 40 people were present, among these were the Chief Justice, Dr. Hutchinson, Rev. A. Mackintosh, Rev. N. A. Swan, Messrs. Whiting, H. Luce, Godfrey, F. Wundenberg and P. C. Jones, Mrs. Adams, Mrs. Atkinson, and several other ladies. Dr. Hutchinson opened the proceedings, stating the objects of the meeting. On the motion of Mr. Whiting, Mr. Chief Justice Judd was called to the chair. On taking his place Mr. Judd made appropriate remarks upon the advantages of such a society to the youth of both sexes—expressing his interest in the movement. After the election of Rev. W. N. Swan, as Secretary, the meeting applied itself to the discussion of the rules and by-laws. This took up nearly the entire evening, a number of amendments being proposed during the course of debate. The Provisional Committee being now discharged, a new one was appointed with authority to receive the names of members and their entrance fees. This excellent society seems well launched now and will, it is hoped, run a long course to success. We shall be glad to be able to announce in our next issue that a large number of members have put down their names.

A most enthusiastic and spirited game of foot ball was played on the recreation ground on Saturday last. As all the Seniors had not "turned up" by the time announced for the game to begin, it was at first decided that the return match between the Seniors and Juniors of the city should not be played, but that a scratch match should be got up. The Juniors, however—all of whom were on the field—kept their side, and the Seniors, making up their number from men on the ground, went into the play with right good will. Play, although announced to commence at 3 p. m. sharp, did not begin till 3:30. Mr. G. Wodehouse, having won the toss for the Juniors, decided to play with the wind for the first half hour; the first kick-off thus falling to the Seniors. The game soon became sharp and brisk, each side doing its utmost to carry the ball behind the posts, but up till the call of half-time nothing of importance occurred. Goals were then exchanged, and now the Seniors, having the wind in their favor, had the best of the game. Some splendid play was now shown by both sides, that of several of the Seniors being remarkably good. The Juniors, however, made no headway, and in a very short while after sides were changed, Sproul, for the Seniors, carried the ball between the posts, thus securing the first try. The try failing the ball was again set in motion, and now the Juniors worked hard to equal their opponents, but could do nothing against the fine collaring of Sproul and Walley, and the good play of others of the Senior team. The game ended in a well-earned and decided victory for the Seniors by one try at goal to nil. Following were the respective sides: Seniors—Whitney, Sproul, Howell, Smithies, M. Solomon, Walker, (forwards); Dowsett, Perry, (quarter backs); Adams, Kinney, (half backs); Swan (captain), Fisher (backs.) Juniors—G. Wodehouse, H. Wodehouse, E. Baldwin, C. Baldwin, M. Baldwin, W. Alexander, J. Coney, J. Torbert, G. Lucas, A. Heydon, B. Judd, J. Lishman.

MAUI.

Judge J. D. Hawkpot, who has been failing for some time, died on Saturday.

Pala is in need of a blacksmith and horse-shoer, a correspondent writes that there is a good opening.

Dr. Damon and his sister Mrs. Gale, have been visiting the Island; they have been well received on all hands.

The *Clara Speckels* has made another of her quick runs. She is reported as ten days from San Francisco to Kahului.

A three mile flume now connects Grove Ranch with Baldwin's Mill. Maui people are nothing unless they are energetic.

Miss S. Potter has arrived from the Coast to take charge of the domestic department in the East Maui Seminary. This establishment is being put on an excellent footing, and promises to be one of the foremost in doing good on the Islands.

Rumors were rife about Maui last Friday, that two Portuguese had been shot by Sheriff Magoon; the following particulars have been handed to the Gazette. A Portuguese had promised to go to Sill fill his contract. A policeman was accordingly sent down to arrest the man; on arriving at the man's house, he found that resistance was threatened, so he returned to the Deputy Sheriff to ask what he should do. Mr. Magoon decided to go himself. On approaching the place, where the Portuguese was, he called out for him. The man refused to come out, the Sheriff then proceeded to try to arrest him. Immediately a number of Portuguese who were around, advanced against the Sheriff armed with sore knives and pitch-forks. The Sheriff warned them to keep back and then finding his life was threatened, fired his revolver. Two men were wounded, one in the cheek, the other in the leg. The Doctor, who attended them, states that neither of the wounds are likely to be fatal. From this account, it appears as if Mr. Magoon were acting entirely within his line of duty, and that the Portuguese were entirely in the wrong, by offering armed resistance to a civil officer while in discharge of his duty. Further particulars will be anxiously looked for. The rumors that four Portuguese had been shot and that two had died, are without foundation.

The following letter from Doctor Enders, gives all the particulars that have been received.

KAHULUI, Jan. 28th, 1882.

W. C. PARKE, Esq.,

DEAR SIR: Having just returned from Hamakuapoko and knowing you will hear of the affray which occurred there to-day in a greatly exaggerated form, I write a few lines to tell you of it.

It seems the Deputy Sheriff, Mr. Magoon had a warrant for the arrest of a Portuguese, and they had determined he should not be taken; so about 16 of them resisted the officers, when Mr. Rowell, the luna, went to their assistance, seized the man, when they made their attack with pitch-forks, cane knives, &c. Mr. Magoon threatened them with a pistol, but with no effect—he finally fired the ball (a very small one) taking effect in the thigh of one man and again this striking the left cheek bone of another man and penetrating deeply but not to the base of the brain. The probability is that both will recover.

Sam Alexander and others there, seem to think the Deputy did only his duty. Excuse haste, as the *Kilauea Hoe* is about leaving, and I am endeavoring to get this on board. With kind regards

F. H. ENDERS.

HAWAII.

The first section of the Hilo telephone is now in working order.

Three new bridges just finished by Road Supervisor Jordan—in the Hilo district, have been washed away during the past week.

Another of the hoodlums of Hilo—young Kalaua, has just been sentenced to three months' hard labor for burglary. Hilo is improving in civilization.

The rain in Hilo has been very heavy; up to Thursday night, 26th instant, over 31 inches of rain had fallen since the first of the month. When the *Likelike* left, it was pouring down as if the bottom had dropped out. Though this down pour has been very heavy it is not equal to that of December 26th-7th, 1880, when 11¼ inches fell in about 36 hours, or in March last, when a similar quantity fell during 24 hours. The largest rain-fall for January, has been 13 inches in three days.

J. P. Mendonca vs. Kealahou. From the October Term. Judgment ordered for the plaintiff for the sum of $253.50 and costs.

Louisa Boyer vs. J. H. Black. Assumpsit. A verdict for the plaintiff was rendered in this case, on the 19th, the counsel for the defendant, Mr. Davidson, noting exceptions thereto and filing them on the 28th, asking for a new trial, on the following points:

"1st.—Because the jury erred in giving a verdict for the amount of wages claimed by plaintiff, when it was proven that no services were rendered.

"2d.—Because there was no sufficient proof of a tender of services during each terminal period during the engagement for which an instalment was to be paid for services actually and not constructively performed.

"3d.—Because the jury erred in making up their verdict for a salary during the whole period of the engagement as per contract, when their verdict should have been for damages resultant from a breach of contract.

"4th.—Because the verdict of the jury is for an excessive amount not warranted by the evidence in the case."
