VOL. XVII.---No. 33. HONOLULU, WEDNESDAY, AUGUST 16, 1882. WHOLE No. 918.

NOTES.

The annual statement of receipts and expenditures by the Treasury of Queensland for the financial year ending 30th June, shows an actual excess of revenue over expenditure of £218,000 or $1,090,000. What will Hawaii present a similar statement?

A correspondent says the strength of the Foreign soldiers in Egypt, according to the monthly returns of 1879, was as follows—Italians, 14,329; French, 14,310; English, 5,736; Americans, 2,840; Spaniards, 1,000; Germans, 870; Austrians, 170; Belgians, 127; and Dutch, 119. None of the other Powers can count more than a hundred subjects in the Nile Valley.

A secret embassy, professing to give the tone of Chinese who have gone from Hongkong to various foreign countries during the past ten years, says that 1,000 went to the Sandwich Islands. Little Robinson, this professor, to be the Minister Resident's official interpreter. Can any of readers inform us whether the figures are reported correctly, and whether they are official?

Our Hilo letter is worth study, giving as it does the opinion of the able and independent Representative Nakuaa, as compared with the "thoughts this way, but wind that way" of Kaapa. The latter gentleman thinks it is clear that the King had told him that his native should have free fishing rights at Waiakea." Mr. Hadge should be taken to task for this misrepresentation, as the King said and possibly knew told him anything of the kind, seeing that the fishing rights referred to were still before the Courts of law.

The entertainment given last Monday by one of the members to one of the Hawaiian representatives was intended to show appreciation of their independent course in the Legislature. We refer to this matter, as signifying the readiness of our foreign population to give Mr. due credit for men of Hawaiian origin, when ever they are fairly entitled to it. Our contemporary, however, thinks this entertainment was not given in the spirit of a time when some measure in which the entertainer had a personal concern, is unfortunately was the case in some other affairs of his not during the last session.

The editor of the Coast newspaper, says, in that leading newspaper, issue of July 5th: "Without efforts to check this Chinese immigration there is every apprehension that with the natural increase the same process will go in California that is now seen in the Sandwich Islands. The natives will be swept off the face of the earth, and will it then be wholly divine only to regret it? Let the great and thoughtful men who have lived there believe, and in that case the white people after it will be answer—not for those but by natural laws that are equally effective."

The S. F. News Letter says that the Oceanic Steamship Company, through its agents, Messrs. J. D. Spreckels & Co., have contracted with Wm. Cramp & Sons, of Philadelphia, for two elegant new steamships, to be put on the line between San Francisco and Honolulu. The new ships will be models of taste and accommodation. They will be each 350 feet long, 42 feet beam, 30 feet depth of hold. Each has engines of 3,000 horse power, and is of carrying capacity of 2,500 tons dead weight, on a draft not to exceed 20 feet. The engines will indicate 3,000 horse power, and a speed of 14 knots is guaranteed. The steamers will be magnificent in fitted, and will be an honor to a credit to their builders, as they will be the pioneers in which they are to be engaged.

As our readers may remember, the Prince Alfred Chinese was sunk by colliding with H. M. S. Iphigenia. A suit followed in which it was adjudged that both vessels were to blame and each to pay their own damage. The Chinese Merchants Co. appealed to the Privy Council against this decision, who sustained the judgment, but ordered, in view of the injury of 130 days of watching, to return with all despatch to his post and, remaining his present rank as Grand Secretary, to administer the province of Chihli as before. The questions of the loss are attended with much difficulty, and the Privy Council strongly urge upon the private service, looking upon the affairs of state as of the first importance, and striving to make some return to Le for Our kindness to him. This will be the conduct that will inspire his mother's mind with the comforting conviction that her son, following the prompts only instilled into him, is devoting himself to the service of his country; and forward to Our hope that Our view of the matter will commend itself to the Viceroy.

The Hong Kong Daily Press says, in commenting on the labor and population question in these Islands: "It is not an easy matter to find a suitable race to the Hawaiians (the Polynesians are dying out wherever the breath of civilization has reached). A natural one would be the Indian population. A natural one would be the Indian population, but it is impossible to give Mr. due credit to men of Hawaiian origin, when ever they are fairly entitled to it. Our contemporary, however, thinks this entertainment was not given in the spirit of a time when some measure in which the entertainer had a personal concern, is unfortunately was the case in some other affairs of his not during the last session.
