Hawaiian Gazette.

WEDNESDAY, SEPTEMBER 20, 1882.

LATEST FOREIGN NEWS.

The Oceanic Co's steamer Suez, Captain Dodd, arrived on Sunday morning bringing dates to the 4th instant. The following telegrams were received:

The Egyptian Question.

PARIS, Aug. 30—A correspondent describes details of the cavalry charge at Kassassin Lock as follows: I found two score mortally wounded troopers of the cavalry. Some of our cavalry still seeking our dead and wounded. Two Life Guardsmen so mutilated as to be quite unrecognizable. Their faces were horribly gashed. A bad one, hand completely severed from the arm and the other hand nearly so, and eyes scooped from their sockets; the hands of other of the body guard were just hanging by shreds by part of the flesh and sinews of the arm. A wounded guardsman rushed into the ambulance where I was, and in falling broke my leg. While lying on the field, he Egyptian soldiers rode by. He called for help, weapon an Egyptian rode up and without the sergeant's face from temple to chin. The wounded, however, doing well. The enemy's loss must have been at least 600. The British did not organize the second attack, but the South Wales were ready for anything. It is reported the army fell to Tel-el-Kebir. Our positions remain as the same as ever, but the cavalry outposts have fallen on the extreme right.

It is believed that Arabi Pasha brought up his infantry by train from Rafeh-Ouar for an attack on the British at the Ramseeh Lock, on the evening of yesterday. The British artillery fire was more effective, and prevented the enemy from advancing in close order, so they approached at first intended to do. The heat formerly of the attack gave an opportunity to the cavalry. The Life Guards caught fourteen horses among the mutinous fugitives. A train of the wounded British is now on its way from the front to the Tewfikia Hospital.

General Wolseley telegraphs from the cavalry headquarters that only the Household cavalry and the seventh Dragoon Guards were actually engaged in the fight at Kassassin Lock, on the canal. The former had three troopers killed and eight wounded. Major Tweedmouth received a sabre cut. The Guards had two troopers wounded.

ISMAILIA, Aug 27—It is reported here, on good authority, that on Tuesday the Governor of Kassassin asked permission to drive the British from Kassassin. It is the impression that Sir Garnet intends to make another brilliant dash, and by one overwhelming blow annihilate or disperse Arabi's forces and end the war.

LONDON, Sept. 3.—Wolseley telegraphs from Ismailia that the troops are in high spirits and eager to be led forward. The supplies to Tewfik are ample.

KASSASSIN, Sept. 2.—The British position here is so formidable that it is hoped that Arabi Pasha may not attack against it.

Arabi Pasha having regained confidence, it will be necessary to prepare for a scientific and methodical advance and attack this time in force. The fire of the English infantry in the last engagement appears to have inflicted both a very slight loss upon the enemy. The Martini-Henry rifles used by the British troops are apt to be rendered unserviceable by hard usage.

LONDON, Sept. 3.—It is stated that General Wolseley has telegraphed the authorities that it is unnecessary to prepare the Third Army Corps, as he only requires reinforcements to fill up gaps.

KASSASSIN, Sept. 2.—Gen. Archibald Alison's mounted infantry has arrived, and the troops are being fast brought up. The engineers are busy entrenching a camp of defense. The forward movement is daily expected.

PARIS, Sept. 3.—De Lesseps maintains that Arabi has the whole Egyptian nation at his back, and when he needs more he can get them and every man with the arms stored in the arsenal at Cairo. The English army was well organized, and he believed that the war will be a long one, and the final result could not be foreseen yet. To the intrigues of Malet, designedly made for England's benefit, he attributes the war. He predicts that the Khedive will never be able to govern the country, and even should the English succeed in reinstating or re-establishing his authority, the ultimate result would be a protectorate, with the Khedive as the nominal ruler.

ALEXANDRIA, Sept. 4.—The men of war Monitor is shelling the rebel lines beyond the intrenching demonstrations made by the enemy from Mazdara.

At 5 o'clock this evening the English heavy guns near the Cairo railway began shelling Arabi Pasha's camp. The enemy replied, their shells falling within 10 yards of the Floating Depot in the Kasslah lines. Two more British guns joined in the fire, whereupon a lively cannonade ensued. The enemy continued with excellent practice, all their shells falling close to the British camp.

ISMAILIA, Sept. 3.—The number of sick and wounded on route from Suez and Port Said, being up the total to nine, which will be sufficient for transportation purposes. The English horses are holding out well. The worst of the hot weather seems to be over. It is stated that General Wolseley is in high spirits and confident of success. It will be recollected almost miraculous of Arabi Pasha's success in holding Tel-el-Kebir.

It has been ascertained by a reconnoissance in the direction of Salihyeh that that place has been abandoned by Arabi Pasha.

It is not expected that the British will have enough provisions to be ready for an advance for a week.

ALEXANDRIA, Sept. 3.—Mahmoud Fehmy has written a report, addressed to the Khedive, with plans revealing the position and strength of the enemy. The translation will be sent to Gusseri Wolseley. From internal evidence it is believed its statements are correct.

ISMAILIA, Sept. 4.—Examination of Sultan Pasha's papers is doing their utmost to inform the people of Damietta, that those who lay down their arms will be instantly treated.

PARIS, Sept. 3.—The Temps, in an article on the Egyptian question, maintains that the British expedition will benefit France even more than England. It continues: "The weakness of the power of England proves that Europe is now reduced to the leadership of one power—Germany. This circumstance will benefit none so much as France, which is the natural ally of England. By separating from her we afford an opportunity to Germany, whose omnipotence can only be opposed by an Anglo-French alliance.

LONDON, Sept. 4.—The number of vessels passing through the Suez Canal was 186, and the tolls amounted to $94,000. In July of last year there were 207 vessels, and the tolls were $96,000. The difference shows the result of the Anglo-Egyptian war.

ALEXANDRIA, Sept. 3.—The Ministry to-day submitted to the foreign consuls-General a proposed plan relative to indemnifying the inhabitants of Alexandria for losses sustained by incendiarism and plunder. The Ministry suggested that an International Commission, the decisions of which shall be final, should be appointed to settle all claims. The Commission is to consist of four members of the Public Debt Department, five Egyptian delegates and such delegates from each of the six great powers. One of the Egyptian delegates is to be President of the Commission, and the Vice-President to be elected.

LONDON, Sept. 3.—A dispatch from Ismailia says it is reported that the fresh water canal has been cut above Tel-el-Kebir, flooding the lowlands to the south of that place. Forty cars from Cairo arrived at Tel-el-Kebir yesterday. All Arabi Pasha's troops from Cairo have been brought to Tel-el-Kebir, also the black regiment which became the elite of the Egyptian military. The enemy is working night and day at the intrenchments across the inner water canal on his right. General Wolseley is now in direct telegraphic communication with London. While the reconnaissance was going on, after exchanging fire with the enemy's cavalry, a long train was observed coming up from the enemy's camp probably laden with troops, showing that the Egyptians were in a position to meet the English in advance of their main position. No reinforcements have been yet seen to reach English encampments from the supply.

LONDON, Aug. 31.—Sir Hugh Cubitt, Secretary for War, sends cipher to General Wolseley, speaking highly of his conduct of the campaign in Egypt, the success of his generals, and the efficiency of his officers and men. The Duke of Cambridge, Commander-in-Chief of the army, sent a similar message.

General Foreign News.

DUBLIN, Sept. 1.—One fifth of the Metropolitan Police force have abandoned. It is expected that disorder will result. There is great excitement in the city. All the police stations are occupied by strong guards of military.

PARIS, Sept. 4.—Mlle Bertha Marie de Rothschild, the daughter of the head of the Frankfort branch of the family, will be married Thursday to Prince Alexander de Wagram. As a necessary preliminary to the ceremony, Mlle Bertha yesterday received Christian baptism. Prior to the ceremony the princess abjured the faith of the Jewish faith.

WASHINGTON, Sept. 4th.—Rear-Admiral Cloe, commanding the Asiatic station, has made a report to the Navy Department on Eastern affairs, under date of Yokohama, August 10th. He states that of the 1st of August there was resident at Yokohama of an unknown by the anti-foreign party in Corea, and that several Japanese had been murdered, and that a commander had effected their escape. Admiral Cloe says the Japanese Government has been prompt in making prompt redress for guarding the interests of its people, several men-of-war have been sent to Fusan with troops and policemen on board. He learned through the American Minister that Corea is not intention of declaring war, but simply to re-establish the Minister with proper dignity and to guard the Legation, and to afford a place of refuge for their subjects in case of further trouble. The Japanese do not regard the outrage as a serious one.

On August 1st, Admiral Cloe received a telegram from Minister Young, informing him of this difficulty and requesting that he send a vessel to Corea to insure that the Corean respect the rights of foreigners and to protect American interests.

Before acting on this dispatch Admiral Cloe received the Department's telegram of August 26th, informing him that the treaty with Corea had not been ratified, directing him to send a vessel to Corea, and also directing him to communicate with Minister Young. This was accordingly done on August 31, by placing the Monocacy at Minister Young's disposal, and on August 8th Admiral Cloe sent a telegram from Minister Young to the effect that Corea has ratified the treaty with the United States. Minister Young, in his dispatch, says that the Corean Government is now in a good state of preparation, and that the Minister and his family are in no danger. Admiral Cloe says he learns through the press that China has taken action in regard to the trouble in Corea, and that 10,000 troops have crossed the frontier and entered Corean territory, also that a Chinese vessel was approaching the frontier, and that six gunboats and corvettes were to rendezvous at the southern coast. He says it is impossible for him to say what bearing this may have on the future course of affairs.

He reports that cholera still exists in Yokohama and vicinity, but is decreasing and not so fatal in its effects; that the health of the squadron continues excellent.

ST. PETERSBURG, Sept. 4.—At the conclusion of the army manœuvres at Ishora, a bridge constructed by the military across a ravine fell directly after the Emperor and Empress had passed over it. The Minister of War was slightly injured.

SHERMAN, TEXAS, September 4.—Hon. George R. Sarson, late Speaker of the House of Representatives, is at the point of death from hydrophobia.

LONDON, Sept. 5.—Montague Bernard, one of the Halifax Commissioners, who signed the Treaty of Washington in 1871, died last Saturday.

LONDON, Sept. 4.—In his lecture last evening, Henry George said he respected Michael Davitt. The only thing about him he disliked was his proposition to pay the landlords compensation, which, Mr. George thought, would be a very wicked thing. The Times, in an editorial, says: "The proclamation of the land is nothing but sound and fury signifying nothing. It is nothing more than the old socialist theory furbished up anew."

DUBLIN, Sept. 5.—The services of the special constables have been dispensed with.

NEW YORK, Sept. 5.—There has been more or less talk lately about a syndicate of British capitalists making arrangements for establishing a line of steamships between San Francisco and Liverpool, with a view to supplanting the trade of the Pacific Coast from the sailing ships. Shipping merchants are of the opinion that nothing will come of it, as there is no way, they say, in which any such enterprise can be made to pay.

VANCOUVER, Sept. 3.—Additional particulars from Dawsonville to Dr. Hamilton, Supervising Surgeon-General of the Marine Hospital Service, show that about fifty per cent. of the population of the town are down with yellow fever.

BERLIN, Sept. 5.—Owing to his recent sunstroke, Emperor William did not leave his rooms Thursday. In order to spare him as much fatigue as possible, the parade of the Sixth Army Corps has been postponed until Saturday.

PARIS, Sept. 5.—It is officially stated that the applications for the shares of the Panama Canal Company foot up over 600,000 shares.

NEW YORK, Sept. 5.—The Times publishes the following: The American Committee of the Universal Interoceanic Panama Canal Company has lately advertised extensively that for a few hours, on September 7th, the public would be allowed an opportunity to invest $25,000,000 in subscriptions to the bond issue for the payment of the Panama Railroad shares bought by the canal company. There was no discernable rush to the company's office for their bonds yesterday, but the officers of the company announced early in the day that the demand was far ahead of the supply, and that large amounts had been subscribed here, but it was feared anxious subscribers on this side of the ocean would suffer disappointment, inasmuch as Paris capitalists had run so ahead and taken up the entire $25,000,000 before anyone and sure will scarcely reserve they could scarce no more.

BRECKENRIDGE, TEX., Sept. 5.—Today fifty-eight new cases of yellow fever were reported, with four deaths, three Mexicans and the Interim Colonel F. C. Grimes. There are five cases at Fort Brown, and all the patients are doing well. In Matamoras the fever is decreasing. There were three deaths to-day. The weather is cloudy with a norther blowing.

PENSACOLA, Sept. 6.—During the past twenty-four hours thirteen new cases of yellow fever and two deaths have occurred.

MOBILE, Sept. 6.—On Thursday 170 cases and ten of Cholera and 279 deaths occurred in the neighboring villages.

PARIS, Sept. 6.—Advices state that the cholera is raging in Contin Chine.

PHILADELPHIA, Sept. 6.—The Engineer Corps of the Navy to-night made arrangements to give Engineer Melville a reception next Friday evening at the Continental Hotel.

A Desirable Country Residence for Sale.

THE PREMISES IN KANEOHE, Oahu, formerly occupied by the late Rev. J. F. POGUE, situated about 2 miles from Honolulu; consisting of 3 640 acres of well fenced land, with 2 cottages, containing 10 rooms and outhouses; a large variety of fruit and shade trees, flower gardens, with lawns and beautiful plants; 1000 acres or less, tapped plants of choice varieties, with room to increase the number largely; kaai land and pasture for a few animals; a large fish pond containing mullet, with a never-failing stream of water flowing through the premises, by which the grounds may be irrigated. The above is for sale on one of the most desirable locations for a country home to be found in the neighborhood of Honolulu; and with the near prospect of a good carriage road over the Pali, for which a liberal appropriation has been made by the Legislature, it is believed that this will be found a rare opportunity for any one wishing to combine the pleasures of country life and rentable property, with easy access to the city, to invest in a permanent home. Title, fee simple. Price, $2,500. If not disposed of at private sale within two months, it will be offered for sale at public auction. For further particulars, enquire of W. R. CASTLE. 918 3m
