Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women.

Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Making Light Bread

"Like most household problems, there is no single best way to make bread. However, there are several points in bread making, a knowledge of which is necessary to succeed, whatever method is followed." This is a statement taken from a bulletin "Making Light Bread" by Addie D. Root of the College of Agriculture, University of Missouri.

This bulletin gives important information concerning the different ingredients of light bread. The proper proportions and the handling of the various ingredients as in mixing, kneading, raising, and baking are discussed. Some valuable suggestions are given upon the the most desirable kind and size of bread pans, also upon the care of bread after baking. Bread often prematurely spoils after baking from causes difficult to discover. Some of these are discussed and a remedy given. The bulletin contains the Missouri score card for judging bread and an explanation of its use. This bulletin may be obtained by writing the College of Agriculture, Columbia Mo.

The Cold School Lunch

The proper feeding of school children has been a recognized problem for several years. In the cities, the establishment of hot lunches served at school has gone far toward the solution of this problem and if this could be universally applied to the rural schools, it would mean a great improvement in the scholarship and behavior of the children. However, since the majority of school children in this state must depend upon a cold lunch, it is worth while to see that the proper foods are chosen and that they are prepared so as to be both wholesome and apetizing.

The Agricultural Extension Service of the University of Missouri has issued a circular on the Cold School Lunch by Miss Bab Bell in which she gives many valuable suggestions on this problem. Several combinations of good wholesome food that make up good lunches are given and advice is also given as to what foods should be avoided. Sandwiches should and and usually do, form an important part of the child's lunch, and so recipes are given for making many different kinds of good wholesome sandwiches. The lunch box, or container and the method of correctly packing lunches in them are also discussed. This circular may be obtained by writing to the Missouri of Agriculture, Columbia, Missouri.

We Told you so.

Over twenty five years ago we helped to organize the first mutual fire insurance company at Rock Port, Mo., and the first mutual tornado insurance company in the state of Missouri. The wise men of that time told us we would fail in this undertaking in less than five years, but, behold our mutuals have outlived a quarter of a century and have paid out over $200,000 in losses. Our companies insure brick business houses and contents and frame and brick dwellings and contents in towns and cities in Missouri and automobiles anywhere in Missouri, against loss or damage by fire, lightning, tornadoes, cyclones and windstorms, and farm property against tornadoes, anywhere in the state of Missouri. In the State Mutual Automobile Ins. Co., the insurance is good anywhere in the United States or Canada.

The Rock Port Mutual Ins. Co's. have over fifteen million dollars in assessable capital, as can be seen by our new book of information, which is ten thousand copies, that is now ready to mail free to anyone wanting a copy. Sample can be seen at the office of the Republican.

Agents wanted in each town in Missouri.

Collar Galls.

Tannic acid is one of the very best remedies for collar galls according to L. S. Backus of the Missouri College of Agriculture. It can be secured from any drug store and is easily applied by rubbing lightly over the collar every morning and evening if the horse is working.

Collar galls usually appear either at the top of the neck or at the point of the shoulder where an improperly fitted collar rubs. It is important that the collar be kept clean at all times in order that it may be kept from cutting into the neck, but special care in keeping it clean is necessary after these galls start. An ounce of prevention is worth a pound of cure."

If President Wilson is really so confident of his re election, he should take advantage of those credulous creatures responsible for the odds against him on the betting boards.

Tom Marshall in his Terre Haute speech declared that, "The Democratic party has changed its mind on the tariff question." This statement should come under the head of Criminal Confessions.
