COMMERCIAL.

HONOLULU, MAY 19, 1883.

Business since last writing has increased somewhat, especially in the lines of commercial trade, the arrival of large quantities of foreign goods, and the rapid forwarding of our staple product to this center from the other islands and the overhauling of the same to San Francisco has kept the time and quiet of merchants pretty constantly disrupted during the past week.

The arrivals for the week consist of the Sonoma, Australia, and Discovery from San Francisco with general cargoes, the Australia also bringing $25,750 in gold; the City of New York from the Colonies, the Geneva Roberts and C. O. Whitmore with coal, Glenkerie from Liverpool with an assorted cargo and the Revere from Puget Sound with lumber.

The departures were the City of New York for San Francisco with a heavy cargo of sugar, and the J. D. Apacibles, D. C. Murray and Ella also for San Francisco with cargoes of domestic produce.

The next vessel due from the Coast is the Ivanhoe, but based by others who desire of sailing from San Francisco may be found by referring to Messrs. Williams, Dimond & Co.'s regular monthly circular.

SAN FRANCISCO, May 5th, 1883.

Our last bulletin was dated April 7th, per City of Sydney. We have having received spring rains and everything looks favorable for the new grain crop, and cultivation has that day virtual will be begun.

WHEAT—We have no change to report in Bulkers this month.

Cable overtrade in New York are still speculative at 7 7/16 for spot and 7 9/16 for May. The market remained as last quoted $5.00.

RICE—Has advanced to to $6.25 cash owing to the Eastern demand and a light stock.
