The schedule will state the time within which articles will be required to be delivered; and where the printed schedule is not used, the periods stated to fix for deliveries must be copied in the bids. All the articles which may be contracted for must be delivered at such place or places, including drayage and carriage to the place where used within the Navy-Yards, respectively, for which the offer is made, as may be directed by the commanding officer thereof; and, all other things being equal, preference will be given to American manufacture. No article will be received after the expiration of the period specified in the schedules for the completion of deliveries, unless specially authorized by the Department. In computing the classes, the price stated in the column of prices will be the standard, and the aggregate of the class will be carried out according to the prices stated.

It is to be provided in the contract, and to be distinctly understood by the bidders that the amount and number of articles enumerated in classes headed "Miscellaneous" are specified as the probable quantity which may be required, as well as to fix data for determining the lowest bid; but the contractor is to furnish more or less of the said enumerated articles, and in such quantities, and at such times, as the Bureau or commandant may require; such increase, however, not to exceed one-half of the quantities stated (and requisitions sent through the Post-Office shall be deemed sufficient notice) during the fiscal year ending 30th of June, 1863; and whether the quantities required be more or less than those specified, the prices shall remain the same.

Bidders are cautioned against stating nominal prices in their offers.

All the articles under the contract must be of the best quality delivered in good order, free of all and every charge or expense to the Government, and subject to the inspection, count, weight, or measurement of the said Navy-yard, and be in all respects satisfactory to the commandant thereof. Bidders are referred to the yard for plans, specifications, or samples, and any further description of the articles or explanations they may desire. When bidders shall be in doubt as to the precise articles named in the schedule, they will apply to the commanding officer of the Navy-yard and *not to empl yers* for description of the article or articles in doubt, which information the said officer will give in writing. Contractors for classes headed "Miscellaneous," who do not reside near the place where the articles are to be delivered, will be required to name in their proposals an agent at the city or principal place near the yard of delivery, who may be called upon to deliver articles *without delay* when they shall be required.

Approved sureties in the full amount of the contract will be required, and 20 per centum as additional security deducted from each payment until the contract shall have been completed or canceled, unless otherwise authorized by the Department. On classes of articles headed "Miscellaneous," to be delivered as required during the fiscal year, the twenty per centum retained may, at the discretion of the commandant, be paid quarterly on the first of January, April, July, and October, when the deliveries have been satisfactory, and the balance (eighty per cent) will be paid by the respective navy agents within thirty days after the presentation of bills, in triplicate, duly vouched and approved.

No part of the per centum reserved is to be paid until all the required articles offered under the contract shall have been removed from the yard, unless specially authorized by the Department.

It will be stipulated in the contract that, if default shall be made by the parties of the first part in delivering all, or any, of the articles mentioned in any class bid for, of the quality and at the times and places above provided, then, and in that case, the said parties will forfeit and pay to the United States a sum of money not to exceed twice the amount of such class, which may be recovered, from time to time, according to the act of Congress in that case provided, approved March 3, 1843.

The sureties must sign the contract, and their responsibility be certified to by a navy agent, collector, district-attorney, or some other person satisfactorily known to the bureau.

It is to be provided in the contract that the bureau shall have the power of annulling the contract, without loss or damage to the Government, in case Congress shall not have made sufficient appropriations for the articles named, or for the completion of works estimated for, and on which this advertisement is based, and shall also have the power to increase or diminish the quantities named in the classes not headed "Miscellaneous" in the schedule twenty-five per centum.

Persons whose offers shall be accepted will be notified by letter through the Post Office, which notice shall be considered sufficient; and if they do not enter into contract for the supplies specified within fifteen days from the date of notice from the bureau of the acceptance of their bid, a contract will be made with some other person or persons, and the guarantors of such defaulting bidders will be held responsible for all delinquencies.

All offers not made in *strict conformity* with this advertisement will, at the option of the bureau, be rejected.

Those only whose offers may be accepted will be notified, and contracts will be ready for execution as soon thereafter as may be practicable. s5 law4w1u

100 VALUABLE BUILDING LOTS IN BROOKLYN.—WALTER M. LLOYD, Auctioneer. JOHN LLOYD & SONS will sell at public auction, on THURSDAY NEXT, September 18, at 12 o'clock, in the Merchants' Exchange Salesroom, No. 111 Broadway, New-York, 100 VALUABLE BUILDING LOTS IN BROOKLYN.

These lots are situated on or near Fulton avenue, in the Ninth Ward of the city of Brooklyn (East Brooklyn.) That is to say, in that part of the city in which, even at the present period, large numbers of buildings are being erected, and where prices are not falling, but constantly rising, and will continue to rise just as in Yorkville and Harlem. Capitalists will easily perceive that they cannot invest their capital in a securer or more profitable manner; mechanics and workingmen that they cannot, in times like these, if ever, invest their hard earnings better than by securing for themselves and their families a homestead in the third largest city of the great Union, and in the closest proximity to the great metropolis of this continent. However ruinous the consequences of the present deplorable war may prove to some parts of this country, the geographical position of New-York and Brooklyn is such that their population must and will increase in numbers even at a more rapid rate than London, and that consequently the value of real estate will constantly rise.

Who can doubt that these beautiful lots, located on high ground, and in a perfectly healthy vicinity, where the horse cars pass by every five minutes, and from which we can reach New-York in 30 to 40 minutes, either by the Fulton or the Atlantic or Williamsburgh ferry, will soon rise to $1,000 apiece? a price which already now is being paid for the more select lots in the more distant East New-York.

The avenues and streets on which the lots are situated are paved, and the assessments therefor have all been paid.

Private sales of single or several lots may be made previous to the day of Auction, at JOHN LLOYD & SONS', No. 15 Nassau-st., where also maps and descriptions of the property may be obtained.

$150 or more of the purchase money of each lot may remain on bond and mortgage for two or three years.

FAMILIES and INDIVIDUALS residing down town who may desire the services of a HOMŒOPATHIC PHYSICIAN, near at hand, can be accommodated by calling on Dr. TAYLOR, No. 69 Varick-st. Charges reasonable.
