VOL. XIX.—No. 27. HONOLULU, WEDNESDAY, JULY 2, 1884. WHOLE No. 1016.

The Hawaiian Legislature

Session 1884.

Thirty-ninth Day, June 23rd.

Assembly convened at the usual hour, President Rhodes in the chair. Prayer and reading of minutes of previous meeting.

The following petitions were then presented and read:

Representative Kamakele, from residents of Makawao, that a line of steamers be established between San Francisco and Kalepolepo, Maui, and that the Government assist the same by a subsidy. Referred to Committee on Commerce.

Representative Smith, from residents of Wailuku, that fisheries be thrown open to the public use. Laid on the table to be considered with bill relating to Honolulu fisheries.

Representative Dole, from Chinese merchants on the Islands protesting against the bill relating to keeping books in English and Hawaiian. Referred to Judiciary Committee.

Representative Aholo, a petition that the sum of $300 be appropriated for the purpose of building a bridge in the district of Olowalu, Maui. Laid on table to be considered with the Appropriation Bill.

Representative Hitchcock, from residents of Waimea, protesting against the granting of a charter to any bank monopolies. Laid on table to be considered with bill on the subject.

Representative Dole, from Lihue, Kauai, a petition on the same subject, referred the same way.

Representative Gardner, from Hana, that the sum of $30,000 be appropriated for building a road from Uaiani to Oopoola, in that district. Referred to Committee on Public Lands.

Representative Kaunamano, from residents of Hamakua, that no act be passed granting charter to banks of issue or any monopoly banks. To be considered with the bill on the Bank Charter.

No reports from Standing Committees, and from Select Committees:

Representative Godfrey Brown, from the Select Committee having under consideration the bill to amend Section 498 of the Civil Code relating to the redivision of the districts of Waialua and Koolauloa reported that they found that the bill would disturb ancient boundaries, without any good results, therefore they recommend that the report be laid on the table. Approved.

Representative Aholo, from the Select Committee having the consideration of a bill to facilitate steam communication and the carrying of mails between San Francisco and Hawaii, asked for further time. Granted.

Representative Hitchcock drew the attention of the Assembly to the fact that a resolution introduced by him asking for certain data from the Minister of Interior, relative to privileges granted the Oceanic Steamship Co. had not been answered.

The Minister of the Interior said that he would have to ask the indulgence of the Assembly until to-morrow morning when he would present answers to the resolutions that had been referred to him.

Representative Hitchcock, a resolution that the the Minister of Finance place before the Assembly a schedule showing the taxes collected in the Kingdom for the year 1883. Approved.

Representative Kaai, a resolution, that the bill relating to creating permanent settlement on the widows of the late D. Kalauokalani, be taken from the table and considered with the Appropriation Bill.

Representative Filipe presented a resolution that, as the copies of the Appropriation Bill distributed in the Assembly were poorly printed on bad paper and in bad form, new copies on better paper should be furnished and bill be referred to the Printing Committee for that purpose.

The resolution brought up considerable discussion finally ending by Rep. Aholo moving as an amendment that the consideration of the Bill be continued and new bills printed in the meantime. Carried.

Hon. C. R. Bishop, from the Committee on Education presented a report on the bill endowing a chair of chemistry and natural science at Oahu College, recommending that the bill be favorably considered. Report approved and bill ordered to engrossment and to third reading on the 27th inst.

Representative Godfrey Brown, from the Committee on Finance, reported on the bill to amend Section 552 of the Civil Code relating to the duties of customs officers, and recommend that the bill be engrossed. Report approved and bill ordered to third reading on the 27th inst.

At 11:05 Rep. Kaulukou moved the Order of the Day, and the consideration of the Appropriation Bill in the Committee of the Whole on the proposed special order for the attention of the Assembly.

The form in which the Appropriation Bill Lad been printed again created comment from the members, and before the Assembly dissolved the Secretary was asked if he had the original Bill.

Secretary Pierce stated that it was not in his possession.

The Minister of Finance stated that he thought the original copy of the bill was still in the hands of the printers not having been returned. Thought there was no reason why the Assembly could not go on with the consideration of the Bill, as printed. He moved that one of the printed copies of the Bill be used and read. Not seconded.

Representative Nawahi said that this was another instance of the slack way in which the Ministers performed their duties. If the bill was read from the printed form and not from the original manuscript a precedent would be established which would, in the future, allow of a member having lost his original copy of a bill to present it in any form he choose and say "let this be used." It may be that, when the original of this Bill is found, it would be different from the printed copy. He thought it proper that the original bill should be in the archives of the Assembly. Supposing a case, the speaker said, if the printed copy was lost what would then be shown. He moved the postponement of the consideration until 10 o'clock a.m in the meantime the original might be found.

Representative Dole considered the motion to consider the Bill now out of order. The bill presented was a loose arrangement, the title of it says "For the biennial period ending 1886," the second Section says, "period ending 1884!" The Minister of Finance knows that it is not a correct copy, he would not certify to it as such. This action it is keeping with others of the Cabinet during the past two years. Very clear that since it was printed it had never been compared with the original copy. The Minister of Finance's report was so full of errors that the Minister had to withdraw it, and present a new one. Who can testify to the correctness of this bill? He moved an adjournment until 1 p. m. Carried.

AFTERNOON.

Assembly reconvened at 1 p. m.

The Minister of Finance presented the original copy of the Appropriation Bill, which, on motion was read entirely through, for the first time.

At the conclusion of the reading, a number of motions were made which seemed to be intended to delay the Bill, and, as an exhibition of diplomacy, to save the Bill from being retarded in consideration. Rep. Aholo moved that the Assembly adjourn until the next morning. On second thought, however, the honorable member withdrew his motion. The Bill was finally ordered for consideration in Committee of the Whole on Wednesday, the 26th inst.

The Attorney-General gave notice of intention to introduce a bill to prohibit the formation of unlawful secret society's.

Second reading of a bill to amend Sections 7 and 8 of Chapter XXXII of the Penal Code relating to the punishment for the offence of libel.

Representative Kaulukou was opposed to the passage of the bill; he judged it was defective; the old law provided both fine and imprisonment, this proposed law did not provide for any imprisonment, leaving it to the option of the Court. He was satisfied that newspapers in Honolulu were quite different in tone from what they used to be, and from the matter which now appeared in print it seemed likely that some newspaper editor would get shot.

The Attorney-General was in favor of the bill, the punishment provided, was deemed ample by him. He thought that the Judiciary could be fully trusted, and he moved the passage of the bill. Carried and ordered to third reading on the 26th inst.

Second reading of a bill, introduced by Rep. Hitchcock, relating to the regulating of the sale of intoxicating liquors. Referred to the Special Committee having similar bills in charge.

Second reading of a bill to grant a franchise to a gas company in Honolulu. Discussed in Committee of the Whole. Hon. J. S. Walker in the chair.

Section 2 of the bill was discussed, amended and approved to pass as follows:

Section 2. Gas Works.—They shall have the right to erect at some place in Honolulu not less than half a mile distant from the Bell Tower to be approved of by Privy Council, gas works for the manufacture of illuminating gas, and the right to maintain and operate the same during the continuation of this franchise.

At 4 p.m. the Committee arose and reported progress to the Assembly and asked leave to sit again.

At 4:05 Assembly adjourned until the next day at 10 a. m.

Fortieth Day, June 24th.

The Assembly met at 10 a. m. After prayer by the Chaplain, the minutes of the previous meeting were read and approved.

Representative Kaulukou asked for further time to prepare his minority report on police, prisons and mounted police. Granted.

Representative F. Brown introduced a resolution that the cost of printing and translating the reports of the Legislature during this session be placed before the House. Approved.

The Attorney-General read for the first time a bill to prevent the formation of unlawful secret associations in the Kingdom. Read a second time by title and referred to Judiciary Committee.

Hon. H. A. Widemann asked for leave of absence for an indefinite period.

Representative Dole objected to the leave being granted, without reasons, which should be all-sufficient, were first given.

Hon. Widemann referred to the fact that Hon. P. Isenberg had obtained leave.

Representative Smith said that, without there were strong reasons, no member ought to be allowed to leave the House for an indefinite time.

On a show of hands the petitioner was granted leave.

Representative Dole introduced a resolution that the President of the Board of Immigration place before the House all contracts, etc. relating to Portuguese immigrants during the past biennial period, and since then. Approved.

Representative Pilipo asked if the Minister of Foreign Affairs was prepared to present a report in answer to his resolution, relating to the expenses of foreign missions.

The Minister stated the report was already in his office, and he would present it after recess.

Hon. J. Mott Smith gave notice of intention to introduce a joint resolution relating to Japanese immigration.

The Minister of Finance presented a statement of the amounts received by tax collectors in each district for 1883, in answer to a resolution passed by the Assembly.

Hon. C. R. Bishop read for the first time a joint resolution authorizing the Minister of Finance to pay over to the treasurer of the Queen's Hospital, the sum of $7,011.83. The resolution was read a second time by title, passed to engrossment and ordered to third reading on the 26th inst.

The Minister of Interior, in answer to a resolution, presented a statement of privileges granted to the Oceanic Steamship Co. The report was ordered to be printed.

He also stated in regard to a resolution relating to the Board of Genealogy, that owing to the illness of the Secretary and the absence of the Governess of Hawaii, the report would be somewhat delayed.

The Order of the Day was next taken up.

Second reading of a bill to incorporate a gas company in Honolulu. The Assembly resolved itself into Committee of the Whole, Hon. J. S. Walker in the chair.

At 12 o'clock the House took a recess.

AFTERNOON.

The Committee reassembled at 1 p. m., and the consideration of the Gas Bill was gone on with, the following Sections being passed:

Section 3. Pipes and Mains.—They shall have the right to lay down their mains and distributing pipes and supply pipes in all or any of the streets, alleys and public grounds of the City of Honolulu, as they may deem necessary or expedient, provided, however, that they cause no unnecessary interruption to the use of such streets, alleys or grounds in laying the same, and at such reasonable depths as will not interfere with the ordinary use thereof, and to restore the same, after laying such mains and pipes, to as good order and condition as they were in before. Provided, however, that nothing herein contained shall be construed to be inconsistent with or repugnant to any of the laws of this Kingdom, the rules and regulations of the Fire Department, and the authority of the Minister of the Interior over the roads and bridges of the city of Honolulu.

Section 4. Repairing Pipes and Mains.—They shall have the right during the continuance of this franchise to dig up, remove, replace or repair such mains and pipes as they may find necessary or expedient, also, to lay connecting pipes in any or all of said streets and grounds, for the purpose of supplying dwellings, stores, offices and any and all buildings, public and private, and street lamps for lighting the streets of said city, as may be necessary or expedient, and to replace and repair and remove the same, in all cases restoring such streets, alleys or grounds to the same, or as good condition, as they were in before, and to conform to any change of grade made by the Minister of the Interior of the Hawaiian Islands, during the existance of this franchise.

Section 5. Lamp Posts and Lamps.—They shall have the right to erect lamp posts and lamps for lighting the streets, alleys and public grounds of said city, at such places as may be designated by and at such times of the Interior, whenever mains or distributing pipes shall be laid opposite or contiguous thereto, said Minister of the Interior to keep such lamps and lamp posts in repair at his own expense.

Section 6.—Adjusting Meters.—They shall have the right, at reasonable hours and times, to enter all buildings using gas for the purpose of repairing and adjusting gas meters and pipes therein, and take account of gas consumed, and for any and all purposes connected with the use of gas in such dwellings or buildings.

Section 7. Price of Gas.—They shall have the right to charge, receive and collect from all consumers, such price as they may from time to time fix and determine, not exceeding four dollars per thousand cubic feet, and a reduction shall be made for all gas used by the Government of one third of the price charged other consumers.

Section 8. Supply Pipes, etc.—Said gas company shall have the right to charge consumers, or intended consumers of gas, for making connections with their pipes and mains and for such portions of supply pipes as may be reasonable to convey gas from the main or distributing pipe to the building or lamp post as the case may be, a reasonable and uniform price to be fixed by said company.

Section 9. Delinquent consumers.—Said gas company shall have the right, at their discretion, to remove the gas meter and cut off the supply of gas from any consumer who shall refuse or fail to pay the proper bills of said company for gas consumed within such a time as the said company may fix for the payment of the same, but such cutting off of the gas from such consumer shall not prevent the said company from suing and recovering such unpaid bill or bills in any court having jurisdiction thereof.

Section 10. Right to Incorporate.—Said George Lucas, M. G. Elmore and W. W. Hall may accept this franchise and erect and maintain said works as individuals, company, a private company or copartnership with the right to admit and receive therein such other person or persons as they may see proper, or may at their discretion become incorporated under the laws of the Hawaiian Islands and convey or transfer to such corporation the franchise hereby granted.

Section 11. This franchise shall vest in said George Lucas, M. G. Elmore and W. W. Hall, their successors, assigns and assignee, the right to construct and maintain gas works in the City of Honolulu, for the term of twenty-five years from and after the passage of this Act, provided that they, their associates or assigns shall within nine months from and after the passage thereof, commence work thereon, and complete the same within eighteen months thereafter; and a failure to comply with the provisions of this section shall operate as a forfeiture of this franchise, but no other penalty, forfeiture or liability on the part of this company shall be incurred for said failure.

The committee rose and reported progress and asked to sit again Thursday.

The report was adopted and the Assembly adjourned at 5:25 p. m.
