Faith.

Lord, temper thou my wit for the sheep
What are we to do (billing, moaning,
Bleating) but to wait (baaing) for the blow,
Like the ewe, the lamb, the wether?
Or, if we be not quite so stupid as all that,
Why, we can but try to do some good
To the lambs, the ewes, the wethers?

If a man has faith as he ought,
It has grown so by some path
Not to be found by the reasoning
Which is all we have to go by.
He has made a road at the mountains,
As the mountains I move away.
—Chicago Herald.

Miscellaneous.

NEW YORK, Sept. 14.—The *Post's* Washington special says that: The policy of the Treasury has been to show the uselessness of the silver dollar. The experiments are rapidly showing that it is an impracticable coin.

CLEVELAND, Sept. 14.—This afternoon at 3 o'clock John L. Sullivan through his attorney, pleaded guilty to having engaged in a game of baseball on Sunday at Brooklyn Park. He was fined $1 and costs, amounting in all to $15.90. The lawyer paid the amount. Sullivan received $800 for his work on Sunday.

NEW YORK, Sept. 14.—A *Herald* Washington special says: It is probable that some action will be taken by the Knights of Labor soon in regard to the rapidly increasing number of Chinese laundries which have been started here in past years.

PANAMA, Sept. 14.—Benjamin Ruiz, Charles Abrahams and other of Prestan's lieutenants have been captured and placed in prison here. An extra number of the official *Gazette* has been published by order of General Montoya, announcing the complete subjection of the rebels and the restoration of peace throughout the republic.

PANAMA, Sept. 14.—The *Star and Herald* says: We shall see in the month of October, the first section of the Panama Canal in its length, breadth and depth. The first section will comprise the water way from Colon to near Tiger Hill, a distance of twelve kilometers.

Bishop Taylor's missionary colony on the west colony of Africa is doing well.

The Porte has refused Ismail Pasha, the ex-Khedive of Egypt, permission to visit Constantinople.

It is reported that members of the Massaraco expedition to Central Africa have been massacred.

The Georgia Commission of Agriculture reports the cotton crops four points below its condition in August.

The Russian Government has made a grant of £10,000 for a new house at Askabad for General Komaroff.

It is reported at Washington that Blaine wants to receive the Republican nomination for Governor of Maine.

Herr Bitters, formerly Prussian Minister of Finance, and author of numerous musical works, died suddenly.

The new Russo-Afghan Frontier Commission will meet at Zulfikar, November next. It is estimated that it will not conclude its labors until August, 1886.

A. M. Gibson has written and A. M. Gottleberger of New York will publish, October 1st, under the title of "A Political Crime," a history of the alleged frauds of 1876.

Advices from Tamatav say that the Italian Consul, having failed in his meditation between the Hovas and the French, the latter are resuming hostilities and have bombarded Marunjara.

The cable companies have reduced the rate from England to Australia to 8 shillings 8 pence per word for ordinary messages and 7 shillings 8 pence for press messages, and to Bombay and Madras 7 shillings 6 pence for business messages.

MADRID, Sept. 14.—Reports regarding the cholera for the week ending last night show that the disease is stationary in the province of Santander and in all the other provinces there has been a steady decrease.

PARIS, Sept. 14.—General de Courcy, commanding the French troops in Anam, telegraphs to day to the Minister of War that Chamneng has been proclaimed new King of Anam, and ordered the royal salute to-day. A salute of twenty-one guns was fired in honor of the event, and the Anamite flag was hoisted over the palace and various public buildings. Chamneng will be crowned on the 19th inst. There is much mortality among the natives owing to the prevalence of cholera.

PARIS, Sept. 14.—The latest advices from Lima give details of the battle at Canta, on the 16th ult. On the morning of that day the detachment of Government troops occupying the town of Canta, sixty miles from Lima, in a valley running parallel to that of Rimac, was surprised by a division of General Caceres' army, and after a sharp action of several hours was forced to fly in disorder.

Status of "Man's Truest Friend."

Few persons realize the comparative worth of the dog. There is even a hazy notion in most minds that he is to be classed with the horse, the cow, the sheep, and the gentle swine; that he is entitled to lift up his voice with the morn-salluting cock, or to roam with the mouse-disturbing cat, or with that patient pair, the harnessed billy and the lachrymose nanny-goat.* Hence an enormous revenue is required for his support. For example, we are told that "the dogs in Iowa eat enough annually to feed a hundred thousand workmen and cost the State $3,000,000, or double the education of all its children." I should like to know how many of these costly and pampered creatures earn their salt. They toil not, they spin not, they contribute neither food nor wool nor "power." There are extreme cases where they have proved serviceable for defense and special purposes. The Laplanders are forced to make shift with them in default of better draught animals. There was a time when the dogs of St. Bernard were a great convenience to the philanthropic monks, who, by the way, never received one-hundredth part of the credit which has been lavished by the sentimentalists upon their half automaton assistants. The slaughterers have found the race still more serviceable for their ends. On great moors and lonely mountains, and in the exigencies of frontier life, the shepherd, the hunter, and the pioneer have turned them to account.

"By a recent decision of the Supreme Court of Maine, the Judges standing six to one, it was decided that dogs are not to be classed with domestic animals. The learned Court affirms "that they retain in great measure their vicious habits, furnish no support to the family, add nothing, in a legal sense, to the wealth of the community, and are not investigated to property of a debtor or dead man's estate, or as liable to taxation, except under a special provision of the statute; that when kept it is for pleasure, or, if any usefulness is obtained from them, it is founded upon the ferocity natural to them, by which they are made to serve as a watch or for hunting; and that, because of his attachment to his master, from which arises a well-founded expectation of his return when lost, the law gives the owner the right of reclamation; the owner in all other respects has only that qualified property in them which he may have in wild animals generally.—*Appleton's Magazine.*

* The proximity liquor law of Kansas requires a statement by the purchaser and the druggist for every portion of rum sold, and this document must be filed with a county judge. The fee for his Honor is five cents in every instance, and some of the judges enjoy handsome incomes from this source.

A Nantucket old settler explaining the scarcity of Nantucket girls says: "We give them a good education and it's all we have to give. Then they go off to find something to do, get married and settle down elsewhere." Nantucket, the ancient Argos, has been fertile of good men and women, too.
