WASHINGTON LETTER.

From our regular correspondent.

WASHINGTON, D. C., Nov. 15, 1895.

Congressman Milliken, of Maine has said in an interview recently that he would like to see Mr. Dingley elected President of the United States rather than any other man, but, he says, that it is out of the question for him to be so. However, he thinks Mr. Reed stands well now. Then we have new suggestions from time to time as to the possibilities for the presidency, and if all the selections were put together it would make rather a long and varied list. He also says that Aaron Cummings of New York is a good fellow, and a broad gauged, able, patriotic man, and that he is in the democratic party of New York city as Lee was in Sufjon, trying to save it, and probably, like Lee, he'll find that he can't do it, and will then run away.

When the next Congress meets here there will be many changes. Men who have for years held their seat there will have stepped out and I suppose, in the course of time each will be preparing a book as to their experience while there which would certainly be interesting. It is the general opinion that the tariff will not be touched upon to a great extent for fear that during a democratic administration it would be impossible to make very much of a change in it.

Anarchy now rules Turkey. The Armenians are in revolt in some of the Asiatic Pashalics. Forty bombs were discovered with which to blow up the barracks and government offices. Greece is anxious to take a hand in the Naval demonstration against the Sultan. Our agents to Turkey have been ordered back to Washington. Robert S. Chilton and Dulany Hunter, of the State Department, who were sent by this Government to establish new United States consulates at Erzeroum and Kharput, in Armenia have been recalled by Secretary Olney and it is believed that the project on which they were dispatched will be abandoned. Officials of the State Department are exceedingly reticent about the matter, and will admit nothing further than that Chilton and Hunter had informed the department of their return to Constantinople

The society craze in the East at present is the Horse Show in New York. This is an annual show which takes place at Madison Square Garden where all society gathers to display its gowns and for the purpose of promenading. The Duke and Duchess of Marlborough are at the present time the observed of all observers. It will be remembered that they were but recently married and one more of our greatest heiresses is now the wife of an English "nobleman".

Hymen has been very busy, and will continue so in this city for the next two or three weeks, as during that time there will occur here seventeen weddings.

Gen. Russell Alger, of Michigan has denied the charge made against him in the second edition of Senator Sherman's book. The General says that the matter contained in the book made him a scape goat. He explains his position in the Harrison convention and says the Senator was deceived. That no money was used to win southern delegates, and he is at a loss to account for the charges.

THANKSGIVING PROCLAMATION.

The following Thanksgiving proclamation was issued by Governor Renfrow last week:

Thankful to Almighty God for His manifold great blessings vouchsafed to the people of the Territory of Oklahoma, and for His loving kindness and tender mercy so richly bestowed upon our nation, and for the manifestation of His grace in the hearts of the people, for the early seed-time and the glad fruition of the Harvest, and in accordance with the proclamation of the President of the United States:

I, William C. Renfrow, governor of the territory of Oklahoma, do hereby appoint and set apart Thursday, the 28th day of November, 1895, as a day of thanksgiving and prayer to be observed by all people. On that day, let us suspend our usual pursuits and assemble at our customary places of worship and render unto God thanks and adoration for the peace and prosperity with which our land has been blessed, for bountiful rains and sufficient harvests, for health and happiness, and freedom from pestilence, for the blessings of liberty and for innumberable other blessings so freely showered upon us. May the poor and needy by deeds of charity be shown the good will we feel toward all mankind.

In testimony whereof, I have hereunto set my hand and caused to be affixed the great seal of the territory of Oklahoma.

Done at Guthrie, O. T., this 12th day of November, in the year of our Lord, one thousand eight hundred and ninety-five, and of the independence of the United States, the one hundred and twentieth. By the governor,

WILLIAM C. RENFROW.

Fast Trains.

On Tuesday, Dec. 29th, the Santa Fe Route will inaugurate a fast limited train service between Chicago and San Francisco. These trains will be vestibuled throughout and will have the finest equipment used on any road between Chicago and the Pacific Coast, consisting of one baggage car, one chair car, one dining car and two Pullman sleepers. The schedule time is forty-eight miles per hour, making the run from Chicago to San Francisco in the remarkably short time of seventy-two hours. No form of free transportation, clergy tickets excepting, to and from Pacific coast points, second class tickets nor any tickets covered by special permits will be accepted for transportation. It is the desire of the management to run these trains to accomodate and increase our fast class California travel. For further information call on the local agent or address Geo. T. Nicolson, G. P. & T. A., Chicago, Ill.

Notice To Stockmen.

The former instructions published in this paper requiring permit from inspectors before cattle could be accepted for shipment have been cancelled. Hereafter cattle coming from below the 37th parallel of latitude will be accepted for shipment when accompanied by sworn affidavit by owner witnessed by two responsible parties acquainted with facts, that cattle have not been exposed to any contagious disease or fever in any manner whatever. Such affidavit can be obtained of a Notary Public, Justice of Peace or other officers of equal authority.

Late Literary News.

Rudyard Kipling makes his last appearance as a teller of Jungle Stories in The Cosmopolitan for October. "Mowgli Leaves the Jungle Forever," and the curtain is drawn over one of the most charming conceits in literature. In the same number in which Mowgli makes his final adieu, appears for the first time before an American audience, the now famed Richard Le Gallienne in a plea for religion under the title of "The Greatness of Man." A very important paper on "State Universities" is contributed to this number by Professor Ely. And among the story-tellers are Hopkinson Smith and Boyesen. No more beautiful work has ever appeared in any magazine than the marvelous illustrations of Cobrinsky used as a frontispiece and accompanying the prose poem by Mrs. Cardozo Drake—who is said to be Kipling's favorite artist for his Jungle Stories—Carter Beard, Osterlind, Deaman, and Kemble, are among those who contribute a wealth of illustration to this number. The Cosmopolitan announces that it will begin the publication in January of The Agriculturist's Illustrated Magazine, to be fully the equal of The Cosmopolitan, but containing from sixteen to twenty pages by the ablest agricultural writers of the world, upon subjects of importance to the agriculturist, horticulturist, and stock-growing interests.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.
