AMERICAN.

LOS ANGELES, Aug. 27.—The nomination of Swift is now regarded by the Republicans here as the very wisest thing that could have been done.

The following is the Republican State ticket as nominated by the convention:

For Governor, John F Swift of San Francisco.

Lieutenant-Governor, R. H. Waterman of San Bernardino.

Secretary of State, Walter S. Moore of Los Angeles.

Controller, J. E. Denny of Tulare.

Treasurer, Jacob Neff of Placer.

Attorney-General, W. H. H. Hart of San Francisco.

Surveyor-General, Theodore Reichert of San Francisco.

Superintendent of Public Instruction, Ira G. Hoitt of San Francisco.

Justices of the Supreme Court, A. Van R. Patterson of San Joaquin, Thomas V. McFarland of Sacramento, Noble Hamilton of Alameda.

Clerk of Supreme Court, James A. Orr of Plumas.

Railroad Commissioners, A. Abbott of Sacramento, James W. Rea of Santa Clara.

Congressmen, second district, J. C. Campbell; third district, Joseph McKenna.

The result for Governor was: Total votes cast, 455; necessary to choice, 228. Swift received 335, Dimond 74, Reed 20 and Hartson 36.

NEW YORK, Aug. 27.—The strike of the Broadway street-car men is settled and the men will all go back to work on the terms that were offered them on Tuesday by President Thompson, and which were refused at that time.

NEW YORK, Aug. 28.—The *World's* Barrington (N. S.) special says that two Canadian tide waiters attempted to seize the schooner *Legal Tender* in Barrington bay yesterday for an alleged violation of the law. The captain refused to surrender and put to sea with the officers on board. To avoid being thrown overboard or taking a trip to the United States, the luckless Canadians finally took to their boat and let the Yankee skipper go.

SAN FRANCISCO, Aug. 27.—It turns out that the people of Bulgaria are not inclined to acquiesce in the Russian *coup d'etat* by which Prince Alexander was dethroned. A counter revolution is in full progress, and in such transactions the operators who fail are likely to lose, not only the game, but their heads likewise.

NEW YORK, August 27th.—Professor Tuck gave a public exhibition of his submarine torpedo-boat *Peacemaker* yesterday in the North River, about 3.30 p. m. The process of filling her receiver with caustic soda was begun. The soda had been saturated with water, and in a few minutes the steam-gauge showed 100 pounds pressure. Compressed air was then forced into the pipes and placed so that small quantities can be released from time to time, as the atmosphere in the hold grows foul. The pilot took his place amidships, with his head inside the windowed dome, which rises two feet above the deck. The engineer followed him and firmly screwed down the manhole from the inside. The vessel started up the river at the rate of six miles an hour. By the use of lateral rudders she sank below the surface almost immediately and appeared again about half a mile up the river, after a submersion of five minutes. On her second trip the *Peacemaker* made the longest dive attempted, from one and a half to two miles, passing under two steamers and rising within ten feet of a canal boat.

General Paine, the owner of the *Mayflower*, says he will sail her himself in the race against the *Galatea*. The New York *Tribune* says that Paine may be a good amateur sailor, but it won't do to trust the defence of the Americas Cup to him.

SAN FRANCISCO, Aug. 27th:—The defalcation of Robert Creighton while acting as cashier of the Odd Fellows' Bank, about two years ago, threw consternation among the officials and depositors of that institution. It will therefore be pleasant for those who suffered by his shortages to learn that he is in custody in this city. He wrote to the Directors of the bank from the Hawaiian islands saying that he had destroyed the missing book. After a stay of nearly two years upon the islands he became tired of his residence there, and for reasons best known to himself returned to this city, arriving about two weeks ago.

SAN FRANCISCO, Aug. 27th:—The whaling bark *Thomas Pope*, Capt. Fisher, arrived yesterday from the Arctic with 7,000 lbs. of bone but no oil. On the voyage over, John Hageman, late steward of the steam whaler *Lagrassie*, died of consumption and was buried at sea. There is no news of the missing whaler *Amethyst* and Captain Fisher says it is the general opinion of shipmasters North that both vessel and crew have been lost. Capt. Healy of the Revenue cutter *Bear* has coasted along both sides of the Arctic and has inquired of the natives, who have heard nothing.

NEW YORK, Aug. 20.—The Foreign Mails Office of the Postoffice Department at Washington has perfected an arrangement with the Pacific Mail Steamship Company to carry the United States mail to China, Japan and Panama, sailing from New York, the compensation to be the sea and island postage on the mails conveyed. The new arrangements will go into effect on September 1st.

WASHINGTON, Aug. 17.—Secretary Bayard received a dispatch from the United States Consul at Port Stanley, Falkland Islands, giving an account of a slip of peat which occurred on the night of June 2d, causing a loss of life and great destruction to property, extending the entire length of the south shore of the harbor and at a slight elevation.

OTTAWA, Aug. 22.—In consequence of the outbreak of pleuro-pneumonia among the cattle in quarantine at Quebec, an order in the Council has been passed prohibiting the importation of live cattle from infected counties in England.

CHICAGO, Aug. 24.—Patson Davies, Burke's backer, in reply to Dempsey, says Jack Burke has accepted Dempsey's offer to box him eight rounds, Queensbury rules, small soft gloves, the winner to take all the gate receipts, in San Francisco, at any time Dempsey may name.

SAN FRANCISCO, Aug. 20.—The following report of the experiments made by Lieutenant J. W. Graydon with firing shells charged with dynamite has been made by the Board of Officers detailed from the Presidio:

PRESIDIO, S. F., Cal., August 13, 1886.

Assistant Adjutant-General, Headquarters Department of California—SIR: We, the undersigned Board of officers convened by Paragraph 2, Special Orders No. 67, Headquarters Department of California, dated August 7, 1886, have the honor to report that we have witnessed the result of 52 shells filled with commercial dynamite fired from the service 4½-inch siege gun, and that they were fired with perfect safety to the gun. Every shell that struck the cliff or bank, fired, with the exception of two—the result of which was lost, on account of fog—exploded by concussion, no fuse being required for the explosion. In short, it is the opinion of the Board that Lieutenant J. W. Graydon has solved the problem of firing dynamite with perfect safety to the gun, and at the same time making explosion come upon impact of the projectile. For pending the completion of the full and extended experiments this Board unanimously recommend further experiments, to be continued with the 8 inch rifle (converted) and with the 15-inch smooth bore.

J. W. DILLENBACK, Capt. 1st Artillery, President.
HY. L. HARRIS, First Lieut. Artillery.
A. STARKE, Second Lieut. Artillery, Recorder.

ENGLISH.

LONDON, August 20.—Randolph Churchill, after taunting Gladstone on the readiness to coercion which he said the ex-Premier had in former times displayed, stated that the Government had come to the conclusion that the adoption of coercive measures for Ireland would be unwise. They hoped prized to adopt the judicial rents fixed by the Land Commissioners, as they were considered too high for all present purposes, and the Ministry would take their stand on the Land Act of 1881 as a final settlement. At the same time, the Government had decided to appoint a royal commission to make a careful inquiry during the ensuing autumn and winter into the working of the existing land system in Ireland. The Government did not intend to deal with the land question by making any reduction in rents that was contrary to their policy. The Government also proposed to utilize the autumn and winter by procuring the best information obtainable regarding Irish industries. They proposed to appoint a small commission of three gentlemen of position and experience, who would be able to give conclusive information to the Government on such points as the creation of a deep-sea fishery on the west coast, harbors of refuge, extension of railways, drainage, etc. The Government intends to devote the recess to the careful consideration of the question of local but when Parliament re-assembled in February, they would be prepared to submit definite proposals on that most important of all questions. In conclusion, he said the Government took the verdict of the country in favor of maintaining the union as final and inseparable, and upon that verdict they based their policy, and by that policy they both as a Government and a party would stand or fall.

LONDON, August 27th.—England has suggested to the Powers that it would be unwise to inflict further injury upon Prince Alexander by indorsing the conspiracy or any of the acts of the evildoers at Sophia, pointing out that Alexander has shown himself to be in accord with a vast majority of his subjects, and therefore it would be not only unfair, but highly impolitic on the part of the Powers to interfere with his reinstatement.

LONDON, August 27.—All the stake money in the international sculling sweepstakes has been deposited. The prizes will be: First, £1200; second, £800; third and fourth, £112,10 shillings expenses, and £50 expenses to those beaten in the first round. The drawings for the trial heats on Monday took place to-day. The drawings for the trial heats of Tuesday will take place on Monday. The final race will occur on Wednesday, and will be rowed over the championship course from Putney to Mortland. The stake money in the match between Beach and Ross has been deposited.

LONDON, August 27th.—Parnell's amendment was rejected by a vote of 304 to 181. Hartington, Chamberlain and the Unionists were supported by the Government. William Vernon Harcourt abstained from voting and Mr. Morley voted with the minority. The announcement of the result caused little excitement.

DUBLIN, August 26th.—Five hundred policemen and troops have left Birr to assist at the eviction on the estate of Marquis of Clanrilard in Galway. The Birr branch of the National League has given notice to tradesmen not to supply the evictors with provisions or means of conveyance.

LONDON, August 26th.—The Bank of England has advanced its rate of discount from 2½ to 3½ per cent.

GLASGOW, August 26th.—The present condition of the shipping trade is the worst on record. Forty-four steamers and thirty-three sailing vessels are rotting at their docks, having been idle some two years. This state of affairs it attributed to low freights and the general depression in business.

Rioting in Wales over rents has occurred, but nothing serious took place.

LONDON, August 23d.—Pursuant to instructions from the War Office, various Generals of Army Districts have ordered volunteers to practice picket duty and be in readiness to quell rioting during the ensuing Autumn manoeuvre.

LIVERPOOL, August 23d.—A special despatch to the *Post* from London states that Sir Michael Hicks Beach, Chief Secretary of Ireland, regards the task in Ireland with serious misgiving and has become less sanguine about the success of any Irish policy based on "firmness and decision."

London *Court and Society* says: The Duke of Newcastle intends to make a two years' tour around the world. He will leave England late in September for the United States, and, after visiting them thoroughly, will proceed to San Francisco and thence to Japan.

EUROPEAN.

PARIS, August 27th.—The recall of the French Embassador at the Vatican is regarded here as the first step towards the disestablishment and disendowment of the Church in France, which, it is thought, will be the result of the Pope's refusal to recede from the position he has taken in relation to China.

LONDON, August 26th.—Sir J. E. Gorst, Under Secretary for India, states that the loss of life caused by the breaking of the Irrawaddy river's embankment in Mandalay, Burmah, was only twenty-five. No Europeans had been drowned.

LONDON, August 23rd.—The latest advices from Japan state that the rioting between the Chinese and Japanese at Nagasaki was caused by a fight between eighteen Chinese sailors and the Japanese police. It was a case simply of disorderly conduct on the part of the sailors, and an attempt to suppress it by the police. Eight men were killed and three hundred wounded, most of the injured being Chinese.

PARIS, August 16th.—General Boulanger, Minister of War, has prohibited the publication of a pamphlet giving his biography, and referring to the scandal with which his name was connected.

LONDON, August 16th.—Central Russia, especially Moscow district, has been devastated by tornadoes and waterspouts. Many buildings and bridges, and whole crops have been destroyed.

LONDON, August 17th.—The *Pall Mall Gazette* says it is glad the Afghan Commission has been recalled, as it will hasten a settlement of the question of the ownership of Khoosab, which Russia claims by direct negotiations between London and St. Petersburg.

LEGISLATIVE ASSEMBLY.

SESSION OF 1886.

Continued from 2d page.

Representative Hayselden thought some arrangement could be made whereby the fence would be removed. The Park is looked upon as public. The fence ought to be taken down. Hundreds of people would like to go out and see the races, but could not afford the price of admission.

Representative Brown said the Park was not public property; it belonged to a corporation. The expenses attached to horseracing fall on a few persons.

Hon. A. S. Cleghorn moved as an amendment that the fence be taken down with the exception of an eight of a mile on either side of the judges' stand. That would give the general public a chance to see the races.

The item passed as above printed, at $5,000, on the condition that the fence be taken down with the exception of an eighth of a mile on either side of the judges' stand.

Water Supply, Waiohinu	$5,000 00
Wharf, Waimea, Kauai	2,000 00
Wharf, Waianae, Oahu	2,000 00
Extension Queen street	6,000 00

The Committee now rose and after reforming into Assembly the Hon. S. G. Wilder reported back the work forwarded. Report approved.

Representative Richardson offered the following resolution:

"WHEREAS, The Secretary of this Assembly, E. A. Pierce, refused to give the honorable member from Wailuku, Geo. E. Richardson, a draft for $61, balance due him for pay and mileage as a Representative of the district of Wailuku to the Legislative Assembly of 1885, therefore, be it

RESOLVED, That the Committee on Accounts make a report in three days from date how the appropriation for the expenses of this Assembly have been spent." Adopted.

Representative Hayselden offered the following resolution:

"RESOLVED, That the several committees to whom have been referred various items in the Appropriation bill do report to this Assembly on said items before 12 o'clock noon on Friday next, the 3d instant." Adopted.

The Assembly now, 4.30 o'clock adjourned until 10 a. m. on the next day.

NINETY-SECOND DAY.

FRIDAY, Sept. 3.

The Assembly convened at the usual hour, and, after prayer by the Chaplain, the minutes of the previous meeting were read and approved.

Representative Castle, from a special committee having the consideration of an item relating to Road Damages, presented a report signed by himself, the Minister of the Interior, and Rep. Brown, as follows:

"The Select Committee, to which was referred an item of $100,000, proposed to be inserted in the Appropriation Bill for road damages, respectfully report as follows:

"The amount of damages covered by the new street opening and widening in the Honolulu burnt district will amount to not far from $210,000. That required for other openings and widenings of streets, and for new streets, will amount to from $50,000 to $100,000. Of course a considerable portion of this, perhaps a half or two-thirds, will come back in the shape of assessments for betterments, which will appear as a Government realization.

"Your committee, therefore, recommend the insertion of an item of $275,000 for road damages." Report adopted.

Representative Aholo, from the Finance Committee, presented a report signed by himself and Reps. Dickey and Hayselden, on a petition from Captain Meek and others, praying that the sum of $150 be paid them—balance of salary as guards at Oahu Jail. The committee, "after careful investigation, recommend that the amount asked for be not paid, and that the petition be indefinitely postponed." Report approved.

The same member, from the same committee, presented a majority report signed by himself and Rep. Hayselden, relative to an item of $7,423 12 claimed by George Lucas for work done on the Palace, recommending that the same be paid.

Representative Dole, for Rep. Dickey of the same committee, presented a minority report, as follows:

"The committee find that the said work was done in 1882 and 1883 by request of His Majesty. Apparently a great part of the work was done on the Palace, and a part on boats and oars. As the person performing the work did so at the request of His Majesty without the approval of one of his Ministers, as required by Article 42 of the Constitution, he has no legal claim against the Government, and is therefore not entitled to interest on his bill. The committee recommend the bill be referred to His Excellency the Minister of the Interior, who can ascertain whether the same is just; and, if it is so, can pay it from the appropriation—repairs of Palace and repairs of Government buildings, contingent." On motion, both reports were laid on the table for consideration, with the petition.

Representative Castle from a select committee having consideration of a bill relating to private ways and water rights presented the following report signed by himself and Rep's. Keau, Dole and Hon. J. I. Dowsett, viz:

"The select committee to which was referred a bill entitled, "An Act to amend and consolidate the law relating to commissioners of private ways and water rights," respectfully report as follows:

The bill seems to have been drawn with care, and the effect, if it becomes law will be to simplify and render less expensive the proceedings relative to ways and water rights.

A bill similar to this passed the Legislative Assembly at its last session, but failed to receive the Royal assent. The probably cause of objection has been removed.

If this bill becomes law it will do away with some of the uncertainty at present existing regarding decisions of the commissioners. There can be no doubt that all such decisions should respect ancient rights, but at present, under the wording of the law—that such decisions shall be just and equitable—commissioners sometimes undertake to adjust questions arising between owners of rights of way or water in such a way as seems equitable, but without regard to questions of ancient right. These decisions are always overruled by the Appellate Court, but the necessity of going to an upper Court involves an expense which ought not to be laid upon poor suitors. The present bill does away with the preadventure, by directing that decisions shall respect ancient rights.

Upon the whole matter, the committee recommend that the bill be passed." Report received and tabled for consideration with the bill.

Representative Aholo, from the Finance Committee presented a report relative to an item of $7,608.95 asked for to pay the expenses connected with the funeral of Queen Dowager Emma recommending that the amount asked for be inserted in the Appropriation Bill. This report was signed by Rep's Aholo and Hayselden.

Representative Dickey presented the following report, signed by himself, on the same subject, viz:

"That Her late Majesty, in her will, requested that her funeral expenses be paid out of her estate. The executors had no right to ask for this item. The Privy Council voted a sum, which would have been sufficient, if judiciously spent. The committee find the estate is very wealthy, and able to pay the item. If it was passed, it would only swell the account of the residuary legatee. The committee recommend the will of Her Majesty be respected, and the item not inserted." Both reports were tabled for consideration with the Appropriation Bill.

Representative Thurston from a Special Committee having consideration of an item of $2,000 for pay of Japanese and Portuguese interpreters, presented a report in which they recommend that the item be not inserted in the Appropriation Bill. Report approved.

Further time was given the Committee on Ramie Culture.

Representative Kalua, from the Committee on Public Lands, presented a report favoring the inserting of an item of $50 in the Appropriation bill for payment of road damages to one S. Kaiu, of Kapaa, Kauai. Report adopted.

Representative Kalua, by request, was granted until Monday next to make report on the Flowerdew claim for damages.

The Attorney-General offered the following resolution:

"That Monday, September 6, 1886, be, and the same is hereby declared to be the last day upon which new business will be received by this Assembly." Approved.

Representative Castle asked for indefinite leave of absence for Hon. G. W. Macfarlane, who had gone forward by the previous steamer to San Francisco. Granted.

On motion of Representative Castle, the bill relating to private ways and water rights was taken from the table and placed on the special order of the day, after the Pension bills.

The Assembly now resolved into Committee of of the Whole, Hon. J. O. Dominis in the chair and proceeded to consider items of the Appropriation Bill.

On motion of Rep. Castle the following item was inserted under the Interior Department, viz:

Road Damages	$ 275 00

The Attorney General proposed the introduction of two items of relief:

For relief of Marshal Soper	$ 262 25
For relief of S. F. Chillingworth	100 20

A desultory argument ensued brought to a close by Rep. Thurston suggesting a recess on account of the heat.

Representative Dole moved that the Secretary be instructed to furnish each member with a fan.

Representative Dickey moved that each member be provided with a parasol to go down town and get his lunch.

Representative Hayselden moved that each member be provided with a girl to fan him.

At 11.58 the committee took recess until 1:30 o'clock.

AFTERNOON.

The committee reconvened at about fifteen minutes after the hour set for reassembling, and immediately thereupon the Minister of Interior moved that an item be inserted of "steam launch, $5,000." In support of the item the Minister stated that the tug *Pele* was in bad order, and would not be able to be engaged in towing or other work for some months. The proposed launch was to take the place of the *Pele*, the tug *Elen* being required for other duties. His predecessor had obtained plans from the Risdon Iron Works, and by those he was enabled to state that the launch would cost, in round numbers, about $5,000 landed here.

After some slight objection, the item passed thus:

Purchase of Steam Launch	$5,000

On motion, the vote on the item relating to "Funeral expenses Queen Emma, $7,608 95," was reconsidered, and, on motion of Rep. Thurston, the item was struck out.

A new item, "Pay of Second Messenger, $1,000," was proposed by Rep. Keau, and although the Minister of Interior stated that he would be bothered where to employ another messenger yet on second thought he agreed with the introducer and the item was inserted,

Pay of Second Messenger	$1,000

The following items were placed in the Bill:

DEPARTMENT OF EDUCATION.	
Thomas P. Spencer, translating	$ 250 00
Hon. A. Fornander acct. expenses of book	2,500 00
Repairs and Improvements, Female Seminaries	15,000 00
Purchase Current Publications for Government Library	150 00
INTERIOR DEPARTMENT.	
S. Kaiu, road damages	$ 50 00
Guards to Gov't buildings	10,000 00

(This last item was transferred from the Department of Foreign Affairs.)

On motion the Committee now rose and progress was reported by the chairman, the report being approved.

On motion of Rep. Thurston it was decided that a schedule of the Appropriation Bill as now passed, on its second reading, should be printed.

An attempt was made to adjourn, but the House was kept to business by the President severing the lock of a tie vote by voting against adjournment.

Representative Brown, under suspension of the rules, gave notice of a bill to amend section 247 of the Civil Code, relating to the branding of neat cattle.

On motion of Rep. Hayselden, the bill relating to the prevention of collisions at sea was taken from the table and after being read a second time by title, was referred to the committee on Commerce.

Representative Dole, under suspension of the rules, gave notice of the following bills: To prevent the borrowing of money on account of the Government without the authorization of the Legislature; to prevent the sale of any Government property devoted to public uses without the authority of the Legislature; to regulate voting at elections of Representatives; to provide for the disposition of moneys received under the statute relating to Postal Savings Banks.

The Attorney-General now moved an adjournment until until 10 a. m. the next day, the vote on which resulted in a tie.

The President laughingly remarked that on the previous tie he had cast his vote against the adjournment; it was now only fair for him to vote in favor, which he did, and the Assembly, at 3:30, adjourned until 10 a. m. of the next day.

NINETY-THIRD DAY.

SATURDAY, Sept. 4th.

The Assembly convened this morning pursuant to adjournment from the previous day. After prayer by the Chaplain the minutes of the previous meeting were read and approved.

After the transaction of minor business, Rep. Brown read for the first time a bill to amend Section 247 of the Civil Code relating to the branding of neat cattle. Read a second time by title and referred to the Judiciary committee.

Representative Dole read for the first time a bill for the prevention of obtaining moneys by His Majesty's Ministers on account of the Government, without Legislative sanction. Read a second time by title and referred to the Judiciary committee.

Representative Castle questioned the President of the Board of Health [Minister of Interior] relative to the precautions taken to prevent the introduction of cholera from the infected ports of Japan.

The Minister of Interior as President of the Board of Health, stated that regulations were in force to prevent the giving of pratique to any vessel arriving from Asiatic ports, without a thorough inspection. Precautions had been especially taken against allowing any vessel from Japan to enter the harbor without proper quarantine, and care had already been taken to prevent the introduction of cholera or any other epidemic disease.

Representative Brown, from a special committee, presented the following report, signed by himself, the Attorney General and Reps. Kauluhou, Castle and Thurston, viz: "Your select committee, to whom was referred a bill entitled 'An Act relating to the property of married women,' introduced by Hon. L. A. Thurston, report that they have considered the same, and recommend that it pass, with the following amendment, viz: by adding to line second, Section 7, the words 'for necessaries for herself or family.' Your committee have also considered 'An Act to amend Section 1286 of the Civil Code,' introduced by Hon. J. K. Nahale, which was referred to them. The bills are for the purpose of increasing the privileges of married women, but the points contained in the last mentioned are covered by the first bill. For this reason your committee recommend that it be laid upon the table."

Report adopted, and the bill introduced by Rep. Thurston was set for third reading on the 7th instant.

The Attorney General gave notice of intention to introduce a bill providing for the conferring the rights of Hawaiian citizenship on A. Hoffnung, Esq., of London, England.

Representative Castle gave notice of intention to introduce a bill to regulate the testing and storage of explosive oils.

The order of the day was now moved, and the consideration of the bill relating to mechanics and material men was taken up, on third reading.

Representative Aholo moved that the bill be indefinitely postponed; Reps. Castle and Thurston speaking in opposition to the motion. Before a vote was reached the Assembly, on motion of Rep. Hayselden, adjourned at noon until 10 a. m. on Monday, the 6th instant.

Saddle & Harness
MANUFACTURER,
92 King Street, Honolulu,
Bell Telephone No. 111.
Begs to remind his old Friends and Patrons in Honolulu and the Hawaiian Islands, that notwithstanding the depression of trade and all the annoyances that the consumer has to submit to by the introduction of CHEAP IMPORTED HARNESS and machine-made work, he is still able to supply to his customers as heretofore, a FIRST-CLASS
Hand-Made Harness!
Guaranteed to give Satisfaction, at a fair remunerative price. He uses only the Best Materials, in
Gold, Silver, Nickel and Rubber Mountings
And every article is made by Experienced Workmen under his personal supervision.
In ordering the above Harness the measure of the horse about the neck and girth should be sent to insure entire satisfaction as to fit and durability.
☞ If any article does not please the buyer it shall be replaced by new goods or the cash returned.
HE IMPORTS DIRECT
Sydney Saddles
Especially made to suit the Islands.
Double Plate, Spring Bars and every improvement, and all Saddles purchased of him will be restuffed within six months free of charge. He desires to inform Planters, Teamsters and others that
Cart, Wagon and Plow Harness!
Can be supplied here with better Workmanship and Material and guarantee to give greater satisfaction than anything that can be imported from the Coast.
In ordering to secure a good fit, send size of animal.
A FULL LINE OF
Whips, Spurs, Sponges, Chamios, Combs
Brushes, and every necessary for Stable use always on hand.
☞ What he sells he will warrant as represented, and would sooner lose a sale than misrepresent an article
[1127 3m]
