Proposals.

OFFICE OF ASSISTANT-COMMISSARY-GENERAL OF SUBSISTENCE, No. 4 State-st., New-York, April 29, 1863.

ARMY SUPPLIES.—SEALED PROPOSALS will be received by the undersigned, at this office, until 4 o'clock p. m., on TUESDAY, the 12th of May, 1863, for furnishing DESICCATED and COMPRESSED MIXED VEGETABLES, for issue to the United States army for twelve months from the first of November next, at the rate of one hundred and thirty-five thousand pounds per month.

The ingredients of the mixed vegetables furnished under the contracts of the current year are as follows, viz.: To each one hundred pounds of the mixed vegetables, twenty pounds of potatoes, twenty-two pounds of white turnips, twenty-two pounds of carrots, ten pounds of cabbage, ten pounds of string beans, five pounds of tomatoes, one pound of celery or parsley, and five pounds of rice. As the mixture can undoubtedly be improved by diminishing the quantity of some of the coarser vegetables and increasing some of the others, as well as by introducing some vegetables not heretofore used, proposers are invited to send in proposals with accompanying samples, not only of the mixture as above given, but also of other mixtures varying therefrom according to the experience and judgment of the proposer, with a view of effecting an improvement in this article of military supply. Proposers are required to give the exact proportions of the different ingredients of their several samples, with price per pound of each, packed as required. When it is practicable, each of the vegetables in a separate state, and after desiccation, will be submitted for inspection. Only those parts of each vegetable commonly used as food will be accepted for the mixture.

The mixed vegetables are to be compactly compressed into cakes of seven pounds each, ten of these cakes being packed in a tin or zinc box made air-tight, with two of these boxes packed in a wooden box made of suitable seasoned stuff, not less than five-eighths of an inch thick, with sunken ends one inch thick, strengthened with outside lining pieces. Boxes to be strapped with hickory at the ends.

Proposals must, so far as practicable, be accompanied with at least one box as above described, with contents of the proposer's own manufacture of the mixtures he may offer to furnish.

The location of the manufacturing establishment must be stated.

There being a choice among the different varieties of vegetables, proposers will state with precision the especial varieties they use, or propose to use, in their mixtures.

Each bid, to have consideration, must contain the written guaranty of two responsible names, as follows:

"We, the undersigned, hereby agree that should all or any part of the above bid be accepted, we will give our bond in the sum of ten thousand dollars that the contract shall be duly fulfilled."

QUARTERMASTER GENERAL'S OFFICE, WASHINGTON CITY, March 19, 1863.

OWNERS OF STEAM VESSELS are invited to send to the Quartermaster-General's Office tenders for their charter or sale.

Tenders should contain descriptions of the vessels, their dimensions, enrolled or registered tonnage, actual carrying capacity, material, whether coppered, whether side-wheel or propeller, whether iron or copper fastened, size and power of engines and boilers; and should state the price at which they are offered for long or short charter, with the estimated value of the vessel in case of loss, or in case the Government should prefer to purchase instead of chartering.

Owners of steam vessels already in the service of the Quartermaster's Department are requested to make known to the Department any reduction in their present rates which they may be willing to grant, and also the price at which they will be willing to sell them.

All such tenders should be addressed to the Quartermaster-General of the United States at Washington, and should be indorsed "Proposals for charter or sale of steamers." When received they will be considered, and the Department will endeavor to reduce the heavy expense attending army transportation upon the ocean and tide-waters, by substituting, wherever it can do so, cheaper vessels of equal capacity for those now employed.

PROPOSALS WILL BE RECEIVED at the TREASURY DEPARTMENT, Office of Construction, WASHINGTON, D. C., until 12 o'clock, m., of May 11, 1863, for all FIRE and BURGLAR-PROOF SAFES required by the Treasury Department prior to January 1, 1864.

Bidders must submit description of the Safes they propose to furnish, accompanied by drawings showing the mode of construction, and full-size sections of the material used. Also, schedules of sizes, with prices attached, and the price per superficial foot, including doors and all necessary fixtures, at which Safes of extra size to those mentioned in the schedule will be furnished and put in place. The Safes to be delivered when required, and the prices named in the bids must cover all charges, except freight, and the actual traveling expenses in those cases when the Safes require to be put in place by the contractor.

All bids must be accompanied by the written guarantee of two responsible persons that the bidder is able to perform the contract, and that he will accept it if awarded to him.

The Department reserves the right to reject any or all the bids if it be considered for its interest to do so, and no bid will be considered that does not conform to the requirements of this advertisement in all respects.

Locks will be furnished by the Department, but must be put on by the contractor for safes.

Bids to be inclosed in a sealed envelope, and indorsed "Proposals for Safes." ISAIAH ROGERS, Engineer in charge Treasury Department.
