ANSWER IT HONESTLY

Are the Statements of Honolulu Citizens Not More Reliable Than Those of Utter Strangers?

This is a vital question.

It is brought with interest to Honolulu.

It permits of only one answer.

It cannot be evaded or ignored.

A Honolulu citizen speaks here.

Speaks for the welfare of Honolulu.

A citizen's statement is reliable.

An utter stranger's doubtful.

Home proof is the best proof.

James L. L. Armstrong, Nuuanu Valley, Honolulu, Hawaii, says: "I was a sufferer from kidney trouble for three years and Doan's Backache Kidney Pills completely cured me. I have had no return attacks of the complaint during the past year. I cannot recommend this remedy too highly."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box, (six boxes $2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no substitute.

Dr. B. B. Ashbrook and Mrs. Clara Vixon were instantly killed when a Pennsylvania special train struck the automobile in which they were riding near Batesha, Ohio. Doctor Ashbrook was a brother of Congressman W. A. Ashbrook of Ohio.

LAST OF FANNING COPRA ON KESTREL

Crop Cleaned Out—Vessel Must Be Load Up If It Is Not Sold Shortly.

With one hundred and thirty-five tons of copra from Fanning and Washington Islands on board, the steamer Kestrel arrived from the southern islands yesterday morning, having arrived off port at seven o'clock the night before. Her cargo represents the last of this season's crop of copra from Fanning and Washington and there will be no more for shipment for the next three months. Owners for the schooner plans to sell the former Canadian revenue cutter are carried out, it will probably be found necessary to my Lady slip up in port for that period. The vessel has now made three or more to the southern group, transporting in all about four hundred tons of the product, by far the greater part of it being taken from Washington Island.

According to officers of the vessel, the development of Fanning is not promising. Copra and labor is scarce. There are still hundreds of rumors floating around on the little dot of land as to its ultimate fate, they say, and the idea of making it an English naval coaling station has not entirely died away.

With the exception of four hundred sacks the greater part of the copra on board was taken from Washington Island. All of Father Rougier's old copra which has been waiting shipment for some time is on board sacked, the balance, that dried by the new company, being in bulk.

The cargo is a dirty one, bad-smelling and full of copra bugs which made traveling on the vessel disagreeable. The Kestrel was forced away from Washington this trip after a short stay by bad weather.

Mongolia May Be Few Hours Late.

The Pacific Mail liner Mongolia is expected off port this morning between nine and ten o'clock, a few hours late, but is expected to get away on schedule sailing time, however. Among the outgoing mail passengers on board are the Hon. James Bryce, formerly British ambassador to Washington.

The Mongolia brings four days mail from the Coast.

Big Collier in Port.

With over five thousand tons of coal on board for the Inter-Island Steam Navigation Company, the British steamer Ecclesia, Captain Rooke, arrived from Moji, Japan, yesterday morning and will dock at the Bishop slip to discharge this morning. She is now at quarantine.

The vessel had a smooth passage of nineteen days without incident. She has a mixed crew of Chinese and whites and if guard has been stationed as usual to prevent the escape of the former.

T. H. Davies & Co., agents for the Inverkip, expect the arrival of that vessel from Norfolk with coal for the navy at any time. She is fifty eight days out today, her predecessor over the same route, the Frankmount, being fifty seven days in making the passage.

Sewall Men Desert.

Eight or nine men formerly in the crew of the American ship Edward Sewall, now at Kahului, arrived on the steamer Claudine from Maui yesterday, stating that the entire crew had walked off the ship. The men, it is stated, are mostly green and give as their reasons for quitting the fiery nature of a bucko mate.

Captain Macaulay and other surveyors who have been examining the vessel following an almost disastrous encounter with the Kahului barrier reef, also returned yesterday. Their report has not been made public but is said to bear out fully the previous supposition that the ship escaped without any injury.

It is now reported that the Sewall will probably come to Honolulu once more before leaving for the long trip around the Horn. It will complete its cargo here.

Fanning Physician Dies.

With the arrival of the Kestrel from Fanning Island yesterday came confirmation of the news of the death of Dr. Herbert Metcalfe, the physician at the wireless station there, announced in The Advertiser two weeks ago. He was a substitute in the place of Doctor Thrush who is away on a long leave of absence after a service of eight years.

Doctor Metcalfe succumbed to a brief illness, shortly after his arrival on the island. He leaves a widow and several children. Mrs. Metcalfe and one son were with him when he died, the other children being on Norfolk Island of which their father was a native. Mrs. Metcalfe is a native of Pitcairn Island.

Island Shipping.

The Claudine upon arrival from Kahului yesterday morning reported the Edward Sewall and the A. H. S. S. Miscellaneous as comprising the shipping in that port at the time it left. The island vessel had a small list of passengers and a miscellaneous list of freight of which was included a number of items from Maui's small farms.

The Kilauea, for Kona and Kau ports and the Claudine, for the week-end trip to Maui, are on the berth to sail today.

Pilts Now Owns Luka.

With the purchase yesterday of Mother Bonsier's share in the schooner Luka for the reported sum of $830, Captain Pilts of that vessel becomes its sole owner. There has been a dispute in court over the vessel and the differences are now said to be settled.

Shipping Notes.

The O. S. S. Ventura has wirelessed to the agents, C. Brewer & Co., that it will arrive from San Francisco early Monday morning. The Ventura expects to sail early the same day for Pago Pago and Australia.

The Kestrel is discharging copra at the Inverkeith wharf and it will probably be transhipped to the Lurline for a California destination upon that vessel's return from the other islands.

The schooner Spokane from Port Gamble may be expected at the port at any time. It is now twenty-four days out.

MONSARRAT AGAIN LANDS JUDGESHIP

Quite an unusual procedure was witnessed in the district court yesterday morning when Judge Monsarrat personally made the announcement of his reappointment for another term of two years as magistrate. Senator Charles F. Chillingworth, acting for Prosecuting Attorney A. M. Brown, who was absent, made a suggestion that the fact of Judge Monsarrat's reappointment be made a matter of record in the court journal. This was so ordered.

Judge Monsarrat was reappointed yesterday for another term of two years by Chief Justice A. G. M. Robertson, much to the surprise of a good many people, it is claimed, although he had been endorsed by the bar association.

DIDN'T RAISE THE BID.

Hubby had arrived home while wifey slept, and at the breakfast table there was a cold silence.

"A penny for you thoughts my love," he ventured.

"For two cents I'd tell you what I think of you!" she retorted, with a dangerous gleam in her eye.

He did not raise the bid. — Boston Transcript.

CROUP.

This disease is so dangerous and so rapid in its development that every mother of young children should be prepared for it. It is very risky to wait until the attack of croup appears and then send for medicine and let the child suffer until it can be obtained. Chamberlain's Cough Remedy is prompt and effectual and has never been known to fail in any case. Always have a bottle in the home. For sale by Benson, Smith & Co., Ltd., agents.

The great popularity and general use of the Royal Baking Powder attest its superiority

When you buy and use only the ROYAL BAKING POWDER, you have the positive assurance that your food raised by it is not polluted by alum, lime, or any of the adulterants common to other powders.

It is unwise to take chances by the use of any other brand

SMALL DEMAND FOR THE STANDARD STOCKS

Listless Day on Wall Street With Few Changes in Quotations.

(By Federal Wireless Telegraph.)

NEW YORK, May 8.—(Special to The Advertiser)—Lack of demand for stocks again characterized trade today and no attempt was made to carry further the brisk rally of yesterday's late session. This invited some professional selling on the assumption that recent advances have been largely at the expense of short interests, but the volume of offerings was small. Price movements were correspondingly narrow, only a few issues varying as much as a point during the forenoon.

Bonds were irregular.

Reading and Union Pacific hardened nearly a point, but the general buying wanted after the average level crossed yesterday's close. An easier tone was manifested in the late afternoon, largely a result of concerted pressure against Canadian Pacific, which yielded over two points. Recessions otherwise were slight and the general list ultimately hardened when increased buying of copper stocks began to take effect. The market closed easy.

BOARD OF INQUIRY BEGINS ITS WORK

Convening at Pearl Harbor yesterday morning the new naval board of inquiry, consisting of Civil Engineer Gayler, U. S. N., the ranking officer, and Civil Engineers Harris and Gordon, organized and will carry on the investigation of the Pearl Harbor drydock site. The board will attempt to obtain better borings of the foundation material with a new machine, than in the past. A new style of borer was recommended by Rear Admiral Stanford before he left for the mainland and this was sent to Pearl Harbor on the Navajo.

FLOATING CRANE TO BE GIVEN HARD TEST

The great floating crane now being finished at the Honolulu naval wharves, will be ready to be turned over by the builders, the Morgan, Seaver, Wellman Company of Cleveland, Ohio in a short time. The structure is being painted gray-black. The derricks in the upper works are now rigged and the contractors will complete the rigging in less than two weeks.

It will then be ready for towing to Pearl Harbor. Just how this will be done has not been figured out, but probably three tugs will handle the great barge with its unwieldy top hamper. A calm sea will be necessary to insure the safe transfer of the crane to Pearl Harbor.

One of its first tests may be to pull chunks of concrete out of the naval dock basin, and later to lower 120-ton blocks of concrete into the dock site.
