Plot to Assassinate Davis and Release the Union Prisoners.

The Richmond Examiner of Feb. 8 says: "For several days past the Government has been in possession of facts that hinted, beyond a doubt, to the existence of a secret organization of disloyal men, having for its object the forcible release of the Yankee prisoners held at Libby and on Belle Isle, the assassination of the President, and the destruction of the Government buildings and workshops located here. Capt. Macomblin, Chief of the Detective Corps, was assigned the duty of penetrating the mysteries of the case, and threading the details through the labyrinths of rumor to their head and source. That official put the matter into the hands of two of his most experienced detectives—Messrs. Reese and Allfeld—who immediately set to work and on Saturday night they arrested, at his house on Seventeenth street between Main and Franklin, a German named A. W. Heine, a baker, upon the charge of being a prominent member of the treasonable association. He was furthermore charged with inciting Confederate soldiers to mutiny and the assassination of the President. The detectives seized, along with Heine, a great number of the most important papers, including the roll of membership of the organization, and documents of such a character as to leave no doubt of his crime and the criminality of others. The documents were taken possession of yesterday by Gen. Winder, who ordered Heine to be placed in secure quarters at Castle Thunder, and to allow him no communication whatever with any outside parties. Heine, the reputed ringleader, has always been looked upon as a disloyal man, and his associates in treason are all pretty much of his own character and social standing. It is possible that other arrests will follow, as the treason will be probed to its depth, no matter whom it affects."

COMMISSIONERS OF CHARITIES AND CORRECTIONS.—The regular meeting of this Board was held yesterday afternoon, President Draper in the chair. The usual resolutions were passed upon, and a report presented by the Committee of the Whole, which was adopted. A letter was sent to the Controller, asking for the use of both sides of the pier foot of Twenty-sixth street, E. R. A small obelisk, cut from the stone on which General Washington stood when delivering his Inaugural Address in 1789, was sent to the Historical Society as a donation by the Commissioners of Charities and Corrections. The weekly statement shows that there were 6,401 persons remaining in the Institution on the 6th inst. During the week 36 died, 345 were discharged, 172 were sent to Blackwell's Island.
