AMONG THE TOILERS

TWO HUNDRED MIX IT UP IN A RIOT

MEETING OF UNION IN NEW YORK CITY RESULTS IN A FREE-FOR-ALL AND ONE IS SHOT.

BY ASSOCIATED PRESS.

New York, Dec. 6.—One man was seriously wounded and a score of persons have been badly bruised and beaten in a small riot that followed a meeting of the Iron Workers and Bridgemen's union in this city. During a free fight, engaged in by over 200 men, many shots were fired and one of the members, Albert Connolly, was shot in the side. He was taken to the hospital, where it was said his wound is serious.

Policemen Bullman and Farnan were roughly handled and more casualties might have followed had it not been for the arrival of reinforcements.

There are about 250 members of the union and it is said that 200 remained to drink a barrel of beer. Arguments followed and twenty shots were fired. Officers arrived and the crowd jumped on them and the hall was only cleared after the arrival of reinforcements.

Connolly was found in a saloon, where his friends had carried him.

EMPEROR OF GERMANS ADDRESSES WORKINGMEN

Kaiser Tells Toilers That They Have Been Misled by Men Who Use Them for Their Own Ends.

BY ASSOCIATED PRESS.

Berlin, Dec. 6.—Emperor William made an interesting address here yesterday to an assemblage of workingmen. The presence of the workingmen, Emperor William maintained, showed that they had not disappointed him in the expectations he expressed at Essen and had helped to keep free from reproach the memory of his friend, the late Herr Krupp. The working classes were always the object of deep interest and solicitude to the emperor. Therefore he was justified in addressing a word of warning to the workmen.

For years they had let themselves be led by agitators and socialists, under the delusion that they must belong to that party if they wished to better their position. That was a great lie and a serious mistake. These agitators had tried to stir up the workingmen against their employers, against other classes and against the throne and altar, and at the same time they had most unscrupulously exploited, terrorized and enslaved them in order to strengthen their own power, not for the promotion of the welfare of the workingman, but in order to sow hatred between the classes and disseminate cowardly slanders, from which nothing, not even the grandest quality—the honor of German manhood—remained immune. With such people the working classes as honor-loving men, should have nothing more to do.

Emperor William concluded with asking the deputation to send a comrade from their midst, a simple, unpretending man from the workshop, into the national parliament. Such a man would be gladly welcomed as an example of the German workingman. Other classes would willingly work together with such representatives, however many they might be.

AMERICAN LABOR UNION IS TO INVADE THE EAST

Compromise Offered the American Federation in New Orleans Came to Less Than Nothing.

BY ASSOCIATED PRESS.

Milwaukee, Wis., Dec. 6.—The Sentinel will say: "The failure of the New Orleans Federation convention to heal the rapidly widening breach between the American Federation and the American Labor Union has led the new organization to prepare for aggressive steps toward invading the East. Although men from Denver, Cripple Creek and Pueblo, Colo., were in the convention ready to hold out the olive branch toward President Gompers and his associates and to go to the utmost to unite the organizations, none of the federation's delegates tried to meet their Western brothers half way. Dispatches from the West were to the effect that Frank J. Weber of Milwaukee had been offered the position of organizer of the American Labor Union some time ago and that in case of his acceptance a campaign might be started which would lead to a disastrous disruption in the American Federation of Labor.

FRENCH STRIKERS SAY GOVERNMENT IS WRONG

Denounce Officials for Sending Sailors to Man the Ships—Five Thousand Attend the Meeting.

Marseilles, Dec. 6.—The syndicate of ship owners maintain an unyielding attitude toward the strikers, though it is rumored that some members are in favor of conducting negotiations.

Five thousand strikers held a meeting today and voted to reject, with contempt, the proposals made by the owners yesterday, which were pronounced to be insulting. The meeting demanded that the government should no longer send sailors of the navy to man the steamers and declared the strikers were not in favor of order if the liberty of the strike was not respected. The strikers adjourned, cheering for a general strike.

The meeting was resumed last evening and the strikers voted to persist in the strike until they had obtained entire satisfaction. Two steamers left port today with mails, passengers and freight.

SEAMEN DISCUSS THE ISSUES

Thank Roosevelt for Passages in His Message to Congress.

BY ASSOCIATED PRESS.

Milwaukee, Dec. 6.—The International Seaman's union, in annual session here, was flooded with work yesterday. The most important business of the session was the report of the legislative committee.

This committee, realizing the weight of the statements made by President Roosevelt in his message to congress, regarding the scarcity of seamen, took occasion to emphasize the need of protection for the American seamen from Mongolian and other competition.

Resolutions of thanks to the president for his defense of the seamen were adopted. Resolutions favoring the passage of the Chandelier bill were adopted. Resolutions were adopted opposing the passage of the Allen bill, providing for the arrest of those leaving the ship without the consent of the captain or other officials.

A recommendation was adopted that the Chinese exclusion act provisions be applied to Japanese as well, because of their invasion of the Hawaiian labor fields.

CASE IS FOR CIVIL COURTS

Forcible Entry Case Against Knights of Labor Men Dismissed.

BY ASSOCIATED PRESS.

Washington, Dec. 6.—The charge of forcible entry made against Henry Hicks, Simon Burns and three other members of a faction of the Knight of Labor by Mr. Hayes and others of the order, in charge of the headquarters here, was dismissed today by the police court.

The judge held that the case was one for the civil courts.

St. Petersburg, Dec. 6.—In the riots which occurred recently at Ristoff, the troops fired on the workmen killing 20 of them.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
