"ONE OF THE MOST REMARKABLE BOOKS THAT HAS EVER APPEARED."
RELIGIOUS HISTORY AND CRITICISM.
By ERNEST RENAN,
Author of that celebrated work, "The Life of Jesus."

"However much one may differ from M. Renan in his Scriptural reasonings, every man of cultivated taste must accord to his essays and his writings generally an intellectual acuteness and literary worth that are superior to most modern writers."

"His pages are full of strong food for the mind. His lofty sentences gleam with thought far-dashing and powerful. No man can arise from the reading of these essays and not feel refreshed. To the scholar, the sceptic and the historian they present an inexhaustible source for topics of religion, science and criticism."

MR. PARTON'S NEW WORK.
THE LIFE AND TIMES
OF
BENJAMIN FRANKLIN.
IS NOW READY.
2 vols., crown 8vo. 1,100 pages, with Steel Portraits. Price $5.
This is much more than an absorbingly interesting biography. It is full of the history of the events and of pictures of the manners and customs of the times of the Revolution, presented so closely and fascinatingly that the reader cannot but be at once instructed and delighted. Those who have read Mr. Parton's previous works and know his singular powers of investigation and narration, and who consider what Franklin was, the times in which he lived so long, and the many important events he influenced, who remember his versatility and versatility, will not find it difficult to believe that these volumes possess an interest almost unequaled.
Mr. Parton had given more than two years of indefatigable labor to this work before he commenced the preparation of his recently published "Gen. Butler in New-Orleans," and the publishers, who have been witnesses of the industry and enthusiasm with which he has pursued his labors, and who have the best reasons for knowing how highly his previous works have been appreciated by the public, confidently believe that this LIFE AND TIMES OF BEN. FRANKLIN will prove to be one of the most interesting and valuable biographies ever published.

HOOP SKIRTS.
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
J. L. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this
J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.
This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer to consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the most full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical Skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

MASON & HAMLIN'S CABINET ORGANS, for FAMILIES, CHURCHES, and SCHOOLS.—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons, and all other reed organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Price, $115 to $500 each.
CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and to others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others, is that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured.
