TREASURY DEPARTMENT, June 6, 1864.

PROPOSALS FOR LOAN.—To insure the greatest possible vigor in the operations of the armies now moving against the insurgents, under brave and skillful Generals, upon a vast theater of operations, expenditures have been increased beyond receipts from revenue and ordinary subscriptions to the National Loan.

Sealed offers will therefore be received at this Department under the act of March 3, 1863, until noon of WEDNESDAY, the 15th day of June, 1864, for bonds of the United States to the amount of Seventy five Millions of Dollars, bearing an annual interest of six per centum, payable semi-annually, in coin, on the first days of July and January each year, and redeemable after the 30th of June, 1881.

Each offer must be for fifty or one hundred dollars, or some multiple of one hundred dollars, and must state the sum, including premium, offered for each hundred dollars in bonds, or for fifty, when the offer is for no more than fifty. Two per cent of the principal, excluding premium, of the whole amount offered must be deposited, as guaranty for payment of subscription if accepted, with the Treasurer of the United States at Washington, or with the Assistant Treasurer at New-York, Boston, Philadelphia, or St. Louis; or with the Designated Depositary at Baltimore, Pittsburgh, Cincinnati, Louisville, Chicago, Detroit, or Buffalo; or with any National Banking Association authorized to receive deposits which may consent to transact the business without charge. Duplicate certificates of deposits will be issued to depositors by the officer or association receiving them; the originals of which must be forwarded with the offers to the Department. All deposits should be made in time for advice of offers with certificates to reach Washington not later than the morning of June 15. No offer not accompanied by its proper certificate of deposit will be considered.

The Coupon and Registered Bonds issued will be of the denominations of $50, $100, $500, and $1,000. Registered Bonds of $5,000 and $10,000 will also be issued if required.

All offers received will be opened on Wednesday, the 15th of June, by the Secretary or one of the Assistant Secretaries, and notice of acceptance or declination will be immediately given to the respective offerers; and in case of acceptance, bonds of the descriptions and denominations preferred will be sent to the subscribers at the cost of the Department, on final payment of instalments. The original deposit of two per cent will be reckoned in the last instalment paid by successful offerers, and will be immediately returned to those whose offers may not be accepted.

The amount of accepted offers must be deposited with the Treasurer or other officer or association authorized to act under this notice on advice of acceptance of offer, or as follows: One-third on or before the 20th; one-third on or before the 25th; and the balance, including the premium and original two per cent deposit, on or before the 30th of June. Interest to the 1st of July on the several deposits will be paid in coin on the 30th of June, and interest on bonds will begin July 1, 1864.

Offers under this notice should be indorsed "Offer for Loan," and addressed to the Secretary of the Treasury. The right to decline all offers not considered advantageous is reserved to the Government.
S. P. CHASE,
Secretary of the Treasury.

MANHATTAN
COAL AND IRON COMPANY.
A. A. LEWIS, President. T. EVANS, Secretary.

The Books for Subscription are now opened at the office of Messrs. WOLFF & DIKE, No. 60 Wall-st., for a limited number of shares at $2 per share (no assessments) hereafter; par value, $12 50.

The property of this Company consists of some of the best coal lands in Ohio, situated on the line of the Cleveland and Pittsburgh Railroad, which, with the close proximity of the Ohio Canal, gives the minerals of this property easy and economical transportation by rail and water to Cleveland, Pittsburgh, and Cincinnati. The two openings now completed have yielded in a short time 15,000 tons of the best bituminous coal.

There are four (4) distinct veins of coal, of an average thickness of 3 feet, and with the exception of one vein are all situated above the line of the railroad, and is screened directly from the mine into the cars of the C. and P. R. R., an advantage possessed by but few of our mines. The two veins of Black Band and Kidney ore which are underlying the whole of the estate are now successfully worked near the premises, and are yielding from 35 to 40 per cent of good iron. Some of the most eminent geologists and mining engineers in the country estimate this property to contain 8,749,000 tons of marketable coal, selling now rapidly at wholesale at $6 per ton in market, deducting for mining, say $1 85; for transporting to market, via C. and P. R. R., $1 95; for contingent expenses, 50c. per ton; leaves a net profit of $1 70 per tun. The facilities which the present openings and improvements afford will without much expense allow the Company to mine 250 tuns per day.
