MASON & HAMLIN'S CABINET ORGANS, for FAMILIES, CHURCHES, and SCHOOLS.—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons, and all other small organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $85 to $500 each.

CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.

The principal reason why the Steinway Pianos are superior to all others is that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth st., between Union Square and Irving Place, New-York.

THE WEBER PIANO FORTE—
is admitted the BEST Piano Forte made, because the maker, beside being a practical mechanic of long experience, is also a THOROUGH MUSICIAN thus combining advantages possessed by no other manufacturer in the United States. Such is the testimony of T. D. Mills, Robert Heller, Geo. T. Bristow, Wm. Mason, C. Jerome Hopkins, Chas. Fradel, Max Maretzek, Carl Anschütz, John Zundel, Maurice Strakosch, Giovani Sconcia and every good musician in the United States. All musical ears at once admit their great superiority. $2,000,000 LOAN OF THE COUNTY OF NEW-YORK.

Subscriptions are hereby invited to a Loan of Two Million Dollars, authorized by an ordinance of the Board of Supervisors, approved by the Mayor June 15, 1864, entitled "An Ordinance to provide for the procurement of Volunteers for the Armies of the Union, as part and parcel of the Quota of the City and County of New-York, under any future call of the President for men."

To Farmers and Others.

DAVID THOMPSON,
HORTICULTURIST AND NURSERYMAN,
Green Island (opposite Troy),

has on hand, and now ready for transplanting, a large quantity of superior and hardy GRAPE VINES, in all about sixty varieties—his catalogue gives specific character and qualities.

Has also on hand a large assortment of STRAWBERRY VINES, some of which ripen as early as the 20th of May. See Catalogue for details.

Has also French, Prunelan and German PRUNES; also, that superior celebrated ZWETSCHEN PRUNE, so favorably noticed in and by the Farmers' Club in New-York City, The Tribune newspaper, and The Country Gentleman. Speaking of THOMPSON'S GRAPES, the Farmer's Club says:

"If this is a Seedling that will ripen at Troy every year with certainty, then it is an acquisition worthy of notice."

In the discussion of the Club on the PRUNE it was said: "There are several varieties of the Prune, and this (the Zwetschen Gate, commonly called Switzer), and this may be one of them; at any rate, it was the unanimous opinion of the Club that it is an excellent fruit, and well worthy of recommendation for general culture"—"is the best Prune they ever tasted"—to be careful not to recommend anything not worthy, but are willing to give this Prune the highest recommendation.

Backed and sustained as he is by so distinguished a body as the Farmers' Club of New-York city (amateurs as well as practical cultivators of Fruits and Vines themselves), Mr. Thompson comes before his fellow citizens, confidently believing he is able to present to them such varieties of plants as shall suit their taste and choice, urging all to plant a Vine, a Tree, or a Strawberry Bed, that, in the course of one or two years, at most, they can at their own homes enjoy the fruits, so easily to be obtained in the beginning, and which insuriantly gratify in the end.

Mr. THOMPSON is at all times in readiness to attend to calls for his services in caring for the Fruit Yards, Vines, and Gardens of his friends and employers, in the line of his profession.

Orders for his Vines, Trees, &c., may be left at Col. W. T. Willard's (Secretary Rensselaer County Agricultural and Manufacturers' Society), Office No. 69 1st-st., corner Ferry, Troy; or at his house on Green Island, corner of Canal and Market-sts.

Proposals.

OFFICE SUPERINTENDENT PUBLIC PRINTING, WASHINGTON, June 11, 1864.

PROPOSALS FOR COPPER-FACED ENGRAVINGS.—Sealed proposals will be received at this office until THURSDAY, the 23d day of June, 1864, at 12 o'clock, for furnishing one set of ELECTROTYPED or COPPER-FACED PAGES of the ILLUSTRATIONS OF MACHINERY, &c., accompanying the Report of the Commissioner of Patents for the year 1863.

The drawings will be furnished on paper to the contractor, who must arrange them into pages in numerical order, as nearly as is consistent with neatness and compactness; and the execution of the work, in every respect, must be fully equal to that furnished for the published Report for 1861, which has been adopted as the standard for the present volume. The plates are to be delivered at this office free of cost for transportation, subject to the approval or rejection of the Superintendent of Public Printing. Bond and approved security will be required for the faithful performance of the contract.

The work will comprise about three thousand five hundred illustrations, making over five hundred pages measuring 44 by 8 inches. Bidders are required to propose for the work by the illustration, with the understanding that when more than one figure is required to illustrate an invention or design (as is sometimes the case), the whole number of figures will be estimated and paid for as a single illustration.
