Two years ago, some of the more enterprising citizens started a subscription for stock in a Carpet and Woollen Factory. They soon obtained $30,000, (which has since been doubled,) erected a building, which is an ornament to the city—procured the most modern machinery from the East, together with a steam engine from the foundry of JAGGER, TREADWELL & Co. of Albany, which would compare with the best ever turned out, and went ahead; and, as I learn, have disposed of all they can possibly make, at profitable prices. At one sale in New York last summer, $16,000 worth of their Carpets went off in a day, and so high did the quality, the brilliancy of the colors, and the beauty of the patterns stand among the buyers in the market, that there was a constant demand for more, after the sale was closed.

About the same time it was rumored that the Messrs. NORRIS, of Philadelphia, (whose fame as manufacturers of locomotives, has reached even to Russia) were desirous of locating a branch of their extensive works somewhere along the great line of Rail Road through that State. A subscription was started here, forty thousand dollars raised, a site purchased, and shops built for their use, which were leased by the Messrs. NORRIS at 7 per cent. for a term of ten years. They are highly pleased with their location and shops, which are certainly models, in all respects. They commenced last February, and have turned out eight very fine engines, besides over-hauling others. They have also successfully introduced a branch of work in their establishment, hitherto untried in this country—the making of *forged* driving and car wheels. They are made at considerable expense, but will eventually come into very general use, especially in frosty latitudes. Notwithstanding the large drafts otherwise made upon the citizens of this place, they contributed largely towards the building of the new Plank Road to Saratoga, twenty two miles in length, built at an expense of about $80,000.

From Schenectady, we proceeded over the long iron track to Buffalo. A necessary delay here of three days rendered us impatient to escape from a place suffering from that dreadful scourge—the Asiatic Cholera. Some wards exhibited all the stillness of the Sabbath, most of the inhabitants having died or fled. Hotels and groceries were closed, death and fright having enthroned themselves in the place of the busy multitude, and dispensed their reign of terror. A degree of solemnity sat upon the faces of all, except the undertaker. Queer men—these undertakers! When the dark shadows of the grave darken other men's hopes, *theirs* brighten. The stroke that brings down bereavement and sorrow upon others, is the instrument of supplying comfort and support to them; and when all around are clad in mourning and sorrow, they look calmly on and drive a prosperous and lucrative business. The sailors, too, seemed to partake of the general fear, and hastened to lade and unlade their crafts, and depart from this place of death. As soon as circumstances would permit, receiving a hint from their example, I shipped and sailed for a more western port. B.

☞ The Democrats of Ohio have nominated Reuben Wood, Jr., for Governor.

——Judge Wood is the man who catechized Gen. Cass on the subject of Harbor and River Improvements, amidst the "noise and confusion" at Cleveland.

THE PARKMAN CASE.—The Attorney General, Mr. Clifford, has consented to furnish the Counsel for the defence in the Parkman case with a copy of the testimony taken before the Coroner's Jury, under a promise that it shall not be made public, if an indictment is found. This case is to be brought before the Grand Jury *to-day*. (Jan 15.) and a large number of witnesses have been summoned to testify what they know in the matter of the charge against Prof. Webster for the murder of Dr. Parkman.

☞ A severe gale was experienced at Bennington, on the 22d ult., as we learn from the Banner, in which the fine brick dwelling house of Mr. Oliver Babcock was blown down, and completely demolished. The steeple of the First Baptist Church which stood about one hundred and fifteen feet from the foundation, was taken up entire from the bell-deck, and blown to the ground, where it was dashed to a thousand pieces.

In the Rotunda of Oak Hall, Boston, is one of the largest and most beautiful assortment of BOY'S CLOTHING, to be found in the country. Ladies, take your little boys there, when you go to Boston.

MR. WALDO, OF CONNECTICUT.—This gentleman was elected to Congress in a Whig district by the aid of Free Soil votes. He voted for Mr. Cobb for Speaker. One of his Free Soil constituents wrote to him complaining of his vote, to which he answered that "he had other friends to please, and another party to satisfy beside the Free Soilers"

——We dare say Mr. Peck has the same excuse for voting for Forney—a man the Burlington Courier calls a doughface, and who is decidedly opposed to the Wilmot Proviso.

☞ The House of Representatives, it will be seen, have at last elected a Whig Clerk. Hon. SOLOMON FOOT (of this State) came near being elected, but declined—and Mr. CAMPBELL the present Clerk, was re-elected on Friday.

☞ The Prospectus of the National Life Insurance Company, on our outside, this week, deserves public attention, and should not be overlooked by any reader. The subject is an important one, and is coming to be so regarded more and more every year, by all classes.

☞ We understand that the Directors of the Rutland and Burlington Railroad are about issuing a supply of FREE TICKETS, which will be sent to the STOCKHOLDERS—entitling them, with their wives or other "friends," to a gratuitous ride in the cars—as heretofore understood.

☞ The author of "Jane Eyre," "Shirley," &c., is now said to be a Miss Bronte, a lady of Bradford, in Yorkshire.

☞ NATHANIEL HAWTHORNE, of Salem, has been engaged by the proprietors of Blackwood's Edinburgh Magazine, as a writer for that periodical.

☞ MISS BREMER, who is still in Boston, has a new novel in the hands of Mary Howitt.

☞ A monument to the memory of Col. MARTIN SCOTT, who fell at the storming of Molino del Rey, has been erected at Bennington, where his remains now repose.

LIBERIA.—Mr. Clay has presented a petition in the Senate, for the recognition of the new Republic of Liberia by the Government of the United States.

MARYLAND U. S. SENATOR.—Governor Pratt has been elected U. S. Senator by the Legislature of Maryland, for six years, and also for the unexpired term (two years) of Hon. Reverdy Johnson. Governor Pratt is a sound Whig, and one of the ablest men in the State.

SUICIDE.—Miss Elizabeth Hooker, of East Windsor, Conn., drowned herself through a hole in the ice of the river on the last day of the year. She had been in a gloomy state of mind for some time, and declared in a note left with a little sister just as she left the house that she was *weary*. Her father pursued instantly, and found her bonnet and shawl on the bank of the river, and her body was soon recovered.

DR. CORBETT'S SYRUP OF SARSAPARILLA

EFFECTS WONDERS!

Read this remarkable case of JOHN DAVIS,

Sexton of Rev. E. T. Taylor's Church, Boston.

I, the undersigned, Sexton of the Church of that good man, Father Taylor, state the following facts, which I think should be told a world. I was born in Portugal, and am now forty years of age. My parents were healthy, and I was not afflicted by any disease until the year 1845. I was then residing in Boston. At that time my skin became subject to a humor, which at last was so bad as to alarm myself and friends. Severe cures and abscesses developed themselves; large sears are now deeply imprinted on my forehead and other parts of my body, and excoriation indented even in the bone. About twelve months since my afflictions seemed increasing.—Deep seated sores of the foulest character came out on my arms, my head, and even attacked my eyes. I became weak, emaciated, and unable to perform the duties of life for my daily bread. Failing of receiving any benefit from physicians who prescribed for me, I resorted to the use of various Sarsaparilla compounds, as advertised, but with no benefit. The able and distinguished surgeon and physician, James Ayer, M. D., Hanover street, who had watched my case, at last advised my using Corbett's Shaker Sarsaparilla.

I am happy now to state that my general health is fast improving, the scrofulous developments on my head, arms, and face quietly passing away, and not until this moment have I had any hope of a rescue from the grave. To Corbett's Sarsaparilla do I alone attribute this amendment, as not until I had adopted its use, (and this to minute quantities) have I for four years found any relief from suffering.

Among the many blessings attendant upon improvements in the social condition and the advances of science in intelligence, is the prolongation of human life. With the increase of intelligence has grown up a kindred edge for the elements of health, and a regard of form and commensurately with the advance of science have we acquired the means of averting disease, and invigorating nature. Notwithstanding the progress we have made, statistics state that every area, one sixth of the whole population die annually of consumption.

One of the most important discoveries of the age, is ameliorating the condition of this large class of suffering humanity, is

DR. WISTAR'S BALSAM OF WILD CHERRY.

Nanda, Livingston Co. June 20, 1848.

Mr. S. W. Fowle.—Dear Sir: Prompted by a sense of gratitude for benefits received from the use of WISTAR'S BALSAM OF WILD CHERRY, I submit the following statement: Previous to my taking the Wild Cherry, I had been obliged to give up my business in consequence of a severe affection of the lungs. In this distressed state I was induced to try your remedy for CONSUMPTION. I did so, and in the course of a few weeks I was restored to comparative good health, so that I have since been able to attend to ordinary business. Indeed, my present state of health far exceeds my most sanguine expectations.

Yours truly,

(Signed) JOHN BURNS.

DISEASED SPINE.

Middlebury, July 14, 1849.

Messrs. Stanton & Co.—Having been acquainted with your Liniment for a short time, still I can testify to its great worth to my family.

My wife has been afflicted with a Diseased Spine which was attended with the most excruciating pains. I have employed the most celebrated Physicians in New England and paid Eighteen Dollars for one Prescription and would have gladly paid hundreds more for a cure.—But all the efforts of Physicians and medicines seemed of no avail until I heard of Hunt's Liniment. She has used that now for months and to my astonishment has been gradually improving. Before using Hunt's Liniment she had not been able to WALK FOR TWO YEARS. She is now able to walk and do light work around the house. We feel truly grateful for benefits received from your great Medicine. If you wish any further proof I will refer you and all others to my neighbors and Physicians who value your Liniment as highly as I do. Yours with respect,

LIVERWORT, TAR & CANCHALAGUA.

Probably no article has ever enjoyed a wider popularity in all diseases of the Lungs than TAR, in the shape of TAR WATER, TAR FUMIGATIONS, and PLASTERS, it has been used almost from time immemorial. LIVERWORT, too, has been universally regarded as one of Nature's choicest herbs. But it was reserved for Prof. ROGERS to discover the art of extracting, by a new chemical process, their peculiar virtues, and combining them in a manner heretofore unknown, so as to prevent a evaporation non-valued for their concentration, energy, simplicity and innocence. This has been done in his syrup of LIVERWORT, TAR AND CANCHALAGUA. The cures of long standing Pulmonary Disease which it effected daily, are astounding even to Physicians themselves and were they not among our own friends and neighbors, whom we see every day, they would be almost beyond belief.

☞ CANCHALAGUA, we intend to speak particularly another time.

CURE OF SEVERE COUGH AND CONSUMPTIVE TENDENCY, WELL ATTESTED.

CHESTER FACTORIES, Mass., Oct. 18, 1843.

Dr. Bradee—Sir—Having been attacked some two months since with a severe affection of the lungs, attended with a severe cough, that was likely to become habitual, my friends expressed their opinions freely, that I was fast going down with the Consumption; I purchased of Messrs. Root, Briggs & Co., a bottle of Rogers's Hungarian Balsam, and found immediate relief.—I have now finished the second bottle, and call myself well. It is but two weeks since I commenced taking the Balsam, yet I have gained five pounds of flesh, and the affection at the lungs appears to have wholly vanished. I cheerfully recommend the medicine to others that have any kind of disease of the Lungs.

I remain yours truly,

ALEXANDER FRANCIS.

Dr. Bradlee—Sir—We have witnessed the effect of the Hungarian Balsam on Mr. Francis, and do not hesitate to recommend it to others of like diseases, &c.

Yours truly,

PHYSICIANS COULD NOT CURE HIM.—Another cure of Consumption by Brant's Indian Balsam, which is the only missing readily in the world, having cured thousands of the most hopeless.

Mr. Wm. D. Jennings, a merchant of Pierpoint Centre, Ashtabula county, Ohio, wrote to us October 24, 1848, and stated a case of Consumption which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in Mr. W. CROCKER, of an adjoining town. Mr. Crocker had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster Consumption had taken firm hold on his vitals, and was so destroying and debilitating his body that he was a mere skeleton. He was given up by his physicians and all friends, as one who would soon inhabit a grave. But even in this last extremity, strange and marvelous as it may seem, yet it is true, that the use of only five bottles of BRANT'S INDIAN PULMONARY BALSAM has unchocked the hand of the destroyer, and restored Mr. Crocker to health, and he is now a healthy, hearty, racked man!

S. D. DAVIS, Esq., who is a merchant and Postmaster, at Jefferson, Ashtabula co. Ohio, writes to us Jan. 25th 1849, and mentioned the above wonderful cure of Mr. Crocker, (residing near Pierpoint,) adding, Mr. C would have died if he had tried, all to no benefit—that several doctors had said he must die—that he would never get off his bed a gain, &c. But it is more than astonishing that the use of only five bottles of Brant's Pulmonary Balsam, restored him to perfect health.

MRS. MILLER—THE CASE SETTLED.—The fate of this lady, which has excited so much attention, and awakened so much sympathy, and has been surrounded with so many suspicions, is at length to be disrobed of its mystery, and the facts are to be brought to light. We have satisfactory reason for saying that the foaming waters of the Niagara never rolled over the form of the missing Mrs. Miller.

Happy would it have been for her, if accident had plunged her beneath that giant flood—then her memory would have been fragrant and grateful in the hearts of her friends; but the more dreadful guilt into which she has fallen, will shroud her name with infamy and her friends with grief. Mrs Miller has eloped with Mr. Baker, of Winchester, and the fact has been known here for some five weeks, but withheld from motives of delicacy to the friends. It is no longer necessary to keep back the information, as the proof is gathering too thick to be longer doubted.—*Balt. Argus.*

☞ A writer under the signature of "Heroic Age," in the Washington Union, says he would as soon steal a sheep as hold office under Gen. Taylor. We have no doubt that he would do either if he had a chance, but, as he has no chance for an office, we expect to hear of his engaging in the mutton line.—*Louisville Jour.*

THE HALF CENTURY.—The discussion upon the point where ends the half century still rages in the newspapers; but the authorities, with little exception, tend one way, and we think it may be regarded as settled, that the next half century will commence on the 1st day of January, 1851, or in other words, that it takes just fifty to make half a hundred.—*Prov. FOR SALE.

The house and two home lots formerly owned by President Davis, afterwards by Moses Cutler, and at present by the subscriber. The lots, together, have about two hundred feet of front upon the street leading to Weybridge, and the same upon the street leading to Bridport.

The main building is fifty feet, on its eastern front, and forty five in its southern, and is in good repair. The barn, wood-house, well and outhouses are united with it by a covered way. Much expense has been laid out upon this situation.—which, being in full view of the College hill and buildings, and over against the College Green, must improve with those public improvements around it which have long been contemplated. A moderate outlay would adapt it to comfortable and agreeable occupation by two genteel families. For a family with boarders, its position and the capacity and number of the rooms, offer unusual advantages. The smaller home lot—about 80 feet front and 185 feet deep—would be excluded from the purchase if desired, and a large deduction made for the purchase money.

Possession given in May. Some furniture adapted to the domicil might be bought with it—also a valuable young cow.

The Leading Periodical in America!

A NEW VOLUME OF

GRAHAM'S MAGAZINE

FOR JANUARY, 1850.

A New Volume of this popular periodical will be commenced on the first of January, 1850, with attractions of unrivalled splendor. The number will be ready for mailing, and for Agents, about the 10th of December, and will exceed in merit and beauty any that has ever been published.

To dilate upon the superiority of this Magazine is superfluous. Its fame is already spread throughout the whole country, and the intention of the publishers is to keep it in the proud position it has acquired, as the *Leading Periodical in America.*

The best and most popular American Authors are regular contributors to its pages—the most superior Artists are constantly employed in producing the brightest efforts of skill of its embellishment—and no expense is spared, in any of the various departments connected with its publication, to render it in every respect worthy the distinguished favor which has been bestowed upon it.

In entering upon a new volume, the publishers feel that the public requires from them no strong guarantee for the future excellence of their Magazine, than their past prompt and faithful fulfilment of all their promises. Every pledge made has been entirely redeemed; and the assurance now given, that their future efforts will produce results excelling those which have gone before, will be carried out.

A variety of new attractions is in course of preparation; but when contributors are vigilantly watching one every movement in which ideas they are incapable of originating, it is a matter of duty that we should keep our plans for the future to ourselves, until the time arrives for putting our patrons in possession of them. Suffice it to say, that the literary standard of Graham's Magazine shall be fully maintained; its pictorial beauties increased in a degree which cannot fail to be astonishing to those who have hitherto acknowledged its vast superiority on this score; while the new features are to be introduced which cannot fail to command unusual approval and admiration.

Our distinguished Artist, W. E. TUCKER, Esq., has been sent by us to Europe, to secure, with the aid of American Artists abroad, a succession of most splendid Illustrations; and thus with the aid of our home force, we shall present every novelty as it arises, fresh to our readers.

Colored plates of great beauty, will be furnished to our readers hereafter, in addition to the usual steel and mezzotint engravings, which we monthly present to them.

A series of Plates of colored WILD AND CAGE BIRDS of rare beauty, is now in the hands of our Artist. This is a feature which has never been introduced by any other publisher, and which will surpass in point of excellence and beauty, any thing that has yet appeared in any publication of a similar character in this country. We also propose commencing the publication of

"ARTHUR'S ILLUSTRATED NOUVELLETTES"

Written expressly for this Magazine, by T. S. Arthur, Esq., whose character as an author is so favorably known throughout the country.

☞ It is a favorite plan with some of our contemporaneous magazines, to boast of their size, and the number of extra pages they contain. Now "good wine needs no bush," and our patrons will testify that, as we are first in quality, so are we second to none in the quantity of intellectual fruit which we present monthly. Any printer may, by an easy calculation, demonstrate very clearly that we furnish a much larger quantity of reading matter than any other Magazines which boast more than we do—to say nothing of the rich and exquisite engravings which adorn our pages. This is a fact, which is not to be disputed, and it is only wonderful to us that, with a knowledge of it, our *modest* contemporaries are not a little more qualified in their boastings.

TERMS:

For THREE DOLLARS, in advance, (per manner in the State from which it is remitted) one copy of Graham and a copy of a large and magnificent Steel Engraving, engraved, and which may be considered one of the most beautiful specimens of art ever presented by any Magazine publisher. And also a new and beautiful engraving suitable for framing, of a pair of pictures,

"BEARING THE SAVIOUR TO THE TOMB."

Prepared expressly, and at a very heavy cost, as a Premium Gift to new subscribers to Graham's Magazine. Or, if desired, we will furnish in lieu of either of the above prints a composite set of our Mezzotint Portraits of the

AMERICAN HEROES OF THE LATE WAR WITH MEXICO.

For FIVE DOLLARS, two copies for one year, and a copy of either of the prints to each subscriber.

For TEN DOLLARS, five copies for one year, and a copy of the Magazine to the Postmaster or persons forming the Club, and either of the above prints, or a set of portraits to each subscriber.

For TWENTY DOLLARS, eleven copies for one year, and a copy of either of the prints or a set of the portraits to each subscriber, and a copy of the Magazine to the Postmaster or person sending the club, with a copy of each of the large prints as an additional premium.

For the convenience of those forming Clubs, in connexion with other publications, we will send

One copy of the Magazine, and one of the Saturday Evening Post, for FOUR DOLLARS.

One copy of the Magazine, and two of the Post, for FIVE DOLLARS.

Three copies of the Magazine, and four of the Post, for TEN DOLLARS.

Four copies of the Magazine, and two of the Post, for TEN DOLLARS.

Six copies of the Magazine, and nine of the Post, for TWENTY DOLLARS.

☞ Any person forwarding a club of TWENTY, or upwards, shall receive for his trouble a complete copy of W. H. Graham's "AMERICAN HISTORICAL AND BIOGRAPHICAL LIBRARY."

A PREMIUM OFFER.

The Post Office of any town in the Union, from which we shall receive the greatest number of subscribers to Graham's Magazine during the year between the first of January, 1850, and the first of January, 1851, (the Magazine to be mailed to such Post Office, or to subscribers through it) shall be entitled to a continuance of the whole number of subscriptions gratuitously, for one year after the expiration of the year for which subscriptions shall have been paid. The Magazine will be continued so, either to the subscribers themselves, or to the agents through whom we may receive the orders for quantities, and to whom the agents or postmasters may be directed, or to both, if their should be both in the same town, as the case may be.
