A WORK OF GREAT VALUE.

IN PRESS:
A POLITICAL HISTORY
OF THE
REBELLION,
BY
HON. EDWARD McPHERSON,
CLERK OF THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES.

Presenting a complete and impartial Record of the momentous Political Events of the last four years, carefully compiled, arranged and indexed.
8vo., full law sheep, $4.
The Washington Chronicle of the 19th June says of it:
"Mr. McPherson is singularly qualified to compile and edit such a work. He has been identified with the public press, and served as a member of the House of Representatives. He is, therefore, not alone acquainted with the public men of the country, but with the great questions that have disturbed the nation, especially since the events succeeding the repeal of the Missouri Compromise, and beginning with the Administration of James Buchanan. From a view that we have had of a portion of the sheets of this interesting and much-needed work, we can say to our political friends, and, indeed, to men of all parties, that it will be the most thorough and most carefully digested and arranged book on this subject that has yet been produced in this country."

FOR THE PRESIDENTIAL CAMPAIGN.
READ COCHIN'S RESULTS OF EMANCIPATION.
Proving what are the practical workings of
PRESIDENT LINCOLN'S POLICY.
The most important and timely book of the season, which should be
CIRCULATED EVERYWHERE.
THE STANDARD WORK ON EMANCIPATION.
MANY THOUSANDS have already been sold and the demand is constantly increasing.
Read the following letters from the first statesmen of the country, testifying to its importance:
From Senator Wade.
"I have examined Cochin's Results of Emancipation, and do not hesitate to say that it is the most full and complete work on that subject that has come under my notice, and conclusively shows that, wherever the experiment of emancipation has been tried, it has always been found beneficial, not less to the owner of the slave than to the slave himself. A general circulation of the work would tend powerfully to correct public opinion on that subject, and the friends of Freedom throughout the nation could do nothing more effectual to promote the cause of Emancipation than to aid its circulation."
From Hon. Winter Davis.
It is the *first work* which, by confronting the partial statements from which contradictory conclusions have been extorted by adverse partisans, has given a new proof that Emancipation is no exception to the principle that freedom is the best foundation for industry and order.
Its most *remarkable* part is the ascription of Emancipation to Christianity, in an era when its power is supposed to be on the wane.
Its most *interesting* part is its judgment by events of the prophecies of idleness, vagrancy and social anarchy with which the slaveholding interest has silenced the voice of reason and religion.
The most *instructive* part to us, at this time, is the striking demonstration of the necessity of indemnity in the general interest of industry, to enable the owners of land to pay wages to the freed negro—not to compensate the owner for the loss of property, but to relieve the society from the entire prostration of agriculture.
This places *indemnity* on its true ground of industrial necessity, and gives its true measure. The negro must either work or beg! The master must have wages to pay, or leave his land a wilderness! If the master can pay wages, he has as much labor as before, and the freed negro the means of gaining a livelihood in freedom.
The conditions of the emancipation of about as many slaves as those in the loyal States, dismissed by Cochin, vary materially from those under which a similar experiment is about to be attempted here. But the principles applied to the criticism of the facts are universally applicable; and the law of *indemnity* has been, for the first time, so stated as to entitle it to universal acceptance.
From Hon. Charles Sumner.
"The work of Mr. Cochin is able, excellent, and practical, especially at this moment. It is of infinite value as a witness with regard to the past and as a guide to the great duty which is now before us. Wherever it is read Emancipation will be accepted as a gentle, mild, and peaceful measure, sure to bring good fruits and to overflow with blessings. Charged with such a mission, the book should travel far and wide.

NEW SKIRT FOR 1864.
A NEW AND GREAT INVENTION IN
HOOP SKIRTS.
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
J. I. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this
J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.
This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

MASON & HAMLIN'S CABINET ORGANS, for FAMILIES, CHURCHES, and SCHOOLS.—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons, and all other small organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $45 to $500 each.
CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth-st., between Union Square and Irving Place, New-York.

$2,000,000 LOAN OF THE
COUNTY OF NEW-YORK.
Subscriptions are hereby invited to a Loan of Two Million Dollars, authorized by an ordinance of the Board of Supervisors, approved by the Mayor June 15, 1864, entitled "An Ordinance to provide for the procurement of Volunteers for the Armies of the Union, as part and parcel of the Quota of the City and County of New-York, under any future call of the President for men."

Our fellow citizens, and the public generally, are respectfully invited to cooperate with the Board of Supervisors in the benevolent and patriotic purpose of supplying the quota of men from this County, on the call of the President for more men for the army, soon to be made public, without resorting to a draft for that purpose. Action will not be taken to raise volunteers under the ordinance referred to until a sufficient amount is subscribed to warrant the Committee in proceeding in this matter.
