I.

THE LADDER OF LIFE.
A HEART HISTORY.
BY AMELIA B. EDWARDS,
Author of "Barbara's History," &c.
8vo., Paper, 50 cents.

Miss Edwards has qualities superior to mere literary facility: she has humor, insight into character, and a somewhat extensive knowledge of books.—[Athenæum.

Miss Edwards possesses many of the finest attributes which distinguished Charlotte Brontë. She has the strength, without the rudeness, which marked that memorable book "Jane Eyre." She has richness and originality of fancy, and fine artistic taste, beyond those of Miss Brontë. Her greatest success is in the perfect delineation of a male character.—[London Morning Post.

CATHARINE BEECHER
ON
THE TRAINING OF CHILDREN.

The Religious Training of Children in the Family, the School, and the Church. By Miss CATHARINE E. BEECHER. 12mo., Cloth, $1 50.

For nearly forty years the writer has been educating mothers and teachers. More than a thousand of her former pupils, in almost every sect and section of the country, during that period have been rearing families, into many of which she has been received as a confidential friend to learn their difficulties and their failure or success.

As the eldest and only unmarried child of a large family, for long periods she has also witnessed the varied methods pursued with children in different homes of near relatives.

The result is a deep conviction that the right training of children is the most difficult of all human pursuits; that success is invariably proportioned to the wisdom and fitness of the methods pursued; that the best modes are to be obtained only by a wide experience, involving many failures, and, as yet, offering no perfect examples; that the records of experience are indispensable to future success; and that educators, like medical men, are bound to make such records for the benefit of the profession.

This little volume, therefore, is offered as one contribution to the department of *religious training*.

No. 306 CHESTNUT-ST., PHILADELPHIA.

FOR THE PRESIDENTIAL CAMPAIGN.
READ COCHIN'S RESULTS OF EMANCIPATION.
Proving what are the practical workings of
PRESIDENT LINCOLN'S POLICY.
The most important and timely book of the season, which should be
CIRCULATED EVERYWHERE.
THE STANDARD WORK ON EMANCIPATION.
MANY THOUSANDS have already been sold and the demand is constantly increasing.
Read the following letters from the first statesmen of the country, testifying to its importance:
From the Hon. A. Stirling, State's Attorney for Baltimore.
"The publication of the book at this time is peculiarly opportune. Written by a foreigner, it escapes the imputation of interest or prejudice, or of being gotten up for an occasion, while at the same time the period of its appearance is just that for which such a book was suited. I trust that it will have a wide circulation everywhere, and especially in the Middle and in what are badly called the Border States. I say badly, because I hope we may never have a border, save the oceans and mountains which bound the Continent.
"The author treats the matter as the negro question is so seldom treated here, *practically*, at the same time bottoming on the great moral laws which lie at the base of everything which really concerns the social condition of the race.
"It is gratifying to read a book like this, in the midst of the fallacies, sophisms, and nonsense which have so long wrapped the subject. Its calm, convincing reasons and facts entirely dispose of the bugbears by which the questions of Emancipation and Slavery have been used to frighten timid people, and enable *traitors* to obtain political power."
From Hon. James Speed of Kentucky.
"It strikes me as a book calculated to do great good, and I will take an active interest in having it circulated and read in Kentucky. Since my early manhood, I have ever believed that Slavery is the greatest National sin upon which the sun looks in its diurnal career; and yet it is sustained by arguments so plausible and interests so powerful that it is not only difficult, but sometimes perilous, to say or do anything toward Emancipation. As the malady is a terrible one, the remedy must be difficult and may be slow. The book of M. Cochin is especially valuable just now, holding out the cheering hope that, though the remedy may be slow, it must be applied ultimately."
From Hon. Galusha A. Grow.
"It is a work of great merit, and furnishes most valuable information upon a subject now engrossing the attention of the American people."
From Hon. J. R. Doolittle.
"It is full of thought as well as of statistical information of the most recent date, and is worthy of study by all who take an interest in this great problem of our time."
From Hon. Cassius M. Clay.
"The book must be distributed by the friends of the cause, so as to reach its enemies."
From Hon. J. W. Forney.
"It is a book that ought to be in the hands of every thoughtful and inquiring American."
From Hon. Judge Holt.
"I shall be gratified to learn that your efforts to circulate the book in the Border States have been successful."
From Hon. Judge Bond of Baltimore.
"The information contained in this work, historical and tabular, cannot be had elsewhere, and for the sake of our people, it is to be hoped it may have an extensive circulation."

PILES, FISTULA, PROLAPSUS, and STRICTURE.—The 46th number of THE SCALPEL contains a comprehensive article on the sympathic symptoms of the various organs contained in the Pelvis. By a careful reading, the most accurate idea of his existing condition can be formed by any person who requires such instruction; whilst no scientific man can fail to acknowledge its great value to himself, as a careful and almost exhaustive digest of the symptomatology of diseases of the Rectum, and their sympathy with the Urethra. This number also contains a review of the rationale of Mr. Pyne's new method of treating Stricture, by the Editor, E. H. Dixon, M. D.

A WORK OF GREAT VALUE.

IN PRESS:
A POLITICAL HISTORY
OF THE
REBELLION,
BY
HON. EDWARD McPHERSON,
CLERK OF THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES.

Presenting a complete and impartial Record of the momentous Political Events of the last four years, carefully compiled, arranged and indexed.

8vo., full law sheep, $4.

The Washington Chronicle of the 18th June says of it:
"Mr. McPherson is singularly qualified to compile and edit such a work. He has been identified with the public press, and served as a member of the House of Representatives. He is, therefore, not alone acquainted with the public men of the country, but with the great questions that have disturbed the nation, especially since the events succeeding the repeal of the Missouri Compromise, and beginning with the Administration of James Buchanan. From a view that we have had of a portion of the sheets of this interesting and much needed work, we can say to our political friends, and, indeed, to men of all parties, that it will be the most thorough and most carefully digested and arranged book on this subject that has yet been produced in this country."

NEW SKIRT FOR 1864.
A NEW AND GREAT INVENTION IN
HOOP SKIRTS.
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
J. L. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this
J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical Skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

J. F. REICHENBACH, PIANO-FORTE TUNER and REPAIRER, No. 15 West Houston-st., near Broadway, N. Y. New and Second-Hand Pianos For Sale and To Let.

MASON & HAMLIN'S CABINET ORGANS, for FAMILIES, CHURCHES, and SCHOOLS.—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons, and all other small organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $85 to $500 each.
CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

A full assortment of our well-known Pianos constantly on hand, warranted in every respect. Purchasers will do well to examine our stock and prices before making their selections.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth-st., between Union Square and Irving Place, New-York.
