Sam Houston has been making speeches for "the Union" in Texas. He was ably aided by his colleague, General Rusk. Gen. Henderson took ground against the Texas Senators and Compromise, but was worsted in the controversy.

SAD ACCIDENT.—Thomas Baker, a brother of Col. Baker, ex-member of Congress, was driving a spirited horse on the prairie some twelve miles from Springfield, Ill., when he stopped to adjust the harness. The horse took fright and ran; Mr. Baker fell forward, his leg getting fastened between the springs and axle of the buggy. In this position the horse ran four miles, when he stopped. With broken limbs and bruised body, Baker extricated himself, and for two days and nights he lay exposed, suffering intense agony. On the morning of the third day, he was found by a drover, and relieved. He lingered six days, and died. He was 32 years old.

LOUISVILLE, Nov. 30.

One of the most appalling and destructive tornadoes which has been experienced in the Mississippi Valley for several years, occurred about two o'clock, this afternoon.—It swept over the town of Girardeau, Miss. situated in Mississippi River just below St. Louis, and demolished some 70 or 80 building—many of them the finest and principal business houses in the place.

SCOTT AND JONES.—The Union (Pa.) Star hoists at the head of its columns the name of General Scott for President, and ex-Governor James C. Jones, of Tennessee, for Vice President.

☞ Wisconsin has 400,000 inhabitants.

☞ New Orleans papers are castigating Mr. Soule, of the United States Senate, for his ridiculous speech on his return from Washington, in which he denounces Northern men residing in the South, and New Orleans in particular, for being under Northern influence. He said:

"Gentlemen, I care very little for the opinion of this city. New Orleans is under Yankee influence—an influence which we must get rid of."

Mr Soule is by birth a FRENCHMAN. The impudence of a foreigner who comes to the United States, and tells the people of one section of our country that they should not tolerate the residence among them of their own countrymen of another section, is beyond all endurance. Mr. Soule deserves to be hissed out of the republic.—*Louisville Journal.*

DELAWARE SENATOR.—The Hon. James A. Bayard, who, it is supposed, will be chosen U. S. Senator, is the son of Richard H. Bayard, formerly a Senator in Congress, who is a sound Whig. James was the U. S. Attorney for the State when Mr. Van Buren was President.

VERMONT AND CANADA RAILROAD.—The track is now laid as far as the Missisquoi Bay bridge. From this place to Rouse's Point the distance is about seven miles. The iron is already laid over more than half this DISTANCE. The whole will be completed in a few days.—*St. Albans Messenger.*

MARSHAL DEVENS.—Mr. Crittenden, Attorney General of the United States, in answer to a call from the President, has given an opinion in reference to an alleged neglect and dereliction of duty on the part of Marshal Devens or his deputy, in failing to execute the warrant which came into his hands for the arrest of Wm Crafts, the fugitive slave. He says, after examining all papers bearing upon the subject, and with no bias or preposession in favor of the Marshal, he does not find any cause for the censure of their conduct or their removal from office. He closes thus,—

"A more commendable activity and energy might have been exerted by them, but they seem to have acted to a considerable extent on consultation, and in concert with Hughes the agent for the owner of the fugitive slave; and what might otherwise appear to be blameable in them, may have been the result of that consultation and concert. In this uncertain state of the case, the declaration made by Hughes at the conclusion of the transaction, that he had no complaint to make against them, or words to that effect, is entitled to, and has had some influence on my judgment. If I could have discovered satisfactory evidence of neglect or evasion of duty by these officers in this case, it would have been no less consonant with my feelings than with my judgment to have recommended their instant dismissal from the public service."

RELAXATION AND AMUSEMENT.—Every one needs some relaxation or amusement, and experience has found that the best relief for the mind is not idleness, but change of occupation. Let your relaxation be intellectual engagements, and your amusements the entertaining developments of truth. Though perhaps wearisome at first, such a habit of study will find no refreshment like communion with graceful or exalted minds, and instead of a toil to be feared, you welcome release from other toil, that you may turn to the conversation of philosophy—a friend ever ready and ever faithful. He who has this habit is never alone and never without pleasure. If he walks abroad, the heavenly bodies are they wheel along their orbits, the winds, and the storm clouds, whose laws seems inscrutable, the countless tribes of living things, with their varied anatomy and habits and usages, the plants of the field, and the trees of the wood, the rock, the soil on which he treads, all speak to him in a language he understands, and give him lessons of profit and delight. If he sits at home, the volume before him, with better than magic power, uplifts him from the dull earth in truthful dreams of the poet, bears him back to past ages, acquaints him with the experience of men, individual and social, reveals to him in an hour secrets which others toiled years to discover, makes him a companion of the best minds, when acting best; the best minds in their actings; or if he close his senses for quiet meditation, he has within a world of pleasant and exalted thought. Nor let it be said that these pursuits unfit a man for ordinary occupation.

They do, indeed, refine and elevate, and so may disgust him with the mere lucre of gain and the petty objects of common ambition; but for this very reason they should be cherished. You will need all their influence to keep you from sordidness, selfishness and worldliness; from becoming the slave of dollars and cents, of truckling expediency, of popular prejudice, or worse, of sense and appetite.

OLD GIFFORD MORGAN DEAD.—This celebrated horse died at Walpole, N. H., October 30th, at the age of 26 or 27 years. He for a long time has been considered one of the most valuable horses in that part of the country.

GOV. QUITMAN AND DISUNION.—The Message of Gov. Quitman to the Legislature of Mississippi, goes strongly for Disunion. He thinks it impossible to save the Union, but is willing to try the North by asking for a division of California. That refuse!, the Message and its author assert that the South ought to secede.

☞ The Message of Gov. Seabrook, of South Carolina, advocates secession, and embodies pretty much the general sentiments heretofore expressed by the South Carolina secessionists.

THE BRITISH PERIODICALS
AND THE
Farmer's Guide.
LEONARD SCOTT & Co.,
NO. 54 GOLD ST., NEW YORK,

Continue to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE,"

By HENRY STEPHENS, F. R. S., of Edinburgh, author of the "*Book of the Farm*," &c., &c.; assisted by JOHN NORTON, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable work will comprise two large octavo volumes, containing over 1400 pages, with 18 or 20 splendid steel engravings and more than 600 engravings on wood, in the highest style of the art, illustrating all and every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *practical* feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in Semi-monthly Numbers, of 64 pages each, exclusive of the Steel engravings, and is sold at 25 cents each, or $5 for the entire work in numbers, of which there will be at least twenty-two.

The British Periodicals Republished are as follows, viz.:

The London Quarterly Review (Conservative)
The Edinburgh Review (Whig),
The North British Review (Free-Church),
The Westminster Review (Liberal),
AND
Blackwood's Edinburgh Magazine (Tory).

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of *Christopher North*, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel" (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by these publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprints of that Magazine may always rely on having the *earliest* reading of these fascinating tales.

Another wonderful cure of SCROFULA effected by Brant's Indian Purifying Extract.—One bottle of which is ten times more efficacious and Purifying than any bottle of Sarsaparilla that was ever sold.

MR. M. P. WALKER—Dear Sir: I take pleasure in informing you that the four bottles of BRANT'S PURIFYING EXTRACT which I have used, has had the desired effect. For more than a year I was prostrated with the worst of all diseases, Scrofula, in the glands of my neck. So severely was I afflicted by the swellings, sores and running ulcers, that my general health deeply and seriously suffered. I was for months in a state bordering on a hopeless portion of the tomb. I was advised and prescribed for by some of the most skilful physicians in this city, and other cities, and I spent most of a season at Saratoga and Sharon Springs, and all to no beneficial purpose. But now I am gratified to be able to say that by the use of Brant's Purifying Extract I am restored to perfect health, and I do in great confidence recommend its use to others as a certain cure for for Scrofulous affections, and all impurities of the blood.

STRONG TESTIMONY.

☞ "The columns of the Press throughout the country seem to be teeming with notices of cures and specifics for all diseases—both as local as they are, it behoves honest men to do in case of disease, for fear that in ignorance imposition another and better may be overlooked. But from the remarkable cases, and the high vouchers and well attested testimony lately brought to our personal notice of the extraordinary efficacy of Dr. Rogers' Syrup of Liverwort, Tar, and Canchalagua, we are compelled to regard the evidence of unusual, and confidential value, for Consumption, Colds, and that hydra headed monster, Catarrh. Dr. Rogers, we think the above preparation a safe, speedy, and certain cure. To all our friends we say, TRY IT, and if it does not help you, nothing else will.

BRANT'S PURIFYING EXTRACT

THE GREATEST PURIFIER of the Blood in the world is now put up in QUART BOTTLES and is prepared in the same manner and of the same MEDICAL STRENGTH as heretofore when put up in Small Bottles.

When the wonderful medical virtues—the SMALL quantity required for a Dose—and now, the SIZE of the BOTTLE, and the little trifle a Bottle will last the consumer, is compared with Sarsaparilla, ONE BOTTLE of the Purifier is equal to TEN BOTTLES of Sarsaparilla!

The Medicinal qualities of the Purifier are as STRONG AS CONSTITUTED, ☞ that only ONE TABLE SPOONFUL is required for a Dose—THREE times a day, and as each bottle contains SIXTY FOUR DOSES, one bottle will last 20 TWENTY-ONE DAYS, ☞—which is from TEN to SIXTEEN days LONGER than a bottle of Sarsaparilla. Sarsaparilla in LARGE bottles is so reduced and weakened that two, three, or more tablespoonfuls in the dose of it, three, four, or more times a day,—thus, a bottle of Sarsaparilla only lasts from five to Ten days.

BRANT'S PURIFIER is greatly superior to Sarsaparilla in medical efficacy, because the Purifier possesses not only the PURE ESSENCE of Sarsaparilla, Yellow Dock, Cherry, and Sassafras, BUSH STRONGLY CONCENTRATED, and has more of each of THESE medicines in a bottle of it than there is in a bottle of Sarsaparilla—but because it also possesses OTHER medicinal properties which are so much more valuable than Sarsaparilla for purifying, healing and invigorating purposes, that Sarsaparilla will not bear a comparison with them.

BRANT'S PULMONARY BALSAM continues to be the GREAT and ONLY remedy to be constantly depended on with success for CONSUMPTION, and all diseases of the THROAT, BREAST, and LUNGS. 2:23w

The above Medicines are sold in almost every town in the state, and in this county by

FEVER SORE.—Another great Cure made by the use of Brant's Indian Purifying Extract, which is five times stronger, cheaper, and more efficacious as a purifier, of the blood than any Sarsaparilla that was ever made.

Mr Chauncey Dunning, an Elder in the Presbyterian Church at Webster, Monroe Co., N. Y., writes to the Rev. Richard Dunning, pastor of the Presbyterian Church, Adam Basin, Monroe Co., N. Y.

"Dear Sir,—I received the bottle of Brant's medicine you sent me by Mr. Hicks, and after using that I got two more, as which I have not used all yet. I can found my knee gradually getting better, and a few days ago the pain entirely left it, but it was very weak. It is now gaining strength as fast as could be expected. When I commenced taking the medicine my case was considered very dangerous; but I placed all my hope, from what you had said, in that medicine, and consequently used no other. And I can now say, that I believe that that medicine, with the blessing of God, has effected a cure. My knee gradually improved with my knee; and I think if that medicine will cure a Fever Sore, that word of all complaints, that I shall not again be so troubled and afflicted with them, for I intend to use a quarter of bottles yearly as a preventive."

Rev. Dr. Channing—Saw him some weeks after, a well man, labouring on his farm, and certifies to his good character, and remarked, that this Cure, is the more remarkable, because, a few years since, his other leg was similarly diseased, and in order to save his life the doctor cut the leg off above the knee, and had cut that nothing short of the amputation of the remaining leg would save his life.

Important certificate of cures at Rochester New York.

The following certificates of cures at Rochester, N. Y. was addressed to Mr. Toney General Agent for that State:

Rochester, N. Y., June 5, 1846.

Sir—Some time last January, I was taken with a violent Cold attended with a distressing Cough, which in the course of a few days brought on a bleeding of the Lungs, with cords succeeded the Chest, pain in the side and much emaciated the heart. After despairing of my life for some days and getting no better, Mr. Parker, formerly Deputy Sheriff of this county, recommended me to get a bottle of Dr. Brown's Hundredth Balsam of Life, observing that he had been similarly afflicted and by the use of that medicine had been speedily and entirely cured. I immediately got a bottle, and after using it a short time, the result was as he predicted—I got entirely well. From the benefit I received from Dr Brown's, and from the interest I feel in the disease so many my friends who have used it for diseases of the Lungs and Chest, I am induced to believe it to be one of the best medicines now in use for those diseases, and as such recommend it to the public.

Bliss's Compound Cod Liver Oil Candy.
THE ORIGINAL AND ONLY GENUINE.

This invaluable remedy for coughs, colds, Influenza, asthma, bronchitis, and all affections of the throat and lungs, has now been before the public for the past year, during which time it has been cured more favorably by the most competent medical men, than any other remedy now known the virtues of Cod Liver Oil, that it is like a "sealed book" to thousands of suffering invalids, on account of its repulsive taste and smell. The proprietor has entirely divested this ancient obtruding from the medicinal virtues of the Oil, by combining it with a few other celebrated remedies, in the form of a most agreeable article of confectionary by which it can be administered to the most delicate invalid without inconvenience. The medical influence of the oil is thus given the exact track of the inflammatory action causing cough. Pure medicine destroyed the cause, the mere inflammatory process, about the mucous lining of the windpipe, into the bronchial, and alveolar membrane, and tubes, and air cells of the lungs, which is the chief, if not the sole cause of consumption. The cough is relieved by the expectorant power to be exercised in advance and powerful tonic and general physic strengthening the fluids, and obstructions to the glands are gently and safely discharged by every expectoration. Bliss's Compound Cod Liver Oil Candy, a common cold yields to its benign influence in a few hours, and when resorted to before the complaint is far advanced, all disease of consumption is entirely prevented. Purchasers would do well to beware of imitations, as its rapidly increasing popularity has excited the cupidity of several druggists and confectioners, who are projecting an attack under the same name, perhaps by similar style, with a copy of the form, and the same, but false pretensions to public their valuable information upon the public as the genuine article. Be sure and call for Bliss's Compound Cod Liver Oil Candy, which will be found to be enveloped in a neat red wrapper, bearing appropriate designs, representing the vendibleness, as our exact, and persons engaged in the manufacture of the Oil. And a fac simile of the signature of the proprietor, without which none can be genuine. Prepared only by B. K. Bliss, Druggist, Springfield Mass. Proprietor and Sole Proprietor, A. B. & D. Sands, General Agents for New York. Redding & Co. Boston, General Agents for New England.

LEONARD DEMING has so far recovered his health as to enable him to do business, as Agent of the Vermont Mutual Fire Insurance Co. The Company having in former years employed travellingagents, who, being anxious for the profit, did not examine the building insured so closely as they ought, insured many above their real value, which tended, in a measure, to the destruction of the building within the six years. Having become satisfied that travelling agents was not the best mode, four or five years ago it was abandoned, and agents appointed for each town, or for two small towns, and the assessment which was 1¾ and 1¾ per cent on the premium notes, the two former years, is this year but 2 per cent, so that the interest of the money which has to be paid in some very noted companies, for 5 or 6 years will now pay your assessment in the Vermont Mutual the past year, and have the principal left.

Persons wishing their buildings insured can have, gratis, a small book giving the mode by which the Company do their business, and Agents of the Company can have blank applications by applying to

FALL ARRIVAL
—OF—
NEW GOODS!

ALTHOUGH much has been said in regard to the many new stocks of Goods in detail, intending to convey the idea that there was no possibility of producing anything better, or of a later or more attractive style, we would remark that it is well known that as every week or month passes, Manufacturers are busily engaged trying to excel any thing they have before been able to produce. The consequence is, that

H. LANGWORTHY & CO.,

being last in Market, are enabled to offer to the citizens of Middlebury, and vicinity, Goods of a superior quality and of latest styles. We consider it time thrown away to enumerate in detail, goods—many of which possess names not more than one in fifty could understand—but will stop right here, by saying that we can furnish our customers with almost any thing that they CALL DRESS, or WEAR, on as reasonable terms as any Store in Addison County. ☞ CALL AND SEE!

NOTICE.

J. HAGAR calls on all indebted to him—"Pay what then owest!"

"Men may sophisticate as they please, they never can make it right, and all the laws in the universe cannot make it right for the man to pay their debts. There is no in this matters so clear and so decisive, clears discipline, as in treating or false economy. He who violates his promise to pay, or withholds the payment of a debt, when it is in his power to meet his engagements, ought to be made to feel that in the sight of all good and honest men, he is a swindler. Religion may be a comfortable cloak under which to hide, but if Religion does not make a man deal justly, it is not worth having
