SPECIAL ANNOUNCEMENT.
UNITED STATES
HORSE AND CARRIAGE AUCTION MART.

The Proprietors take this opportunity of informing the public that they have erected spacious, commodious, and well-ventilated Stables and Carriage-Houses, situated in 26th-st., and corner of 4th-st., for the purpose of establishing a Mart, where persons who have Horses, Carriages, or Harness to dispose of, can do so by public auction. These premises have been constructed and fitted from the design and under the superintendence of Charles Bergin, esq., Architect, in the city, who has spared no trouble in furnishing them with all the European and modern improvements, comprising complete accommodation for Seventy Horses and Fifty Carriages, with appropriate Harness and Saddle Rooms; in addition to which there is a covered Ride or Area of considerable extent, for the purpose of exhibiting the Horses previous to sale, thus giving the buyer and seller mutual facilities, the former having the opportunity of judging the merits of his purchase, and the latter that full justice will be done to the property intrusted for sale.

The building has been constructed by Brown & Harper, No. 17 West 20th-st.; the masonry was done by Blackledge & Banta; and the decorations by W. F. Lessier, No. 54 West 40th-st., all of New-York.

Horses, Carriages, or Harness, will be sold by public auction every Wednesday and Saturday; accounts will be paid, or remitted to the country (when desired), on Tuesdays and Fridays only; no Horses will be admitted for private sale on commission, and all jobbing or dealing on the part of any one connected with the establishment will be strictly prohibited. The Proprietors earnestly assure the public that these rules will be rigidly carried out, and that all transactions will be bona-fide.

The demand for Horses in New-York is increasing, and the supply is limited, which encourages the proprietors to hope that their exertions will be appreciated by the American Public, and that their establishment, which is not surpassed by any of a similar kind in London, Liverpool, Dublin, or Edinburgh, will enjoy the same amount of patronage as they do in those important cities, and which have invariably proved (when conducted on the above-mentioned principles) a perfect success.

Horses, Carriages, or Harness, will be received for Wednesday's sale, on MONDAY, the 1st of AUGUST, 1864, when the Rules, Regulations, and Terms, can be seen at the office.

H. J. JORDAN & Co., Proprietors.

NEW SKIRT FOR 1864.
A NEW AND GREAT INVENTION IN
HOOP SKIRTS
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
J. I. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this

J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical Skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.
