Belgium has 4,337,000 inhabitants, over four millions of whom are Catholics. A strange kingdom for a Protestant King.

The New Hampshire Legislature adjourned *sine die* 15th ult., after having made a law to prevent fraudulent issues of Bank, Railway or other stock; another making cities and towns liable for mob damages occurring in them, and another for enabling married women to make testamentary disposition of their estates.

In London, the other day, Mr. Latour made an ascent in a parachute from Cremorne Gardens, and in descending on the Tottenham marshes was nearly killed. He had a sort of silken flying apparatus, which became disarranged in the air.

Lieut. Maury says that the steaming or sea distance between New York and San Francisco is as follows:—via Panama 5,200 miles; via Nicaragua 4,700; via Honduras 4,200; via Vera Cruz and Tehuantepec 4,200. The distances across the continent are not included in these estimates.

A writer in the London *Times* tells how, being lately in Glasgow, Scotland, and wanting his dinner, on the Sabbath day, he could not get one at a single hotel; and would have been famished, if he had not made himself an *inmate* in one of them, by paying for a bed, as a preliminary to a plate of meat!

Actions for heavy railroad damages for injuries inflicted in the late collision on the Baltimore and Susquehanna Railroad, have been entered by Madison Jeffers (two suits of $30,000 each) and Mrs Johnson, the latter claiming $20,000 for the death of a relative.

On Thursday night, the safe of the Grand Trunk Railroad office, at Montreal, was broken open, and money and securities to the value of £16,000 taken. Mr. Jacob Mansfield, merchant, of Windsor, Vt., left the Quincy House in Boston, whither he had gone on business, on the 7th ult., and has not since been heard of. As he left his carpet bag in Boston, it is feared he was murdered somewhere in that vicinity.

Feeling himself aggrieved by some remarks of the District Attorney, Mr. Inge, Foote made a violent effort to use his knife upon that official in open court. The Californians did not relish this dish of chivalry.

FATAL ACCIDENT.—At St Johnsbury on Monday Mr. Levi P. Brigham was attacked by a ferocious stallion, and so severely injured that he died shortly after. His brother was present, but at the moment of the attack happened to be looking the other way. Mr B's own account of the transaction was, that the horse reared, struck him with his fore feet, which knocked him down, and then seized him by the back of the neck and shoulders. His neck was dislocated, but the spinal marrow was not broken, so that he retained his consciousness till death, though his entire body was destitute alike of sensation and the power of motion. He lived about an hour and a half.

FATAL ACCIDENT.—On Wednesday morning, as the Engine of the Passenger train on the Central Road was approaching the Depot in this village, at a high speed, on passing a frog, Hugh McDermott, the fireman, fell from the Engine—his head striking upon the rail of the side track, and causing immediate death.—A Coroner's inquest was held by Justice Gilkey, and a verdict rendered substantially in accordance with the facts above stated. The deceased was a Scotchman, and had left a wife in Europe, who is now crossing the Atlantic, in the vain hope of meeting her husband.—*Windsor Journal.*

Washington County Seminary and Collegiate Institute, at Fort Edward N. Y.

The corner stone of this institution having been laid on the 22nd ult., with appropriate ceremonies, it seems proper to give the Public a more extended notice of the character and magnitude of this enterprise.

The institution is organized by a Joint Stock Company, with a capital stock of thirty thousand dollars, in shares of twenty-five dollars each. The buildings are being built of brick, 200 ft. long by 40 ft., wide, and four stories high, besides attic and ground floor. A rear wing will extend back from the main building 130 ft. 40 ft. wide and three stories high, exclusive of ground floor and attic. The whole will be covered with slate, finished in a plain substantial manner, and furnished with every thing that can conduce to the health, comfort and convenience of its inmates. The location is a beautiful one, on an eminence overlooking the village, a long stretch of the Hudson river, and a splendid region of country.

The grounds purchased for the institution contain over ten acres, and are to be laid out into gardens, walks, parks, and play grounds, so as to secure space for healthy recreation.

Pure soft water will be introduced into the buildings from the celebrated Jane McCrea Spring; and in the arrangement of out buildings, drains, ventilators, &c., great care will be taken to provide for the health and convenience of students. The buildings will accommodate five hundred students, with convenient rooms and board, and eight hundred with instruction. Rev Joseph E King, now Principal of the Fort Plain Seminary, and for some years at the head of the very successful Seminary at Newbury Vt., has been engaged to take charge of the school, and with him will be associated a strong efficient Faculty of from 16 to 20 professors and teachers. A large and suitable philosophical and chemical Apparatus will be provided, together with ten Pianofortes, two Guitars, a Melodeon or Organ, and a good Library.

It is design of the Trustees to make the School of the highest grade, and to offer every facility as to arrangements, terms, prices, &c., that can be found anywhere.

Courses of study will be prescribed for the young gentlemen who wish to pursue an academic course, and to young ladies who desire a collegiate course, to whom diplomas will be given. Particular attention will be given to those who are desirous of preparing for College. It is designed to afford every facility to the study of agricultural chemistry, with experiments in the analyzing of soils, fertilizers, &c., and in their practical application.

Normal instruction will be given to those who design to teach common schools and an eclectic course will be prepared for those who wish to qualify themselves in a short space of time for giving instruction in any of the ornamental branches.

Something over two thirds of the capital stock of the association has been taken up and agents are employed with the design of getting the balance taken at a distance by persons who have children to educate. Such distribution of the stock, it is thought, will ensure a large patronage, which in time will enable the trustees to divide to the stock holders good interest from the profits of the school. An arrangement has been made with Mr. King and the undersigned, to take the management of the institution for ten years, on terms which provide for keeping the buildings, furniture and apparatus, and fixtures in good repair, meeting all expenses and paying from six to twelve per cent annually, on the capital stock, as the school shall be fully or thinly attended.

It is believed by those best acquainted with the enterprise, that by this arrangement, from nine to ten per cent will be sure to the stockholders for ten years. The trustees would be glad to have contributions of minerals and geological specimens for the cabinet, and books for the library from the friends of education. Persons having such articles can send them to George Harvey, Esq., or the undersigned. Any person wishing to subscribe to the capital stock can do so by personal or written application if made before the whole is taken up. Application for admission into the school, for the first term, which it is expected will be opened Thursday, Dec. 7th, or for other information may be made to the undersigned

THE FIRST PARTY FOR KANSAS.—The first party from Boston for the new territory of Kansas, left the Worcester depot Monday afternoon, a large number of persons being present to witness their departure and as the train started greeting them with hearty cheers. The party consisted of sixteen persons, young and active men, of whom three were from that city, three from Roxbury, four from Vermont, and two from Lynn. It is calculated that the party will receive large accessions on the route between this and St. Louis.—Another, and probably much larger party, will start from that city on the first of August.

INDIAN HOSTILITIES.—The Texas papers are filled with depredations committed by the Indians—there not being a sufficient force of troops to keep them in check.

During the absence of U. S. troops, who are in pursuit of the Indians, another large body made their appearance, destroying all the wagons and carrying off a large amount of property. The Indians have also brutally massacred an entire Mexican family residing on the Rio Grande. The Indians were arrested in the North by a party of thieving Mexicans.

DELIA WEBSTER.—There seems to be no doubt that the recent arrest of Miss Webster was an act of personal malice; but we guess that Delia is not doing any good in Kentucky, to herself or anybody else, and that the sooner she leaves the slave country, the better it will be for herself and the negroes and their masters, and for that Mr. Craig, who seems to have been bedevilled by her charms, and to have attempted to seize her quite in the old fashioned way that the Irish roisterers used to carry off heiresses and force them into marriage, only the Kentucky gentleman labored under the disability of already having one wife.—*Providence Journal.*

Addison County Mass Convention.

The Freemen of Addison County, in favor of a perfect Union of all the friends of freedom, to resist, by all Constitutional means, the aggressions of Slaveholders with Northern allies, upon the rights and interests of the Free States; in favor of asserting, and at the ballot-box carrying out, a determination to prevent the further spread of American Slavery, either by organizing Territories without the principle of prohibition, or admitting States into the Union with Slavery recognized in their Constitutions; in favor of forming a County ticket upon the principles of Union in imitation of the course pursued at Rutland the 7th of June, and in Chittenden and Rutland Counties: Such, are requested to meet at Union Hall, Middlebury, on the 9th day of August, at 10 o'clock A. HOLLOWAY'S OINTMENT AND PILLS, the most effectual remedies ever known, for Gout and Rheumatism.—Extract of a letter from Mr. Thomas Wyborn, druggist, dated Eton, dated April 26, 1852. "To Professor Holloway—Sir: A case lately came under my notice, which I think should be publicly known. It is that of a poor man who suffered so dreadfully from chronic rheumatism that he lost the use of one side of his body, and endured incessant pain. He was under different medical treatment, and at Westminster Hospital the faculty pronounced him incurable; however, by the use of your Ointment and Pills, he has been restored to health and strength."

Married,

In Whiting, July 19, by Rev. M. Ludlum, Mr. RANSOM WARNER to Miss FRANCES FRANCE, both of Whiting.

Died,

In Bridport, on the 26th ult., SARAH D., daughter of Hiram and Damaris Hamilton, aged 15 years.

In this town, on the 15th ult., DEA. DAVID BOYCE, aged 65 years.

Dea. Boyce was a native of Rochester, and came to Middlebury in 1809. He was held in high estimation and was chosen Deacon of the Congregational Church, in 1829. This office, on account of his infirmities and his being unable to attend public worship, he resigned in December, 1853. Dea. Boyce had a marked character. Though possessing talents above the ordinary grade, he was a man of great modesty—was cautious in his proceedings, but firm in his purposes, and ready to practice self-denying duties. Rarely has a plain unpretending man been more universally lamented, not only by his friends but by the whole circle of his acquaintances. To his family the loss is severe indeed—Blemishes he certainly had, but who reports them, or enquires what they were? Taking both worlds into view, there are very few who would not be safer and happier by imitating his example. He suffered very much from pain for one or two years before his death, but bowed submissively to Him who chastens to them.

BUNGENER'S WORKS.

PERSECUTION in the AGE of LOUIS XV

A BOOK OF STIRRING INTEREST!

The Priest and the Huguenot!

SECOND EDITION.

JUST PUBLISHED BY

GOULD & LINCOLN,

59 WASHINGTON ST., BOSTON,

The Priest and the Huguenot:

OR, PERSECUTION IN THE AGE OF LOUIS XV.

Part I—A Sermon at Court. Part II.—A Sermon in the City. Part III—A Sermon in the Desert. Translated from the French of L. Bungener, author of "The Preacher and the King." 2 vols. 12mo., cloth. A new work. Price $2 25.

These volumes furnish a gallery of noble historical paintings which Macaulay might envy. Louis XV., effeminate, selfish and unkingly, surrounded by his courtiers, narrow minded, hollow hearted, stands out from the canvas as a living portrait. The encyclopedists, with their noble leaders, Voltaire, Diderot, Rousseau, D'Alembert, and D'Holbach are sketched with a lifelike fidelity, scarcely surpassed by Boswell's portraits of Johnson and the immortal club. The Jesuits, too, appear in turn upon the painting. Their vices are satirized with a keen irony and a pungent invective that reminds one of the Provincial Letters; while their courage and zeal, and faithful devotion to their order, are set forth with a justice and admiration rarely accorded by an opponent.

NOTICES OF THE WORK

"Let no one be deterred from a perusal of the volumes because of the title page. The first part is called "A Sermon at Court," the second, "A Sermon in the City," and the third, "A Sermon in the Desert; but there is not any of that dry sort of reading that one naturally expects to find in sermons. On the contrary, it is nothing more nor less than an exceedingly interesting historical romance, covering a most eventful period of time, and introducing prominent characters who figure in the severities of the persecutions that decimated the followers of the church by confiscations, violent conversions, exiles and death.—*N. Y. Evening Mirror.*

"This is a capital book. We see not why it may not be read as widely as D'Aubigne's Reformation, or Carlyle's French Revolution. It is not a set history, but for the popular mind it is quite as good. It is a historical panorama, a set of historical tableaux, in which the historical characters of the epoch of Louis XV. are brought together, with such variety of character and incident as is the charm of a novel.

"It is affected and yet a history, a veracious picture of the time in which the great revolution was preparing, and near its birth. All the leading persons of the time—Boldame, the great preacher of the Catholics, Rambaut, the great preacher of the Protestants, the Encyclopedists, the King and his mistress, De Pompadour—pass in state before through the shifting scenes. And poor, hunted Protestantism, not as in history, place, with both its words of eloquence and poetry, its echoes of battles and martyrdoms. And the book is not neutral. It takes its side, the side of the weak, and defends it. Yet it is generous and it is just. It deals with the Jesuits generously and justly; and there are parts of its sentences at least, not unworthy of Pascal himself.—*Reason, Race and Country.*

AUTHOR.

Bourdaloue in the Court of Louis XIV.

The Preacher and the King;

Or, Bourdaloue in the Court of Louis XIV. Being an Account of the Pulpit Eloquence of that distinguished Era. Translated from the French of L. Bungener. Paris: twelfth edition. With an introduction by the Rev. George Potts, D. D., New York. 12mo., $1 25.

This work has attained a wide popularity in France, having passed through thirteen editions. It is a work possessing rare interest.

NOTICES OF THE PRESS.

It combines substantial history with the highest charm of romance; the most rigid philosophical criticism with a thorough analysis of human character and faithful representation of the spirit and manners of the age to which it relates. We regard the book as a valuable contribution to the cause not merely of general literature, but especially of pulpit eloquence. Its attractions are so various that it can hardly fail to find readers of almost every description.—*Presbyterian Recorder.*

A very delightful book. It is full of interest, and equally replete with sound thought and profitable sentiment.—*N. Y. Commercial.*

It is a volume at once curious, instructive and fascinating. The interviews of Bourdaloue at Versailles, and those of Bossuet, Fenelon, and others, are remarkably attractive, and of finished taste. Other high personages of France are brought in to figure in the narrative, while the moral rules are exemplified in a manner altogether new. Its extensive sale in France is evidence enough of its extraordinary merit and its peculiarly attractive qualities.—*Cin. Atlas.*

It is full of life and animation, and conveys a graphic idea of the state of morals and religion in the Augustan age of French literature.—*N. Y. Recorder.*

This book will attract by its novelty, and prove particularly engaging to those interested in the pulpit eloquence of an age characterized by the flagrant wickedness of Louis XIV. The author has exhibited singular skill in weaving into his narrative sketches of the remarkable men who flourished at that period, with original and striking remarks on the subject of preaching.—*Presbyterian.*

Its historical and biographical portions are valuable; its comments excellent, and its effect pure and benignant. A work which we recommend to all, as possessing rare interest.—*Buffalo Express.*

BOOK OF ANECDOTES.

Cyclopædia of Anecdotes of Literature and the Fine Arts.

Containing a copious and choice selection of Anecdotes of the various forms of Literature, of the Arts of Architecture, Engravings, Music, Poetry, Painting and Sculpture, and of the most celebrated Literary Characters and Artists of different countries and ages, &c. By Kaslitt Arvine, A. M. With numerous illustrations. 725 pp. octavo—price $3.

This is unquestionably the choicest collection of anecdotes ever published. It contains three thousand forty anecdotes, many of them articles of interest, containing reading matter equal to half a dozen pages of a common 12mo. volume, and such is the wonderful variety, that it will be found an almost inexhaustible fund of interest for every class of readers. The elaborate classification and indexes must commend it especially to public speakers, to the various classes of literary and scientific men, to artists, mechanics, and others, as a Dictionary for reference, in relation to facts on the numerous subjects and characters introduced. There are also more than one hundred and forty-five illustrations.

SMITH'S HUMAN SPECIES.

The Natural History of the Human Species

Its Typical Forms and Primeval Distribution. By Charles Hamilton Smith. With an introduction containing an abstract of the views of Blumenbach, Prichard, Bachman, Agassiz, and other writers of repute. By Samuel Kneeland, Jr., M.D. With elegant illustrations. 12mo. cloth, $1.25.

The history of the species is thoroughly considered by Colonel Smith, with regard to its origin, typical forms, distribution, affiliations, &c. The marks of practical good sense, careful observation, and deep research are displayed in every page. An introductory essay of some seventy or eighty pages forms a valuable addition to the work. It comprises an abstract of the opinions advocated by the most eminent writers on the subject. The statements are made with strict impartiality, and, without a comment, left to the judgment of the reader.—*Sartain's Mag.*

FARMERS, ALL HAIL!

THE MOWING MACHINE.

The undersigned having had some experience in the use of Mowing Machines and Reapers, and critically examined all that were on exhibition at the Crystal Palace, has procured the agency of Manny's Patent, with Wood's Improvement, as the best machine made, and should be happy at any time to show it in operation to the farmers. It is compact and simple in construction, yet strong and durable. The proprietor, Mr. W. A. Wood, warrants his machines capable of cutting and spreading as much grass per hour of any kind, and doing it as well as any other machine made, and with less power. He has two kinds, a Mower and Reaper combined, and a Mower. It weighs only 600 lbs., runs on wheels and can be handled as conveniently as a cart. I am ready to try it on my farm in competition with any machine in any kind of grass, at any time. The price of the Mower and Reaper is $125 cash—delivered on the cars at Hoosick Falls. Price of Mower $110, delivered to the farmer. Orders addressed to J. W. Strong, Chimney Point, specifying which kind is wanted, will meet with prompt attention.
