At the New-York Agency, New-York, 30,000 sets.
At the Frankford Arsenal, 10,000 sets.
At the Allegheny Arsenal, 20,000 sets.
At the St. Louis Arsenal, 10,000 sets.

Each set is to consist of the numbers of each kind of buckle, frame, ring, bolt, stud and loop now prescribed, except that two of the D rings in each set are to be made of the new pattern, with stop according to the models to be seen at the above arsenals. The castings are to be made of the best quality of malleable iron, the tongues of the buckles of best cloek wire. The dimensions of the finished castings and the finish and dimensions of the buckle-tongues and rollers must conform strictly to the standard gauges, which will be applied before inspecting. After being thoroughly cleaned, and freed from all sprues and irregularities, they are to be japanned in the best manner.

The goods are to be put up in papers in the usual manner, and packed, two hundred complete sets in a box of a quality, and marked as may be prescribed by the inspecting officer.

The work is to be subject to inspection at the manufactory in all stages of its progress, and no goods are to be received or paid for which have not passed inspection.

Deliveries are to be made as follows:

Bidders will state the weekly rate at which they can deliver. Bidders will state the arsenal of arsenals where they propose to deliver, and the number of sets they propose to deliver at each place, if for more than one. Failures to make deliveries at a specified time will subject the contractor to a forfeiture of the number he may fail to deliver at that time.

No bids will be received from parties other than regular manufacturers of the articles proposed for, and who are known to this Department to be capable of executing in their own shops the work proposed for.

Forms of bids can be obtained at the above named arsenals.

Proposals not made out on this form will not be considered.

GUARANTY.

The bidder will be required to accompany his proposition with a guaranty, signed by two responsible persons, that, in case his bid be accepted, he will at once execute the contract for the same, with good and sufficient sureties, in a sum equal to the amount of the contract, to deliver the articles proposed, in conformity with the terms of this advertisement; and in case the said bidder should fail to enter into the contract, they to make good the difference between the offer of said bidder and the next responsible bidder, or the person to whom the contract may be awarded.

The responsibility of the guarantors must be shown by the official certificate of the Clerk of the nearest District Court, and the United States District Attorney.

Bonds in the sum equal to the amount of the contract, signed by the contractor and both of his guarantors, will be required of the successful bidder or bidders upon signing the contract.

NEW SKIRT FOR 1864. A NEW AND GREAT INVENTION IN HOOP SKIRTS. THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING. J. I. & J. G. WEST, NO. 97 CHAMBERS-ST., NEW-YORK, are the owners of the Patent and Exclusive Manufacturers of this J. W. BRADLEY'S PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the most full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

GRAY'S PATENT MOLDED COLLARS Are not simply flat pieces of paper cut in the form of a collar, but are *Molded and Shaped to fit the neck*, having a perfect curve *free from angles or breaks*, which is obtained by our patented process, which also secures another *advantage possessed by no other collar*, viz: *Space for the Cravat* in the Turn-down style, the INSIDE OF WHICH IS PERFECTLY SMOOTH AND FREE FROM PUCKERS, making this collar, for ease, neatness and durability, unequaled.

They are made in Turn down style in sizes from 12 to 17, and in Garrote from 13 to 17 inches, and packed in neat blue boxes of 100 each; also in smaller ones of 13 each—the latter a very handy package for travelers, army and navy officers.
