KALLISTON OR ORIENT WATER.
For Beautifying the Complexion,
How shall uniformity of complexion be preserved? And when, through inadvertence, necessary exposure, or other cause, it has been lost, how shall it be restored?
These, and similar questions, occur daily to every one, and at the table, by the use of various preparations and prescriptions, an answer is often sought in vain. The preparations sold in the stores are often useless, sometimes injurious.
The inventor of the Kalliston has made this matter a subject of study and close chemical analysis, and this preparation is offered as one exactly adapted to the unusual conditions of the skin, and as one which will relieve its glandular parts, and induce that free action of the capillaries which give both beauty and health to the complexion.
