FOR THE PRESIDENTIAL CAMPAIGN.

READ COCHIN'S RESULTS OF EMANCIPATION.

Proving what are the practical workings of PRESIDENT LINCOLN'S POLICY.

The most important and timely book of the season, which should be CIRCULATED EVERYWHERE.

THE STANDARD WORK ON EMANCIPATION.

MANY THOUSANDS have already been sold and the demand is constantly increasing.

Read the following letters from the first statesmen of the country, testifying to its importance:

From Senator Wade.

"I have examined Cochin's Results of Emancipation, and not hesitate to say that it is the most full and complete work on that subject that has come under my notice, and conclusively shows that, wherever the experiment of emancipation has been tried, it has always been found beneficial, not less to the owner of the slave than to the slave himself. A general circulation of the work would tend powerfully to correct public opinion on that subject, and the friends of Freedom throughout the nation could do nothing more effectual to promote the cause of Emancipation than to aid its circulation."

From Hon. Winter Davis.

It is the *first work* which, by confronting the partial statements from which contradictory conclusions have been extorted by adverse partisans, has given a new proof that Emancipation is no exception to the principle that freedom is the best foundation for industry and order.

Its most *remarkable* part is the ascription of Emancipation to Christianity, in an era when its power is supposed to be on the wane.

Its most *interesting* part is its judgment by events of the prophecies of idleness, vagrancy and social anarchy with which the slaveholding interest has silenced the voice of reason and religion.

The most *instructive* part to us, at this time, is the striking demonstration of the necessity of indemnity in the general interest of industry, to enable the owners of land to pay wages to the freed negro—not to compensate the owner for the loss of property, but to relieve the society from the entire prostration of agriculture.

This places *indemnity* on its true ground of industrial necessity, and gives its true measure. The negro must either work or beg. The master must have wages to pay, or leave his land a wilderness. If the master can pay wages, he has as much labor as before, and the freed negro the means of gaining a livelihood in freedom.

The conditions of the emancipation of about as many slaves as those in the loyal States, discussed by Cochin, vary materially from those under which a similar experiment is about to be attempted here. But the principles applied to the criticism of the acts are universally applicable; and the law of *indemnity* has been, for the first time, so stated as to entitle it to universal acceptance.

From Hon. Charles Sumner.

The work of Mr. Cochin is able, excellent, and practical, especially at this moment. It is of infinite value as a witness with regard to the past and as a guide to the great duty which is now before us. Wherever it is read, Emancipation will be accepted as a gentle, mild, and peaceful measure, sure to bring good fruits and to overflow with blessings. Charged with such a mission, the book should travel far and wide.

LOSSING'S COMMON-SCHOOL HISTORY OF THE UNITED STATES. By BENSON J. LOSSING, author of "Pictorial History of the United States," "Field-Book of the Revolution," etc. Pp. 372. 12mo. cloth. Profusely and elegantly illustrated.

The great popularity of Mr. Lossing's previous School Histories of the United States, and their constantly extending use in the best schools, have led to the preparation of this new volume, which is designed to complete the series, furnishing an intermediate book, coming between his PICTORIAL UNITED STATES for high schools, and classes in which considerable attention is paid to this subject, and his PRIMARY UNITED STATES, designed for beginners and younger pupils.

The series will thus embrace Three Books, for Primary, Common and High Schools, each complete in itself.

The COMMON-SCHOOL HISTORY, now announced, is the result of much experience in the wants of teachers, and it is believed will be found a most acceptable book to the largest number of classes. As specimens of elegant typography, including beautiful illustrations, these histories are not surpassed by any other school books whatever.

A specimen copy of the "Common-School History" will be sent to any teacher for examination, post-paid, on receipt of $1 50. Published by MASON BROTHERS, New-York.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862. The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth-st., between Union Square and Irving Place, New-York.

THE WEBER PIANO FORTE—is admitted the BEST Piano Forte made, because the maker, besides being a practical mechanic of long experience, is also a THOROUGH MUSICIAN, thus combining advantages possessed by no other manufacturer in the United States. Such is the testimony of S. B. Mills, Robert Heller, Geo. F. Bristow, Wm. Mason, C. Jerome Hopkins, Chas. Fradel, Max Maretzek, Carl Anschutz, John Zundle, Maurice Strakosch, Gottschalk Scoscia, and every good musician in the United States. All musical ears at once admit their great superiority.
