MANCHESTER JOURNAL.

Local and State Matters.

—The Supreme Court for this county opens its session in this place to-day.—Present—Hon. J. Pierpoint, Ch. Judge.
" Asahel Peck, } Assist'
" W. C. Wilson, } Judges.
" B. H. Steele, }

—We are requested to give notice that there will be an oyster supper at Mr. Samuel Pike's, in Sunderland, on Wednesday evening, the 13th inst., for the benefit of the Rev. Mr. Craig. All who are willing to aid in a good cause are invited to attend.

—By an advertisement in another column it will be seen that W. J. Coulter, of Arlington, will run a daily Express from that place to Shushan, N. Y., connecting at the latter place with train for Troy and New York, making it the shortest and most convenient route to New York now open to the inhabitants of this locality.

—Died, at Fort Lincoln, Kansas, on the 28th of Dec. last, Walter H. Burton, son of the late Dea. Isaac Burton of this place. A few days since, we announced the death of Mr. Burton's wife. He followed her in the space of about four weeks, after a short period of sickness. And in this, we are reminded that the last of the family of Dea. Burton, consisting of three sons and one daughter, has now gone from this present world. J. A.

—Died, at Hartford, Conn., Jan. 15, Miss Charlotte E. Church, daughter of Mr. Joseph Church, and sister to the distinguished artist of that name. Miss Church was among the visitors to our village for a short time last autumn, in very feeble health. She left here on the 11th of October and in the space of three months amid the comforts of home, the unremitting attendances of the family and the consolations of religion, she bid adieu to earth—its sickness and sorrows—to find "rest for the weary," in that land, where "the inhabitant shall never say, I am sick." J. A.

—It is said there are 44 base ball Clubs in this State.

—The Vermont School Journal is dead, and its subscription list has passed to the publishers of The Massachusetts Teacher.

—There are 130 lodges and 2,000 G.S.of Templers in this State; Grafton numbers 350 "teetotal" temperance men and women.

—Liberty Wilder of West Wardsboro keeps the hotel in Sunderland which has long been known as "Kelly's."

—A telegram was sent from the office at Woodstock to California on the 30th ult., and an answer returned in four hours.

—A good story is told of a reply made by Judge Poland to an inquiry as to the reasons which caused the Vermonters to send Mr. Morrill to the Senate and remove the Judge to the House. "Well," said the Senator, "I suppose they thought that the Senate wanted more wool and the House more law."

—The shipments of butter from St. Albans in 1866 amounted to 2,617,195 pounds, and 882,495 pounds of cheese. The production of butter in Franklin county is estimated to have been 145,000 pounds in excess of any previous year, and in cheese there was a decrease of 40,000 pounds.

—Mr. and Mrs. A. W. Clark, of Rutland, and four of their boarders, Mr and Mrs Henry Kingsley, and Mr. and Mrs. James H. Dyer, came near losing their lives Tuesday night, the 22d ult., by poisoning with arsenic. Mrs. Kingsley and Mrs. Dyer are still in a critical condition. How the poison was administered is still a mystery.

—Gov. Hawley has been unanimously renominated for re-election by the Republicans of Connecticut,—and he will be re-elected.

—Rev. Joel Lindsey, who whipped to death his own child, three years of age, in the town of Shelby, N. Y., has been found guilty of manslaughter in the second degree at Albion.

A State Normal Music School.—The question of a State Normal Music School has been somewhat agitated of late in Vermont. It is a subject worthy of our earnest attention; such a school, rightly conducted, would be of great advantage in developing the musical talent of the State. We can easily establish one, and why not make an immediate effort to do it? A plan has been suggested to us for accomplishing this much desired object. It is this: To remove the Normal Music School from Ogdensburgh to Burlington, and incorporate the well known talent of our city, Mr. Proctor, and Mr. Moore, with the enterprise.

The school at Ogdensburgh has been one of the most successful in the country. So many Vermonters having attended it, induced the directors, the Messrs. Perkins, to manifest themselves willing to change the location to Burlington, if fifty scholarships could be obtained for three years, at $10 per year. The terms to be held during the summer,—through parts of July and August, to be six weeks in length. A scholarship entitles the holder to admittance to all classes. Instruction is given in Notation, Harmony and Composition, Cultivation of the Voice and Singing, Piano forte, Organ, Violin and Chorus practice; in Church, Glee and Oratorio music.

It is well known that Mr. Perkins has no superior in this country, as an instructor in singing, and as a conductor of church, glee and oratorio music.—His brothers, H. S., and J. E., whose reputations are already established in the profession, will be his associates.—The addition of Messrs. Proctor, and Moore, as teachers of the Piano and Organ, to the Corps, will be of great value to the school. Now cannot this project be carried out? We appeal to every lover of music in the State, and along its borders, to take hold of this matter. If done at all, it must be done at once, as the time is short to make the necessary arrangements. We propose that all persons, who will take scholarships for one, two or three years, send in their names to the publisher of the "Journal," and every musician, should act as agent to get names.

Shall we let this golden opportunity pass? It will be an easy matter to carry out the undertaking if we but half wake up to its importance.

Such a school would put new life and vigor into music throughout the State. It would bring out scores of fine voices, that otherwise would remain undeveloped, every year.

It will elevate the standard of musical taste. In fact it is just what we need. Shall we at once have it? Or shall we fail through indifference, and neglect to do our duty in the matter?—*Vt. Musical Journal.*

The Chronic Vero.—A Washington dispatch of the 24th gives the following synopsis of President Johnson's veto of the Colorado admission bill, which embraces the principal reasons assigned for the veto:—

The President this afternoon returned to the Senate, with his objections, the bill for the admission of Colorado into the Union. He vetoes the bill on the ground that the population is only 28,000, as appeared by census, and which is less than that of any other State that has heretofore asked to be admitted into the Union. Also on the the grounds of evident incongruity of of the legislation of that Territory and Congress on the subject in the third section, prescribing the conditions precedent of permitting citizens to vote without distinction of race or color; and, further, as to the legislation proposed for carrying out the provisions of the bill, the terms of one-half the members of the Territorial Legislature having expired on the 2d inst. The President urges that the question involved be submitted to the decision of the people, but says that within the 20 days specified, it will be impossible to reach certain portions of the Territory, owing to the winter obstructions of travel. He says a State applying for admission should have a population at least, equal to the ratio of Federal representation.

James Stephens.—The Tribune makes the following statement in regard to the great Irish agitator:

"Mr. Stephens, the great Head Centre, is still stopping in Brooklyn, No. 59 Second place, all rumors to the contrary notwithstanding. Mr. Stephens is, however, making his preparations for an early departure to the south of France as soon as the storm blows over in regard to his late eccentric movements. Mr Stephens sent a draft for $5000 to his wife by her brother, Mr. Geo. Hooper, who was in New York a short time ago, in order to provide for any contingencies that might occur.

Mrs. Stephens is at present located at Kingston, Ireland, and is pleasantly occupied in shopping, &c., according to the latest advices. Two of Mr. Stephens' friends left for Europe on Saturday, Col. Helpin and Col. Kelley, and Stephens accompanied to the city in a pilot boat the same afternoon. Mr. Stephens is enjoying excellent health, and is altogether undisturbed by the outside clamor and rumors in regard to his movements."

Profitable Undertaking.—A. H. Lee, the winner of the Crosby Opera House has sold the house to Mr. Crosby for $200,000.

The following is an exact statement of Mr. Crosby's balance sheet: U. H. Crosby, creditor by two hundred and ten thousand tickets at $5, $1,050,000; debtor to thirty thousand tickets not sold, $150,000; to advertising, $150,000; to paintings, $75,000; to engraving, $100,000; to commissions, $45,000; to printing and traveling, $30,000; paid A. H. Lee $200,000. Total debt, $750,000; profit, $300,000. Value of the Opera House, $550,000. Total profit on the undertaking, $850,000.

In Nashville recently some one was speaking of Gen. Grant's modesty, when Genl Forrest said: "I never knew any of the rebel leaders to accuse him of being a very retiring man. For one, I found him very forward in his advances."

—The United States war steamer, with Surratt on board, was at the island of Minorca within a few days and will very soon reach this country.

—Some one reckons George Peabody's benefactions in fourteen years at an average of $1,000 a day, exclusive of Sundays and holidays.

—General Thomas has testified that the blacks stand no chance before the Courts of South Carolina, and that the only remedy is a supervisory military power.

—The Herald's correspondence from the principal cities in the South indicates a general reaction politically among the Southern people.

—Statistics show that during the four years of the war, there was used in this country 500,000,000 lbs. of foreign wool and 300,000,000 lbs. of home wool.

—The President has at last found a place for Gen. Fullerton. He is to be postmaster in St. Louis, if the Senate will consent.

—The Maryland Legislature has passed an act abolishing the article in the code permitting the sale of negroes into slavery as a punishment for crime.—There will hereafter be no distinction in this State in the mode of punishing white and black criminals.

—A memorial of 1,000 loyal citizens of Virginia, urging Congress to hasten the matter of reconstruction, has been presented to Congress by a delegation sent from Norfolk for that purpose.

—The Supreme Court of Alabama has decided that the existence of the State was not destroyed by secession and the events that followed, and that all acts under its authority and *de facto* Government before surrender, so far as executed, are valid.

—On Saturday, Mr. Ashley, of Ohio, in alluding to the character of the Democratic party, denounced it as disloyal to the Government. Mr. Hunter, of New York said that if the gentleman included him in his offensive remark concerning the Democratic party, he "lied," for which words Mr. Hunter was brought before the bar of the House and censured.

—There is a strong feeling of sympathy throughout the United States for the Greeks who are struggling to regain their liberty. In all the larger cities meetings have been held and large amounts subscribed to aid these people in their attempt to shake off their oppressors. The appeal to the sympathies of our people in aid of the suffering is never in vain.

—Dispatches of the 28th, from London state that Mr. Jas. Gordon Bennett Jr., owner of yacht Henrietta had offered her as a New Year's present to Prince Alfred, Queen Victoria's second son. The present was handsomely acknowledged by the Prince, who feels bound, however, to decline its reception but thinks English yachtsmen should furnish a match for the Henrietta. The correspondence is chiefly noteworthy as showing the friendly feeling of England toward this country.

BUSINESS NOTICES.

Singer's Sewing Machines.—New Arrangement.

The undersigned have entered into the following arrangement for the sale of the "Singer Manufacturing Co.'s" Sewing Machines. A room is being fitted up in the Store building of Crane & Burton, where a good supply of the different styles of Machines will be kept on exhibition and for sale. The room will always be well warmed (in cold weather) and is retired from the business portion of the Store, where Ladies can at any time examine and try Machines, undisturbed and at their leisure. Mr. Purdy will travel as heretofore, and hold himself always in readiness to deliver Machines at the dwellings of people who may wish to give them a trial, giving all necessary instruction to any who may desire to learn to use the Machine. Machines can be seen, also, at the residence of R. T. Purdy.

By this arrangement our interest in the sale of all Machines is mutual. There will be no more cutting under in price, but all sales will be made at the regular Manufacturers published list prices.
