Manchester.

—We delay the publication of the JOURNAL one day this week, in order that we may give the result of the election.

—Mrs. Anne Pettibone of this town, has the thanks of the printers for a cake of butternut candy. It was the nicest article of the kind we ever saw.

—The attention of persons wishing to purchase a farm or other property is called to our advertising columns. Several first-rate chances are there offered.

—A Green House, 22x40 feet, is to be built at the cemetery this fall. It will cost upwards of six hundred dollars, which amount is being raised by subscription. T. Perkins is to build it.

—The afflicted should read the announcement of Prof. Mabee in another column.

—Mr. John D. Purdy of this town, planted last spring one Early Rose potatoe, from which he has raised 225 potatoes—the three largest weighing three pounds and 12 ounces. Can any one beat that?

—On Saturday last, a match game of base ball was played at Castleton between the Clippers of that place, champions, and the Unknowns of Rutland, for the prize bat and championship of the First Congressional District, and was won by the latter club. The Unknowns being unable to accept further challenges the present season, owing to the business engagements of its members, have transmitted the bat to the Ondawa Club of this place. The following minutes of a meeting held by the club Saturday evening explains its action:

"Business and other engagements of the members of the Unknown Club preventing the acceptance of further challenges the present season, at a special meeting of the club held Sept. 4th, it was unanimously voted to transmit to the Ondawa Base Ball club of Manchester the emblem of the championship of the first Congressional District of Vermont, this day won by the Unknowns from the Clipper Club of Castleton, as a token of their appreciation of the very cordial and gentlemanly bearing of the members of the Ondawa nine, in the friendly contest between those clubs during the last season.

Factory Point.

—The water in the stream has been so low that the mills for several weeks have not run on even "half time."

—W. A. Adams has been moving the past week the old school house building, and has put it in place upon his lot on the cemetery road. The lower part will be finished off into two or three rooms for shops, &c., and the upper room, the old Town Hall, will be made into a new hall, and it is said will a very neat and comfortable one. The ceiling can be raised up two feet or more, thus doing away with the most prominent objection, the lowness of the ceiling, to the old hall when it was in good order otherwise.

—King Alcohol stirred up a bit of a fight between two belligerant individuals, at the Depot Saturday evening. Neither, owing to the interference of bystanders, was "pounded" half as much as he ought to have been.

—The same night we learn that an individual got up to go down to get a drink of water to quench his burning thirst, and fell down a flight of stairs, from top to bottom, spraining his shoulder and cutting his head, thereby stirring up quite a commotion in his boarding place.

—Rev. N. Pierce writes the Bellows Falls Times from Michigan, as follows concerning the Rev. A. M. Swain, formerly pastor of the Baptist church at Factory Point:

Many of your readers will be pleased to hear that Bro. A. M. Swain of Fairfield, in this State, is prospering finely in his church. They will be pained to learn that his health is not as good as formerly. The climate is not as desirable as might be for his constitution. This season has been so cold and wet that no one enjoys as robust health as in ordinary times. Bro. Mr. Goodall, who came from Londonderry, is prospering finely in his parish at Three Rivers.

Dorset.

—We notice that several new dwelling houses have been erected in Dorset and vicinity during the past season. Mr. Edward Manley is building him a handsome residence, which, when completed, will be one of the finest in the place.

—M. P. Hoskins, of South Dorset, will sell his personal property at auction on the 19th inst.—He will offer three horses and three baggy wagons for sale among the property to be disposed of.

Sandgate.

—A Sandgate correspondent speaks thusly of the manner in which one of her citizens gains a livelihood:—H. C. Benson, of Sandgate supports his family by manufacturing and peddling nonintoxicates without stamps or licenses. His stimulating doses are composed of dock root steeped in water and mixed with poor whiskey.

Manchester.

—The extensive paper mill of Geo. Benson & Sons of Bennington, was destroyed by fire on Thursday night of last week. The loss on the mill property, together with the stock injured, is estimated at $40,000. There was only a partial insurance on the property. It is probable that they will erect another and more extensive manufactory at once.

—We are requested to state that Henry Clark, Esq., of Rutland, will deliver the address before the Bennington County Agricultural Society on the last day of the fair—if any one knows when that is.

—On Thursday night last, a freight train on the Lebanon Springs railroad, ran over a man named Martin Lynnard, two miles above Chatham, killing him instantly.

State News.

—89,300 pounds of butter were shipped from St. Albans on Tuesday. Prices ranged from 30 to 37 cents.

—Two parties of surveyors are now at work on the construction survey of the Lamoille Valley Railroad (the Vermont section of the Portland & Ogdensburg railroad), and the directors expect to have the road ready for contract this fall.—Five per cent of the capital stock is now being collected.

—The Hon. Horace Greeley will deliver the address before the Lamoille county agricultural fair to be held at Morrisville on the 23d and 24th inst.

—A large catamount was seen in Hyde park last week. It was up a tall basswood tree, and jumped from one of the limbs to the ground, a distance of thirty feet.

—Five persons have been arrested for selling rum, in Castleton, said fines $10 and costs each. The landlord of the Valley hotel at Middletown, for the same offense has had his liquor confiscated and paid a smart fine.

—There is in Tunbridge a man by the name of Diamond, who is the father of fourteen children by his first wife. About a year since he married the widow of Rhino Howe, who is the mother of fifteen children. A few weeks since she presented her husband with a fine little Diamond, which added to the former jewels, makes the goodly number of thirty precious gems in one splendid earcanet.

—Mrs. Martha Washburn, now residing at Dealing, was one hundred years of age January 27, 1869. She was the daughter of Mr. and Mrs. Solomon Emmons of Windsor, who were the first white persons who resided within the territory comprising the present town.

—David Hopkins of Orwell had twenty-seven swarms of bees at the beginning of the season.—They have produced one hundred boxes of honey, the net weight of which is about 1,300 pounds. He lost all spring from a single swarm which he got in 1867.

—The last fresh of nature is in the possession of Adams Abbott of Troy. It is four kittens, all perfectly formed, and all joined together, two black and two white. As joined, three are headed one way, while the other will be compelled to walk backwards at least three-fourths of the time.

—Willie, son of Rev. Mr. Whiting of Windsor, disappeared two weeks ago and has not been heard from since, although circulars with a description of him have been sent to all parts of New England. He had on an old suit of clothes as he was going berrying, and had but thirty cents with him which he took to give a man whose window he had broken. He was last seen by the man, who now says he refused the thirty cents, and told the boy, in order to frighten him, that he would have him arrested and sent to prison.

—It is stated that Gen. Canby is preparing a report of the Virginia election which will not present it in a very flattering light.

—The death rates among the Mormons is greater than that of New York or New Orleans, and more than twice that of Oregon, while among the children of the saints the mortality is frightful. Of sixty deaths in Salt Lake City in a month, forty-four were children. Herber Kimball is reported to have buried forty-eight children out of sixty-three in his collection; one lineage has lost twenty children; another, twenty-eight, and another, seventeen.

—It appears that the new Constitution of Tennessee empowers the Legislature elect to act, if necessary, from the time of its ele tion, so that the last Legislature would have no right to ratify the Fifteenth Amendment, even if called to act on it. Gov. Senter believes that the new Legislature's action will be favorable, but few Republicans concur with him.

—A young man sent some money to a New York firm to get something good "for those contemplating matrimony." He received a bottle of soothing syrup.

—It is stated that another Atlantic Cable, to join the United States with Prussia, is projected. It is to be finished in two years.

—The rumors which have been in circulation, that Justice Grier intends to retire from his seat upon the bench of the Supreme Court, assumes a definite form and are evidently given with his sanction. This step is prompted by the growing infirmities of age and the natural longing for rest. Justice Grier has served during the ordinary lifetime of a healthy man in his official capacity, and is well entitled to the respite he desires. He is now in his seventy-six year. It is understood his withdrawal will take place in March, under the law which enables Supreme Court Judges more than seventy years of age to retire upon a salary.

—Chief Justice Chase is grieved that the papers persist in dragging his name before the public as a candidate for the presidency. He disclaims any ambition for the White House, and henceforth may be "counted out" in the calculation of political speculators. A St. Louis dispatch informs us that a gentleman of that city claims to have received a letter from the Chief Justice in which he says: "I am out of all future political contests and no one need be jealous of me hereafter."

I. O. of O. F.—The Grand Lodge of the I. O. of O. F., met at Burlington August 23, 1869, and elected the following officers for the ensuing year: H. R. Hosford, Bupert, G. M.; J. H. Simmons, Middlebury, D. G. M.; J. S. McFarland, Rupert, G. W.; H. M. Currier, Brattleboro, G. Secretary; J. Lyman, Burlington, G. Treasurer; C. Woolhouse, Rutland, G. Chaplain; J. Mitchell, Burlington, G. Rep.

The order is increasing in the State, having nearly doubled during the past year.

THREE MONTHS FREE.—The publisher of MERRY'S MUSEUM offers to send that popular Magazine three months free to any one who wishes to examine it. Address HORACE B. FULLER, Publisher, 14, Bromfield Street, Boston.

THE ADVANCE.—This journal, which Dr. Bushnell pronounces "one of the ablest, best, and most outspoken religious papers now published," enters upon its third volume this week, and celebrates the event by several marked improvements. It appears in a new dress of type, begins the regular publication of Rev. Henry Ward Beecher's sermons, and adds several new names to its list of contributors, among them that of Hon. Henry Wilson of Massachusetts, who in the current number discusses the problem of Chinese immigration from the standpoint of Christian statesmanship. The publication of Beecher's sermons in the ADVANCE will prove an admirable feature of an already admirable paper, and attract many readers. THE ADVANCE is published at $2.50 per year by THE ADVANCE COMPANY, 25 Lombard Block, Chicago.

—Renne's Pain-killing Magic oil is sold by most of our traders and is becoming almost as indispensable in a family as good flour. It cures pain quickest of anything we ever tried.

—Severe lingering Coughs are cured by the use of Dr. Pierce's Alternative Extract or Golden Medical Discovery in less than one-half the time necessary to cure them with any other medicine. For Hoarseness, Laryngitis, or Minister's Sore Throat, Bronchitis and the early stages of Consumption, it surpasses everything before discovered. Sold by Druggists, or send three and a quarter dollars to Dr. R. V. Pierce, Buffalo, N. Y., and get three bottles free of express charges.

PRETTY WOMEN.—A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling beauty to the Complexion, pleasing, powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To preserve and dress the hair use Lyon's Kathairon.—16

COLBURN'S RED JACKET AXE.—This axe is better than the regular shaped axes for three reasons:—

I. It cuts deeper.
II. It don't stick.
III. It don't jar the hand.
IV. No time or strength is wasted in taking the axe out of the cut.

With the same labor you do one third more work.

With all these good qualities it is made of same steel and iron and temper, as our regular axes and will not bear rough usage any better than they.

TROY, IOWA, Dec 31st., 1868

LIPPINCOTT & BAKEWELL.—The Red Jacket Axe you send us is a good one. I think it is the best axe I ever had hold of.

It is a very easy axe to chop with. Any one can see by the shape of it that it does not require so much exertion on the part of the chopper as with the old style axe to make it penetrate into the wood. We are much pleased with it.

Yours, G. W. Clayton.

FREDONIA, IOWA, Feb. 5, 1869.

LIPPINCOTT & BAKEWELL, GENTS: The saw you sent Henry & Pierce is the best saw I ever saw, it takes two inch feed in oak and stands up hully. I cut 561 feet of oak fencing in 22 minutes.

The Institute has also published an invaluable treatise entitled "SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES." Don't fail to read the advertisement. 4w8

Brandreth's Pills.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect owe it to themselves to take a dose of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and a Family Medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pills of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman whose father died of consumption at 36 years, was so attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man 8w4

THE GREAT MEDICAL MISTAKE

Of former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness. Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanliness, the great antidote to febrific diseases, was easily neglected. It is not so now. Wise laws, philanthropic institutions, and a vigilant sanitary police have, to a great extent, remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lessen the rates of mortality. It is not too much to say that tens of thousands escape sickness in unhealthy seasons in consequence of having invigorated their systems in advance by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles, more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant.—The result is such a condition of the system as renders it all but impervious to the exterior causes of disease, such as damp, fog, sudden alterations of temperature, &c. Strength, and the perfect regularity of all the functions of the body, are the best safe-guards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and biliousness they are a specific ABSOLUTE.

Great and Prosperity.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

CHRISTADORO'S EXCELSIOR HAIR DYE,

The chemists have come out in two leading scientific journals against the lead and sulphur poisons for the hair (for that is their proper designation), with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that

and he knows it to be so, because he has analyzed it. Christadoro's Hair Preservative, as a Dressing, acts like a charm on the Hair after Dying. Try it.

"Judgment Sits Sitting Much Down."

ROCKY MOUNTAIN BITTERS.

is a very superior regulating Tonic, imparting vigor and strength to the constitution—a Guaranteed

PURIFIER OF THE BLOOD,

a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.

The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mystic one power, which QUIETLY RESTORES yet refuses to reveal to the senses anything but taste and odor.

It is a pleasant Bitter, free from all nauseous properties or odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of

DYSPEPSIA OR INDIGESTION,

manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing and ringing noises in the ears, eructations, or belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.

And for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of

FEVER AND AGUE,

or a restorer of the natural powers of the system, when broken down by continued ague shakes, it has no equal.

Being stimulating, (but not intoxicating) they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.

CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured by copyright, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in dark, long neck, quart bottles with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for "ROCKY MOUNTAIN BITTERS."—6m16

MANHOOD: How Lost, How Restored. Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps.—Also, Dr Culverwell's "Marriage Guide," price 25 cents. Address the publishers, CHAS. J. C. KLINE & CO. 3y14 127 Bowery, New York, Post-Office Box 4,586.

NEW PUBLICATIONS.

THIS BOOK PRESERVES THE FLAVOR AND ZEST OF THE OLD-FASHIONED VILLAGES AND FARMING TOWNS, AS THEY WERE BEFORE THE FOUR HORSE STAGE-COACHES HAD GIVEN PLACE TO THE FIERY LOCOMOTIVES OF OUR DAY, AND WILL RECALL TO MANY READERS THE SCENES OF A PAST GENERATION, AMONG WHOM THEY STARTED ON THE RACE OF LIFE.

From a long review in the *New York Tribune*, of the picturesque book "HOBBINS'; OR, FIVE AND TWENTY YEARS AGO." By THOMAS LAKELAND. Price $1.75. For sale by all booksellers, and sent, free of expense, on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

UNDINE. The exquisite romance of "UNDINE" was intended by its author to the embodiment of the dreamy Spring. With three other tales it made a round of the Four Seasons. Hard and Houghton's edition embraces these four, under the title, "UNDINE AND OTHER TALES." Price $1.50. Sold everywhere, and sent free, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass.

"We know of no book," says the Congregationalist, of Dr Peabody's "REMINISCENCES OF EUROPEAN TRAVEL," "which would be a better preparation for a trip to Europe, or which will more pleasantly recall to any one on his return the pleasures which he enjoyed abroad." Price $1.50. For sale everywhere. Sent by mail, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass., Publishers.

Mr. Howells's two books, "VENETIAN LIFE" and "ITALIAN JOURNEYS," are placed by the foremost English and American reviewers in the first rank of books of travel. Each $2.00.

We know of no single word which will so fitly characterize Mr Howells's new volume about Venice as "delightful."—*N. A. Review.*

Every sentence of this charming book is characteristic. It is the very model of what a light book of travels ought to be.—*London Westminster Review.*

For sale everywhere. Sent free, on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

OLD ENGLAND. Its Scenery, Art, and People. By JAMES M. HOPPIN, Professor in Yale College. 1 volume, 16mo. Price $2.00.

Professor Hoppin has laid the American and Christian public under great obligation by his book on Old England. It is a most readable volume, and at the same time most valuable. In a style remarkable for purity and graceful fertility, he has given a vast amount of information upon the great themes of his book. He is never tedious—just touches many subjects, sketches most, but suggests more than he says, and seems imbued with the very spirit and flavor of the men and things among which he moves. The effect of the book is like the companionship of a scholarly and Christian traveler.—*W. J. Buddington, D. D., in New York Independent.*

For sale by all booksellers. Sent post-paid, on receipt of price, by the Publishers, H. O. HOUGHTON & Co., Riverside, Cambridge, Mass.

MOZART'S LETTERS. 2 volumes. $4.50.
BEETHOVEN'S LETTERS. 1 volume. $2.00.

The best exponent of music is the life of the music-writer, and these letters are the most truthful and satisfactory representations of the life of these great men. Portraits are prefixed to the volumes.

The Letters of Mozart, giving us at once a view of his inner life and a glimpse at social life in Germany nearly a hundred years ago, will be doubly prized.—They are nearly all written in a light, gossipy style, preserving till the last the light-heartedness of a child—a common characteristic or
