MANCHESTER.

—H. C. Knapp is selling for a few days boots and shoes at cost.

—The Spring Term at Burr and Burton Seminary begins to-morrow (Wednesday) at 2 o'clock.

—There will be a special meeting of Adoniram Lodge on Friday evening of this week.

—Dr. A. M. Johnson has purchased of F. H. Orvis the premises sold at auction by G. C. Allen last week.

—T. Parkins has a large assortment of hardware and building materials, which he proposes to sell at prices corresponding with the gold market. See his advertisement.

—L. C. Orvis has resumed specie payment.—Customers purchasing goods of him to the amount of fifty cents will receive their change in silver. No advance in the price of goods results from the resumption of specie payment.

—The laughable narrative in the story on our first page, entitled "How Little Patrick found his way over the Sea," copied from the Riverside Magazine, were of actual occurrence, and the fact that the parties live in a town adjoining ours will attach peculiar interest to its perusal by our readers.

—Mr. J. B. Faulkner has been appointed Assistant Superintendent and General Agent of the Harlem Extension Railroad Company, vice F. C. Splitt, resigned, with his office at Rutland.

—Last Sabbath was one of the most uncomfortable days experienced in this locality in many a year. Snow fell during most of the day, and the wind amounted to almost a tornado. No other damage was done, however, that we learn of than the blockading of highways and railroads. Trains on the Harlem Extension were delayed about ten hours.

FACTORY POINT.

—We understand that a select school is about to be opened in Adams' Hall to continue during the spring months.

—The personal property belonging to the estate of the late E. R. Chellis, will be disposed of at auction on Thursday, April 5th.

—The numerous friends in this vicinity of Mr. John K. Freedley of Philadelphia, of the firm of E. & A. M. Freedley, will be pleased to learn of his convalescence from his recent serious illness.

—There will be a Sugar Festival at Adams' Hall, Friday evening, April 1st, under the auspices of the Ladies Aid Society of the Baptist church.

Come one, come all,
Both great and small.
Only twenty-five cents each.

A Card.—The undersigned takes this opportunity to return his sincere thanks to the people of Manchester and vicinity, for their prompt and arduous labors in trying to subdue the flames which burst out in my barn about three o'clock Sunday morning, totally destroying it and damaging my other buildings to some extent.

M. Cloney.

Fire.—At an early hour Sunday morning (about 3 o'clock), Michael Cloney's barn was discovered to be on fire. As soon as could be a large number of men, in response to the alarm sounded by the factory whistle, the factory and church bells, were assembled at the scene of the conflagration. Nothing could be done to save the barn, so every exertion was made to save the surrounding buildings. The tailor shop, only a few feet distant, was saved by heroic and determined exertions. The wind was constantly shifting and the sparks were carried in every direction. At times the roofs of Adams' Hall and Mrs. Slocum's cottage, directly opposite, and the Tailor shop and Mr. Cloney's house, several rods west, were on fire, and the flames kept from spreading by smothering the spots of fire until ladders could be procured and water applied. The supply of water was small, and had it not been for the snow on the ground all the buildings mentioned, if not more, would have been burned. The barn with its entire contents and three cows were entirely consumed. One of the cows was owned by Truman Bentley, who occupies a part of Mr. Cloney's house, and the other two belonged to Mr. Cloney. The shop was damaged considerably, its entire contents being removed, and A. B. Cloney's restaurant was "cleaned out" to a considerable extent also. There was an insurance of $100 on the barn. The origin of the fire is unknown. Whether incendiary or originating from carelessness or some other cause, it was the means of producing a lively time and exciting the most anxious fears as to its extent and result. If the fears there awakened and the consciousness of our utter lack of means of subduing fire which was there painfully aroused, will be the means of stirring up the people to organize a Fire Company supplied with proper apparatus for their relief, then there will be a great gain resulting from this loss.

DORSET.

—Mr. O. C. Gilbert has our thanks for several cakes of new maple sugar. It was as nice an article as we often have the privilege of "sampling."

—Parties in want of Marble work of any kind will do well to give T. M. Collins a call. He is an excellent workman, and with his experience of twenty years, is enabled to give entire satisfaction to the most particular.

ARLINGTON.

—During the late wind blow the spire to the monument belonging to the Aylesworth family, in the new cemetery, was blown off and broken. Several barns in the west part of the town were also destroyed, cattle and horses in some instances having hair breadth escapes. Quite a number of chimneys in East Arlington were taken off.

—J. E. Gutman is to put up the new bridge at Chiselville at once. It will be a covered latticed bridge, and will cost about $2,000.

—The bridge in the west part of the town across the Battenkill which was carried off by the freshet of last fall, has been recovered and will be put into its old position by Samuel Buck who has the contract.

PERU.

—George K. Davis advertises his farm for sale on account of his ill health. The farm is a desirable one, and timber enough can be cut on it to pay for it.

SANDGATE.

—The storm, last week, blew down one barn and smashed another for J. L. Brush. Elisha Hamilton had a barn recently destroyed, as also did Eri L. Hurd, and considerable other damage was done in the town.

BENNINGTON.

—There is considerable sickness in Bennington.

—A branch of the "United order of Mohan" is to be organized in Bennington.

—E. W. Park, H. G. Root and C. E. Dewey, all of Bennington, are now in Florida.

—A social and literary club is being organized by the young men of Bennington.

—Extract from a complimentary letter: "A lady in my town spread her naked barley and it paid him badly so he got a bottle of Parsons Pain Killer Magic Ile at the store and used it all up on his aches at our children and it cured him the short." Go and do like wise.

—George A. Martin, Esq., commercial editor of the Buffalo Express says: "If Dr. Sage's Catarrh Remedy possessed no other virtue, its worth would be beyond price as an effective antidote for the horrors of a cold in the head.

Two or three applications have always, in my case, removed the disagreeable symptoms. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, Buffalo, N. Y., and get it by mail.

—Life has few charms for the dyspeptic, which is not to be wondered at when we take into account the amount of bodily and mental suffering that this distressing malady creates. The Peruvian Syrup (a protoxide of iron) has cured thousands who were suffering from this distressing malady.

—The public are hereby assured, through the columns of the Journal, that Parson's Purgative Pills contain no injurious principle, but that they may be administered to children and the most weak and shattered constitutions, in small doses, with great certainty of success.

—Dr. A. Johnson, one of the most successful practitioners of his time, invented what is now called Johnson's Anodyne Liniment. The great success of this article in the cure of Bronchitis and all diseases of the throat and lungs, will make the name of Johnson no less favorably, if yet widely, known than that of Louis Napoleon.

MINERAL SPRING.

HAVING discovered a Mineral Spring on my premises, last fall, thought to contain medicinal properties, I caused an analysis to be made of some of the water, by the State Assayer of Mass. The following letter contains the result of the analysis:

OFFICE OF S. DANA HAYES,
STATE ASSAYER AND CHEMIST, 20 State St.,
Boston, 5th January, 1870.

E. P. Luther, Esq., *North Dorset, Vt.*: Dear Sir:—I have completed an analysis of the mineral water received from you, with the following results: This water as received was not perfectly clear, owing to the separation of a portion of the iron present; it has a slightly sulphuretted odor, and metallic taste. One United State standard gallon contains 14.62-100 grains of dry mineral matter, consisting of Potash, Soda, Lime, Magnesia, Iron, and Silica, Sulphuric and Carbonic Acids, with traces of Sulphur Chlorine, and Crenic Acids. This water is unusually rich in iron and lime. It is highly chalybeate in character.

Respectfully, S. DANA HAYES,
State Assayer of Massachusetts.

All who wish to test the medicinal virtues of this water, can have it free of cost at the Spring, during the present winter. Persons living at a distance can be supplied with it on reasonable terms.

OF THE

Chesapeake and Ohio Railroad Co.

The Chesapeake and Ohio Railroad, connecting the Atlantic coast and the magnificent harbors of the Chesapeake Bay with the Ohio River at a point of reliable navigation, and thus, with the entire Railroad system and water transportation of the great West and Southwest, FORMS THE ADDITIONAL EAST AND WEST TRUNK LINE, so imperatively demanded for the accommodation of the immense and rapidly-growing transportation between the Atlantic seaboard and Europe on the one hand, and the great producing regions of the Ohio and Mississippi Valleys on the other.

THE IMPORTANCE OF THIS ROAD AS A NEW OUTLET FROM THE WEST TO THE SEA magnifies it into one of national consequence, and insures to it an extensive through traffic from the day of its completion; while, in the development of the extensive agricultural and mineral resources of Virginia and West Virginia, it possesses, along its own line, the elements of a large and profitable local business.

Thus the great interests, both general and local, which demand the completition of the CHESAPEAKE AND OHIO RAILROAD to the Ohio River, afford the surest guarantee of its success and value, and RENDER IT THE MOST IMPORTANT AND SUBSTANTIAL RAILROAD ENTERPRISE NOW IN PROGRESS IN THIS COUNTRY.

Its superiority as an East and West route, and the promise of an immense and profitable trade awaiting its completition, have drawn to it the attention and co-operation of prominent Capitalists and Railroad men of this City of sound judgment and known integrity, whose connection with it, together with that of eminent citizens and business men of Virginia and West Virginia, INSURES AN ENERGETIC, HONORABLE, AND SUCCESSFUL MANAGEMENT.

The Road is completed and in operation from Richmond to the celebrated White Sulphur Springs of West Virginia, 227 miles, and there remain but 200 miles (now partially constructed) to be completed, to carry it to the proposed terminus on the Ohio river at, or near, the mouth of the Big Sandy river, 150 miles above Cincinnati, and 550 miles below Pittsburg.

Lines are now projected or in progress through Ohio and Kentucky to this point, which will connect the CHESAPEAKE AND OHIO WITH THE ENTIRE RAILROAD SYSTEMS OF THE WEST AND SOUTHWEST, AND WITH THE PACIFIC RAILROAD.

Its valuable franchises and superior advantages will place the CHESPEAKE AND OHIO RAILROAD COMPANY among the richest and most powerful and most trustworthy corporations of the country; AND THERE EXISTS A PRESENT VALUE, IN COMPLETED ROAD AND WORK DONE, EQUAL TO THE ENTIRE AMOUNT OF THE MORTGAGE.

The details of the Loan have been arranged with special reference to the wants of all classes of investors, and combine the various features of convenience, safety, and protection against loss or fraud.

The Bonds are in denominations of

$1000, $500 and $100.

They will be issued as *Coupon Bonds, payable to Bearer*, and may be held in that form; or

The Bond may be *registered* in the name of the owner, with the coupons remaining payble to bearer attached, the *principal* being then transferable only on the books of the Company, unless re-assigned to bearer; or

The coupons may be detached and cancelled, the Bond made a *permanent Registered Bond*, transferable only on the books of the Company, and the interest made payable only to the registered owner or his attorney.

The three classes will be known respectively as:

1st. "*Coupon Bonds payable to Bearer.*"

2d. "*Registered Bonds with Coupons attached.*"

3d. "*Registered Bonds with Coupons detached,*"

and should be so designated by Correspondents in specifying the class of Bonds desired.

They have THIRTY YEARS to run from January 15, 1870, with interest at six per cent per annum from November 1, 1869. PRINCIPAL AND INTEREST PAYABLE IN GOLD IN THE CITY OF NEW-YORK.

The interest is payable in MAY and NOVEMBER, that it may take the place of that of the earlier issues of Five-Twenties, and suit the convenience of our friends who already hold Central and Western Pacific Bonds, with interest payable in January and July, and who may desire, in making additional investments, to have their interest receivable at different seasons of the year.

The Loan is secured by a mortgage upon the entire Line of Road from Richmond to the Ohio River, with the equipment and all other property and appurtenances connected therewith.

A SINKING FUND OF $180,000 PER ANNUM IS PROVIDED FOR THE REDEMPTION OF THE BONDS, TO TAKE EFFECT ONE YEAR AFTER THE COMPLETION OF THE ROAD.

The mortgage is $15,000,000, of which $2,000,000 will be reserved and held in trust for the redemption of outstanding Bonds of the *Virginia Central Railroad Company*, now merged in the CHESAPEAKE AND OHIO.

Of the remaining $13,000,000, a sufficient amount will be sold to complete the road to the Ohio river, perfect and improve the portion now in operation, and thoroughly equip the whole for a large and active traffic.

The present price is 90 and accrued interest.

A Loan so amply secured, so carefully guarded, and so certain hereafter to command a prominent place among the favorite securities in the markets, both of this country and Europe, will be at once appreciated and quickly absorbed.

Very respectfully,

FISK & HATCH,
