HALE'S HONEY OF HOREHOUND AND TAR,

For the Cure of

Coughs, Colds, Influenza, Hoarseness, Difficult Breathing, and all Affections of the Throat, Bronchial Tubes, and Lungs, leading to Consumption.

This sovereign remedy is compounded from the favorite recipe of an illustrious Physician and Chemist, who for many years used it with the most complete success in his extensive private practice.

He had long been profoundly impressed with the wonderful virtue of the honey of the plant Horehound, in union with the CLEANSING and HEALING properties of tar extracted from the LIFE PRINCIPLE of the forest tree *Abies Balsamea* or Balm of Gilead. For years he was baffled in his attempts to blend these great medicinal forces into such a union that the original power of each would be preserved, the disagreeable qualities of common tar removed, and the price of the compound be within the means of all. At last, after a long course of difficult chemical experiments, he found that by adding to these *five* other ingredients, each one valuable by itself, he not only obtained the desired results, but greatly increased the curative power of the compound. This having been thoroughly tested by practice, is now offered to the general public as a safe, pleasant and infallible remedy.
