MASONIC.—The next Regular Communication of Adoniram Lodge, F. & A. M., will be held at Masonic Hall, Manchester, on Thursday Evening, May 19th, 1870, at 7 o'clock. J. P. Blake, Secretary.

MANCHESTER.

—Next regular communication of Adoniram Lodge, Thursday eve., June 9th.

—A few weeks since we purchased of Messrs. Bartlett & Williams of Arlington, one of their "Cold Spring and Mail Sled Bodies," which we take pleasure in saying is an excellent invention, combining as it does, the very desirable qualifications, viz.: Cheapness, Comfort and Durability.

—The card of Capt. M. H. Wooster, recently of this village, will be found in another column. He has leased a large brick house on Broadway, Saratoga Springs, and will open June 1st a first-class boarding house. The Capt. will at once rank with Saratoga's best landlords, and his house will be one of the best kept and most popular institutions of the City, as that fashionable resort.

Peru Turnpike.—It is a well known fact that this Turnpike has of late been so sadly neglected and poorly managed, as to materially lessen the value of the stock, and render the road and corporation decidedly unpopular. The venerable Nathaniel Fullerton, Esq., of Chester, who has owned and controlled 100 shares of the stock since 1815, and been its President over 40 years, and who was, as widely and favorably known, not being longer able to superintend its interests by reason of age, has been induced to part with this, his pet stock.

Barnum Richardson Co., of Lime Rock, Conn., and persons in their interest now control the road.

The election of officers took place yesterday, which resulted as follows:—

President, W. H. Barnum; Clerk, Baker Wilson; Treasurer, J. F. McNaughton; Board of Directors, W. H. Barnum, J. F. McNaughton, Baker Wilson, Chauncey Green, C. F. Love.

The present owners are doing a large business on the line of the road, and over the stock of all others who should own the stock. The road will soon be put in a state of repair. The citizens and the travelling public will have occasion to rejoice at this change in the regime of the road.

Wooden Wedding.—Week before last we received an invitation to Mr. & Mrs. L. C. Orvis' wooden wedding, tastefully printed on wooden card board, and on the evening of the 21st inst. we obeyed the wooden summons. We met, to our surprise, about the friends in the most buoyant spirits, in fact, all were as merry as a marriage bell. Even a brass band were present, discoursing music fitting the occasion. Every one seemed to have made it a point to bring something in the wooden line. And such an assortment of wooden ware has seldom been displayed, embracing everything from a spoon to a What-Not down to a cider pigg.

Among the presents we noticed a slip of birch bark, upon which was written the following lines:

TO MR. & MRS. L. C. ORVIS.

"With mingled roots, and branches looked together,
Two trees are planted. In the sunny weather,
With joy accordant whispering, singing, smiling,
In storms together bending, weeping, wailing,
Five years; and lo! the wood and bark unfolding
Both trees in one, see life alone are holding
So stand, you two, dear friends, the five years gone
Your two hearts firmly wishing into one,
So may you stand until the fiftieth year
Shall bring life's golden fruit and golden wear.
Their."

May 21st, 1870.

The supper was magnificent and bountiful—too good for the occasion—good enough for a golden wedding—but was well relished by the participants. None seemed more happy than our worthy bride and groom, in being the means of communicating such happiness to others.

Mr. & Mrs. O. give expression to their feelings in the following

CARD.

On the evening of the 22d inst., the occasion of our Wooden Wedding, we were unexpectedly made the recipients of such a multiplicity of truly useful, valuable and ornamental articles, that we feel it difficult to express to our numerous circle of friends our appreciation of their generous thoughtfulness, and good taste displayed in the selection of presents.

Trusting our guests, one and all, respect a slight return in the enjoyments of the occasion, we remain, Respectfully,

L. C. Orvis,
Annie E. Orvis.

FACTORY POINT.

—Mr. Geo. B. Holden is repairing his cottage, raising up the roof, etc.

—Mr. Peter Wyman has added a piazza to his house, moved his barn back a good distance, and is putting on an addition of 15x36 feet. Will paint them when finished.

—Mr. Michael Cleary on Thursday last, while stepping off the cars a moment at Danby depot, had his foot and ankle severely hurt by a barrel of flour being rolled upon him.

—While Herbert Walker and two others were returning from the game of base ball, Ondawa vs. Clipper, a portion of the harness gave way, causing the "old state" to run, which she did with a vengeance down the street, round the corner by the Baptist church, and a short distance up Bonnet street, where they succeeded in stopping her. An accident more or less serious, seemed painfully imminent to those who saw the performance, but no damage was done.

Bennington County Sunday School Union.—The semi-annual meeting of the Bennington County Sunday School Union will be held at the Baptist Church, Factory Point, on Wednesday, June 8th.

Programme:—10.00 a. m., Devotional; 10.20, Topic—The Sunday School Library: 1st, Of what books should a Sunday School Library consist? 2nd, What books, if any, among our Sunday School publications, are objectionable? 3rd, What are the best methods for preserving and distributing a Library? 12.00, Intermission; 1.30 p. m., Miscellaneous questions and answers; 2.30, Addresses to children; 3.30, Adjournment.

N. B.—Pastors and Superintendents are requested to circulate this notice and secure as large an attendance as possible.

All Sunday School workers are requested to come prepared to take part in the discussions.

Wm. H. Bixby, Cor. Sec'y.

Shaftsbury, May 25, 1870.

Base Ball Game.—The Clipper Base Ball Club of Castleton having challenged the Ondawas of this village, the members of the champion ball club met at Factory Point, on Thursday afternoon of last week.

Game was called at 2 o'clock, the Clippers to the bat. The Ondawas by making a fine play did not permit the Clippers to make a run. The Ondawas took the bat and made but one run. The parties appeared to be very well matched, and the prospect at this point indicated a close game.

In the second inning the Clippers were fortunate. Their first two strikers were out on fives—and did not make a score—while their opponents made six.

On the third inning the Clippers commenced, and made a score of 7, which inspired their friends with hope. But the Ondawas took the bat and also made 7 runs—leaving the score 7 to 8.

The Clippers came to the bat on the fifth inning, between hope and fear. Their first two strikers fouled out, and they were again blanked without reaching the first base.

The sixth inning was a marked one. The Clippers had two men hit succeeded in filling the three bases, and these were again blanked by a splendid double play of the Ondawas, which put all three out.

It was a very interesting and exciting game, and nothing but courtesy and gentlemanly conduct were observable among the players.

Below we give the score:—

	Defense.								
	1	2	3	4	5	6	7	8	9
Clippers,	0	0	1	0	1	1	0	3	15
Ondawas,	1	0	0	1	0	2	1	0	10

—We would call the attention of our readers to the advertisement in another column of Wm. Williams, tanner and harness-maker. Persons desiring anything in his line should give him a call.

—A recent visit to the Marble works of T. M. Collins, convinced us that at no other shop of the kind in the County can better work be procured. We would advise parties in want of Marble work of any description to give Mr. C. a call.

WINHALL.

—The Winhall stage will, on and after Monday, May 30, run as follows: Leave West Townshend at 5 o'clock, a. m., on Monday, Wednesday and Friday of each week, Jamaica at 6, Brookline 7:45, arrive at Manchester depot in time to connect with the 11.45 a. m. train for New York and the West. Special Notices.

The Living Machine.

Injure the main spring of a watch, and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a timepiece. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further, for as the weakness or other imperfections of the main spring is indicated on the face of the time piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion, if sallow or foul, the eyes are dull, lack lustre and lifelessness, and there is worth and intelligence written in the whole countenance which tells as plainly as written words could do, that the great nourishing organ whose duty it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of the watch may be replaced by a new one, but the moment can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative that for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the practitioner of the pharmacopœia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular celerity and vigor, regulating and invigorating every secretive and assimilating organ on which bodily and mental health depend.

What Every Horseman Wants:

A GOOD, CHEAP, AND RELIABLE LINIMENT.—Such an article is Dr. Tobias' Venetian Horse Liniment. Put bottles at One Dollar. For Lameness, Colds, Galls, Colic, Sprains, &c., warranted better than any other. It is used by all the great horsemen on Long Island courses. It will not gave Blue Ruin nor spay a mare. There's no Liniment in existence that will. What it is stated to cure it positively does.

No horse of horse will be without it after trying one bottle. One dose relieves and often saves the life of an over-heated or driven horse. For Colic and Bellyache it has never failed. Just as sure as the sun rises, just so sure is this valuable Liniment to be the Horse Embrocation of the day.

For it can be bought. Sold by the Druggists and Store keepers throughout the United States. Depot 18 Park Place, New York.

AGENTS WANTED FOR THE

NEW WORLD

COMPARED

WITH the OLD.

Written by GEORGE ALFRED TOWNSEND, the ranking and best of newspaper correspondents. His more information in the same compass and for the same money than any other book now before the public. His descriptions of life, customs and laws of Europe and this country, with its comparisons, make it the most desirable book of the day. Its description of the Satte ceremonies of Napoleon, Queen Victoria and the President, alone are worth more than the price of the book, with the different systems of finance and education compared, make the work invaluable. It is a book not for a day, but for years. The author's descriptive powers here have been fully brought into play, and the result is a volume for interest and fascination of style which exceeds all here before the people. Henry Ward Beecher says: "Read the brilliant picture writing of the Genius Dove of America, Geo. Alfred Townsend."

It has all the freshness and interest of a fairy story, and sparkles with good humor. Modest withal.

In style there is nothing to complain of. It is throughout brilliant and lofty.—*St. Louis Times.*
