MANCHESTER.

Circulation of the JOURNAL this week, [illegible]

—L. D. Coy keeps a very choice stock of Books and Stationery, and has just received a fine assortment of Jewelery, Specacles, Eye Glasses, &c., at the Village Book Store.

—The "printer boys" of this office return their thanks to Mrs. H. P. Utley for several dishes of very fine fruit. Such favors are always gratefully accepted.

—Mr. James W. Bowen is raising horse wool lambs very successfully. One of his January Lambs weighed when one month old twenty-three pounds. Our farmers would find this kind of sheep raising profitable as there is a good home market for the lambs in the summer.

—Wm. Brownson has purchased the tools and manufactured stock of F. W. Hoyts Mitten and Glove Manufactory, and will continue the glove and mitten business at Mr. Hoyts old stand in this village. The reputation of Mr. Hoyts goods has always been very high. He leaves the business reluctantly on account of ill health. Mr. Brownson is a man of great energy, and will undoubtedly carry on the business successfully. For further particulars see his notice in the Journal.

TRAVEL WEST.—Parties going to Chicago, St. Louis, San Francisco or any of the principle points in the West can procure tickets over the Lake Shore and Michigan Southern Railway of the Agent of the Harlem Extension Railroad at Manchester depot. This is the shortest, cheapest and most comfortable route to the West. By purchasing tickets of Mr. Fleming, our polite station agent, all trouble and hurry on arriving in Troy or Albany can be avoided, and tickets bought at the same rates.

THE POSTAL CARD.—The English postal card is a very neat and convenient affair. It is a piece of heavy unglazed paper about four and three-quarter by three inches, is printed on one side, and bears the benign portrait of her Majesty in the shape of a half-penny stamp. It is headed with the "Lion and Unicorn," beneath which are the words: "The address only to be written on this side." then follows the word "To" and a blank space for the address. The communication is to be written on the reverse side. Our Post Master General has recommended to Congress to authorize a Postal card for the United States at one cent postage. For a majority of communications such a card would be very convenient and reduce the postage to be paid from three cents, to one cent. We hope Congress will give us cheap postage in this way, and the sooner the better.

—Dr. A. M. Johnson was made the recipient of an elegant violin last Friday evening at one of our "Terpsichoreans." The present was made by the members of the Club, as a token of regard and appreciation of the Doctors efforts to make these affairs a success, he having "drawn the bow" for us upon each occasion, and in a masterly manner. A presentation speech was made, to which he responded briefly but to the point. He certainly appreciated the gift, and the givers appreciate him. "Here is his good health and his family's, may they all live long and prosper."

—The next "Terpsichorean will take place Friday evening Feb. 24th at the house of Mr. T. Perkins. "Come early and go home early. C. D.

—An exchange, in counting up Congressman Bowen's wives, says there are yet thirty-five more States to hear from.

—Nothing can atone for want of modesty without which beauty is vain and wit destestable.

—No return—Four things come not back—the broken word, the spent arrow, the past life, and the neglected opportunity.

—Anger causes us often to condemn in one what we approve of in another.

—Life become useless and insipid when we have no longer either friends or enemies.

—Few have been taught to any purpose who have not been greatly their own teachers.

—Those who would have friends must show a friendly spirit in their dealings with others.

—A continual dropping in a very rainy day, and a contentious woman are alike.

—Ice cutting on the Equinox Pond was finished last week. 600 tons have been stored for next summers use. 520 tons by the Equinox House in 4 ice houses and 250 tons by others, in 31 ice houses. The quality of the ice is very fine and about twelve inches thick.

—The rain on Saturday last raised the streams and carried out the ice. At the Hollister bridge, near the railroad depot, there was a "block up" and the bridge came near going off, but was saved. Hawley & Fielding's dam was injured but can be repaired at small expense. We hear of no other damage of consequence.

—We hear a great deal of talk about flour at Bradley & Blackmer's. People say they sell a first rate quality at $8.00 on a barrel less than others. Wonderful things be [illegible]

—SPECIAL envelopes for sale at the JOURNAL office.

—The Next regular communication of Adoniram Lodge, F. & A. M., will be held on Thursday eve., March 30 1871.

—The wedding at St. John's Church on Thursday last was a brilliant affair and the reception at the home of the bride's parents in the evening was one of the most agreeable we have ever attended. We take the liberty of saying that the company was elegant, the music fine, and the supper excellent. Several ladies and gentlemen from Glens Falls were present and added much to the enjoyment of the evening. Clay's Pills and Manchester seem to sell fast now to bring good prices, this being the second advance of the kind within four months.

VACATION DAY.

A general attendance of the members of Grant Lodge, I. O. of G. T., is requested at our next meeting, to be held Wednesday evening, Feb. 22nd, as business of importance is to be transacted.

A change in real estate was effected on Friday last between O. C. Waterhouse and E. A. Jameson, Jr., whereby Mr. Waterhouse becomes owner of the "Edson property" consisting of a house and lot on Bonnet street, while Mr. Jameson comes in possession of the house and lot on the hill, between the residences of Deacon Borritt and George F. Boynton.

—The three or four days' sleighing of the past week was well improved, and the wood and bark business was lively. A. G. Clark & Co. received 220 cords of bark at their Tannery in four days time, averging 55 cords per day.

—Messrs. Howe and Jameson went rabbit hunting last week, in the vicinity of Clark's Mills, Landgrove, where they claim to have killed seventeen in one day. While we sporting fellows do not wish to doubt their word, but rather, are inclined to believe all good hunting and fishing stories, we must say we think this a little too hare-y.

—The winter term of our District School, closed on Friday. This has been a very successful term, and much credit is due Mr. Ross for the able manner in which he has conducted it. While there has been more or less trouble existing in the school for the past few years, we understand it has been very peaceable this winter, and the scholars have made rapid improvement in their studies. As the scholars have become very much attached to their teacher, we trust this alone will induce him to remain another season. The primary department has been under the care of Miss Amelia Walker, who has been faithful to her trust, and given good satisfaction. In fact, both schools have proved a perfect success, and have been quite as satisfactorily managed as any school we have had for many years.

—The friends of Dr. Edson will undoubtedly be pleased to learn that he has returned from White Plains, where he has been seriously ill at his daughter's, Mrs. J. N. Lesters. Although the Doctor has not fully recovered, his health is very much improved, and we are glad to see him home once more.

—McLeans Theatrical Troupe give two performances on Thursday and Friday evenings 23rd and 24th inst. at Adams Hall, Factory Point. The company is said to be a talented one. Thursday evening, "Hagonar" and the "Country Cousin," both good plays.

We call attention to Wells' Carbolic Tablets, sure cure for coughs, colds, sore throat and all bronchial affections for sale at the new Drug Store. See advertisement in this paper. Buckley and Clemons, Proprietors, Factory Point.

The heavy rain of Saturday morning raised our streams to an alarming extent, breaking up and carrying the ice out of the several mill ponds but doing no damage to property.

—The persons injured by the accident of last week, and which was reported in the JOURNAL, are all convalescent.

ARLINGTON.

—During the last week our lumbermen have improved the little snow that fell on Sunday the 12th, and the log piles at the mill have been largely increased. Wood which has been scarce has begun to move again and every thing seems to have received new life by this little rain of sleighing. No. 1 wood sells in our market at $4.00 per cord.

—There never was a better chance for investment, than in building dwellings at this time, to rent, in this village. Houses are very scarce, rents high and already the palling and hauling has commenced for them for the coming spring. Some changes of real estate have already taken place and others are in contemplation. Thomas Kent, a practical mechanic, has purchased the blacksmith property in this village of F. West, price $2,200. James Mahan has sold his house and lot in the north of the village to H. S. Hard, price $1,400. David Crofut has sold his west farm to James Mahan, price $2,500. Warren Cole has purchased the Buss farm adjoining his own also the lease of the school farm in the south part of the town for $3,200. Charles Canfield has bought a lot of H. S. Hard, west of his residence, upon which he will build a cottage house the coming season.

EAST DORSET.

—A. J. Mason has opened a carriage and repair shop. He will do good work at reasonable prices. See advertisement.

—A company of Shakers consisting of eight members, four brethren and four sisters, from Mount Lebanon, N. Y., are expected to hold a meeting in the Union Church at East Dorset next Sabbath 26th inst., at 2 o'clock in the afternoon. It is understood that there will be preaching on the occasion by F. W. Evans the Chief Elder of the Mount Lebanon Society and singing by the whole company. It is expected that the occasion will be one of a good deal of interest as it presents to the people of this vicinity a good opportunity to become acquainted with the peculiar views, customs, style of dress and mode of worship of this very remarkable people.

PITTSFORD.

—Marriages, Births and Deaths in the town of Pittsford during the year 1870:

Marriages—17; of grooms, 14 were the first marriages, 3 of the second, and 1 of the fourth marriage; of the brides 15 of the first, 2 of the second. All were Americans. Of the grooms, 6 were between the age of 20 and 25, 9 between 25 and 30, 3 between 30 and 35, 1 between 35 and 40, and one 50 years of age. Of the brides, 7 were under 20, 9 between 20 and 25, 2 between 25 and 30, 1 between 30 and 40. Average age of grooms, 28 26-100 years. Average age of brides, 23 23-100 years.

Births—27; 11 were males, 16 females. Born—January 3, February 2, March 9, April 2, May 1, June 1, July 3, August 4, September 1, October 3, November 1, December 1. Of the parents 21 were Americans and 13 Foreigners.

Deaths—19; 9 males, females, 10. Disease or cause of death. Consumption 2, billious fever 1, congestion 1, heart disease 1, spotted fever 1, ulceration of stomach 1, dropsy on the brain 1, whooping cough and measles 2, still born 1, Unknown 1. Aggregate age, 1[illegible] years, 8 months and 6 days. Average age, 51 years, 10 months and 17 days. Per cent. of deaths to population, 1 5-100, or one death to every 72 64-100 inhabitants.

PERU.

Mr. H. L. Barnard of Wilmington, Vt., has sold his farm in this place, to John G. Walker of Londonderry who takes possession immediately, and is going to move back into his native town. Price paid, $2800.

WEST PAWLET.

—Rev. David Beecher has resumed his charge of the Baptist Church at this place.

—The ladies of this society have had a festival at the Academy Hall to raise money to refurnish the Church, besides having a very agreeable time they cleared about $600 for the good object.

WALLINGFORD.

—The singing schools of this place are held Monday and Wednesday evening; taught by Mr. Day from Rutland. There are a large number of scholars and they all take hold as if they meant business and are learning very fast.

—The Batcheller Manufacturing Company shipped the first lot of forks manufactured in their new fork factory, last week. They are rushing things as you will see if you will come and take a look at them for yourselves.

—Mr. Hanibal Woodruff of Rutland was married to Miss Hulda Cleghorn of this place, last Wednesday evening at 7 o'clock. They started for their home in Rutland immediately after the ceremony. Long may they live and happy may they be.

—The Harlem Extension Railroad Company's water works, that supply the trains at this place, gave out some time ago, and as they could not dig a ditch, three feet deep and half a mile long, through the frozen ground, they concluded to put in a pump, by which they get water from the creek, employing two men to do it. They will have to do this until the frost gets out of the ground in the spring.

SANDGATE.

Mr. Nicholas Bush, (mother of whose death appeared in last week's JOURNAL) with many of the earlier settlers of Sandgate was a native of Connecticut. He was born in Weston, Fairfield County, and emigrated to Sandgate in the vigor of early manhood. Married to Joanna Sanford, he settled on the farm where he spent the remainder of his days. He was of eccentric character, and in some respects a remarkable man. Descending from the Puritans, and possessing that stern integrity of character himself for which they were celebrated, he could not in the least palliate crime or excuse wrong doing in others. He was very decided in his opinions, and a conclusion once reached was as firm as the everlasting hills. Industrious, economical and of temperate habits, he accumulated considerable property, and enjoyed such uninterrupted good health, that he never lost by sickness over ten days at a time in his life. In politics he was a Republican, in religion a Baptist, with some peculiarities. He had been a little unwell for a few days prior to his death, but nothing severe was apprehended, though some member of his son's family, with whom he lived, went occasionally to his room to attend him. At last he was found in a sitting posture near the bed, in a helpless state, and being placed upon the bed, breathed only a few times, and passed peacefully and quietly away. Thus lived and died a valuable citizen and an honorable member of society. H.

—Carbolic acid prevents putrefaction in the different branches of leather manufacture, a few thousandth parts of carbolic acid added to the liquids prevent the rotting of the skins during the process of tanning.

—At a conference meeting in ——, a long-faced brother, somewhat after the order of Deacon ——, arose and said: "Brethren and sisters, I feel that it is my duty to make confession, with the rest of you. If I haven't done what I ought not to have done, I have left undone something I ought to have done. I have sinned, I humbly acknowledge, in—*neglecting my neighbor's children.* When I have seen them goin' astray for want of reproof I have sometimes failed to give it. But we are all poor sinful creatures.

Springfield Republican.

There is no better paper published in New England than the Springfield Daily *Republican*. Its prospectus may be found on the fourth page of the JOURNAL to-day.

None of the Boston or New York papers have more full or better telegraphic reports, and for general news and sound editorials but few equal it.

Some of its correspondents are not thoroughly posted as to our railroad fight, and we occasionally see in it statements about this line that are incorrect.

—Alice Carey the gifted poetess died last week in New York. She will be seriously missed in all literary circles of which she was one of the bright lights.

He who invests one dollar in business should invest one dollar in advertising that business.—*A. T. Stewart.*

"Why don't you trade with me?" "You have never asked me to. I have looked all through THE JOURNAL for an invitation, but have never seen any. I never go where I am not invited."

EDEY'S CARBOLIC TROCHES.

EDEY'S CARBOLIC TROCHES.

EDEY'S CARBOLIC TROCHES.

CURES ALL DISEASES OF THE THROAT AND LUNGS.

The public are respectfully requested to read the following letter. It tells its own story:

MESSRS. M. C. EDEY & CO.—Gentlemen—We take pleasure in recommending Edey's Carbolic Troches to Singers, speakers, and all others who are liable to over-exertion of the voice, hoarseness, colds, &c. They give quick and permanent relief, and are in every way well adapted to cure Throat Affections. We shall feel it our duty to recommend the Carbolic Troches wherever we go. Yours truly,

THE ALLEGHANIANS.

Edey's Carbolic Troches stand unrivaled for their healing qualities, their certain and instantaneous action. They arrest decay at once. Hence in cases of diseased lungs, tubercles or tissues, decomposition is at once arrested.

"Carbolic" is endorsed by the highest medical talent of the Old and New Worlds. No physician of any standing but will admit its vast importance to suffering humanity.

We claim for our Carbolic Troches that there is no medicinal compound yet discovered that will compare with them as a curative, and that the simple manner in which this powerful remedy can be administered—especially to children—should be a great recommendation to mothers.

These Troches do not simply alleviate for a time, but do their work effectually by striking at the disease direct, thus effecting a permanent cure, whereas, syrups and other mixtures have a tendency to destroy the tone of the stomach and fatally injure the general health.

There is no part of the human system that will not receive benefit from the use of these troches, as they expel all impurities from the blood.

There is no medical compound yet discovered that will so speedily, safely, certainly and permanent cure the above diseases as these Troches.

Clergymen and others visiting sick rooms will find these Troches a complete safeguard, as they are a perfect disinfectant.

Test them. Druggist sell them.

STATE OF VERMONT, } At a probate court } MANCHESTER DISTRICT, } held at the Probate Office in Manchester, in said District, on the 25th day of January, 1871.

Present, Hon. T. B. Burton, Judge.

The administrator on the estate of Eben L. Way, late of Manchester, in said district, deceased, presented an application in writing to said court setting forth the value of the personal estate, the amount of claims allowed by commissioners, and the expenses of selling the estate; and representing that it will be necessary to sell a part of the real estate of said deceased to pay said debts and expenses; and praying for license to sell all that part of the real estate which lies west of the highway leading from Manchester to Dorset, representing that a part of the same cannot be sold without injury to those interested in the remainder.

Whereupon it was ordered that a hearing on said application be heard at a Probate Court to be holden at the Probate Office in Manchester, in said District, on the first day of March, 1871, and that notice thereof be given to all persons interested by publishing a certified copy of this order three weeks successively in the Manchester Journal, a newspaper printed in said Manchester, previous to said time of hearing.

LOVELAND MUNSON, Register.

A true copy. Attest,

NEW 7-30 GOLD LOAN

SAFE, PROFITABLE, PERMANENT.

JAY COOKE & CO.

offer for sale at par and accrued interest the First Mortgage Land Grant Gold Bonds of the

NORTHERN PACIFIC R. R. CO.

These bonds are secured by First Mortgage on the Railroad (to be built) and on 12,000,000 acres of land, or a First Mortgage on the entire land grant, being more than 1 acre for a Thousand Acres of Land to each mile of Road.

The Bonds are issued in United States currency, principal and interest are payable in Gold, the principal at the end of thirty years, and the interest every six months at the rate of Seven per Cent. Twelve Per Cent. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity be convertible at Ten Per Cent. Premium (or 110) in exchange for the Company's lands at their lowest cash prices.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first class security. Persons holding United States 6-20s can by converting them into Northern Pacific increase their yearly income Ave, and still have a perfectly reliable investment.

How to get Them. Your nearest Bank or Banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents, who will allow the highest current price for all merchantable securities.

Those living in localities remote from banks may send money or other bonds directly to us by express, and we will send back Northern Pacific bonds at our own risk and without cost to the investor. For further information, pamphlets, maps, etc., (all free) we refer to the undersigned or any of the banks or bankers employed to sell this loan.
