BENNINGTON COUNTY COURT.

JUNE TERM 1872.

Presiding Judge, HON. H. H. WHEELER.
Associate Judges, HON. N. MILLINGTON, HON. C. GREEN.
Clerk, JOHN V. HALL.
Sheriff, L. POWERS.
States Attorney, J. K. BATCHELDER.

Mary Jameson vs. Washington Wyman.
Action of replevin for goods. Verdict for plaintiff. Fowler for plff; Howard, Davenport and Martin for deft.

W. H. Hoyt vs. R. P. Barber.
Action of replevin for the recovery of 12 sheep. Verdict for plff. for 10 sheep and for deft. for 2 sheep. Batchelder, Carpenter and Davenport for plff.; Fowler for deft.

State vs. Geo. P. Utley.
For violation of the Statute prohibiting the sale of intoxicating liquor. Appealed from the decision of Justice. Verdict, guilty of one offence. It being the second offence, fined $20 and costs. Batchelder and Howard for State; Fowler, Miner & Beebe for respondent.

The following divorces were granted at the present term of court:

David D. Atherton from Almeda J. Atherton, for adultery. Carpenter for petitioner; Hix for respondent.

Helen D. Bulkley from Geo. E. Bulkley, for willful desertion. Lyman for petitioner.

Willard Crandall from Maria L. Crandall for desertion. Brown & Carpenter for respondent.

Verona Gregory from John Gregory. Custody of child given to petitioner. Batchelder for petitioner.

Melvina Bond from Henry Bond, for desertion. Custody of children given to petitioner. Batchelder for petitioner.

The Grand Jury failed to find a bill against either Farwell or Lawrence in the East Arlington homicide case. This result is a matter of surprise to many people, and some will think the Grand Jury erred in not holding them for trial, but if the prosecution failed to make out a case before them so that it was beyond a matter of doubt that they would be acquitted if tried their duty was to discharge them without burdening the State or respondents with the expense of a trial. We suppose from their decision that such was the case, and there is always two opinions in regard to such matters. We think the jury which acquitted them was as sound and free from bias in the matter as any jury likely to be selected in Bennington County.

MANCHESTER.

—Read the advertisement of the National Life Insurance Co. represented by C. A. Batchelder.

—Three new passenger cars have been purchased for the H. E. R. R. to take the place of the dilapidated concerns on the mixed trains. The traveling public will appreciate the change.

—Notice the advertisement of the Troy Daily *Press*. We do not admire the politics of the *Press*, not much, but for enterprise in getting the local news it cannot be beaten.

—J. B. Simonds has repaired and put in perfect tune the piano belonging to the Equinox House, and also the one in Music Hall. His work gives complete satisfaction.

—Though the weather has been wretchedly wet, cold and disagreeable quite a number of city guests have put in an appearance, and they always meet with a hearty welcome in Manchester.

—Everybody will be glad that among other things, the revenue tax on matches will be abolished, July 1st, rendering this indispensible article very much cheaper.

—As will be seen by a notice in another column the subscription books of the proposed railroads which go to make up the Brattleboro and Whitehall road, are now open and people who are in favor of this enterprise can make it manifest by giving material aid.

—The Trustees of Burr and Burton Seminary are happy to announce that Mr. H. H. Shaw, a graduate of Middlebury College and for several years a successful teacher in Chester and Springfield of this State, has accepted the offer of Principal of the Seminary.

—The Vermont State Spiritualist Association will hold a quarterly convention in Stowe on the 28th, 29th and 30th of June. The Mount Mansfield Hotel will board for $1.25 per day, and the several Divisions of the Vt. Central R. R. will carry those attending the convention for fare one way.

The following is said to be the latest joke on ye Editor. We hope all of our subscribers will not try it at the same time or our mouth will be stretched from ear to ear: "Take a sheet of note paper, fold it carefully and enclose a bank note sufficiently large to pay up arrearages. Keep your eye on the printer, and if you can detect a smile, the trick is a success.

—A new Time Table with some important changes in the running time of the trains on the Harlem Extension railroad went into effect on Monday morning. Trains going South, *leave* Manchester at 6:50 and 10:55 A. M., and 4:35 P. M., Sunday milk train goes South at 9:55 A. M. Going North, trains *arrive* at Manchester at 10:30 A. M., 3:05 P. M. and 7:45 P. M. The train which arrives at 10:30 A. M. leaves Troy at 8:00 A. M. and the train which arrives at 7:45 P. M. leaves New York at 10:40 A. M.

FACTORY POINT.

—O'Brien's Menagerie and Circus drew a large crowd and their exhibition of living curiosities, as well as their performances gave general satisfaction. One good feature of the occasion was the absence of drunkenness and rowdyism, too often displayed on such occasions.

DORSET.

—Rev. Geo. L. Prentiss and family of New York, arrived last week, and took possession of their fine residence here.

—Several of our Dorset singers contemplate attending the Boston Jubilee, and as preparatory step have met with the singers at Rutland, and elsewhere to rehearse the pieces of music selected for that occasion.

—At last we have had a real *bona fide* wedding in town, the scarcity of such occasions—rendering it all the more interesting. The affair came off last week Wednesday, the parties thereto being Mrs. Margaret Richardson of this place, and Cyrus Crampton, Esq., of Tinmouth, a very worthy couple.

—The corn worm has made its appearance upon some lands, and is doing great injury by eating the stalk off at the root. Several farmers in this vicinity are busy at work every moment while the sun shines, destroying them, and planting over the corn ground. The worm is about an inch in length, and is of a pale green color. I have not learned how far its ravages extend.

DANBY.

—Mr. Robert Neil, after an absence of some weeks to Nebraska, returned to his home in Danby, on Monday evening. His family and many friends who regretted his leaving are glad of his return.

—Rev. J. P. Stone is again temporarily in Danby, and is expected to preach to the people at the Borough next Sabbath afternoon.

FAIRHAVEN.

—We are in earnest upon the liquor question. A week ago last Sabbath eve, we had a regular old-fashioned temperance meeting at the Baptist Church. Rev. L. H. Stone, the state agent was present and gave an appropriate address. He talked to the people just as they were talked to twenty years ago, told of the evil effects of Alcohol, and the almost utter inability of man to withstand the demands made upon him by an appetite when once formed. He was followed by Rev. Mr. Post, now supplying the Congregational Church at Fairhaven, and by Rev. J. P Stone of Danby, whose remarks were forcible and effective. Mr. Hanger then put the seal on, by saying, action was what we wanted. We must keep the powder dry. It did no good to pray to God, or resolve, unless we worked. He had some pledges in his pocket, but it being very late, and the meeting being in fever heat at 10 p. m., adjourned for a few days. Our people see that the law will not execute itself but that if it is executed it will do its work. And they are determined to see that it is sustained. Working temperance men are what we want, men who will take their coats off and battle the cruel old king Alcohol, men who will lend a helping hand and lift again his victims up to manhood.

G. D. S.

JAMAICA.

—The cheering prospect of the West River Railroad has given a new impetus to the lumber business in this section. H. H. Felton is putting in a circular saw, in a new building, now nearly completed a part of which is to be fitted into a chair factory. Livermore & Sturgiss have thoroughly repaired the old mill, above on the same stream, tearing out the old up-and-down saw and placing in its stead a circular saw. J. T. Tibbitts & Co. have purchased the Payne mill, repairing the same, and will soon put in machinery for manufacturing chairs. In the eastern part of the town Chas. Densmore has erected a new circular saw mill and is doing a good business.

LONDONDERRY.

—Comical Brown advertised to give an entertainment one evening last week and quite a large audience assembled to hear him, but for some reason Comical failed to put in an appearance, which "Joke" was hardly appreciated by those present.

—The monotony of our everyday life was broken in upon the other evening by a walking match. The winner John Congdon making his half mile in the good time of 3 minutes and 20 seconds.

—On the 6th day of June as several persons were at work shingling upon the new house of D. D. Walt, the staging gave way and Mr. Sumner Walt, his son D. D. Walt, and also a son of D. D. Walt slid rapidly down the roof and were precipitated from the eaves to the ground a distance of nearly twenty-five feet. Mr. Sumner Walt was supposed to be very seriously injured and Mr. D. D. Walt was for a long time insensible, while the son of D. D. Walt, a boy, did not seem to be so much injured. Dr. L. Arnold was called immediately, and they now appear to be fast recovering from their injuries. Three others who were on the staging saved themselves from falling, two of them by catching with their fingers in the cracks between the boards above the staging and one by catching upon a ladder. No bones were broken, and it seems to have been a very remarkable escape from sudden death.

A.

SANDGATE.

—E. B. Hurd is driving business this spring. He has recently completed a saw mill and peg shop the latter with the capacity of turning out from 20 to 28 barrels of pegs per day. It is superintended by L. G. King. Besides this Mr. Hurd has a plainer, lath works, etc., and a grist mill which does a large business. All the machinery for the different kinds of business is carried by a thirty inch turbine wheel, manufactured at Dayton, Ohio, and it is safe to say that it will do more business than any steam power in the country. Besides these works Mr. Hurd owns half a dozen houses, and always keeps business lively in his vicinity. We need a few more such men in town.

SUNDERLAND.

—The frequent showers during the past week have added much to the prospect of a good hay crop.

—Field strawberries are beginning to get ripe. They promise to be quite plenty.

—The Ethan Allen B. B. Club practices ever Saturday afternoon. They have not played any matches yet but they are on the anxious seat.

—Corn is very small for the time of year.

ARLINGTON.

—The boom at Walker and Lathrop's mill broke away on Monday afternoon, owing to the high water and nearly a thousand logs escaped.

BENNINGTON.

—The sprinkler is out again.

—Gen. Kilpatrick is expected in a few weeks, notwithstanding the reports to the contrary.

—The O'Brien combination gave good satisfaction, and drew a crowd numbering thousands of persons.

—Bishop Bissell confimed nine persons at the Episcopal Church on Sunday.

—Rumor hath it that the Dewey lot, opposite the Putnam House, is to be purchased by the village for a park. A good move—if carried out.

—T. W. Park has made another "deadly thrust" at the prosperity of Bennington by donating $5,000 to the new Congregational Church at the North village.

—We are strongly impressed that the majority of our sensible voters, will say Grant is the man to be reelected as President of the United States. We don't believe in placing the office of presidency into new hands, so long as Grant has performed every important part, and is wholly accustomed to the business. Where are his great deficiencies, or enough to demonstrate that he should be excluded from the White House?

—A man giving his name as Charles Daniels and saying that he had driven from Lee, Mass. the night previous, called at the house of Wm. B. Arnold in Pownal, on Monday morning. He proposed to trade or sell his horse and wagon and appeared so anxious in the matter and made such inquries that Mr. Arnold's suspicions were aroused. Mr. Arnold said that he had a brother living in a small *burgh* not far off who would probably trade with him, and proposed that after getting breakfast they should go over. After asking more questions the man consented and Mr. Arnold took him to Bennington and falling in with sheriff Powers requested the latter to arrest him. Whereupon the man applied the whip to his horse and drove through the village towards North Bennington closely pursued by Arnold and the sheriff. After a race of about a mile the pursuers succeeded in passing him when he sprang from his wagon and took to the fields. Here he was closely pursued when he swam the river being carried down the stream some distance. Fresh help was secured and the pursuit kept up and he was finally captured in a swamp near Bennington Center and placed in jail. After his arrest he gave his name as Norman Gray of South Adams and said the horse belonged to his brother-in-law. A telegram to his professed brother-in-law brought no response. His examination will take place on Friday.

WOODFORD.

—Last week we said the lengthy rain was over. We were wrong. It has rained nearly every day since.

—Early peas will undoubtedly be a failure this season. Epicures will regret if it be so. But we can't help it.

—Mrs. S. J. McLenithan, who has been very ill for a number of weeks, is slowly convalescing.

—Forty-two scholars attend the school in district No. 1. An attendance of fifty is expected soon.

—Work on the Glastenbury railroad is progressing quite favorably, with fair prospects of its being ready for the cars by next Thanksgiving, or after.

—The heavy rains have kept the streams well filled with water. Consequently mill owners have experienced no lack for the element as yet. We expect dry weather in July.

—Did you ever visit the forests on a bright June day? If not we advise you to do so. There is enjoyment in it, as you will readily perceive when you once get beneath the lofty bowers. Early in the morning ten thousand notes or more you will hear from the birds over your head. It is enchanting. We imagine you would exclaim: The woods are alive with mirth and song! Then when your mind and thoughts turn away from gayety, and you sit on the trunk of some fallen tree, we assure you there is solemnity to be experienced in God's works.

—Hunters who desire bears for game, will do well to select territory in this immediate section for that particular kind of meat. It seems that they are more frequently meddling with that that has nothing to do with their business than ever before. At the city a number of sheep have been killed in open daylight, and Bruin escaped. A few days since, as Mrs. Brown was sitting by the window sewing, she looked up from her work and saw a monster bear cross the road but a few rods from the house. Scarcely a night passes but that their yells are heard in the main roads, from the mountains. Several persons maintain that they are driven from the woods near the terminus of the railroad, as a large extent of land is occupied by the workmen there.

BERLIN.

—Every kind of fruit tree is going to bear something; but grape vines appear timid, and in many cases fail to "put in an appearence" of life. Potatoes and oats are rooting beautifully, and looking up cheerfully, but we don't brag on corn just now, not much, still if it is small it is yellow. We generally raise a fair crop, and sometimes something extra. A few years since a farmer talking with his neighbor, said his corn was filling out nicely, the corn capping over the end of the cob on most of the ears; the neighbor replied, "mine not only covers the cobs, but is growing right on up the stalks."

—The long continued and extremely wet weather has curiously effected the business of sending milk to New York. Cows have absorbed so much moisture, eating so such wet grass, as to make the milk so thin, that even New Yorkers begin to see through it, and some dealers mildly request the farmers to keep back the most transparent, or send it to the factory and have it made into skim cheese to use for grind stones.

—Last winter South Berlin beat this section all hollow in keeping up the flow of pure milk, by inducing their cows to take in a large quantity of salt and having plenty of pure water near to quench their consequent thirst, the owners had no difficulty in filling and sending to New York about the summer number of cans. Milk will be rather light-bodied as long as such moist weather continues; but our farmers are making some super extra, choice butter, "about these days."

—Your correspondent, "Nudis Verbis" writing on the 'gum question' last week, admits that the girls do chew gracefully, which cannot be said of the still more numerous chewers of the filthy weed; and although a girl may be able to chew in fifteen different languages, she will always cheerfully divide with a mate. With tobacco chewers it is sometimes different. One old tobacco worm, formerly in our village, when asked for a "chaw" would always say, as he reluctantly handed over his box, "that tobacco swells awfully in the mouth." OLD BASCOM.

—John Rhodes, a resident of Berlin for eighty-three years, died at the residence of his son in Geneva Wis., on the 26th of May, aged eighty-nine. He was converted in the great revival of 1810, and was a consistent member of the Baptist Church till his entry into the church triumphant He was one of eleven brothers, who all lived to man's estate and one died at 96. The only one living is Deacon Daniel Rhodes of this town, aged eighty-six.

—A few evenings since, three youngsters of our village took a horse and wagon from a neighbor's barn slyly, and went to Petersburgh where they shipped a very full cargo of Welch's benzine. On their way home they found their way into a henroost and abstracted some of the feathered tribe for a future feast. Said fowls it is said are now paid for at a cost of seven dollars a piece—rather costly feasting. Boys should not hook horses, drink benzine or steal chickens.

NORTH PETERSBURGH.

—We have meagre reports of a most brutal and cowardly attempt to murder a witness in the well-known case of Ithamer Eldred, formerly a Radical postmaster at Petersburgh. Eldred, with Chas. E. Brimmer was arrested for being concerned in a number of burglaries and petty thefts. Several indictments were found against them, and proof of their guilt was so positive that Brimmer pleaded guilty and was remanded to jail to await sentence. Eldred was sent back to jail for trial. By some means Brimmer was released on bail, and soon after Eldred also was out by the same accommodating feature of the law. It is surmised that these two made up their minds to the bold conclusion that they must murder the principal witness against them, a section foreman on the railroad in the vicinity of North Petersburgh. They expected probably that they might thus escape punishment. On Wednesday they made a brutal attack on the man, beat him with stones, kicked and pounded him, and, after fracturing his skull placed him upon the railroad track, thinking that he was dead and that suspicion of murder would not be entertained if the next train ran over the body and mangled the remains still further. This atrocious attempt to cover up the damnable deed was a failure. The body was discovered before the arrival of the train and strange to say the victim recovered and told the story of his assault. He may yet live to prosecute his assailants. No arrests have been made yet, although Sheriff McKeon has sent for particulars of the affray and also has given instructions to the Deputy Sheriff residing at North Petersburgh.—*Troy Press.*

CHATHAM.

—The community were deeply pained Monday by the announcement of the death of Mrs. Hendrick Hudson daughter of Geo. Van Valkenburg. She was widely know and universally respected.

SPECIAL NOTICES.

Castoria.

Castoria is a scientific vegetable preparation; a perfect substitute for and and more effective than Castor Oil, and is pleasant to take. It cleanses the system in a most remarkable manner; does not distress or gripe, certain to supersede Pills, Castor Oil, Narcotic Syrups and all other purgative and exciting medicines. The Castoria contains neither Minerals, Morphine nor Alcohol. By its emollient, soothing effect, it assimilates the food and produces natural sleep particularly adapting it to crying and teething children. It cures Stomach Ache, Wind Colic, Constipation, Flatulency, Croup and kills worms. Make your druggist send for it; he will always keep it, as every family must have it. It costs but fifty cents a bottle.

Sozodont.

Teeth like orient pearls, set in emblems of ruse
A breath like the perfume the toilet bestows;
These are charms to win hearts when all other charms fade,
But they can't be preserved without SOZODONT's aid.

Spalding's Glue mends Furniture, Toys, &c.

Masonic.

The next Regular Communication of Adoniram Lodge, F. & A. M., will be held on Thursday evening, June 20th, 1872.

E. L. WYMAN, W. M.
L. C. ORVIS, S. W.

Adoniram Chapter, No. 19, R. A. M.

Next regular convocation on Wednesday evening June 26th, at 7½ o'clock.

L. C. ORVIS, H. P.
J. P. BLACK, Sect.

$100 Reward.

I will forfeit one hundred dollars or a full cased Sewing Machine to any Sewing Machine that will do the variety of work which can be done on the Grover & Baker Sewing Machine by use of regular attachments.

NOTICE IN BANKRUPTCY.

In the District Court of the United States for the District of Vermont.

In the Matter of Louis Blanchard, Bankrupt. In bankruptcy.

To the creditors of said Bankrupt, and all others whom it may concern: The undersigned assignee of the estate of said Bankrupt hereby gives notice that it has been ordered by the District Court of said District, that the second and third general meeting of the creditors of said Bankrupt, be held at the office of A. P. Lyman in Bennington, in said District, on the 8th day of July a. D., 1872, at 9 o'clock a. m., before A. P. Lyman, Register in Bankruptcy, for the purposes named in the 27th and 28th sections of the Bankrupt Act, of March the 2d, 1867, and this is also to give notice that I have filed my final account, as assignee of said Bankrupt, and that at said time and place, I shall apply to said Court for the settlement of said account, and for a discharge from all liability as assignee of said estate in accordance with the provisions of said 28th section.

Dated at Bennington, in said District, this 8th day of June, 1872.

STATE OF VERMONT.

OFFICE OF SECRETARY OF STATE,
Northfield, June 1, 1872.

Sealed proposals are hereby invited for printing the following State Documents, to wit: Reports of the Auditor of Accounts, Adjutant and Inspector General, Quartermaster General, Sergent-at-Arms, Railroad Commissioner, Commissioner of the Insane, Directors, Superintendent and Chaplain of the State Prison, Trustees of the Vermont Reform School, and Trustees of the University of Vermont and State Agricultural College, in the general form and style of the Laws of Vermont, for 1870, to be bound in one volume and delivered at the office of the Secretary of State, in Montpelier, on or before the first Monday in October next.

Also, the Report of the Board of Education in the same form and style, bound in a single volume, and to be delivered at the same time and place.

Also, the Report of the Vermont State Board of Agriculture, Manufactures and Mining in the same form and style, bound in a single volume, and to be delivered at the same time and place.

Also, the Biennial Session Laws of 1872 in the same style, bound in a single volume, and to be ready delivered for distribution on or before the first day of January, 1873.

Also, the Senate and House Journals, in the same general form and style of those of 1870, to be bound in seperate volumes, and ready for distribution on or before the first day of May, 1873.

Details of contracts will be governed in all particulars by the provisions of No. 61, of the Acts of 1867—to which parties interested are respectfully referred.

Blank propasals for bids will be furnished at once to parties desiring to enter into contract for any part of this work.

The right to reject all or any proposals, as may be deemed for the interest of the State, is hereby reserved.

GEORGE NICHOLS,
23w4jx Secretary of State.

NEW PATENT PUMPS.

Having received the Agency of for the sale of H. H. BABCOCK'S PATENT WELL and CISTERN PUMPS in Bennington and a portion of Rutland counties, I would say to those in need of pumps that I am prepared to set up Pumps and

WARRANT THEM TO GIVE FULL SATISFACTION

or no sale. These pumps are constructed on an entire new principle of *Force and Suction Combined*, and will draw water with ease where the old styles will not work at all. They also have a cylinder in which the valves and plunger works, when worn can be exchanged for a new one, which makes it Equal to a new pump, for a trifling expense. They are manufactured from White Pine, with Iron Handle, Spout and collar. And for a better recommend than I can give, I refer you to a few of the many reliable parties who have them in use, viz: Peter Wyman, O. C. Waterhouse & Co., W. H. Fullerton, J. K. Thayer. I can also furnish wooden pipe from one to four inch bore, for carrying water underground, so short notice made from the best Pine Timber.

GEO. F. BOYNTON, Agent.
