Local Intelligence.

THURSDAY, DEC. 26, 1872.

HARLEM EXTENSION RAILROAD.

F. C. WHITE, - - SUPERINTENDENT.

OFFICE—RUTLAND, VERMONT.

Trains Leave Manchester.

GOING NORTH.

10 45 a. m.—Mixed.
1 00 p. m.—Freight and Passenger.
6 20 p. m.—Mail.

GOING SOUTH.

6 15 a. m.—Freight and Passenger.
10 30 a. m.—Mail.
4 50 p. m.—Mixed.

Milk Train—Leaves Manchester at 7 55 a. m. on Mondays.

Stage Routes.

Dorset, Rupert, Pawlet, Granville, &c.
H. H. ALLEN, Proprietor.
Daily Arrives 10 30 a. m. Leaves 11 00 a. m.

Winhall, Bondville, Jamaica, Townsend, &c.
J. SORRENSEN, Proprietor.
Arrives at Manchester railroad depot Mondays, Wednesdays and Fridays at 10 a. m.
Returns, leaves Manchester railroad depot Tuesdays, Thursdays and Saturdays at 11 a. m., after arrival of 10 45 a. m. train going North.

Peru, Landgrove, Londonderry, Chester, &c.
M. W. SMITH, Proprietor.
Arrives at Manchester railroad depot Mondays, Wednesdays and Fridays at 1 p. m.
Returns, leaves Manchester railroad depot Tuesdays, Thursdays and Saturdays at 11 a. m., after arrival of 10 45 a. m. train going North.

From Londonderry to Chester
S. D. CRAFTS, Proprietor.

Mails Close.

SOUTH—By railroad for New York, Albany, Troy, South and West at 10 00 a. m.
NORTH—By railroad for Rutland, Burlington, North and East at 7 00 p. m.
Letters for New York, Albany, Troy, &c., when too late for 10 00 a. m. mail, are forwarded at 7 00 p. m. via Rutland.
GRANVILLE mail by stage closes at 10 45 a. m.
POST OFFICE open from 7 a. m. to 9 p. m.
Mails from the North arrive at the Post office at 11 00 a. m.
Mails from the South arrive at the Post Office at 6 40 p. m.
Mails for Peru, Landgrove, Bondville, Jamaica, &c., by stage, close at Factory Point 9 00 a. m. Tuesdays, Thursdays and Saturdays.

Telegraph Office

Open from 8 a. m. to 8 p. m.

MANCHESTER.

—Rev. Dr. Cushman, on Christmas eve, preached a disourse appropriate to the occasion at the lecture room of the Congregational church.

—The weather got low spirited on Tuesday night, so much so that the thermometer could barely get up to 15° below zero on Wednesday morning.

—The name of the Bennington *Free Press* has been changed to *Vermont Gazette*. We have received two chromos, a choice of which the *Gazette* will give to its subscribers, paying two dollars for the year to come.

—The only consolation we have had during the past few days of cold, windy weather, is the fact that these same breezes next summer will be as delicious as they are now unpleasant. Not all the good things belong to any locality.

—The heaviest snow storm of the season occurred on Friday morning, and the trains were delayed more or less on all the railroads. It cleared off warm and pleasant, however, leaving the sleighing in this part of the country, in a beautiful condition.

—Mrs. R. E. Baldwin was considerably bruised, on Friday evening, by being thrown out of a sleigh in consequence of the back seat not being properly fastened. Sleigh riding is a pleasant institution but an acrobatic performance over the back of the sleigh is'nt.

—Frank Secoy, an employe of the Harlem Extension, R. R. was caught between the bunters of a milk car and passenger car at Rutland, on Friday evening, and squeezed into a space six inches in width, but strange to say, was not seriously injured. It was a tight squeeze though.

—S. P. Meeker has just finished dressing 250 more nice turkeys, besides geese, chickens and ducks for the Boston market. All who 'want to be an angel' very badly can get plenty of wings to practice with, by calling at J. W. Bowen's and all for nothing.

—Hubbard & Hopkins from the first of May to the first of December slaughtered for consumption in Manchester and vicinity, 250 beef cattle, and Mr. Spring of Factory Point nearly half as many. Much of it goes to the hotels, but the consumption of beef by people generally has largely increased within the last few years.

—The annual meeting of members of the Congregational Society for the election of officers will be holden at ten o'clock a. m., on the first Monday in January, 1875, at the lecture room in the Congregational Church, as provided by the constitution of the society; and for the transaction of any other business that may legally come before the meeting.

—"Washburn's Latest Sensation" will exhibit at music Hall on Wednesday evening of next week. Most of the readers of the JOURNAL have already attended Washburn's performances and most of them will wish to go again. He has visited Manchester several times and always has something new and invariably draws a full house. His performances are usually free from that vulgarity which is distasteful th all respectable people.

—Christmas, after hovering about the village in a distracting state of indecision for the past two weeks, at last decided to make its *entree* at Burr and Burton Seminary, where a "Tree," with the accompaniments will be displayed, this (Wednesday) evening. Eager expectations of a liberal supply of "fruit" are indulged by all, and we hope none will be disappointed. The townspeople have been invited to join in the gift-giving and merry-making at the Seminary, and, altogether we expect it will be a "Merry Christmas."

—One reason why Hard and Houghton's (Riverside Press) unabriged, enlarged, and corrected edition of Smith's Dictionary of the Bible, edited by Hackett and Abbot, 4 vols. 8vo, 3,667 pp., 576 illustrations, cloth, $26, is better than the English edition of the same, and thus the best Bible Dictionary in the English language, is that the contents of the Appendix to the original work and the new matter in the English abridgments have been distributed throughout the American edition, facilitating reference, and more than 500 pages of new matter contributed by twenty-six of the best American Scholars, in addition to the work performed by Dr. Hackett and his associate.

—The twenty-third annual mbeting of the Vermont State Teacher's Association will be held in Rutland, Thursday and Friday Jan. 30 and 31, 1873. Topics of general interest to teachers, and important educational questions will be discussed by the leading educators of the State. The programme will be given to the public at an early day. Lady members of the Association will be provided with entertainment. Gentlemen entertained at reduced rates. It is expected that the railroads of the State willl extend their usual courtesy of return checks to members of the Association. Those expecting to attend the meeting and wishing entertainment should send their names early to Prof. J. Dana, Rutland, Vt.

H. H. SHAW,
Chairman State Com.

—A meeting of the lumbermen who ship by the Harlem Extension R. R., north of Arlington was held at the Colebourn House, Factory Point, on the 18th inst., to counsil in regard to the lumber interests, and, if thought best, to establish a regular lumber market; and, as far as practicable, establish a uniform price for lumber. The meeting was organized by electing A. P. Graham of Bondville, chairman. Those who were present stated that their cuttings for 1873 would figure up in the aggregate nine million feet of timber and lumber. As many producers were not present, it was thought best to adjourn, to meet at the same place on the first Thursday in January, at noon, and it is hoped that all the lumber producers in this section of the country will be present. If nothing more is accomplish, dealers can thus get acquainted with each other and cultivate a feeling of friendship and good will.

—We suppose it would be glad news to most of our subscribers to know that our district schools are all in a flourishing state of properity. We are sure it would be news, for on enquiry we have found that the doors of the school houses in this section are seldom darkened by either committee man or parent. In fact pretty much all the interest that is ever manifested is shown when the yearly tax bill is presented, and the tax-gatherer is more often received with growls of dissatisfaction than otherwise. We hope this state of things will not always last, because poor schools are always the result. The following from a contemporary is right to the point: "The man or woman and who drop into the school houses often shows an interest in their comfort, is a public benefactor. Both teachers and scholars are encouraged to good behavior and extra efforts. Who does not remember the stimulus to the whole school of a visit from a parent or other person? A school visited once or twice a month—the visitor insisting that no change of programme shall be made—will generally be twice as prosperous as the school which is never visited. No one should leave others to attend to this matter. The public schools should be the pet and pride of every parent."

—The expectation that the building of the Lebanon Springs Road would bring our railroad into a direct through line, from New York to Montreal, bids fair to be realized at no distant day. The lower roads are already at work in that direction: "Pursuant to a call the stockholders of the Dutchess & Columbia R. R. assembled at Millbrook to vote on the proposed consolidation of the road, with other branches under the name of New York, Boston & Montreal R. R. The total amount of stock is 30,000 shares or $1,500,000. A two-thirds vote was necessary, and 22,482 shares were voted on and every vote was in favor of the proposed movement. The connections are as follows: New York and Boston road from New York to Carmel, then east to Brewster's Station on the Harlem Railroad, about four miles, where a connection is made with the B. H. & E. R. R. by the Putnam & Dutchess road; from Carmel to Sylvan Lake 19 1-2 miles, from Sylvan Lake by Clove Branch road to Clove Branch Junction on the D. & C. road by the latter road to Pine Plains, then by the Pine Plains and Albany road to Chatham on the Harlem and so on to Albany and the north. Some of these roads are not constructed as yet, but from a statement made by Geo. H. Brown, the funds can be procured in Europe, and the work will soon commence. The Dutchess and Columbia R. R. has now ceased to exist, and with a new board of Directors and Mr. Brown as President, the New York, Boston and Montreal R. R. will probably soon begin to operate. A meeting of the stockholders of the Pine Plains and Albany Railroad and the Harlem Extension Railroad was held in New York city on Monday, of last week, at which a union of those two roads, forming the northern section of the through line mentioned, was effected, the two sections being kept separate for the present for technical reasons. A meeting will be held in New York city next month for the purpose of consolidating the two portions into one great through line extending from that city to Rutland, Vt., to be called the New York, Boston and Montreal Railroad.

FACTORY POINT.

—We hear a ball or something of the kind talked of as coming off at the Colburn House shortly. It will be such an occasion as all lovers of the Terpsichorean Art will like to patronize.

—J. H. Bonesteel has the inside of his store nicely painted and it will be ready for the public in a few days. We learn that Mr Bonesteel is now in New York making his purchases, and that the store will be opened for trade on Monday Jan. 6th, with a fine stock of goods, new throughout.

RUPERT.

—The epizootic is nearly played out in this town. Six fatal cases are reported thus far.

—No remarkable "heavy pigs" have been slaughtered in town the present season.

—Mrs. Lucy Towsley, an elderly lady, died very suddenly on the 15th inst. She went to her chamber in the evening and on reaching her room fell to the floor and expired almost immediately. Disease of the heart was the cause of her death.

WEST RUPERT.

—Monday noon Dec. 23, thermometer 14° above zero.

—There is to be a Sabbath School Concert at the Brick Church, Dec. 29.

—The social dance at the Masonic Hall, Christmas night, we hope will in every respect be what its patrons desire, good music, good eatables, and a nice time generally, which has a wonderful tendency to "drive dull care away."

—Last Friday evening the Rupert Literary Association met at L. D. Hopkins. We enjoyed what we anticipated, good reading and a pleasant social visit. The next meeting at T. S. Beebe's, Jan. 3rd; two ladies and two gentlemen are to read; declamations by Fred Sheldon and Willie Stearns, epistolary writing by Miss Julia Beebe, and Miss Bell McCall. As there are to be new officers appointed at this meeting, it is desirous that all the members be present.

EAST DORSET.

—The Library Association held its annual meeting last week, and appointed its officers for the ensuing year. The annual subscription was renewed, and the society thus supplied with funds for the purchase of new books. The book committee immediately proceeded to make a selection from the numerous catalogues which enterprising publishers take care to keep ever bef re the public. The first instalment of over twenty volumes has already arrived, and it is hoped will give wide pleasure and satisfaction, as science, art, history, poetry and romance are all represented. Among those books which will attract the general reader is "Nordhoff's California," "The Woods and Byways of New England," and "The English Governess at the Court of the White Elephant," all of which are beautifully illustrated. Our good librarian, whose gratuitous services are so fully appreciated, found in his stocking this morning Bryant's translation of Homer's Iliad, a present from a dozen members of the Association. We think this library emphatically a good thing, giving our young people an opportunity to cultivate their heads, their susceptible hearts and nimble heels being well looked after by other organizations.

DANBY.

—Mr. Wm. Pierce is now well started in his new store and is doing a driving business.

—Prof. C. C. Hard. of Arlington, has started a class in vocal music in this place. It now gives every promise of success.

—G. D. Griffith has nearly completed the slide track which he is constructing for the greater convenience of his business. He has prepared sixty rods of road one-half of which is at his own expense, and the other half, also, with the exception of the rails, which are to be furnished by the railroad company.

LONDONDERRY.

—On the evening of the 17th inst. some two or three hundred people were assembled at the Hall of J. Todd and were delighted to witness the poetry of motion as exhibited by Miss G. Houghton who is but eleven years of age and who as a *danseuse*, considering her age and the fact that she had never been instructed in the art of dancing is remarkable. The movement and time seemed to be graceful and perfect, causing apparently no weariness to the young lady and for hours commanding the most perfect attention of the spectators, only occasionally interrupted by applause whenever a pause was made between the different pieces of music. It is a little more than a year since the young lady's parents had their attention called to the peculiarly wonderful gift manifested by their daughter. It is said that for the time being she is perfectly unconscious, exercising no will or power of her own, while her movements seem to be controlled in perfect harmony with the music. The young lady's parents, who reside near Rawsonville, are plain, respectable, matter of fact people, and have never given public exhibitions of their daughter's wonderful gift for the purpose of procuring gain by making a charge therefor, but have, on a few occasions, at the desire of friends given a public exhibition, receiving such free will offerings as the spectators desired to bestow in token of their satisfaction, or approbation.

CHESTER.

—The dedicatory services of the Baptist Church took place in the Society's beautiful church, on the 19th inst. There was a large attendance day and evening.

—A first class wedding came off in the Episcopal Church, Wednesday morning at 10 o'clock. The church was crowded. The interested parties: Mr. Frank Hadley and Miss Gracie Fullerton. The ceremony was performed by the worthy and reverend rector A. B. Flanders. The youthful couple left for the usual honeymoon trip by the noon train, carrying the congratulations of the hundreds that were gathered on the platform of the railroad station. D.

—One of those fearful accidents that thrill a community occurred here last evening, by which a little daughter of Oscar George, about seven years of age was so severely burned by stumbling over a threshold with a kerosene lamp in her hands, as to probably cause her death, and, if she should live will be totally blind. The cruel fire cleaned her long and beautiful ringlets to the scalp and her entire face and head is one perfect blister. Is there a town or hamlet in the land that has not furnished its victim to kerosene martyrdom?

SANDGATE.

—Mrs. Nellie J. T. Brigham lectured on Spiritualism at the Congregational Church, in this place, to good audiences Monday and Tuesday evenings of last week. The subject of the first lecture "The best thing about Spiritualism," was according to the speaker, the positive proof or knowledge it afforded of a future state of existence, and if the facts and phenomena cited, were true her conclusion would seem to be unavoidable.—Tuesday evening the lecturer invited the audience to hand up questions or subjects to be answered and elucidated, and in response some half dozen were passed up with as many texts of scripture on baptism, hell, etc., all of which were answered and dismissed, if not to the satisfaction of the questioners, at least in so able and methodical a manner, that some strangers present were suspicious that the whole programme was cut and dried beforehand. Various opinions were expressed. One gentleman was heard to assert that not a preacher in Bennington Co. would venture on a like experiment, another, that if ever there was such a thing as inspiration this was an instance, and yet, another; that it was all humbug and the works of the devil etc., etc. Some $20.00 were contributed to remunerate the speaker. Mrs. B. is of fine personal appearance, ladylike, modest and unassuming, has a musical voice, a facinating manner, and is a popular lecturer in such places as Troy, New York, Boston, Hartford, Philadelphia, and Washington, where she now has engagements ahead; at present she is in Troy and goes from thence to Hartford Ct.

ARLINGTON.

—The following comrades are elected officers of Port Dudley, No. 28, G. A. R., for 1872: H. S. Hard, Commander; C. A. Bundy, S. V. Commander; F. Shepard, J. V Commander; A. Amidon Q. M.; W. Holden, 2nd officer of the Day; Otis Ward, Officer of the Guard; G. B. Haskins, M. D., Surgeon; M. M. Hale, Chaplain; L. W. Russell, S. M.; Ora Slade, Jr., Q. M. Sargent; Chas. A. Bundy, Delegate to Dept. Convention, H. Shepard, Substitute.

WEST ARLINGTON.

—The dwelling house of E. C. Pierson M. D., was discovered to be on fire Monday evening about nine o'clock, and was destroyed with most of its contents. The wind was blowing a gale at the time.

NORTH BENNINGTON.

—It affords us great pleasure to chronicle the arrival, on Saturday night, of Prof. Howe and family from Boston, with the re-opening of the Graded School, in view. The marked ability and scrupulous fidelity with which Mr. Howe has performed the many and onerous duties incident to his sacred trust, have not only endeared him to the pupils under his immediate charge, but have rendered him highly respected and deeply beloved by the entire community, and would seem to mark him as one whose name is not unlikely to become familiar to fame, and the record of whose deeds shall long live, and be fondly cherished in the memory of those who knew him best.

—The Church fair and festival held on Thursday evening and Friday afternoon and evening of last week, has been the all absorbing theme of late. As well "the good mothers in Israel," as their fair daughters with their admiring allies, have, with consummate skill and untiring energy devoted to this worthy enterprise, accomplished results truly wonderful. The hall was tastefully decorated with festoons of evergreens and numerous other curiously wrought devices of cunning hands, fit and inviting repository of the countless ornamental, useful and valuable articles therein exposed for sale, many of them the gift of friends abroad, and not a few the product of distant and foreign lands. On Thursday evening the spacious hall was literally packed, on Friday, owing to the storm the attendance was not so large. The sales amounted in the aggregate to the handsome sum of $864; receipts at the ice cream stand alone, on Thursday evening, were thirty-five dollars.

BENNINGTON.

—The jury trials were finished and the jury dismissed last week. The court business will probably take most of the present week and perhaps longer. Much dissatifaction is found with the court room, partly owing to want of light, but more sepecially owing to want of ventillation, some of those attending court nearly or quite fainting away. It is understood that the court will adjourn to Free Library Hall, and it is pretty certain that another term of court will not be held in the new building unless an improvement is made in its construction.

WOODFORD.

—Happy New Year.

—Fine weather.

—Plenty of snow.

—More cases of measles and typhoid fever reported.

—About time to hear from our Western correspondent, Massachusetts ditto.

—Inform your friends that now is the favorable time to subscribe for the JOURNAL, commence the new year 1873.

—The Debating society hold their meetings every Friday evening in the Red school house. All are invited to attend

—Pork is falling. To corroberate our statement and opinion, we saw a man dressing a 50 pound porker on his front door step. He said his pig turned out well.

—Nearly one hundred of the laborers at the terminus of the Bennington & Glastenbury Railroad, quit work last week. That region must now present a dreary aspect.

—Those persons who, a few weeks ago, were afraid there would not be snow enough to do business on that line, have as an inevetable consequence reversed their opinion, and now cry enough, enough.

—The resevoir of Wallen pond broke away in one place one day last week which caused quite an overflow of water in the streams below. It has since been repaired and now the Scott mill is running on full time.

—Boston has a thousand cases of small pox this is considered to be much worse than the recent conflagration. The fearful contagious disease is spreading in all directions from that city to the suburban villages and towns.

—A juvenile set two steel traps for mice a few nights since. In the morning he found both traps sprung, they being side by side with the tail of a mouse in one and the head in the other. The boy is of the opinion that it wont pay for him to "trap it" if it takes two traps to catch "a mice."

—As H. T. Harbour and another gentleman were loading logs on the mountains, a few days since, looking up the road but a few rods they saw a monster black bear coming toward them. On facing his bearship Bruin left without being molested, more than by the severe cold and deep snow while out of his den.

(Continued.)

—"Hallo there," was repeated several times without any response from within. The Indian, as it appeared, never had been molested in like manner before. He in an instant advanced toward the children and commanded them to be still, threatening them in a whisper. He was wise enough to comprehend the meaning of the whole case. He was confident or conceived in his mind that some persons whoever they might be were searching for his youthful captives. But he was mistaken for once. The intruders soon found the way into the cave. A look of admiration from the new comers impressed the Indian favorably. He accosted them and in a guttural voice—more than usual—said, "Are ye friends or enemies? Speak white men!" "Friends," they answered. What prisoners have you here asked one of the new-comers. Don't know their names nor care, they are beauties, answered the Indian. They had now been in the cave long enough to see the children distinctly. By Jove said one they are old Coleman's children sure, the very ones we hate. Now we'll mete out our revenge. Before preceding further we will mention who the new comers were and how it happened that they were along that way. Their names were Zeke Conolly and Wall Suiffin. They had no occupation but hunting and rambling over the forests. They were short of stature, wicked in their pursuits and were filled with an evil genius.

To be Continued.

BERLIN.

—James Coughlin, a laboring man, living near the coal job, in a fit of insanity hung himself on Thursday last, but was discovered by his family and rescued before life was extinct.

STEPHENTOWN.

—The Hoosac Tunnel & Albany Railroad, which will pass through this place, is again aggitated. The officers are: President, B. F. Mills of Williamstown; treasurer, E. S. Wilkinson of North Adams, directors, William S. Blackinton W. W. Freeman, Harvey Arnold, S. Johnson, C. T. Sampson of North Adams, L. L. Brown of South Adams, B. F. Mills, John M. Cole, C. R. Taft of Williamstown, C. P. Lapham of Hancock. The eastern section of the road is to extend twenty miles through Adams, Williamstown and Hancock to Stephentown, where it will connect with a line to be built thither from Albany by New York capitalists. It is designed to have it constructed and in running order in season for the completion of the tunnel, and to make it the great carrying line from Pennsylvania coal mines to New England.

NEW LEBANON.

—We learn from the Chatham *Courier* that Columbia county is soon to have another addition to her manufacturing interests in the shape of Glass Works at New Lebanon. The location is a few rods from the freight house, and the preliminary work is well under way. If the weather does not prove too severe for the main stack, which is to be sixty feet high, everything will be ready for turning out bottles in a few months.

CHATHAM.

—Ocean Engine Company No. 1, of Chatham Village, will give their tenth annual ball at Cady's Hall on Friday evening, 27th instant. The committee consists of Messrs. Miles S. Beach, H. A. Blunt and Ellis Seymour, which is a sufficient guarantee that the affair will be managed in the most approved style.

—Just before going to press we learn that the Boarding House at the old Wood Mill, in East Dorset, is burned. No particulars.

SPECIAL NOTICES.

IT IS AN ESTABLISHED FACT, that Consumption can be cured; but it is far better to prevent the cruel disease from fastening itself on the system, by the timely use of a remedy like *Dr. Wistar's Balsam of Wild Cherry*. This standard preparation will speedily cure a cough or cold, and even Consumption often yields to its great power. 1w

$100 Reward.

I will forfeit one hundred dollars or a full cased Sewing Machine to any Sewing Machine that will do the variety of work which can be done on the Grover & Baker Sewing Machine by use of regular attachments.

GEO. L. HOWARD,
5leowlyx Factory Point, Vt.

At midnight on his wooded hills,

The Centaur lay dreaming of the hour,
When mankind cured of aching ills,
Should know his all-healing power.
Nor long he waited. The blind could see,
Straightened were limbs by pain long bent,
Cripples ran, and the lame on bended knee
Gave thanks for the Centaur Liniment.

The Centaur Liniment is the greatest pain-reliever the world has ever seen. Rheumatism, whether inflammatory, sciatic or nervous, is made to disappear. Swellings cease to pain, wounds are healed, burns are cured without a scar and stings and bites are rendered harmless.

Mrs. B. Powell, 492 Atlantic st., Brooklyn, N. Y., writes: "I have had the rheumatism for ten years. I have tried everything. The Centaur Liniment is the only thing that does me good.

Mr. Charles Hill, 616 Pine st., Philadelphia writes: "That two bottles of Centaur Liniment has cured a most severe sprain of his ancle."

J. H. Martin of 553 Seventh Avenue, N Y says: "The Centaur Liniment has cured me of a terrible case of inflammatory rheumatism and cannot be too highly recommended."

59 BROADWAY, N Y Aug 21st, 1872.

"All horse owners should have the Centaur Liniment. We used it in our stables and find it the best thing ever adopted."

H MABEE,
Supt Adams Express Co Stables.

Such testimonials can be repeated indefinitely. Try it once. We will warrant it every time. Sold by all Druggists.

Use Renne's Pain-Killing Magic Oil.

"*It Works like a Charm.*"

This is an honest, good medicine, and has been tested for a number of years, as used by families and individuals, and is well liked, and found to be safe to use and sure to cure pain. Truly, it costs more to make it than it does common liniment, but its use does more good, and it is cleaner and safer to use.

Try Renne's Pain-Killing Magic Oil for Headache.
Try Renne's Pain-Killing Magic Oil for Catarrh.
Try Renne's Pain-Killing Magic Oil for Neuralgia.
Try Renne's Pain-Killing Magic Oil for Sciatica.
Try Renne's Pain-Killing Magic Oil for Sprains.
Try Renne's Pain-Killing Magic Oil for Sore Throat.
Try Renne's Pain-Killing Magic Oil for Cramps.

Suppose you try it for Dog or Cat Bite.
Suppose you try it for Frozen Feet or Ears.
Suppose you try it for Rusty Nail Wounds.
Suppose you try it for a Bruise or Strain.
Suppose you try it for Poison with Ivy.
Suppose you try it for Pits and Spasms.
Suppose you try it for Crick in the Back.

It won't hurt you. Renne's Magic Oil never hurt anybody. Mix it with molasses for a cold; mix it with water for sore eyes. If you use it for earache, don't put any cotton in the ear. Get the genuine. WM. RENNE & SONS, Manufacturers, Pittsfield, Mass. 51w

GOOD IN THE HEAD, Stricture of the Nasal Organs, etc., *Use Renne's Pain-Killing Magic Oil.*

BE CAREFUL—In these days when tight hats hot air, and sedentary occupations, cause the hair to fall out, it is a matter of no little importance to know which of the hair preparations are of any value. The majority, as has been frequently proved by the first dermatologists, or hair-doctor possess little or no merit. Such being the fact it is consoling to those who are afflicted to know there is really one good article, which is recommended and used by the first medical authority, and has stood every test, many years. This preparation is Hall's VEGETABLE SICILIAN HAIR RENEWER—a truly scientific compound, which is unquestionably the best preparation of the kind now before the American public. It will restore to gray hair its original color, cleanse the head thoroughly, cure all eruption of the scalp; and will always restore the hair so long as any germs remain, as they almost invariably do, until extreme old age has destroyed the roots. The original article is made by R. P. Hall & Co., Nashua, N. H.—*Forney's Press, Jan. 25, 1868.* 31ew

PERSONS THE FIRST SYMPTOMS OF A COMMON COLD, Influenza, Hoarseness, Sore Throat, Bronchitis, Asthma, Pain in the Side, Back or Limbs, or any other affection of the lungs, throat, windpipe or the bronchial passages, with *Hale's Honey of Horehound and Tar*. The relief is certain and immediate. Gilbertson's, 7 6th Avenue. Sold by all Druggists. 1w

AYER'S CATHARTIC PILLS,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheums, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

are the most congenial purgative yet perfected. Their effects abundantly show how much they exceed all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to a complainted every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take, and being purely vegetable, they are entirely harmless.

"A Complete Pictorial History of the Times."—"The best, cheapest, and most successful Family Paper in the Union."

HARPER'S WEEKLY.

SPLENDIDLY ILLUSTRATED.

Notices of the Press.

The Weekly is the ablest and most powerful illustrated periodical published in this country. Its editorials are scholarly and convincing, and carry much weight. Its illustrations of current events are full and fresh, and are prepared by our best designers. With a circulation of 130,000 the Weekly is read by at least half a million persons, and its influence as an organ of opinion is simply tremendous. The Weekly maintains a positive position, and expresses decided views on political and social problems.—*Louisville Courier Journal.*
