REMARKABLE and BEAUTIFUL TOY for CHILDREN.
THE MAGIC WHEEL.
No. 1, Price $1 50.

From The Commercial Advertiser, Oct. 23.
Is one of the most interesting and amusing things of the kind ever invented. By looking through perforations in the rim of the MAGIC WHEEL, while it is revolving, very simple pictures on circular pieces of paste-board are made, by the aid of a mirror, to assume the shade of living and moving creatures, and to perform the most wonderful antics. The mode in which the illusion is produced would puzzle grown people, while children without inquiring into the whys and wherefores, are delighted with the performances of the Magic Wheel.

BRADBURY'S GOLD MEDAL PIANO-FORTES.—Testimony of the largest Music House in the West:
"Having tested William B. Bradbury's Pianos in every possible way beside the best pianos of other makes for months past—tested them in reference to power, purity, evenness, brilliancy, singing, and sympathetic qualities of tone, delicacy and elasticity of touch, ease and rapidity of action, standing in tune, excellence of material, elegance of finish, and care in workmanship—we have arrived at the deliberate conviction that they are surpassed in not one respect by the best of other makes, while in some respects they are superior to all others.
Geo. F. Root, E. T. Root, C. M. Cady. } ROOT & CADY."

PATENT PLATE PIANO-FORTES,
of which The New-York Tribune, April 23, 1864, said: One of the simplest and most truly valuable improvements yet made in the Piano-forte is that invented and patented by Decker Brothers.
WARRANTED FOR SEVEN YEARS.

ESTABLISHED IN 1829.
RAVEN & BACON,
PIANO MANUFACTURERS,
No. 135 GRAND-ST., near Broadway, New-York.
The Musical Profession having of late become quite prominent in connection with newspaper advertisements of four or five Piano manufacturers in this city, each firm claiming superiority for their Instruments from the indorsement of the same distinguished Artists, we fear the innocent public, unacquainted with the tricks of the trade, may find themselves mystified as to where to select the best Piano for their Holiday gifts. We would state that as our Pianos have been favorably known in this market for nearly forty years, it has not been necessary for us to obtain the opinion of the Profession in regard to their quality, the instruments speaking for themselves. We are continually introducing improvements in our Pianos and they are up to the age in every particular.
Parties desiring Pianos will do well to examine our stock and prices before making their selections.

ESTABLISHED IN 1834.
JOHN B. DUNHAM,
Manufacturer of
GRAND, SQUARE & UPRIGHT PIANO-FORTES,
Warerooms and Manufactory,
75 TO 85 EAST THIRTEENTH-ST.,
NEW-YORK.

HAZLETON BROTHERS,
OVERSTRUNG, GRAND, AND SQUARE
PIANO-FORTE MANUFACTURERS,
No. 99 Prince-st., a few doors west of Broadway, New-York.
These Pianos have always received the first premium wherever they have been exhibited. A written guaranty for five years accompanies each Piano.

IMPROVED COTTAGE ORGANS, the best in use; also Pianos and Melodeons at bargains.
GEORGE O. SANE, No. 37 Park-row, New-York.

MASON & HAMLIN respectfully announce that they have now completed the occupation of their greatly enlarged factory, and effected other arrangements for the large increase of their manufacturing facilities. They therefore confidently expect to be able henceforward to supply orders for their CABINET ORGANS promptly, without that inconvenient delay to which purchasers have been subjected from the fact that for more than a year past they have been continually several hundred instruments behind orders. An assortment of styles, from $110 to $600 each, may be found at their New York Warerooms, 7 Mercer street.

PIANOS, new and second-hand, by best makers; harmonium, harp, watches, jewelry, segars, paintings, shoes, sewing-machine, furs, chess-boards, &c. Cash paid for new and second-hand pianos and melodeons generally. L. F. JONES, No. 52 Ann-st.

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others is, that the firm is composed of five practical piano-forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth-st., between Union Square and Irving Place, New-York.

"STODART" PIANOS,
known and esteemed as one of the BEST PIANOS manufactured, and for years have been used by the MOST HIGHLY CULTIVATED MUSICAL PEOPLE, and who will have none other. Reference is made, in all cases, to parties who have the instrument (and they number THOUSANDS in this city alone) as to their qualities as a PERFECT PIANO in every respect. A fine assortment, recently from our Factory, at our Warerooms, No. 524 Broadway, opposite St. Nicholas Hotel.
STODART & MORRIS.

THE WEBER PIANO FORTE—
is admitted the BEST Piano Forte made, because the maker, besides being a practical mechanic of long experience, is also a THOROUGH MUSICIAN, thus combining advantages possessed by no other manufacturer in the United States. Such is the testimony of S. B. Mills, Robert Heller, Geo. F. Bristow, Wm. Mason, C. Jerome Hopkins, Chas. Fradel, Max Maretzek, Carl Anschutz, John Zundle, Maurice Strakosch, Giovani Sconcia, and every good musician in the United States. All musical ears at once admit their great superiority. Warerooms, No. 156 West Broadway, near Canal-st.

THE CELEBRATED PIANOS of J. & C. FISHER, the most reliable Pianos made, with the best modern improvements, wholesale and retail at moderate prices, Nos. 241, 243, 245, 247, 249 Twenty-eighth-st., near Ninth-ave.

No. 84 WALKER-ST., New-York.

A NEW AND GREAT INVENTION IN
HOOP SKIRTS.
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
J. I. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this
J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.
This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.
