Telegraph Office

Open from 8 A. M. to 8 P. M.

MANCHESTER.

—We never fully realized the "power of the press" until we got our fingers caught in one the other day. If you don't believe it is the lever that moves the world, just try it once. It made the "stars" and other heavenly bodies revolve with wonderful rapidity.

—The Masonic Relief Association spoken last week was organized with the following choice of officers: President, W. H. Fullerton; Vice President, S. Demling, Secretary, Ranney Howard; Treasurer, A. J. Gray; Directors, J. B. Hollister, D. K. Simonds, O. C. Waterhouse M. K. Fowler, W. A. Tyrel, J. C. Blackmer, W. A. Black, J. B. Hollister, D. K. Simonds and H. K. Fowler were elected a committee to draft a code of by-laws to be presented Thursday evening, June 4.

—The case of Solomon Buckley vs. David Buckley has just been tried before Hon. Harmon Canfield, Referee. It is an action on a note for $307, defense, want of consideration. Burton & Munson for Pff., Miner & Beebe for Deft.—The referee found that a portion of the note was due.

—Swett sells the Asbestos roofing which the Scientific American says is fully equal to the best tin roof, and is not as expensive. Several parties in this vicinity have tried it with great satisfaction.—It can be applied to steep or flat roofs.

—The new gateway at Dellwood Cemetery has been completed and is a great improvement to that already beautiful spot. Manchester is justly proud of its cemetery, which is one of the finest in the state.

—We give up a portion of our space to the great showman this and next week because he has the ducats to pay for it and we need the money. Barnum learned long ago that it pays to advertise and pay liberally for it too. We shall not trespass so much on the patience of our readers, but give them more reading matter in the future.

Mr. and Mrs. Jacob Bennett wish to express, through the columns of the JOURNAL, their grateful thanks to those kind friends who rendered them such timely assistance during the sickness and after the death of their daughter, and to Prof. H. H. Shaw and the students from the Seminary for their attendance and sweet music on the occasion of the funeral.

The programme for Decoration Day, Saturday, will be as follows: The ritual service at the cemetery, Factory Point, at 9 a. m. The procession will then march to Dellwood Cemetery, where the ritual service will again be performed, to be followed by an address by Hon. A. L. Miner and Poem by Prof. H. H. Shaw. All soldiers and citizens are invited to attend and join the ceremonies. Members of the Post are requested to meet at Adams' Hall Friday evening, promptly at 6 1-2 o'clock, and Saturday morning at 8 1-2 o'clock.

—City visitors begin to arrive in search of rooms at our hotels for the summer. The prospect is good for a successful season.

—Next week is court week and we hope to see a large number of our friends, subscribers to the JOURNAL, walk in with the small amounts due us and make their deposit. It takes money to run a newspaper, and we could get up a better paper if we had more of it. Give us what is our due and we will guarantee a paper of which no one need be ashamed.

—Ladies who visit Rutland should call at Ashmun's Temple of Fashion, where they can find a great variety of goods and the best of bargains.

—Dr. Geo. H. Swift and wife bade adieu to their friends here on Monday, to take up their residence in La Crosse. Manchester has lost a good dentist and a right good fellow, and we can heartily recommend him to the patronage and friendship of the people of that city.

FACTORY POINT.

—It is expected that there will be preaching in the Baptist Church next Sabbath.

—Estabrook has got his bakery in running order and is now ready to supply the hungry people with the staff of life at a reasonable rate.

—J. T. Beach has several new hogpies which he will warrant, for sale cheap.

—A flourishing fish and game club was organized last week with the following officers: M. S. Colburn, President; Loveland Munson, Vice President; S. Deming, Sec.; R. Ames, Treas. The Club has rented rooms in Howe's Block which will be nicely fitted up and furnished.

—Col. Colburn, Baxter, Dunn, Park and McCollough have gone on a three week's fishing excursion in the North Woods. They will have rare sport.

DORSET.

—Chas. Baldwin was kicked in the stomach by a horse on Monday. His injuries are very serious but it is hoped that he will recover.

—The community was pained by the sudden death of Mrs. Aurelius Sykes, which occurred on Monday. Mrs. Sykes had been a resident of Dorset but a short time but had gained many friends.

BONDVILLE.

—A young boy named Crawford fell into the river near the tannery Friday and remained under the water about five minutes before he was rescued. He was with difficulty resuscitated. It was a narrow escape from drowning.

—An aged town pauper, Menorris Barnes, died on Friday.

—One of our young men was married last week, and on his return from bridal trip the young men prepared for a vigorous "serenade." Guns, fifes, pans and horns were procured, enough to make night hideous after the most approved fashion. The serenading party proceeded to the house of the bride's parents where it was supposed the couple were, and after pounding away a couple of hours went home apparently satisfied. The joke of the thing is that the happy pair were not there but stayed at his father's some miles away. One of the serenaders lost a fine set of false whiskers which he can have by applying at the JOURNAL office.

PERU.

—For the better accommodation of the people of this place and some of the passers, the time of holding the semi-annual meeting of the County Sabbath School Union is changed from the first Wednesday in June to the first Wednesday in July.

—Repairs on the Congregational church are going forward as fast as the weather and the limited amount of help will permit.

—The cold, wet weather has greatly impeded spring's work in the mountain towns and farmers were seldom so far behind as now. But grass is looking well and that is the main crop here.

SOUTH LONDONDERRY.

—Whitman & Goddard is the name of the new firm in the carriage business.—They are wide-awake business men and will do good work.

—A. D. Whitman has rented the east and blind factory of Pierce & Rogg, for the term of three years.

WESTON.

—There is a reservoir, covering fifty acres, above this village, which rumors for some time, has reported to be unsafe. Since the Williamsburg disaster people all down the river have felt considerably exercised over it, and it is a subject that needs looking after. The reservoir is owned by a company in Massachusetts.

SUNDERLAND.

—A frost, Saturday morning, 21st, and ice as thick as common window glass.

—Our oldest people say they never planted as late before, though people almostly through now.

—G. W. Bradley is putting a new saw mill into his steam mill which will enable him to make better lumber and supply the demands of his numerous customers with despatch.

—There has been considerable display of fishing rods and some nice trout taken. Our sportsmen seem to think it almost useless to cast the fly without one of C. F. Orvis fishing rods.

ARLINGTON.

—Bishop Bissell visited St. James Parish on Sunday last and administered the rite of confirmation.

—The service in Bethesda Church, West Arlington, at which Bishop Bissell was to have officiated on Sunday last, was deferred to a more propitious time, on account of the stormy weather. The postponement of the service was to the regret and disappointment of many. The regular service there on Sunday next will be at 3 instead of five o'clock, as heretofore; the hours at St. James Church being, on Sundays, at 10 1-2 a. m. and 5 p. m.

—Decoration Day, Saturday, May 30th, will be observed with proper ceremonies at Arlington with address by J. R. Batchelder, Esq., at the Town Hall at 10 o'clock, a. m. The full ritual service of the G. A. R., will be used at the church yard near the house, and the other yard will be visited and the soldier's graves decorated by details from Post Dudley, during the day.

EAST ARLINGTON.

—Business is not quite as lively as usual this spring, though the chief works and most of the other shops are running.

—People who wish to improve their stock of horses will do well to take a look at a young horse, of the Messenger blood, owned by N. F. Barney. He is a perfect picture.

BENNINGTON.

—Saturday night, the jewelry store of Mr. Bradley was broken open and a small amount of plunder secured. No arrests.

—Grace, one of the boys in jail for the former burglary case near breaking out a day or two ago. He had nearly severed the hinges of the door to the jail with a case knife when he was discovered.

—Hunt's mill has been sold for $125,000 to parties who will manufacture casimeres.

—The first day of June is fixed upon for laying the corner stone of the new graded school building. Extensive preparations for the ceremonies are in progress.

BERLIN, N. Y.

—Grass has grown considerably within the past week, to the satisfaction of nearly every one.

—The vacation of our graded school occurs in July, during which the venerable building at which our ancestors attended school will (probably) be repaired.

—Thos. Greenman reports an unusually heavy stock of logs at his mill, or did have before he materially reduced their number.

—One of the workmen at the Cork Shop became "unmanageable" last week, and was promptly discharged.

—Our choice for Governor of Vermont, (with all due deference to the JOURNAL's choice) is Hon. T. W. Park.

SPECIAL NOTICES.

Masonic.

The next Regular Communication of Adoniram Lodge, F. & A. M., will be held on Thursday evening, May 28, 1874.

Centaur Liniment.

This is no pain which the Centaur Liniment will not relieve, no swelling it will not subdue, and no lameness which it will not cure. This is strong language, but it is true. It has produced more cures of rheumatism, neuralgia, lame back, pain, spraining, swellings, caked breasts, scalds, burns, salt-rheum, ear-ache, &c., upon the human frame, and of strains, spavin, galls, &c., upon animals, in one year than have all other pretended remedies since the world began. It is a counterfeit, and all healing pain reliever. Cripples throw away their crutches, the lame walk, poisonous bites are rendered harmless and the worst sores healed without a scar. It is no humbug. The receipts published around each bottle. It is selling as no article ever before sold, and it sells because it does just what it pretends to do. Those who have suffered from rheumatism, pain or swelling do not need to suffer if they will use Centaur Liniment. More than 1000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running tumors, &c., have been received. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for sprained or swemmed horses and mules, or for screw-worm in sheep. Sold everywhere—this liniment is worth your attention. No family should be without Centaur Liniment. 8-1d by all Druggists. 50 cents per bottle, large bottles, $1 00. J. B. ROSE & Co., 44 Broadway, New York.

CANTORIA is more than a mere substitute for Castor oil. It is the only safe article in existence which is certain to assimilate the food, regulate the bowels, cure wind colic and produce natural sleep. It contains neither minerals, morphine or alcohol, and is pleasant to take. Children need not cry and mothers may rest. 215ly

CUT THIS OUT.

It may save your life.

There is no person living who suffers more or less with Lung Diseases, Coughs, Colds, or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Boschee's German Syrup has lately been introduced in this country from Germany, and its wonderful cures astonish everyone that try it. If you doubt what we say in regard to this, call and take it to your Druggist, F. Gunsul, Factory Point, and Wait & Hard, Manchester, and get a sample bottle free of charge, or a regular size for 75 cents. Also Dr. Boschee's German Pills, a sure cure for Dyspepsia. 3eow

Kidney Complaints,

General and Nervous Debility,

And all Chronic, Obscure and Debilitating Diseases.

OFFICE HOURS, FROM 9 A. M. TO 8 P. M.

A CARD.

To the Public:

For some time past, I have been in constant receipt of letters from prominent parties in Manchester and vicinity, as well as many patrons and friends who saw me personally, urging upon me the necessity of making regular visits to Manchester for consultation with those who are unable to visit me at my office in Rutland. I have reluctantly consented to do so, and trust that a visiting Factory Point each Wednesday, and with my large experience in the treatment of chronic diseases, I may be the means of relieving many from their old and severe maladies.

It is now nearly five years since I first came to Vermont, a stranger and unheralded, determined to be judged by my practice, and by these only. I can now point to hundreds of cases, scattered throughout the state, that have recovered under my treatment, among whom there are many that were considered as hopelessly incurable, and had been given up by other physicians before applying to me. As a proof of this statement, I refer to the many published testimonials from parties well and favorably known throughout the state, who have been under my care, who can be personally applied to.

Patients consulting me may confidentially rely on receiving a candid opinion of their conditions, and the probabilities of a cure, and may rest assured of obtaining whatever benefit can be accomplished by skillful treatment and unremitting attention.

With many thanks for the frequent marks of confidence with which I have been honored by my friends and patrons, I shall endeavor to merit in future a continuance of their esteem.

S. W. SMYTH, M. D.
