MANCHESTER.

—J. K. Freedley and family of Philadelphia are spending the summer at the Equinox House.

—J. D. Purdy lost a cow, valued at twenty dollars, by lightning during the shower Tuesday evening.

—Many of our citizens are Stocking up with a years supply of coal. It costs now about ten dollars delivered to the buyer.

—Summer visitors are becoming quite many, and the heat which is oppressive in our cities is quite enough for comfort here.

—Our new dentist, Dr. Loomis, will be absent from his office two weeks after this week, to complete work engaged before coming here.

—Ralph Purdy lost a good horse Wednesday by breaking his leg in the pasture.

—Considerable improvement has recently been made in the Seminary grounds by making a new carriage road, fence, walks and setting out shade trees. More improvements will be made about the buildings the present vacation provided the funds are forthcoming.

—The comet now on exhibition near the "big dipper" and which will be visible a week longer is attracting considerable attention from the scientific men, and it is expected that in these few days more will be learned about comets than in the 4000 years preceding. It will pass comparatively near the earth and some authorities think we shall run into its tail before it gets beyond the Earth's orbit. No serious results are apprehended as it is evidently too thin.

—A boy, on one of our recent warm days, expressed his sorrow that he had not been made of slats like a hen coop so the breeze could blow right through him. His mother explained to him a new use for bed slats and sent him to hoe in the garden.

—Rev. Dr. Coleman, of Pennsylvania, late principal of Burr Seminary, preached a very interesting sermon in the Congregational church, Sunday morning.

—About 500 tons of new rails have been laid on the Harlem Extension railroad during the present season, and about the same number of tons yet remain to be laid.

—Six hours and a half from New York to Manchester in a drawing room car! The facilities for getting to this place are never so good as now. Only let the present arrangement continue two or three years until people in the cities find out and know what to depend upon, and not only Manchester, but every available place among the Green Mountains of Vermont will be filled to overflowing with summer visitors.

—Fourth of July passed off very quietly this year, even the Court House bell was allowed to rest in peace, something unusual, but perhaps one reason was because the bell tongue had mysteriously disappeared. The rain in the evening put a damper on all attempts at fire works.

—At the annual meeting of Adoniram Lodge, No. 42, F. & A. M., the following officers were elected: J. H. Wildpple, W. M.; C. J. Wait, S. W.; J. T. Beach, J. W.; S. Deming, Secretary; A. J. Gray, Treasurer; H. Eggleston, S. D.; J. Barry, J. D.; H. W. Matterson, O. G.; [illegible], Stewards; W. S. Blaisdell, Chaplain; D. H. Dyer, Marshal; S. Deming, Organist; R. C. Gray, Tyler. The lodge has suspended regular meetings until September.

—Everything usually kept in a country drug store, and many things which are not, can be found at Wait and Hard's. These hot days a gentle quaff of their iced soda and a quiet whiff of their choice Havanas is about all that makes life endurable. It brings the thermometer down several degrees. Try it.

—Johnson, who stole F. H. Orvis' horse and Frank Veitf's wagon last week was tracked to Jamaica where he was arrested the next day and bound up in the sum of five hundred dollars for his appearance at the next term of Windham County court. For want of the requisite surety he is now meditating in Newgate. All the property was recovered and a few small articles which the thief had picked up on the way.

—C. F. Smett recently lost a good horse driven by one of his peddlers, in a singular manner. The cart was driven under the shed at Shaftsbury depot to avoid a shower, and while the driver stood talking with another man he noticed the horse began to appear uneasy and on looking for the cause found its shoulder broken. How it could have been done, under the circumstances, is a mystery.

—Comet puzzling has become a very fashionable amusement among our young lovers, and it is really astonishing how long it takes to find the heavenly visitor, and how easily lost when found, rendering a rediscovery necessary, and, in the meantime several little explosions may be heard by the listening ear as though the comet had turned into a constellation of small meteors which exploded in rapid succession, and then the gaze is turned heavenward for more comets, and then more meteors, this popular and highly interesting amusement is indulged in until a deep voice sounds like a rising knell, "J-a-n-e it is after ten o'clock," and the scene closes with an after piece to which we will not undertake to introduce our readers, some of them may have been there.

FACTORY POINT.

—The following is a record of the best scholars in our schools the past term.—Higher Department, Miss Julia Richardson, teacher: Not absent during the term, Emma Frezon, Emily Bonesteel, Helen Bonesteel, Julia Lapway, Charles Ames, George Batchelder. Absent but one day, Charles Smith. Not tardy, Emma Frezon, Emily Bonesteel, Helen Bonesteel, Julia Lapway, Nannie Waterhouse, Mary Wilson, Celia Lugene, Delia Smith, Mary Bently, Willie Wilson, Chas. Ames, Charles Smith, Robert Smith, Matthew Brady, George Bently. Emma Frezon, Emily Bonesteel and Helen Bonesteel have not missed one word in spelling during the term. Primary Department, Miss Cornelia A. Derby, teacher. Not absent during the term, Ettie Davis, Mary Adams, Sarah Green, Libbie Gilbert, Charles Bonesteel, Kirk Howard, Charles Urquhart, William Green. Absent but one half day or a day, Hattie Vaughn, Mary Green, Alfred Briggs, Reuel Roe, James Urquhart.—Not tardy, Ettie Davis, Hattie Vaughn, Sarah Green, Mary Green, Lizzie Meacham, Maggie Mann, Mary Smith, Mary Wilson, Lorana Comstock, Mary Roe, Emma Bentley, Frank Estabrook, Chas. Dench, Reuel Roe, James Urquhart, Charles Urquhart, William Green, Luke Mann.

—Mr. and Mrs. E. B. Smith desire to express, through the columns of the JOURNAL, their heartfelt thanks to their neighbors and friends, for the many acts of kindness shown during the sickness and death of their children. While they realize that words fail to express their feelings their desire is, that should occasion offer, a like return of favors shall be made.

—Charles Buckley is building a two story tenement house, which are in good demand in our village. This is the best point for business in this part of the country and we expect to see considerable building going on when the general business of the country revives.

—People from out of town, and in town too for that matter, can find ice cream and other eatables at Estabrook's, and a glass of sparkling soda (nothing stronger) at Grover's.

—On invitation of their President, Col. Colburn, the Fish and Game Club had a trout supper at his house on Thursday evening of last week. More than a bushel of trout were brought in by members of the club, the largest one, caught in the Battenkill, weighing 2 1-2 pounds and measuring 16 inches in length. The trout were finely cooked and the tables well served by Mrs. Colburn, Mrs. Whipple and the Misses Clark. The feast was hugely enjoyed and there were taken up of the fragments that remained more than twelve baskets. It is but once in a life time that a person sits down to such an entertainment and even "Bill" was forced to cry out, 'Old on, boys, I've had enough.

DORSET.

—Among the recent arrivals in town we notice Dr. S. C. Jackson and daughter of Boston, and Mrs. Meader of the same place daughter of Rev. Mr. Hudson our former pastor. Dr. Jackson is a son of Rev. Dr. Jackson who preached so long in this place.

—Dr. Prentiss and family have again taken up their residence here for the summer. His health is much improved.

RUTLAND.

—An immense crowd of people were convened at Rutland on the Fourth for the purpose of imbibing the Spirit of 76, G. Washington distiller and rectifier. A mixed and well carried out programme was presented for the delection of the thousands who thronged our streets. The day was bright and comfortable for the most part and everybody was happy. The celebration was commenced before 1 o'clock, a. m. by hideous horn blowing, musketry and curves unconditional, and while we commend the spirit that prompted such demonstrations, we inwardly desired that each participant would stumble on a quantity of nitroglycerine, sufficient to blow him beyond the range of astronomical calculation, so that "what's his name's" new comet would be a sort of half way house on the journey. The plans of the committees were admirably carried out. The marshals of the day did their full duty and order reigned until towards evening when the rampant whiskey got both under holds on one or two fellows and they were fired off to the stone cottage on the hill. The grand feature of the day was undoubtedly, the parade of the "Disinterested Starvings," numbering over one hundred and mostly mounted. There never before appeared in Vermont such a frightful, everlastingly made up organization. Messrs Redington, Baxter and Cane had this thing in charge and they have a reputation which will stand by them for the pains they took to delight the multitude. The old "Barn Major" is still under the pressure of that march, hence this mere outline of the doings of the day, has some apology for its general feebleness. Perhaps the bulk of the crowd were attracted by Harry Leslie's ropewalking. A very desirable point for stretching the rope was found to be from the Berwick House to Verder's bakery. Leslie disappointed a great number by not falling off the rope, and no one seemed sufficiently well acquainted with him to mount his back for a ride. The performance was, however, completely satisfactory. The appearance of Capt. Kelly's cadets in the procession was another grand attraction. Their splendid bearing on the march or at rest was complimented by all who saw them. There was no regular oration. Henry Clark, Esq., occupied the stand a few minutes and made a graceful little speech, eloquently delivered and generously applauded. The portly President of the day, Major J. A. Salisbury, also made a few fitting remarks which were very well received. Sherman's Woonsoki band furnished the finest kind of music. The Ludlow fire company, the "Alerts" made a very fine appearance and received liberal praise from our citizens generally, but I am late for mail so must refer your readers to the dailies for fuller details of the way we got through the glorious Fourth.

BONDVILLE.

—Fourth of July passed off very quietly. The only attempt at a celebration was a picnic in Mr. Benson's grove near the village.

—E. L. Bolster is brushing up his premises, building a barn and other outbuildings, and is about the only man who is doing much in this line the present season.

—An infant son of Wm. Hubbard of Manchester was taken suddenly ill while the family were here on a visit and lived but a short time.

—John and George Barnard lost three young cattle by lightning, Thursday of last week. They were standing under a hemlock tree which was struck by the fluid.

—There are several cases of serious illness in town, two or three cases of pneumonia. They are all likely to recover.

PERU.

—We are pleased to give place to the following communication:

Mr. Editor:

The recent meeting at Peru of the County S. S. Union deserves a more extended notice than it has received in your paper. It was held on the 24th of June, and this favorite month furnished one of her rare and perfect days for the occasion. Our little party after a leisurely drive of fifteen miles, pulling slowly up the long hill, reached the door of the church a little before noon. We had wondered some at seeing so few people on the way, but on entering the house our wonder ceased, they were all there in advance of our arrival. Our esteemed President, Rev. C. H. Weston, sat on the platform in the midst of the assembly and F. B. Davis, Esq., Recording Secretary sat on one side, while the Chorister, Organist and instrument were near at hand on the other, ready at any moment for their cheerful service. All around, behind and before, in pews and aisles, on the platform and in the orchestra, the space was filled with intelligent and interested hearers. Withal there were present in the assembly so many earnest and successful Sunday School workers, lay and clerical, that there was no lack of good speaking to fill up the appointed hours and programme. The following were the principal subjects discussed: The one sermon plan, by Messrs. Henry, Gilbert and others; The work of the S. S. Teacher, by Rev. Mr. Jennings in a very instructive and interesting essay; Popular objections to the Bible, by Rev. Dr. Cushman in a very able and convincing address. The children were addressed very much to their apparent satisfaction by Prof. Shaw and Judge Batchelder of Townshend; Messrs. Taft, Hawks and Rev. Mr. Pratt also participated in the discussions. The Peruvians fell not a whit behind the hospitalities for which they are famous. It is the general impression in this region that Peru is a good place to go to as well as to come from, and we respectfully suggest to all concerned that if you would get up a good convention for a worthy object in the summer season let it be held at Peru. This was certainly one of our most interesting and successful meetings.

LONDONDERRY.

—A. M. Albee, of this place is in the enjoyment of better health than he has experienced for many years, and is intending hereafter to devote his whole attention to the practice of law. He will open an office immediately at Springfield, Vt., to which place his family will remove with the intention of making it their permanent residence.

—The dramatic club gave a very pleasing presentation of 'Neighbor Jackwood' on the evening of the 3rd and 4th insts. The leading parts were well taken and on the whole, we considered it the best thing of the kind ever given here. The after piece, "Lover in a fix," brought down the house. Some of our best citizens belong to the club and of course it cannot but succeed.

ARLINGTON.

—The funeral of Mrs. Canfield was largely attended last week, the services being conducted by her former pastor, Rev. Wm. S. Perkins of Bristol, Pa., assisted by Rev. Dr. Dyer of New York, a friend of the family and a former resident of this place, and by the rector of the parish. She was buried in the church yard of St. James' Parish, of which she was a communicant and the oldest member.

—Mr. George Glidden, brother-in-law of Dr. Mosely, fell dead from sun stroke, while at work in the hay field, on Tuesday.

POWNAL.

—A horse belonging to Mr. Alonzo Whipple of North Pownal was shot by some boys while in his grove at a Fourth of July picnic. It seems that the boys had arrived at the grove before the others of the party and were going to give the party "a serenading" as they termed it, so loading their guns in great haste, each striving to excel the others, they pointed them at the party which was just in sight, but changing their minds they aimed at a horse that was standing near and fired, the horse fell dead, pierced to the heart by a ramrod that one of the boys in their haste had forgotten to remove. It seems a very happy occurrence that it was only a horse and not one of the party that was killed. Parents should be more careful about letting their children have guns to play with, especially in the excitement of a Fourth of July celebration.

NORTH BENNINGTON.

—A council of Congregational ministers and churches was held on Monday the 6th Inst. The churches of Arlington, Bennington, Bennington Center, Dorset and Manchester were duly represented. Dr. Cushman was chosen Moderator and Rev. P. S. Pratt Scribe. Rev. H. C. Weston presented his resignation of the pastorate, the concurrence of the church and society was also presented and approved. The council unanimously accepted the proceedings as regular and advisable and confirmed the dissolution of the pastoral relation. We deeply regret the removal of Mr. Weston from this county, for he is highly esteemed in this region both for his rare personal worth and also for his faithful and successful five years' work in this place.—During the last year of his pastorate sixteen persons have been added to the church and a new and beautiful house of worship has been dedicated. Mr. Weston accepts a call to Sharon, Mass.

LEBANON SPRINGS.

—The number of arrivals at Columbia Hall is rapidly increasing and the prospects are fair for an excellent season, but such groaning and bewailing at the last change in the Harlem Extension R. R., and well they may, for it is a source of grievance to all Lebanonites to feel that we must go back to the old-fashioned way of traveling in stage coaches, with a railroad running the entire length of the valley. Among the numerous complaints made in our weekly papers, we noted the following from a yearly visitor at Lebanon Springs. "The Harlem Extension Railroad has issued a new time-table, taking effect June 29th, which, no doubt, will get a ready place for advertisement in the guides as the number of its trains will not confuse any tourist. Running through the Empire State on the borders of the old Bay state, it shows a slim time-table, compared with many of our small railroads in this country. Last year the Harlem Extension, run its trains in connection with other roads; this year it seems to have changed that feature, to run independent, and presents little accommodation to visitors to Lebanon Springs. Although Canaan and Pittsfield being only seven miles it at present requires stage chaches which again must be resorted to as people will come and go to Lebanon Springs." Still another says: "It is now rumored that the parties who now control the railroad through this place, have agreed to paint the whole concern a new color after the 1st of July. It has been *white* long enough, and inasmuch as the road is no longer to be used after dark, it is thought best that the whole be made black to correspond with the time-table. We would suggest that our Vermont friends use home-manufactured colors when they bedaub the New York end of their corkscrews. Could not pitch and charcoal be procured on the Glastenbury route.

We will take back some of the above as we have just heard that a morning train is to be run from Bennington to Chatham.

CHATHAM VILLAGE, N. Y.

—The dedication of the new Masonic Hall of this village occurred on Wednesday evening, July 1st. A very large number of members of the craft, resident and visiting brethren were present. The exercises were conducted by Jesse B. Anthony, Esq., of Troy, Senior Grand Warden of the Grand Lodge of New York State, assisted by officers of Columbia Lodge, No. 28 of this village, under whose supervision the dedication took place. They succeeded admirably in their exertions to make the occasion interesting and successful. After the exercises refreshments were prepared for the brethren from abroad.

—During the severe thunder storm on Monday, June 26th, lightning struck a barn on Spring Street, belonging to Mrs. Bell. The lightning ran down from the ridge on four rafters, tearing up the shingles and splintering the timbers, and then passed to the ground on the posts, which were badly shattered. The barn was set on fire but was extinguished before serious damage was done. During the same storm Samuel McClellan, while walking on the R. & A. R. R. track, received a severe shock, rendering him quite lame, and Mr. Jerkowski also felt the effects of the same electric discharge, but fortunately neither gentleman sustained serious injuries.

—Michael Riley, a brakeman on the R. & A. R. R. fell from a freight train in this village, breaking his collar bone and injuring him severely otherwise. He was conveyed to his home in East Albany.

SPECIAL NOTICES.

A common form of Indigestion.

is oppression after eating, or a depressing fullness of the epigastric with flatulence, or a belching up of wind, and almost always follows Costiveness. Dr. Harrison's Peristaltic Lozenges give quick and permanent relief. They are pleasant, portable, do not require increase of dose, never gripe, and for Constipation of the Bowels, Piles, Headache, Dizziness, Irregularities, and other Female Weaknesses, they are incomparable. Trial box, 25c. Large box, 60c., mailed free for the last price.

DR. HARRISON'S ICELAND BALSAM,

a splendid cure for Coughs, Hoarseness, and all Throat and Lung complaints. For sale by E. S. HARRISON & CO., Proprietors, No. 1 Tremont Temple, Boston, and by all Druggists. 46 4w

F. S. LOOMIS,

DENTIST,

Office opposite the Music Hall, Manchester Vt.

Teeth extracted without pain by the use of Anæsthetic Agents if desired.

M. H. SHAFFER, M. D. F. S. LOOMIS, S. D.

ESTABROOK'S BAKERY AND RESTAURANT

Is now open in Rowe's Block, where a general assortment of Baker's Goods are to be found at all times. As our goods are baked fresh every day by a first-class baker we can safely guarantee a superior article every time. A good cook in attendance in the restaurant where I shall be pleased to furnish all who may wish with table board by the day or week. Warm meals with tea or coffee furnished to order on reasonable terms. Butter, Eggs, &c., taken in exchange for goods.

Ice Cream Through the Summer.

I shall keep ice cream for sale by the single plate, and will also Furnish by the pint, quart or Gallon when wanted, at prices to suit these hard times.

Thankful for your patronage in the past, I ask for a continuance of the same. Call and see me early and often and I will try and treat you well.

EMERSON ESTABROOK.

Centaur Liniment.

There is no pain which the Centaur Liniment will not relieve, no swelling it will not subdue, and no lameness which it will not cure. This is strong language, but it is true. It has produced more cures of rheumatism, neuralgia, lock jaw, palsy, sprains, swellings, caked breasts, scalds, burns salt-rheum, ear-ache, &c., upon the human frame and of strains, spavin, galls, &c., upon animals in one year than have all other pretended remedies since the world began. It is a counterfeit, an all healing pain reliever. Crippler throw away their crutches, the lame walk, poisonous bites are rendered harmless and the wounded are healed without a scar. It is no humbug. The recipe is published around each bottle. It is selling as no article ever before sold, and it sells because it does just what it pretends to do. Those who now suffer from rheumatism, pain or swelling deserve to suffer if they will not use Centaur Liniment. More than 1000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running tumors, &c., have been received. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for sprained or sweenied horses and mules, or for screw-worm in sheep. Stock-owners—this liniment is worth your attention. No family should be without Centaur Liniment. Sold by all Druggists. 50 cents per bottle large bottles, $1 00. J. B. ROSE & Co., 54 Broadway, New York.

CASTORIA is more than a substitute for Castor Oil. It is the only *safe* article in existence which is certain to assimilate the food, regulate the bowels, cure wind-colic and produce natural sleep. It contains neither minerals, morphine or alcohol, and is pleasant to take. Children need not cry and mothers may rest. 215ly

SOMETHING NEW.—Old patrons of S. M. BOWLES, Bennington, Vt., will have no hesitency in sending to him for one of the

Wonderful Perpetual Almanacs,

good for any date in this century, namely, from A. D. 1800 to 1909. Can be worked by a child, and never gets out of repair. Vastly useful in business or for anybody. Sent to any address for 50 cents. Two for 50c. Size of a silver dollar.

CHANGE OF BASE.—The subscriber has rented the shop near B. T. Hurd's store where he is prepared to do

ALL KINDS OF BLACKSMITHING

or heavy forging, horse and ox shoeing, ironing wagons, sleighs &c., and everything in his line, cheap for cash.

EXCITEMENT AT DRUG STORE.

There is no case of Dyspepsia that Green's August Flower will not cure. Come to the drug store and inquire about it. If you suffer from Costiveness, sick Headache, sour stomach, Indigestion, Liver Complaint, or derangement of the system, try it. Two or three doses will relieve you.

Boerhee's German Syrup is now sold in every town and city in the United States. We have not less than five hundred letters from druggists, saying it is the best medicine they ever sold for Consumption, Throat or Lung disease. Sample bottles of both free of charge. Regular size 75 cents. 23m

THE MEADOW KING,

The Best Mower Made, and

GRANITE STATE WHEEL RAKE,

which cannot be beaten, are for sale by

J. L. McCALL, - Rupert, Vermont.

The Meadow King has been put in competition with mowers and found to be the lightest draft machine in the market. J. J. Jenkins, Leonard U. Vial, Emmons Sheldon, Wm. Sheldon, Samuel Farrar, Hiram Eastman, G. C. Leach of Rupert and Austin Whitcomb, Quincy Pratt, Jerome Gault of Pawlet; Washington Farwell, Simeon Pepper of Dorset have used this machine and speak in the highest terms of it. Albert Hopkins, S. H. Rising, Elihu Flower, Silas Youlen, T. J. Prescott of Rupert; George and James Hopkins, S. K. Sherman, Rufus Knox of Salem; James Pratt, James Cruikshanks of Hebron, have used the Granite State Rake and we beg leave to refer to any of the above named gentlemen in regard to either of these machines. All kinds of fixtures for the mower kept on hand at all times. 36w

THE WEED SEWING MACHINES

are all made by MACHINERY, upon the same principle as the American Watch, each part being an exact duplicate of a corresponding part in every other Machine, thereby insuring

ACCURACY AND PERFECTION

IN MOVEMENT

AND

CONVENIENCE OF REPLACING

IN CASE OF ACCIDENT.

A PECULIAR AND IMPORTANT FEATURE IN THE FAMILY STYLE IS ITS CONSTRUCTION WITH SUCH AN ADJUSTMENT OF BALANCES THAT SCARCELY ANY EFFORT IS REQUIRED TO KEEP IT CONSTANTLY MOVING AND WITH THE EXCEPTION OF THE ANKLE JOINT, NO OTHER MOTION OF THE LIMBS OR MUSCLES

IS REQUIRED TO OPERATE IT.

GENERAL FEATURES:

makes the LOCK-STITCH alike on both sides of the fabric; uses a

STRAIGHT NEEDLE AND THE SHUTTLE,

consequently, requiring no change of tension in sewing from thin to thick substances, and vice versa; also executing

EVERY POSSIBLE VARETY OF WORK, such as

HEMMING, TUCKING, FELLING, RUFFLING, QUILTING, FUFFING, CORDING, GATHERING HEM-STITCHING, AND SEWING FRILLING, ON AT THE BINDING, SAME TIME.

WITH THE

UTMOST PERCISION AND BEAUTY.

STITCHED EITHER WITH

COTTON, SILK, OR LINEN THREAD

WITH EQUAL FACILITY

MACHINES SOLD ON MONTHLY PAYMENTS.
