THE PALACE BEAUTIFUL,
and other poems—serious and humorous—by the famous military and political satirist. Handsome 12 mo. cloth, gilt top, WITH PORTRAIT. Price $1 50.
ANOTHER EDITION READY.
From The Boston Saturday Evening Gazette.
This is a volume of poems by one who has, by his fertile fancy and abundant humor, made his *nom de plume* a thing of world-wide celebrity. Amid his sarcasm and the abundance of mighty fun there has ever been discerned a serious vein, taking the form of patriotic and tender song that have seemed by the contrast like the notes of a bird in a tempest. These have been gathered and published, led by one of rare melody:
THE PALACE BEAUTIFUL,
which gives the title of the volume.

THE NATIONAL QUARTERLY REVIEW.—The Editor of this journal has once more to thank the intelligent and educated portion of the public for their liberal and increasing support. The Review will have completed its fifth year with the issue of the next (March) number. He has no wish to boast of what his journal has already accomplished. Suffice it to say that he has exerted himself more and more to deserve the enlarged and substantial appreciation with which every succeeding number has been received.
In the future, as in the past, not only will literature, science, art and education, receive careful attention; but all subjects of public interest will be fully and fearlessly discussed in the Review. No party, company, or clique has any control over the work; but in choosing articles from contributors the editor is guided solely by their merits, and their freedom from political and sectarian prejudice. Accordingly, no able, liberal article, let it come whence it may, will ever be rejected by Dr. SEARS.
Wishing that the subscription should be as moderate as possible, he has borne with much pressure, arising from the increased rates of paper, printing, office rent, &c.; but he finds that for the present year, or as long as the present high prices of all printing materials continue, he must charge $5, in advance, instead of $4. But all who subscribe before the issue of the March number will only have to pay $4. To foreign subscribers in the habit of paying in gold or silver, the Review will continue to be furnished at $4 per year. General Agents, AMERICAN NEWS CO., No. 121 Nassau-st. All communications to be addressed to

STEINWAY & SONS' GOLD MEDAL GRAND AND SQUARE PIANOS are now conceded the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others, is that the firm is composed of five practical piano forte makers (father and four sons), who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms Nos. 71 and 73 East Fourteenth-st., between Union Square and Irving Place, New-York.

THE AMERICAN HAY AND COTTON PRESS CO. MANUFACTORY,
Corner of Grove and North Third-sts., Jersey City.
OFFICE,
No. 113 Wall-st., New-York.
GOVE'S PATENT.
The attention of all parties interested in the pressing or compressing of HAY, COTTON, HEMP, WOOL, RAGS, HOPS, or any other article required to be baled for Transportation, Storage or Consumption, is respectfully solicited, to the PORTABLE or STATIONARY PRESSES, manufactured by this Company, under the superintendence of the Patentee, Mr. Jesse H. Gove.
The Press is very simple in its construction, requiring but ordinary intelligence to work it, and can be operated by any known power, such as Steam, Water, Horse, or Hand. In using Horse-power, but one Horse is required, the Press being so mechanically constructed on a well-known principle that the ☞ *power increases in a greater ratio than the increasing resistance.* ☜
The advantages of this Press over all others are as follows, viz:
1st. It can press 20 per cent more material in a given space.
2d. It can do the work in 33 per cent less time.
3d. It requires 50 per cent less driving power.
4th. It turns out the best shaped bale for handling or rolling.
5th. The Press will last a life time, the working parts being built of the best of iron, and not liable to get out of order.
The ordinary work of this machine will press in one operation (after once filling the box of the No. 1 Press) a bale of Hay of 450 lbs. weight in ☞ TWO MINUTES. ☜
Four men and one horse can bale 12 tons of Hay a day.
Four men without the aid of a horse, or any power except that contained in the Press, can turn out a bale of Hay 27 inches square by 46 inches long, weighing 460 lbs., or 23½ lbs. to the cubic foot.
No toggle joints, screws, cog-wheels, beaters or rollers used in this Press.
The attention of Cotton factors and planters, Wool and Hemp raisers, is especially called to this Press, destined as it is to work a complete revolution in the now slow, clumsy and expensive method of baling.
The Company will dispose of Town, County or State rights (reserving to themselves only the right to manufacture) on reasonable terms.
Mr. N. D. FISHER is the authorized Traveling Agent for the Company in the Eastern and Middle States.

NEW SKIRT FOR 1865.
A NEW AND GREAT INVENTION IN
HOOP SKIRTS.
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL SPRING.
WESTS, BRADLEY & CAREY,
Successors to J. I. & J. O. WEST,
NO. 97 CHAMBERS-ST., NEW-YORK,
are the owners of the Patent and Exclusive Manufacturers of this
J. W. BRADLEY'S
PATENTED "DUPLEX ELLIPTIC" STEEL SPRING SKIRT.
This invention consists of Duplex (or two) Elliptic Steel Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, by far the lightest, most durable, comfortable and economical Skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in the city and throughout the different States.
