FINANCIAL INTELLIGENCE.

DAILY UNION OFFICE,
Nashville, May 26, 1866.

Flour still continues to advance, in keeping with gold. The best grades cannot now be procured for less than $14, with corresponding prices for inferior brands.

Corn is firm at 95c for red, and $1 for white.

Clear sides are firmer at 19½c; shoulders 15c—being a decline—while country hams are worth 20c, and sugar cured are selling at 22@23c.

Coffee is very active at 27@31c, being an advance on last quotations.

Sugars are firm, and have advanced ½c per pound.

The Philadelphia Ledger presents the following views in assigning a cause for the heavy outgo of Gold from the country last week:

"The heavy Gold export last week, and the advance of the rate of Sterling Exchange to 110¾, fully one per cent. above the point at which it is profitable to export Coin, has awakened the liveliest interest as to the cause and the consequence. The cause is, in a great measure, traceable to the high prices of Cotton and to overtrading in Five-twenty United States loans in the foreign market. It is a well-known fact that, for four years past, nearly every German firm at New York, that could sell a foreign bill of exchange in that market, has been buying and shipping Five-twenty bonds to Europe to the extent of their ability to sell exchange. The result has been an accumulation of Five-twenty bonds in the hands of banking firms in Europe, held like Cotton, or any other produce for a market. At the beginning of last December the American overtrading in Five-twenty bonds, and the high price of Cotton, were brought under the screws of the Bank of England. Each month since, Cotton and Five-twenty bonds have become less desirable as collaterals for loans, and more inconvenient to carry. Speculators and weak holders were, therefore, forced to sell and realize. The results, as a matter of course, were a steady decline in the price of both. Middling Cotton has tumbled from 24d to 14d, and Five-twenties from about 70 to about 68. It is estimated that the decline in the prices of the Five-twenties and Cotton held in Europe since December is about $75,000,000 in Gold. The margins of the overtrading firms, who have been shipping Five-twenties and Cotton to Europe for the last year, have, therefore, suffered severely.

"The 'financiering' of the overtrading firms in Europe has been cut off by the action of the Bank of England and the prospect of war on the continent. The condition of the London Money market has compelled those who are carrying Five-twenties in Europe to send them back here for the purpose of obtaining Money for them. The return, therefore, is not in any way connected with our bona fide holders, but sales forced by the necessities of speculators who went out of their depths by overtrading in them, so flooding the market with Foreign Exchange that bankers' Sterling Sixty-day Bills were forced down to 109½@109¾. The shipment of $10,000,000 in Specie within the last fortnight is the first public official evidence of this overtrading. On April 21, prime bankers' Sterling Bills sold at 107¼, and Gold at 126½@126. The Specie shipments last week were in response to these figures. Should the European news fail to exert a favorable influence upon our Exchanges within the next few weeks there probably will be a large and steady drain of Gold, and the export demand will be stimulated by the low price at which the Treasury is willing to sell it. The Government can, under present circumstances, hold the premium in check, because it has still forty millions of Coin left, after providing for the whole of the May Coupons; but with exports of Specie at the rate of nearly nine millions a week, how long could the Treasury retrain control of the market?"

The amount of funds in the Treasury of the United States on the 20th instant, is stated to have been $101,378,457, divided up as follows:

U. S. Legal Tender Notes	$ 26 000 00
National Bank Notes	5,125,142 00
Fractional Currency of all denominations	1 185,297 80
Gold, Silver and Copper	501,282 14
Reserve Fund, Temporary Loan	50 000 00
Reserve Fund, Surplus in U. S. Notes	27,942,625 00
Reserve Fund, Surplus Loan Certificates of Indebtedness	22,211,300 00
Funds in Redemption Division	7,130 000 00

The total amount of Notes issued to National Banks up to the 19th, was $274,653,195.

The Cincinnati Gazette says:

There was a firmer feeling in the general markets to-day, caused principally by the advance in gold, holders generally asking higher prices for their merchandise, while buyers having no great faith in the permanency of the high price for gold are holding off. An advance of 25c per bbl was established on flour, but there was not much demand at the advance price. Wheat was held at 5@10c higher, and the advance was obtained on some grades; choice spring and No. 2 winter being in most request. Corn is quiet, with light offerings and little demand. Oats advanced 1@2c, with a good demand for prime qualities. Rye advanced 5c. Barley continues scarce, and choice lots would find a ready market at an advance of 5c per bushel. Cotton is in good demand, but the offerings were light. Middling sells at 35c, but is generally held 1c higher. Groceries are very firm, without change in prices. Provisions were rather more active. About 1,000 barrels mess pork sold at $30 50@30 75 for city, and $30 00 for country. About 600,000 lbs of bulk meats, principally rib and clear sides, have been sold for the St. Louis market, which has caused holders to ask an advance of ¼c, but we hear of no sales at the advanced prices. Bacon is quiet but steady, with a fair consumptive demand. Lard is selling at 21½c, but the advance in gold is making the market firmer.

NATURE'S
OWN REMEDIES
Empire Spring Water,
Congress Spring Water,
Columbian Spring Water.
NO natural or artificial compound has yet been discovered or manufactured that equals these waters as a preventative, relief and permanent cure, for many temporary and chronic diseases, as proved by the experience of many thousands who have drank them for years, with the most beneficial effects.
CONGRESS WATER
Is a cathartic, alterative and tonic, and is a valuable remedy for affections of the Liver and Kidneys, Dyspepsia, Gout, Chronic Constipation and Cutaneous diseases. It is most powerful preventive of the Fevers and Bilious Complaints, so prevalent in warm climates.
EMPIRE WATER
Is a cathartic, and a valuable remedy for Rheumatism, Derangement of the Liver, Diseases of the Skin, and General Debility. Its effects are most salutary in Long Diseases. It is an almost sure cure for Scrofula, and the most aggravated forms of Dyspepsia. As a preventive and cure for all Bilious Derangements it stands unrivalled.
COLUMBIAN WATER
Is a tonic and diuretic of a highly beneficial character, and is a positive remedy for Diabetes, Gravel, Calculus, Irritation and Inflammation of the Kidneys, and Bladder, and has most singularly active effects in restoring these organs when debilitated by long disease. Females who have suffered for years from irregularity, and the distressing diseases known only to their sex, have been entirely cured by the faithful and judicious use of Columbian Water.
These waters are bottled fresh and pure, from each of the above named springs, in so careful and secure a manner that they preserve all their medicinal value for years, and will be found equally efficacious when drank thousands of miles distant, as when taken directly from the spring.
Beware of Imitations and Inferior Waters.
The corks of all genuine Congress, Empire and Columbian Waters are branded on the side of the cork, thus:

Mining Superintendent.—C. L. HEQUEMBOURG
The property of the Company consists of leasehold interests in the counties of Overton, Fentress, White, Jackson, and Warren, in the State of Tennessee, amounting in the aggregate to over eight thousand acres.
The membership of the Company and the Board of Directors comprise men of business experience and reputation, and of a thorough and practical acquaintance with the oil mines of Pennsylvania. The Mining Superintendent was one of the first explorers of the oil field of that State, and struck the first flowing oil well in the country, well known as the Hequembourg well, and to which the oil interests of Pennsylvania, then in their nascent state, were very largely indebted.
This Company will lease portions of their valuable lands, in small tracts, to private parties or companies, for immediate development. This is a rare chance for bona fide operators to obtain leases on terms that will be simply remunerative.
Terms made known on application.
NO MERE SPECULATORS WILL BE TREATED WITH.
Description of lands and samples of Oil obtained from the property may be seen by calling at the office of the Company, No. 66½ North Cherry street, Nashville, Tenn.
The Secretary, F. H. Colton, Nashville, will receive orders for stock, and will forward certificates by return mail when the money accompanies the order.
