COAL AT COST.

CONSUMERS' BENEFIT COAL CO.
SHARES $10.

Each share entitles the holder to one ton of coal per year, at the cost of mining, transportation and delivery (which is now about $8 per ton), also to a share of the profits on the sale of coal produced beyond the quantity supplied to shareholders.

Those who buy for investment can have the coal they will be entitled to sold for their benefit, and receive the proceeds over the cost in cash.

Investment in this stock is not a risk, for Anthracite Coal lands are rapidly rising in value.

The shares to be sold are limited, and are nearly all subscribed for. Immediate application is necessary to secure any. Office, No. 71 Broadway, Room No. 50.

THE UNITED REPUBLIC PETROLEUM COMPANY,

is intended to combine on a large scale, all the results of the best experience in oil production. In the belief of their success in this attempt its projectors invite to its Prospectus the closest attention and scrutiny.

In the first place, it meets the demand for immediate returns on the capital invested, by large interests in producing wells of the very best character. The Coquette well, of which the Company owns one-fourth of the working interest, is at the head of all the wells of the oil region, and this well is but one of the sources of the Company's present income. The Company has likewise seven-eighths of the working interest in the Grocery well and lease, and one-eighth free interest in the Lady Washington well. From these sources together the Company anticipate the ability to pay nearly three per cent per month on the entire capital from the start.

In the next place, the territory for development is unusually ample and well chosen. Its fee simple property is in large lots, in most every approved part of the oil region. Of such property it has enough for the employment of far more than even its large capital, and the locations cannot be excelled. But its fee simple property, large and well chosen as it is, is but a part of the property which is holds for development. Its leasehold interests, which, in almost every instance, are either exclusive or in controlling amounts, are selected with equal care, and are of equal promise. The Company thus possesses territory enough for diligent operations through many years.

But territory is of no avail without proportionate means for developing it. This Company reserves, therefore, one-fifth of the entire amount of its capital—that is to say, it reserves FIVE HUNDRED THOUSAND DOLLARS, to carry forward the development of the property—a sum large enough to procure, according to all the results of experience, an amount of oil sufficient for a very large increase of the dividends of the Company. This feature in the Company's organization is specially commended to the consideration of the public. Actual boring for oil, with good territory and ample means, lifts an enterprise of this character above the sphere of temporary speculation, and constitutes it a legitimate permanent business.

These are the leading features of the Company's character and purposes. The projectors of the Company bring to it not only their experience, but their determination to make it all that the Prospectus proposes. They are perfectly aware of the magnitude of the undertaking which they lay before the public, and with a special Act recently passed by the Legislature of Pennsylvania authorizing them to hold One Thousand acres of land in fee simple, they believe they have calculated and brought into it all the elements of success.

The books are now opened for a limited number to subscriptions at the following offices:

The Property of this Company consists of the Fee Simple of the valuable "Steadwell" or FULLER FARM, near the junction of Wolf Run and Sugar Creek, Jackson Township, Venango County, Pa. It embraces 122 Acres of heavy Oil boring territory, in the richest portion of the now famous Sugar Creek Valley. Ten Wells are going down. There is room for 500 more. The Superintendent is constantly applied to for leases, but will sink other wells solely for the Company's account, and retain the entire Oil product. With this intent the shares constituting the WORKING CAPITAL are now open to subscription, for a short time only. The Trustees will refrain from lengthy advertisement of the prospects of the SUGAR CREEK PETROLEUM COMPANY, and content themselves with pointing to the features which distinguish it from many enterprises of the day. THE STOCK IS NOT WATERED, the projectors depend for their profits solely on A RISE IN ITS MARKET PRICE.

But a few thousand shares will be sold, and these on the only honest basis, viz: AT THEIR PAR VALUE.

The Company's property is worth more than the entire Capital Stock. The latter is so small, indeed, that even a two barrel well will pay regular monthly dividends. The Sugar Creek Wells are but half as expensive, and the oil is twice as valuable, as the Wells and Oil of either Oil Creek or Cherry Run. Prospectuses and Maps can be obtained, and subscriptions effected by application to SAWYER & JUDSON, No. 84 Chambers-st.; CHARLES GOULD, No. 58 Wall-st.; J. L. EVERITT, Broadway Bank, or to either of the Trustees.
