THE bills for keeping and shoeing the horses belonging to Kellogg's Metropolitan Police in New Orleans, although not quite so extravagant as those of the Treasury Department in Washington, are still worth notice as an illustration of carpetbag plundering. The Police Commissioners have appropriated $15,300 for shoeing twenty-four horses and supplying them with forage for one year. Allowing one dollar per day for forage for each horse, a very liberal estimate, the forage for the twenty-four horses would come to $8,736, leaving $6,564 to pay for their shoeing! The total appropriations for this police force, which may be sent to all parts of the State at Kellogg's discretion, amount to $758,597, equal to nearly one-half the total cost of the State Government, and twice the amount paid for the support of common schools.

ABOUT thirty miles southeast of Dayton, Lyon county, Nevada, has been discovered a mountain which appears to be one mass of copper ore. The sides of the hill are covered with blocks of the ore, and veins seam it in all directions. Some of these veins are from three to five feet in width, and are a solid mass of ore, without any admixture of quartz or other rock. Assays of the ore, made in this city a day or two since, show that it is forty-five per cent copper—and this upon the surface of the hill. As works for the manufacture of bluestone on a large scale are about to be erected at Carson, this vast deposit of copper can doubtless be utilized here in our own State.

THE authorities of Jeszbereny, a Hungarian town, have just had the following notice published to the sound of the drum: "Seeing that oaths and blasphemies are the real causes of earthquakes, every one, no matter who, is forbidden to swear or to use any bad language, under penalty of receiving twenty-five lashes with a rod, and paying a fine of 25 florins."

A VAN WERT (Ohio) couple, recently divorced, were walking out of the courtroom together, chatting about their separation, when the old lady suddenly, as if having forgotten something, said, "I say, old man, can't you treat to the beer?" "Of course," answered the liberated lord of creation, and off they jogged together, to wash away the memory of the past in a glass of lager beer.

ROBINSON'S show got into a row with the citizens of Jacksonville on the 24th ult., which resulted in serious wounds and bruises to both parties.

Commission Merchants,
DALLAS, TEXAS.
We take this occasion to thank our friends for past favors, and respectfully call their attention to our immense stock, which we are just receiving direct from the principal manufacturers of the North and West, purchasing direct from first hands for cash on the spot, and availing ourselves of every advantage by shipping in car loads under special contract, and by our own labor almost freeing ourselves from store expenses. We confident in our ability to offer to our friends and to the public generally our immense stock at better rates and more uniformly low figures than ha ever before been offered in the interior of Texas.
As a basis and foundation of our business, we guarantee every article to be as represented, or money refunded at our expense of transportation.
Our success in business depends entirely upon establishing a wholesale trade in Northern Texas, and we only ask a fair and impartial trial, and a close comparison of uniform prices with those of Shreveport, Galveston, and New Orleans with freights added, and we cheerfully abide by the decision of the same.
