EDDY'S PETROLEUM
COOKING STOVES AND RANGES,

NEW-YORK WATER-BURNING STOVE COMPANY, No. 249 Canal-st., near Broadway
(Established under HAGANS'S PATENT.)
This Company has been formed for the purpose of manufacturing and applying the invention of Dr. W. E. HAGANS, by which WATER is converted into SUPER-HEATED STEAM and employed as an element of combustion in fires for all purposes, and especially in its application to
COOKING AND HEATING STOVES, RANGES, FURNACES, &c.
This invention secures at once
HEALTH, COMFORT AND ECONOMY!
It effects not only an immense saving of fuel, but it introduces an invaluable SANITARY IMPROVEMENT in the warming of private houses and public buildings. The atmosphere of houses warmed with
WATER-BURNING STOVES AND FURNACES
is not robbed of its natural moisture, and vitiated by deleterious gases, as it is by ordinary Heating Stoves and Hot-Air Furnaces, rendering the most oppressive and unwholesome. It remains pure and fresh as Summer air, so that the most delicate system is not unpleasantly affected.
The Water-Burning Stove Company is prepared to put up New Furnaces, Heaters and Ranges, of any approved pattern, in
CHURCHES, SCHOOL-HOUSES, LECTURE HALLS, BANKS, HOTELS and PRIVATE HOUSES.
The invention is applied also to old furnaces, heaters and ranges, with comparatively trifling expense.
Cooking and Heating Stoves, Ranges, Heaters, and Furnaces of the best construction, by different makers, to which this invention has been fitted, are kept on hand for sale at No. 249 Canal-st., where the public are respectfully invited to call and examine them and see the great improvement in one of the most important branches of domestic economy now in daily practical operation.
A pamphlet, with full explanations, can be had at the office of the Company, or a copy will be sent by mail to any address. Licenses granted to stove makers, and retail dealers supplied with materials for making the application of the invention in their own business.
