**Government Promised a Lively Night Over Irish Bills in Commons.**

[BY ASSOCIATED PRESS.]

LONDON, Feb. 17.—In the House of Commons to-day the bill introduced by Mr. Thomas J. Condon, Member for East Tipperary, extending the municipal franchise in Ireland so that municipal authorities in that country will have powers similar to the same class of officials in England, passed its second reading. The Government did not oppose the measure.

Mr. Thomas Sexton, Member for West Belfast, in expressing regret for the absence of Mr. W. L. Jackson, Chief Secretary for Ireland, during the discussion of the first Irish bill of the session, said that Mr. Balfour's Irish Local Government bill would not be received without contest when it is introduced to-morrow. He promised the Government a lively night.

**The Pope Is Complimentary to the Great Republics.**

The Pope expressed himself as feeling confident that France would regain a glorious place among the nations of the world if she persevered in her pacific sentiments and renounced internal dissensions.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
