NEW PUBLICATIONS.

A SMALLER CLASSICAL DICTIONARY OF BIOGRAPHY, MYTHOLOGY, AND GEOGRAPHY. By WILLIAM SMITH, LL. D. 12mo. pp. 464. D. Appleton & Co.

Lemprière's obsolete work which has initiated so many of the ingenuous youth of this country and of England into the knowledge of classical antiquities will receive an effectual *coup de grace* in the present volume. It is an abridgement of the large standard dictionary of the author, containing all the names which are likely to be met with at the commencement of classical studies, and omitting only those which occur in later writers, or in works not usually read in schools. As a book of reference, it will be found indispensable to the general reader, as well as the classical student.

POETRY OF THE CIVIL WAR. Selected and edited by RICHARD GRANT WHITE. 12mo., pp. 334. The American News Co.

Mr. White has had a more ambitious aim in the compilation of this volume than his been usual in similar works. He has wished to present an exhaustive collection of the poetry of the war, embracing all that appeared worthy of preservation on any account, not merely by reason of poetical merit, but in reference to the illustration of the history of the times. His success has been great in rescuing from oblivion many excellent performances, and in giving a lively picture of the spirit of the people during the recent terrible conflict.

THE TRUE HISTORY
OF
A LITTLE RAGAMUFFIN.
By the Author of
"THE ADVENTURES OF REUBEN DAVIDGER."
8vo., Paper, 50 Cents.

In a story far longer and more elaborate than any of his previous works, Mr. James Greenwood here displays the special facility which years since made him known as a delineator of the lowest classes of the London poor, and little more than a month ago produced the letters of "the amateur casual." Since Defoe told the story of Colonel Jack's early experiences there has appeared no such minutely graphic and terribly truthful picture of a London beggar-boy; and though the work of the older novelist is to be preferred for the realism of its most pathetic touches, we are inclined to think that Mr. Greenwood's tale is no less essentially truthful and no less calculated to maintain a place among the literary illustrations of London poverty.—[Athenæum.

Insurance Companies.

PERPETUAL POLICIES.
METROPOLITAN INSURANCE COMPANY,
Nos. 108 and 110 BROADWAY, NEW-YORK.

CASH CAPITAL	$1,000,000 00
ASSETS JANUARY 1, 1866	1,615,984 98

The Metropolitan Insurance Company of New-York, being convinced of the great convenience and safety of the system of *Deposit Insurance*, so long and successfully practiced in Europe, and in some of the other States of the Union, has decided to adopt the same in its own business, whenever it may be desired by the party seeking insurance.

This mode of insuring will be confined to dwelling houses exclusively, and will be conducted on the following plan:

The assured is required, on the issuing of the policy, to deposit with the Company such sum as may be agreed on, not to exceed the aggregate of ten annual premiums, which remains as a permanent deposit so long as the property stands and the party desires to continue the insurance. If the property be sold, it is provided that the insurance shall still be kept good for any days longer, in order to give time to make the necessary change in the policy.

Whenever the assured shall elect to terminate the insurance, or the same shall be terminated by sale as above mentioned, the assured will be entitled to receive back the whole sum deposited, less five per cent, which, with the interest, constitutes the premium received by the Company.

The Company reserves to itself, as heretofore, the right to cancel any risk, on due notice, in which case the whole deposit, without any deduction, will be returned to the assured. This right can be waived by the Company when parties going abroad desire to be secure against change.

An example of the practical working of this system is here presented:

Mr. Smith has a house which he desires to insure for $5,000; the annual premium on that sum is $12 50, ten years' premium is $125, this sum, deposited with the Company, makes the insurance *perpetual*, without further payment of any kind.

When the property is sold, or the assured desires to abandon the insurance, he applies to the Company and receives back $118 75 of the $125. If the Company elects to cancel, he receives his whole $125, and the bargain is at an end.

The advantage of this method of insuring, in the case of dwellings, where permanent security is especially desirable, rendering unnecessary the constant watchfulness now required, in order to prevent a policy from lapsing at an unlucky moment, cannot fail to be perceived and appreciated here, even more than elsewhere. The immense amount of dwelling property in this City, forming, in many cases, the bulk of great estates, must find this system especially valuable for its permanency and safety.

When insurance must be renewed from year to year, the best memories may sometimes lie; some property on which families depend for their sole support, may disappear in an hour—once made, insurance by deposit need never to be renewed again, except where circumstances call for its discontinuance.

It keeps alive without watching. Insurance by this method is obviously cheaper as well as more secure. Thus, $5,000 costs say $12 50 per annum, on a first class dwelling; while on $125 (the amount to be deposited), the interest at seven per cent, is but $8 75. If the risk runs in this way ten years the Company gets $8 75 per annum for insuring $5,000, and at the [illegible] $8 75 more, being five per cent retained when the deposit is reclaimed—making the average annual premium $8 75.

We have no doubt that as fast as this simple and convenient system becomes understood, it will so fully commend itself to all insurers of dwellings that few will think of protecting them on any other plan.

Full explanations of the working of this plan, under every variety of circumstances will be furnished on application to the Company.

Gas Fitting.

FIRMIN'S SCIENTIFIC SYSTEM OF GAS-FITTING SECURES a better light at half the cost, and ever reliable and sufficient. Nos. 64 and 66 Maiden-lane, south east cor. William-st.

CERTIFICATES.

OFFICE OF THE TRIBUNE,
NEW-YORK, April 3, 1866.

We employed Mr. Firmin, four years since, to take charge of our gas-burners, and the result was a deduction of our gas bills of over *a thousand dollars* per year, with better light. The result was so satisfactory that we have employed him regularly ever since.

THE TRIBUNE ASSOCIATION,
SAM'L SINCLAIR, Publisher.

BREVOORT HOUSE, March 31, 1866.

I have known Mr. Firmin since 1850, and have employed him to regulate my gas-burners on several occasions, always to my benefit and satisfaction.

I regard him, by his long experience and constant study, making it a specialty, as having a better knowledge of gas-burners and their operation in practice than any one I ever employed. He *gives a better* light at less cost, by his way of arranging the burners, and I would recommend him to any one that is not satisfied with his gas-bills.

ALBERT CLARK, Proprietor.

By a recent combination of improvements, I guarantee and warrant my gaslight to be reliable, and at one half the cost of the same light burned at the usual rates.

NOTICE TO CONTRACTORS.
SEALED PROPOSALS will be received at the office of the South Side Railroad Company of Long Island, No. 68 Wall-st., New-York, for grading, bridging, masonry, furnishing and laying ties, and laying iron complete of the road from Jamaica to Islip, about 31 miles. Plans and Specifications will be exhibited on and after May 1. Proposals to be directed to SAMUEL MCELROY, Chief Engineer, and received until SATURDAY, May 12, at noon. The Company reserve the right to accept or reject any proposal. Twenty per cent to be reserved until the final acceptance of the work.

OFFICE SUPERINTENDENT PUBLIC PRINTING,
WASHINGTON, April 27, 1866.

PROPOSALS FOR ELECTROTYPED ENGRAVINGS. Sealed proposals will be received at this office until Monday, the 14th day of May, 1866, at 12 o'clock, for furnishing one set of electrotyped pages of the illustrations of Machinery, &c., accompanying the Report of the Commissioner of Patents for the year 1865.

The drawings will be furnished on paper to the contractor, who must arrange them into pages in numerical order, as nearly as is consistent with neatness and compactness; and the execution of the work, in every respect, must be fully equal to that furnished for the published report for 1864, which has been adopted as the standard for the present volume. The plates are to be delivered at this office free of cost for transportation, and subject to the approval or rejection of the Superintendent of the Public Printing. Bond and approved security will be required for the faithful performance of the contract.

The work will comprise about five thousand illustrations, making over seven hundred pages, measuring 43 by 8 inches. Bidders are required to propose for the work by the illustration, with the understanding that, when more than one figure is required to illustrate an invention or design (as is sometimes the case), the whole number of figures will be estimated and paid for as a single illustration. Awards will be made "to the lowest and best bidder for the interest of the Government, due regard being paid to the execution of the work," under the direction of the Joint Committee on Printing.

Any further information that may be required will be furnished upon application of this office, or to the Commissioner of Patents.

Proposals will be addressed to "The Joint Committee on Printing," Washington, D. C., care of the undersigned, and indorsed on the envelope, "Proposals for Patent Office Report."

The advertisement for proposals dated the 23d of April, 1866, is withdrawn.
JNO. D. DEFREES,
Superintendent of the Public Printing.

To be published in The Washington Republican and Chronicle, Baltimore American, Philadelphia North American, New-York Tribune, and Sunday Journal, three times a week until the 17th day of May. Sunday papers will be paid for publishing this advertisement.
