WINS AT 15 TO 1.

Senator Grady Easily Defeats the Cracks in the Sapling Stakes.

SIR WALTER'S STEVENS.

With Doggett Up, He Wins Easily from His Field, Rainbow Being Second.

RACE TRACK, MONMOUTH PARK, July 25.—The weather here to-day was simply ideal for racing. A fine, cool breeze blew in from the ocean, and underneath the huge roof of the grand stand, it was as cool and pleasant as an Autumn day.

The card was filled to overflowing with "good things" innumerable, the first four races appearing on paper to be easy things for the favorites. Consequently the talent, who are always in quest of the certainties, turned out in large numbers, and they were largely reinforced as the day wore on by the Summer contingent. There was a large crowd present before the third race was called.

The track was in much better shape than any day previous and the horses ran over a soft cushiony soil, that enabled them to make fast time in the different events. The wind blowing down the chute helped to make the races fast.

The first race started off well for the backers of favorites. Sirocco was always a top-heavy favorite, although his odds lengthened at the close from 1 to 2 to 7 to 10.

The race proved to be a mere exercise canter for the favorite, who took the lead from the start and, galloping in front all the way, won, pulled up, by a length and a half. The second choice, Fairy, secured the place in a drive, by three parts of a length from Aloha, the only other starter. The latter was well backed from 7 to 4 to 1.

Mary Stone, the favorite in the second race, had to strike her colors to Lustre, the second choice. The latter was heavily played at one time, and went to the post almost an even favorite with Mary Stone.

Lustre and Mary Stone had the race to themselves after the first quarter, and finished lapped. The former won easily, by half a length. Red Banner was a poor third, five lengths off. The others were beaten early in the race and finished far in the rear.

The result of the Sapling Stakes proved a fizzer for the talent, who could see nothing in the race but Hyderabad. Mr. Keene declared to win with Riverside, Hyderabad's stable mate, but form players would not have anything to do with the former, and bet all their money on Hyderabad.

Senator Grady was practically friendless in the betting, and the odds were so liberal about him that a house and lot could have been won by backing him for a small amount.

Senator Grady took the lead in the opening strides and, making each furlong post a winning one, galloped his field to a standstill, early in the race and won easily by a length and a half.

Taral was somewhat hampered with stable instructions, and the best he could do with the favorite was to make a dead heat with Henry of Navarre for the place.

FIRST RACE.

A sweepstakes of $15 each, with $1,000 added; five and a half furlongs.

Starters.	Weights.	Jockeys.	Start.	Half.	Fin.
Sirocco	127	Garrison	1	1o	1½
Fairy	107	Lambley	3	2½	2½
Aloha	113	M'Cafferty	2	3	3

Post Betting—Sirocco, 3 to 5 and out; Fairy, 3 to 1 and 1 to 2; Aloha, 7 to 2 and 3 to 5.

This was nothing but an exercise gallop for Sirocco, who made the pace to suit himself and won in a gallop by a length and a half. Fairy, urged to her utmost, beat Aloha three parts of a length for second place. Time—1.04¾.

SECOND RACE.

A sweepstakes of $15 each, with $1,000 added; six furlongs.

Starters.	Weights.	Jockeys.	Start.	Half.	Fin.

There was no actual leader until the field had reached the last quarter. Bergen then moved Lustre into the lead, and, holding it to the end, won rather handily by half a length. Mary Stone, under whip and spur, beat Red Banner five lengths for second money. Time—1.10¼.

THIRD RACE.

The Sapling Stakes, for two-year-olds, $100 each, with $1,500 added; five and a half furlongs.

Senator Grady made the running from start to finish and won easily by a length and a half. Hyderabad and Henry of Navarre ran head and head behind the leader all the way. These two finished so close together at the winning post that the judges could not separate them and gave it a dead heat for second money. Time—1.45.

FOURTH RACE.

The Stevens Stakes, for three-year-olds, of $100 each, with $2,500 added; mile and a half.

Starters.	Weights.	Jockeys.	Start.	Half.	Fin.

Post Betting—Sir Walter, 4 to 5 and 1 to 5; Daily America, 30 to 1 and 1 to 4; Rainbow, 12 and 5; Young Arion, 30 and 5.

Rainbow went to the front soon after the start was made, and, opening up a big gap, made the running, closely followed by Daily America and Young Arion to the stretch. Sir Walter then took command, running strong to the end. He won easily by three lengths. Rainbow, under the whip, secured the place, a length and a half in front of Young Arion, who swerved several times during the race, but managed to beat Daily America out the first by a neck for third money. Time—2.37¾.

Aleot made the running until a furlong from home, where Little Pirate took command, and running easily the rest of the way, won by a length and a half. Crossfire colt finished second, a head before Aleot, who beat Pottawatomie the same distance for third money. Time—1.03.

WINNERS AT BRIGHTON.

Gray Eagle Captures the First Event, Connors the Second.

RACE TRACK, BRIGHTON BEACH, July 25.—While there was a noticeable absence of quality in the races here to-day, mainly due to the free use of the blue pencil, the fields were so evenly matched that the racing was far from being uninteresting.

The track was in superb condition, and sprinkling carts were kept busy laying the dust. A cool breeze blew in from the ocean, and made things decidedly pleasant.

The third race on the card, a seven-furlong dash, with such good odds as Major Daly, Chatham, Play or Pay, Orchis and Alone to it, was the feature, and resulted in a well-contested finish.

Grey Eagle was backed heavily in the betting, the opening price being 6 to 5, later a heavy commission came in on Osric, sending his price reeling. Express and Bob Sutherland also had many admirers.

The talent had heart disease at the end, Grey Eagle lasting long enough to win by a neck, while Osric and Express ran a dead heat for the place.

Grey Eagle made all the running and won in a terrice drive by a neck. Osric was second to one last few jumps, where Express nailed him, the two finishing in a dead heat for the place. Time—1.03¾.

They were sent away to a miserable start with Advance in front. Connors assumed control on the turn and won as he pleased, three lengths before the Spring Lake colt. Dare Devil was third. Time—1.19½.

Mutuels paid: Straight, $8.05; place, $4.25. Spring Lake paid $10.80.

LIEUT. BRUNDY'S BURGLARS HELD

He Identifies Morgan as the Man Who Pointed a Revolver at Him.

James Henry, alias "Kid" Morgan, nineteen years old, of 320 East Sixty-first street, and Thomas Wallace, eighteen, of 267 West Fortieth street, charged with burglarizing the apartments of Lieut. F. M. Brundy, U. S. N., at 134 West Twenty-ninth street, on the morning of July 11, were held for examination by Justice Hogan in Jefferson Market Court to-day.

Lieut. Brundy refused to give up any of his property, when a revolver was placed at his head by Morgan, and the thief quietly left his room by the window. He carried off a valuable gold watch and other articles, all valued at $400.

Last night Morgan was arrested on Sixth avenue, and the Lieutenant's watch was found in his possession. Wallace was arrested later.

Lieut. Brundy came to headquarters to-day and picked Wallace out from six other crooks as the man who entered his room.

ALMOST LIKE PANIC.

A Day of Much Excitement on the Stock Exchange.

Speculation Bordered on Demoralization Towards the Close.

The Trading Ends Feverish After a Slight Recovery.

The heavy shipments of currency to the West yesterday, amounting to about $1,500,000, directed attention again to the local money market. The banks are taking every precaution to keep themselves strong, and for this reason will make no large time loans. They put out their money on call, which accounts for the prevailing low rates.

It can be said that the banks are receiving accessions to their cash resources from nearby places.

Sterling exchange was firmer and puts an obstacle in the way of gold imports.

So far as the stock market is concerned, the contest this morning was a little less one-sided than heretofore. In the first place London came strong, and commission houses had a fair amount of buying orders from out-of-town customers. In many instances prices were higher than last night.

Shortly before 11 o'clock Missouri Pacific and Northern Pacific preferred were attacked by the room traders. The former fell from 75 3-4 to 75, and the latter from 22 to 19 1-2.

At the same time bonds were jumped on and as a result the general railway share list yielded 1-2 to 1 5-8 per cent. Northwest fell off 1 5-8, to 99. Atchison to 32 3-8, Burlington 1 2-8, to 73 1-8, and Chicago Gas 1 5-8, to 51 7-8.

The Indiana Northwest stock during the past week show a very large number of small investors, ranging from one share to fifty shares, mostly in lots of ten share lots. Out of between $680,000 and $700,000 of stock offered, over one-half of it was in these small lots, and out of 203 names only thirty-one had as high as 400 shares.

Railway bonds were weak. Atchison 4s declined 1 3-4 to 43; do. 2d 8s, class A, 2, to 22 1-2; Chicago & Northern Pacific 1sts, 1-2, to 82; Northern Pacific 1sts, 58, 4, to 4, 4 3-4; and Seattle, Lake Shore & Eastern 1sts, 10, to 50. Erie 2ds rose 2 1-2, to 67 1-2.

The failure of Mitchell's Bank, in Milwaukee, the largest institution there, had a very depressing effect on Wall street. The bears took advantage of it to pound the Grainger stocks, and sharp declines ensued. Northwest touching 99 1-4, St. Paul 59 1-4, Rock Island 56 5-8 and Burlington 72 3-4. Omaha preferred sold at par, a break of nearly 7 points from the last transaction.

In addition to the bank troubles, it was reported that the crops have been seriously injured by hot weather.

The heavy short interest stimulated the forenoon rally for stocks. Lockawanna and Western Union contracts sold 1-32, and New York Central and Rock Island 1-64 for use. A number of shares lent "flat."

The Clearing-House issued $50,000 loan certificates this morning, making total issue outstanding $22,800,000. The Treasury's total purchases of silver late yesterday amounted to 105,500 ounces silver at 76.59. At the Sub-Treasury applications have been received for about $280,000 small notes for shipment. Some money shipments are expected and Treasury officials see the outlook is for a fairly heavy movement. The debit balance of $684,000 of the Assistant Treasurer at the Clearing-House was paid to-day in gold coin.

Money was easy on call at 4 a 5 per cent.

Foreign exchange is firmer for short sterling, owing to an advance in the rate of discount in the open market in London to 2 5-8 per cent. Bankers' 60 days sold at 4.81 3-4 a 4.82 1-4, and short at 4.83 3-4 a 4.84 1-4. The volume of business transacted was small.

Earnings of the St. Paul for the third week of July were $580,822, a decrease of $77,414.

Stock quotations will be found on page 2.

The lowest quotations of the day were recorded around delivery hour. At that time the bears were in full possession of the field, and resulted in what is a state bordering nearly on demoralization.

The heavy decline brought about liquidations on a large scale, and the West was a conspicuous seller.

The break in prices was equal to 1 a 7 points. Towards the close there was a recovery of 1 a 3 per cent., but the market was feverish and somewhat excited.

The rumors of a new issue of Louisville and Nashville stock grew out of the fact that on July 9, 1891, the capital stock was increased from $48,000,000 to $60,000,000, of which increased stock, $1,500,000 was issued and disposed of, leaving $2,250,000 in the treasury. This treasury stock has now been made an available asset.

Money lent at 4 a 5 per cent. until just previous to the close, when the rate jumped to 8.

Sterling exchange was weaker this afternoon and sales were made at 4.81 1-2 a 4.81 3-4 for bankers' 60-day bills and 4.84 a 4.84 1-4 for demand.

Erie seconds broke to 40 late in the day on rumors that the Company was about to make an emergency loan for $2,000,000, agreeing to pay a large commission for the use of the money. The stories could not be verified.

The sales of stocks were 275,900 shares. In the unlisted department 17,600 shares of Sugar and 4,900 Lead were traded in.

For the third week of July the gross earnings of the Atchison system were $462,887, a decrease of $21,129, and of the Missouri Pacific $400,000, a decrease of $15,000.

IMAGINATIVE MRS. NOONAN.

Police Now Convinced that She Fabricated That Baby Story.

All of Her Self-Suggested Clues Prove Utterly Worthless.

The police are now thoroughly convinced that the strange story told by Mrs. Lizzie Noonan, of 226 East Thirty-sixth street, of the disappearance of her baby, within an hour after its birth, July 15, is a pure fabrication.

The woman was found by Dr. Charles Kane on the afternoon of the day mentioned, walking the floor of her apartments, bewailing the loss of her infant. She was hysterical, and when quieted told the doctor that a strange midwife, who had attended her, after first placing her under the influence of an anæsthetic, had taken her child away without even telling her of its sex.

She said next day, when pressed for an answer, that she had engaged the midwife at Mme. Eckardt's, a patent medicine manufacturer, at 24 East Thirteenth street. Mme. Eckardt was brought before Mrs. Noonan, but the childless mother failed to identify her and she was not placed under arrest.

Mrs. Noonan declared that a girl whose name she didn't know, but who worked on Second avenue, in a laundry, between Twenty-third and Twenty-fourth streets, had taken her to Mme. Eckardt's, and she intended to take Detective Donohue to the girl as soon as she was able to leave the house.

This morning Dr. Kane pronounced her able to go out and she went with Detective Donohue down to Mme. Eckardt's. Her husband and two young women who refused to divulge their names, persisted on accompanying her.

Mme. Eckardt and two other women confronted Mrs. Noonan, but she was sure that none of them was the mysterious midwife. She was then taken to 312 East Thirteenth street to see the girl who, she declared, had gone with her to Mme. Eckardt's. Her name was Mary A. Grosner. Mrs. Noonan could not identify her either.

All the clues she has furnished have been worked out, and all her statements investigated, and every one of them has been found to be false, excepting that she really did give birth to a child, and that it had disappeared. Hence the mystery is as far from solution now as at the beginning.

Dr. Kane was sure from the start that the woman's story was false, because he found witnesses to prove that the child had been born at least two hours earlier than Mrs. Noonan said.

The police are considering the advisability of arresting both Mr. and Mrs. Noonan, in view of the suspicious disclosures this morning. They believe that she can clear up the mystery if she would and that the truth might be exacted from her if she was separated from her husband.

WILL CLOSE ALL CITY WELLS.

None on Manhattan Island Contain Water Fit to Drink.

In view of the impurities found in the water taken from the wells and springs near Morningside Park, President Wilson, of the Health Department, to-day instructed Chemist Martin to get samples of water from all the wells on Manhattan Island, and to analyze them.

A few years ago the Health Department closed all the wells in the city south of Fifty-ninth street. Chemist Martin and his assistants will begin work immediately to locate all the wells south of the Harlem River and north of Fifty-ninth street, and will obtain water from each for analysis.

"Experience has shown," said President Wilson, "that no well water can be kept fit for drinking purposes on Manhattan Island." As the chemists have located all the wells, they will begin an inspection of the wells in the annexed district. This action on the part of the Health Department will eventually result in the closing of all the wells in the city, and a petition of the Croton Board.

Chemist Martin to-day submitted to President Wilson the result of an analysis made by him of the water taken from a spring at One Hundred and Tenth street and Morningside Park. It showed that the water was contaminated by sewage.

The official analysis of a sample of Croton water taken from a hydrant in Bleecker street, opposite Mulberry, this morning, showed the following ingredients:

Chlorine	0.905
Sulphuric chlorine	0.348
Nitrogen in nitrides	0.00005
Nitrogen in nitrates	0.0007
Free ammonia	0.0010

TROLLEY LINE EXTENSIONS.

The Question Argued in Brooklyn Before Commissioners.

Alfred C. Chapin and Samuel Beardsley, two of the State Board of Railroad Commissioners, met in the Brooklyn City Hall this afternoon, to hear the final application of the various street railroad companies for permission to introduce the trolley system on their projected routes.

The principal applicants were the Brooklyn City Railroad Company, the Broadway Railroad Company, and the P. H. Flynn syndicate.

Lawyer P. C. Carr and ex-Police Commissioner James J. Bell appeared in behalf of the property-owners on Halsey, Bridge and Rutledge streets to oppose the applications of the companies.

Lawyers Carr and Bell argued that the railroad had no right to change their motive power on a projected road where the proposed power never had been imposed.

President Lewis, of the Brooklyn City Railroad, asked the Commissioners for time to prepare an argument that would cover the objections raised by the property owners. His request was granted, and the Board adjourned until Sept. 12, when another hearing will be held.

STILL THE BANKS GO.

Two Close Their Doors To-Day in Indianapolis.

Three More Suspensions Are Announced in Louisville.

And the Milwaukee Marine and Fire Bank Goes to the Wall.

INDIANAPOLIS, Ind., July 25.—The Indianapolis National Bank failed to open its doors this morning. The Bank of Commerce did not open this morning.

The Indianapolis National was the designated depository of the school money.

Its capital was $200,000.

No statement has been made as to its condition, except that the failure is for $1,200,000.

For some days rumors have been current to the effect that the bank was in trouble, and these rumors have had an effect of starting a quiet run upon it, which, quiet though it was, has depleted the bank's funds, and finally made necessary the action of to-day.

The management did not sufficiently realize the extent of the talk concerning the bank and did not make timely preparation for the worst.

The Bank of Commerce has not been one of large deposits, and its failure will not have much effect on the local money market. Its indebtedness is said to be only $50,000.

The suspensions caused considerable excitement on the streets, and at this hour (6.20) a heavy run is being made on the Indiana National.

LOUISVILLE, Ky., July 25.—This will prove a memorable day in the financial history of Louisville.

At 9 o'clock this morning the Merchants' National Bank posted a notice of suspension, and half an hour later the failure of the Louisville Deposit Bank was announced.

By this time half a dozen banks in the city were being run by depositors, mostly small ones. They all stood the pressure except one—the Fourth National—which closed its doors in the Board of Trade Building at 10 o'clock.

At that time the excitement was running high, and every one of half a dozen banks was crowded with depositors, who were in line waiting their turn with the paying teller.

The first failure of the present crisis was that of the Kentucky National Bank, Saturday. Then came the Louisville City National Bank, Monday, after the intervention of a Sunday holiday, and the Merchants' National, the Louisville Deposit, and the Fourth National today.

The failure of the Merchants' National was caused by the withdrawal of country banks and country depositors.

The Louisville Deposit was the only bank in the city not a member of the Clearing-House Association, and in its case of need none of the bankers would give it any assistance whatever.

The suspension of the Fourth National was a result of the panic.

MILWAUKEE, July 25.—The Wisconsin Marine and Fire Insurance Bank has closed its doors.

The last statement of the bank, rendered on the first of the month, showed its total resources to be $8,946,344.61; capital, $500,000; undivided profits, $75,849.67; due depositors, $7,870,595.94, due to others, $500,000.

The Wisconsin Fire and Marine Bank of Milwaukee, which suspended this morning, has always been known as Mitchell's Bank, and has been one of the half dozen famous private banks of the continent.

It was founded fifty years ago by George Smith and Alexander Mitchell. It was the one bank in "wild cat" days of which the whole country was not afraid.

It has succumbed to the paper of the Schlesinger Iron syndicate, of which it held $79,000.

This paper is all secured by iron receipts, but there is 14 cent to be used anywhere.

The failure was precipitated by the withdrawal of the funds of the St. Paul Railway and of the Northwestern Railway. It is stated that depositors will be paid in full.

The city of Milwaukee has $1,600,000 in the bank, and the corporation will probably have to temporarily suspend payment, as did the county when the Commercial Bank closed.

David Ferguson, the veteran Vice-President of the bank, was completely prostrated, and a little while after the suspension was posted his condition became such that medical attention was considered necessary, and Dr. Fox was summoned. Soon afterwards Mr. Ferguson was taken home in Dr. Fox's carriage.

Every man in the crowd of bystanders had words of sympath
