CONFERREES CLASH.

Tariff Disagreement Likely to Be Reported.

Republican Members Were Called In at 2 To-Day.

Reports May Be Made to Both Houses To-Morrow.

(By Associated Press.)

WASHINGTON, July 17.—The adjournment of the Democratic members of the Tariff Conference Committee at 12 o'clock, and the determination to call in the Republican members at 2 o'clock to-day, were believed to mean that a report of a disagreement was to be made, and it was thought the report to the two houses would be made either late this afternoon or to-morrow.

It is understood that the report will indicate a general disagreement, and will show that it has been impossible for the conference to come to an understanding without receiving renewed instructions from the two Houses.

It is understood that there are wide differences between the conferees all along the line of the bill, including sugar, coal, iron, the metals, woollen, cotton and glass schedules especially.

It is also stated by those in a position to know that the House members of the Committee have taken a broad position in favor of the House bill, and that while they originally manifested a disposition to make concessions on the less important changes in the bill, they have latterly been very obdurate and stand out for a majority of the House provisions, since they have found that the conference managers of the Senate will not meet them.

Immediately after the adjournment one of the members of the conference said that it seemed that the Senate and House were further apart than when they began; that the House members flatly refused the iron ore, coal and sugar rates of the Senate bill, and the Senate conferees were as firm in demanding that the bill in these particulars must remain as the Senate fixed it.

Mr. Reed, leader of the House Republican conferees, says no exact programme has been agreed on by the Republican conferees, as it is for the Democratic conferees to take the initiative. Mr. Reed understands the purpose of the Democrats to be to report a disagreement throughout, and he says that if this is done there is likely to be no objection or delay from the Republicans.

LATER.—The full Tariff Conference adjourned at 2.15 P. M. until to-morrow at 2 P. M. without reaching an agreement to report.

UTAH TO BE A STATE.

President Cleveland Signs the Enabling Bill.

(By Associated Press.)

WASHINGTON, July 17.—The President to-day signed the bill to permit Utah to hold a Constitutional Convention, and be admitted into the Union as a State.

BAILEY BANKRUPTCY BILL.

Measure Passed by the House at Washington To-Day.

(By Associated Press.)

WASHINGTON, July 17.—The Bailey Bankruptcy bill passed the House to-day.

Named by the President.

(By Associated Press.)

WASHINGTON, July 17.—The President to-day sent to the Senate the following nominations: David A. Wells, jr., of Connecticut, to be Second Secretary of the Legation of the United States at London, Eng.; James R. Jackson, of New Hampshire, to be Consul of the United States at Sherbrooke, Quebec.

CHOLERA AT DANTZIG.

Outbreak Reported to the Marine Hospital Bureau.

(By Associated Press.)

WASHINGTON, July 17.—A despatch received at the Marine Hospital Bureau, through the State Department, announces an outbreak of cholera at Dantzig, in Northern Prussia.

HORSE-STEALING CHARGED.

Harlem Physician's Rig Found in a Brooklyn Livery Stable.

Thomas Cronacu, alias George O'Brien, was arrested this afternoon at the livery stable of William A. Fall, 675 Fifth avenue, Brooklyn, on complaint of Dr. H. B. O'Brien, of 465 West One Hundred and Twenty-second street this city.

Dr. O'Brien says that on the afternoon of July 9 he left his horse and carriage standing in front of 196 West One Hundred and Twenty-fifth street. When he came out, the rig was gone. He valued it at $300.

The horse and vehicle were traced to Brooklyn, and a general alarm was sent out from Police Headquarters. Detective Deledy, of the Fifth avenue station, found the horse at Fall's livery stable. He learned that Cronacu, or O'Brien, as he called himself, had sold the rig to Fall for $85.

Fall paid $5 down, and O'Brien was to call for the balance. O'Brien visited Fall's place shortly after noon to-day and was arrested and turned over to the New York police.

ATTACKS ON NEW MEN.

(By Associated Press.)

FORT WAYNE, Ind., July 17.—New men employed on Fort Wayne railroads, in the yards and as trainmen, are hourly subjected to the most brutal assaults from discharged men.

Last night Arthur Baldwin, a Nickel Plate switchman, was found in the yards insensible. Three other switchmen and a call-boy were violently stoned.

This morning Conductor Mulcahy, of the Pennsylvania, was knocked down by a large rock and kicked in the face. Three switchmen in the Pennsylvania yards were clubbed and relieved of their lanterns.

Both Nickel Plate and Wabash passenger trains were stoned. Christian Hess, the only rioter arrested, fired two shots at Capt. Borgman, of the city police, before he surrendered.

Heaviest Death Rate in Two Years.

During the twenty-four hours ending at noon to-day there were 225 death certificates filed in the Bureau of Vital Statistics. This is the largest number for any one day during the past two years. Of this number 68 occurred in the institutions under the direction of the Board of Charities and Correction. A very large proportion of the deaths was caused by diarrhoeal trouble, the victims being under five years of age.

OLD PLANS ADOPTED.

New Rapid Transit Commissioners Favor Municipal Aid.

To Lay the Question Before the People in November.

Adjournment Then Taken to the Last Tuesday in September.

The full Board of Rapid Transit Commissioners met this afternoon and adopted all the plans and specifications of the old Board.

This action was taken in order to allow the question whether rapid transit railroads shall be built with municipal aid, to be submitted to a vote of the people next November. All of the Commissioners voted in favor of the resolutions.

The fact that the plans have thus been adopted does not at all mean that they will be carried out.

Under the terms of the act creating the Commission, it is possible to modify the plans after the people have decided whether municipal aid shall be given to the enterprise.

Once the last question has been settled, the Commissioners have power to throw away the old plans altogether and adopt new ones.

This action would have been taken at the last meeting, but the Commissioners were afraid there might be some technical objections. For that reason the question was referred to the Board's counsel, Messrs. Beekman & Boardman, with instructions to report to-day.

A report was handed in to the effect that there were no legal objections, and Mr. Beekman also handed the Commissioners resolutions containing seventy-five pages of type-written matter for them to adopt.

The resolutions covered the entire Rapid Transit question, went over the work of the old Board and then accepted the former's conclusions.

The resolutions having been read, were moved by Commissioner Starin and adopted unanimously.

It was then decided on motion of Mayor Gilroy that adjournment should be taken until the last Tuesday in September.

In the mean time counsel to the Board will prepare resolutions, plans and a report as to the best method to persuade to get the question before the people in November.

The engineers will also get to work on the old plans, get up new tracings, and, if necessary, special meetings will be called to push the work along.

Communications were received from promoters of plans other than those adopted by the old Board of Commissioners. They will be given a hearing later.

MURDER IN A MILL.

Discharged Weaver Kills One Man and Fatally Stabs Another.

(By Associated Press.)

DALLAS, Tex., July 17.—Just after the South Dallas cotton mills started work to-day H. P. Barner, loom weaver, entered the office of Supt. A. H. Nickles, and assaulted the Superintendent with a knife. After cutting and stabbing him in several places in the left side he drove the knife home to Nickles's heart, and the Superintendent died without speaking to those who came too late to help him.

Barner next assaulted John W. Nickles, son of the Superintendent and engineer of the mill, inflicting a half-dozen severe cuts, including two stabs reaching the lungs.

Barner then surrendered himself to the police, and was found to be himself severely wounded, possibly fatally. Young Nickles will die. Barner says he was attacked, but the evidence is that his use of the knife was the result of his being discharged.

LEONARD NOT INDICTED.

Mrs. Frickel Accused the Lawyer of Swindling Her.

After an examination into the case of lawyer Henry W. Leonard, the Grand Jury refused to find an indictment against him to-day.

Leonard was accused by Mrs. Alice Frickel of swindling her out of $200. She claimed that she gave him $200 while he was her counsel in an action she brought against her husband for divorce for the purpose of prejudicing the referee, Edward Jacobs, in her favor. Both Leonard and Jacobs deny this.

Leonard claims he got the $200, but that it was in remuneration for his services in the case.

NOONAN'S NAME CLEARED.

Honorably Acquitted of the Charge of Robbery.

John Noonan, the falsely accused young man who spent three months of an eight-year term in Sing Sing for robbery and was then granted a new trial by Recorder Smyth, was honorably discharged to-day by Judge Cowing in Part I. of the Court of General Sessions.

Noonan was identified as the robber who entered the house of Mrs. Rebecca Robbins on Dec. 18, 1893, and after overpowering the woman carried away a small sum of money. So many witnesses were produced in court to prove an alibi that a trial was unnecessary.

Steel Works to Resume.

(By Associated Press.)

MILWAUKEE, July 17.—The Illinois Steel Company signed the scale for the Bayview Works to-day, and six hundred men will start work to-morrow morning.

CAN'T FIND E. S. UPDIKE, SR

Judge Bischoff Finds Him Guilty of Contempt of Court.

Edwin S. Updike, sr., was to-day adjudged in contempt of Court by Judge Bischoff, of the Court of Common Pleas, for having falsely made affidavit of his sufficiency as a surety on a bond executed to John J. Hooper, on April 2, 1891, in the sum of $1,200, in discharge of a mechanic's lien in which Hopper was interested.

Besides adjudging Updike in contempt, Judge Bischoff ordered a judgment for $1,945.82 entered against him, and also issued an order for his arrest.

Updike is said to reside on Madison avenue, near One Hundred and Sixth street, but so far Deputy Sheriff Wallgering, who has the order of arrest, has been unable to locate him.

Convention of Railway Men.

(Special to The Evening World.)

CONEY ISLAND, July 17.—The Southern Railway Association held an adjourned session of its annual convention at the Oriental Hotel, Manhattan Beach, this afternoon. The thirty-five members were present, together with 125 prominent railroad officials. President C. H. Phinizy, of the Atlanta, West Point and Western Railroad of Alabama, was elected Chairman, and W. L. McGill Secretary. This evening a committee is expected to present a rate schedule for the coming year.

MEN BLOWN TO BITS.

Terrible Explosion in Stockton Colliery No. 8.

Miners' Bodies So Mutilated as to Be Beyond Recognition.

Sticks of Giant Powder Go Off in the Midst of a Gang.

(By Associated Press.)

HAZELTON, Pa., July 17.—Another mine disaster occurred at Stockton No. 8 to-day, which in detail is the most shocking which ever took place in the Lehigh coal fields.

Two hundred sticks of giant powder exploded in the midst of a gang of miners, and not enough of their bodies was left intact to recognize them.

The names of the victims are as follows:

CHARLES O'DONNELL, aged twenty-five, married.
ANDREW TADOL, aged thirty-eight, married.
JOHN PRISHONIE, aged twenty-six, single.
JOHN KOEHLICH, aged twenty-three, single.
ANTHONY MORKAVITZ, aged twenty-five, single.
JOHN KRUSCIK, aged twenty-eight, married.
JOHN NOTEFESKI, aged forty-four, married.
JOHN RIBSON, aged twenty-five, single.

Stockton colliery is about one mile east of this city, and is operated by Linderman & Skeer. The mine is but part of a series of openings which that Company operates in the valley, and is surrounded by hamlets in which the miners live.

On account of its isolation from the main breaker, it has been customary to send the dynamite and other explosives in boxes to No. 8, and distribute them to the workmen at the bottom of the second shaft as they appear in the morning on their way to work.

Charles O'Donnell had charge of this department, and it was his duty to distribute to the Company miners and starters the dynamite and caps.

The first men to go down into the shaft this morning were the drivers, and these are the only ones to return alive from the opening.

The drivers went into the stables to harness their mules, and it was while thus engaged that the explosion took place. Charles Shugert says he saw about a dozen men standing about O'Donnell receiving the powder a moment before the explosion took place.

The drivers were hurled about promiscuously. The men were paralyzed with fright, and fearing an explosion of gas had taken place and a collapse of the entire mine was about to follow, they simply waited for death. It was in this position they were found by some miners from No. 2, who hastened through the subterranean passageways to No. 8.

As soon as lights were seen the demoralized drivers hastened to the bottom of the shaft. There a terrible sight met their gaze. Strewn over the twisted and torn timbers were fragments of human flesh and bones and limbs of the unfortunate miners.

The men were too sick to attempt to remove the remains of the dead, but rescuing parties were quickly formed, and headed by Supt. Roderick a corps of miners descended into the mine.

LILLIAN RUSSELL SERVED.

Her Trip to Europe Postponed Until Saturday.

The announcement was made this afternoon that Lillian Russell had been served with the papers ordering her to appear before Justice Gaynor in the Supreme Court, Brooklyn, to-morrow and show cause why an injunction to restrain her singing for any other managers than Canary & Lederer should not be made permanent.

Miss Russell was to sail for Europe to-morrow, but her departure has been adjourned until Saturday.

It was stated that a female process-server had succeeded in seeing the song bird at her home, 318 West Seventy-second street. Miss Russell's attorney, William Olin, of Olin, Hayes & Montgomery, said last night that if the Casino people would withdraw the army of detectives that were watching his client's home and send a female process-server, there Miss Russell would accept service.

The statement is made that she did so without any opposition.

TWO LITTLE JOHNSONS.

Writ of Habeas Corpus Issued for Their Production.

Justice Andrews, of the Supreme Court, to-day granted to Mrs. Lina Johnson, of 66 Market street, a writ of habeas corpus, directing Mrs. Helena Johnson to produce in court Thomas and John Johnson, aged respectively six and three years.

In her application Mrs. Lina Johnson states that on May 15 last the left her children in the custody of Mrs. Helena Johnson, at 1 Hamilton street, agreeing to make weekly payments for their board and care. When she went yesterday to get her children, she alleges, that Mrs. Helena Johnson told her that the little boys were no longer in her possession, and refused to say where they were.

The application does not state whether the two Mrs. Johnsons are relatives.

GOLDHORN'S STEALINGS.

Mannheim Insurance Co. and a Bank Both Claim the $7,000.

J. J. Reilly, manager of the Mannheim Insurance Company, was in the District-Attorney's office this afternoon with his lawyer to see if Judge Martine has as yet come to any decision as to whom he will give the $7,000 taken from Ludwig R. Goldhorn, the young cashier who absconded and was an embezzler to the extent of $20,000.

There is a dispute between the Mannheim Insurance Company and the Commercial Bank of Montreal, Canada, as to the ownership of the money. Judge Martine has not yet rendered a decision. The money is in the custody of the property clerk at Police Headquarters.

A NUISANCE ABATED.

Fowl Cannot Be Killed in Essex Market After To-Morrow.

Essex Market will cease to be a slaughter-house for fowl to-morrow, by order of the Board of Health. Section 197 of the Sanitary Code has been so altered to prohibit the sale or killing of fowl upon the sidewalk or in any buildings within the built-up sections of the city without special permission.

A school in the building had to be condemned owing to the odors arising from the market. This market has become merely a place for the sale and slaughter of poultry. The police court across the way has also been conspicuously aware of the presence of the nuisance.

TROW CO.'S AFFAIRS.

Stockholders Appoint a Committee to Investigate Them.

Lively Meeting of the Directory People in Jersey.

Election of Officers Develops a Factional Fight.

The third annual meeting of the stockholders of the Trow City Directory Company was held in the District Court Building, 93 Montgomery street, Jersey City, this afternoon, was remarkable for hot arguments, followed by the adoption of a resolution to investigate the business of the concern from beginning to end.

The Committee appointed to prosecute the proposed inquisition is composed of the following stockholders:

Howard J. Forker, Robert W. Gibson, Philip Hathaway, Deacon S. V. White and Mr. Tiller.

The meeting was called to order by the President of the Company, and Stephen V. White, member of the New York Stock Exchange, was elected Chairman.

Mr. White stated in the beginning that any information desired by the stockholders relative to the business would be cheerfully given, and all questions answered.

Then there was some hot talk concerning the management of affairs by the officers of the Company, and Treasurer Franklin Hopkins received considerable attention.

Then the task of electing a new set of Trustees and officers was introduced. At once it was seen that two factions were in the field to fight for supremacy.

It was decided to hold the polls open until all the members had voted.

At the roll-call fifty stock holders, including two women, answered to their names.

The first ticket appearing was composed of the present officials of the Company as follows:

Robert W. Smith, William H. Bates, Franklin W. Hopkins, G. C. Moroson, M. L. Lawrence, S. G. Page, E. M. Barnes.

The new or reform ticket bore these names: Howard G. Forker, Robert W. Gibson, Philip Hathaway, William C. Taylor.

While the balloting was going on, reports were read, but as the fiscal year ends July 31, no complete statement of the business could be derived from that source.

Treasurer Hopkins reported the finances in good condition.

The whole outstanding debt, he said, would be covered with $7,000.

OPPOSE SUFFRAGE FOR WOMEN.

Constitutional Committee Will Report Adversely.

(By Associated Press.)

ALBANY, July 17.—By a vote of 3 to 2 this afternoon the Sub-Committee of the Suffrage Committee of the Constitutional Convention agreed to report adversely all propositions to grant to women the right of suffrage. The Committee agreed, however, to report favorably Mr. Tucker's amendment, introduced June 12, in anticipation of defeat, allowing the people to vote on the proposition, "Shall the word 'male' be stricken from article 2, section 1, of the Constitution, and cease to be a part thereof?"

In case a majority of the electors voting at such election on that question shall decide in favor of striking out the word "male," then, and not otherwise, the said word shall be stricken from that section, and cease to be a part thereof, and women be allowed to vote.

M'CLAVE'S SON OUT, TOO.

He Resigns as Deputy Treasurer of the Police Department.

S. Wood McClave, son of ex-Commissioner McClave, who has been deputy treasurer of the Police Department for two years, left his resignation at Police Headquarters to-day.

He gave no reason for his action.

REST ON SAME EVIDENCE.

Agreement Regarding the Charges Against Lee Fee.

At the conclusion of the hearing of Lee Fee, charged with smuggling Quong Wah Into the United States, the story of which can be found on the fifth page of this edition, the counsel on both sides agreed to submit four more cases against him on the evidence given in the Quong Wah case.

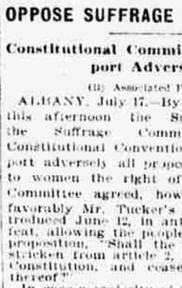
In addition to the case of Quong Wah, Lee Fee is charged with having illegally brought in Lee Lip, Shun Long, Young Back On and Sum Wah Yen.

New Anti-Tammany Headquarters.

The Anti-Tammany Democrats of the Twenty-third Assembly District has opened permanent headquarters at 2d Amsterdam avenue, corner of Ninety-ninth street. The headquarters are open afternoon and evening for enrollment. They have already met with great success, over 400 names having been placed on the books.

Receiver Dowley's Report.

The accounts of Francis B. Dowley, as receiver of the West Side Electric Light and Power Company, have been submitted to Justice Andrews. He was appointed receiver in 1889, and has about $2,000 of assets.



Lydia E. Pinkham's Vegetable Compound CURES ALL

Ailments of Women.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacements of the Womb, and consequent Spinal Weakness, and is especially adapted to the change of Life.

It has cured more cases of Leucorrhœa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That

Bearing-down Feeling

causing pain, weight, and backache, is instantly relieved, and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water.

All druggists sell it. Address in confidence, LYDIA E. PINKHAM MED. CO., LYNN, MASS.

Lydia E. Pinkham's Liver Pills, 25 cents.

BYCK BROTHERS,

CLOTHIERS.

ANOTHER ITEM

In Our Clearing Sale.

In advertising our special sale last week we named $14.25 as the price for a certain lot of high-grade suits. Early buyers have already played havoc with the assortment, and in some styles but one or two suits remain. These now go in with those offered at $10.50.

In other respects goods and prices are as previously announced. Trousers, $3.25 — $5.00. Suits, $10.50 — $14.25. Overcoats, $13.25.

We seem to make friends in this Clearing Sale, for many of our chance customers have congratulated us upon the assorted stumps. We congratulate them also. We look for our benefit in the future; they have theirs on the spot.

Fulton Building, S. W. Cor. Fulton & Nassau Sts.

MACKAY WANTS HIS BONDS.

He Says Vermilye & Co. Had $45,000 Belonging to Him.

Referee Appointed to Look Into Old Stock Transactions.

Justice Andrews, of the Supreme Court, to-day appointed Harold M. Smith referee to examine before trial Donald Mackay, Latham A. Fish and James A. Trowbridge, surviving partners of Vermilye & Co., bankers and brokers, in an action that has been brought by Edward C. Mackay for an accounting.

The action arises over stock transactions which were begun in 1869. At that time the plaintiff deposited with the brokers $45,000 in United States bonds, which were to cover any losses sustained by him in stock speculation.

Between then and 1871 his transactions amounted to several hundred thousand dollars. In 1871 an accounting was had and it was found that he was indebted to the brokers to the extent of $15,800.

He claims that he paid that amount, and says his bonds were never returned to him, and that the firm afterwards disposed of them for $70,000.

The defendants claim that there has been a full and complete settlement with the plaintiff, and also plead the statute of limitations, as none of the causes of action has occurred within the last six years.

FRANCE'S PRESS BILL.

Government Will Make It a Question of Confidence.

(By Associated Press.)

PARIS, July 17.—It is stated that the Cabinet will make the Press bill a question of confidence in the Government. The Radical newspapers continue to make a fierce opposition to this measure, and M. Edward Drumont, the editor of the anti-Semitic organ, the Libre Parole, has fled to Belgium rather than face the new law.

M. Drumont predicts that the passage of the Press bill will be speedily followed by a revolution.

Chinese Gun Factory Burned.

(By Associated Press.)

SHANGHAI, July 17.—Viceroy Chang Chihtung's new gun factory at Hanyang has been destroyed by fire, involving a loss of over a million taels. The fire is supposed to have been of incendiary origin.

St. Petersburg's Cholera Record.

(By Associated Press.)

ST. PETERSBURG, July 17.—One hundred and ninety-six fresh cases of cholera are reported, and seventy-nine more deaths have been recorded.

Chinese Steamers Off for Corea.

(By Associated Press.)

SHANGHAI, July 17.—Nine Chinese merchant steamers have left here for Corea. It is stated that they have gone to withdraw the Chinese troops from that country. On the other hand, it is asserted that the Chinese have strengthened their position at Asan. Japan has officially denied that she has accepted mediation.

Belgian Minister to France Dead.

(By Associated Press.)

PARIS, July 17.—Baron Beyens, the Belgian Minister to France, is dead.

WHEAT ON THE DECLINE.

Cereals in Little Demand, but Cotton Opens Higher.

The wheat market broke a half cent during the morning, September reaching 60 1-4 cents here and 58 3-8 cents in Chicago. Corn opened dull and barely steady here at 48 cents for September, while Chicago was 3-8 cents higher at 43-3-4 cents. Oats were very dull and practically unchanged.

The cotton market opened 3 to 4 points higher, with August selling at 6.35 a 6.36.

DIVIDEND FOR CREDITORS.

Haskin Wood Vulcanizing Co.'s Receiver to Pay 12 Per Cent.

David Thomson, receiver of the Haskin Wood Vulcanizing Company, was granted permission to-day by Justice Andrews, of the Supreme Court, to pay a 12 per cent. dividend to the creditors of the Company.

Mr. Thomson was appointed receiver several months ago in proceedings for a voluntary dissolution of the Company.

He now has in his hand $34,000 to apply to the payment of the Company's debts.

Wall Street Notes.

The Worcester, Nashua & Rochester, issued by the Boston & Maine, has reduced its dividend from 3 to 2 per cent. The floating debt in Lake Shore, Rome, Watertown & Ogdensburg stock of which interest on $1,900,000 bonds has to be paid, the balance going to the stock.

The Reorganization Committee of the Western New York and Pennsylvania Railroad announces that 70 per cent. of the entire capital stock and bonds shares have assented to the plan and joined the assessment. About $10,000,000 of bonds including $5,000,000 Pennsylvania Division of 50,000,000 have assented to the plan. The necessary papers for the formation of the new company are being prepared.

The authentic coal rates agreed upon were published in THE WORLD. It is not true that the rates are material changes in the proclamation issued upon the 1st. The operators have agreed to restore the rates to the old basis, and if any shall have a Western outlet are supposed to act accordingly, and if they are in a majority, then the general action, but a 5 per cent. reduction may be conceded to the tide-water people.

This Concern Quit Even.

Justice Andrews, of the Supreme Court, has given an order finally dissolving the Electric Construction Company, which did business at 15 Cortlandt street. The Company has no assets and no creditors.

IT IS WARMER; NOT COOLER.

Mr. Dunn's "Thingometer" Gets Mixed Up with the Wind Gauge.

If He Gets It Fixed in Time It Will Be Warmer To-Morrow.

HEAT RECORD.

Hour.	Degrees.	Hour.	Degrees.
8 A. M.	72	12 M.	84
9 A. M.	76	1 P. M.	84
10 A. M.	80	2 P. M.	82
11 A. M.	80		

The highest temperature recorded for July 17 was 93 in 1885. On the same date last year the thermometer registered 89.

Prof. Dunn missed it slightly in his calculations yesterday when he predicted cooler weather for to-day.

At 10 o'clock this morning it was as warm as at any time in the previous twenty-four hours, and the mercury was still climbing, with every prospect of exceeding yesterday's record by from 6 to 8 degrees.

Mr. Dunn's face wore a tired sort of an expression. He said he had forecasted and foretold and predicted; had been running all morning from the "thingometer" to the wind gauge and back again to a lot of other scientific instruments with unpronounceable names in an effort to scare up a cool wave, but all to no effect.

His friend, old Sol, persisted in shining with a full head of steam on, and he was powerless to do anything.

In the mean time, the humidity was attending strictly to business. At 8 o'clock this morning it registered 75 degrees, and at 10 o'clock had reached 82, which is as high as it has been in the last ten days.

The weather was generally fair all over the country this morning. Last night showers fell in the Southern Atlantic and Gulf States. At Wilmington, Del., the rainfall was 1.98 inches, at New Orleans 1.48, at Augusta, Ga., 1.18.

It is warmer in the Lake regions and Central States. Higher temperatures prevail through all the Northern States. At Boston the thermometer registered 62 degrees at 8 o'clock, Philadelphia 72, Washington 72, St. Louis 74, St. Paul 72, Denver 66, San Francisco 52, New Orleans 78, Key West 84. The coolest point was Roseburg where the temperature was 50.

The wind at 8 o'clock this morning was from the West and moving at the rate of four miles an hour. At 10 o'clock the wind had shifted to the south and was going about six miles an hour.

The forecast is for fair weather to-day and to-morrow and slightly higher temperature to-morrow.

FOG IN THE LOWER BAY.

Steamer State of Nebraska Anchored Inside the Hook.

A heavy fog hung over the lower bay this morning, seriously interfering with ocean navigation. The Allan line steamer State of Nebraska, from Glasgow, passed Sandy Hook at 12.30, and was obliged to anchor inside the Hook on account of the fog. She remained there until 9.30, at which time the fog lifted sufficiently for her to proceed to the city without danger.

The experience of the French line steamer La Champagne, which struck on the beach near Fort Hamilton on Sunday morning, May 6, in endeavoring to come up during the dense fog, has made captains very cautious, and they prefer to come to an anchor rather than run the risk of losing their bearings and going aground.

Capt. Brown, of the State of Nebraska, reports that his vessel was detained by fog for nine hours on July 12, between lat. 49.11 and long. 47.8.

In lat. 49, long. 49.01, a number of icebergs were passed.

The steamer Knickerbocker, from New Orleans, reports being detained outside of Sandy Hook by fog.

BATHERS WARNED BY SAVERS

Dense Fog Makes the Surf Dangerous at Coney Island.

(Special to The Evening World.)

CONEY ISLAND, July 17.—The worst sea fog seen in many years is hanging over this resort to-day. It is as thick as soft-coal smoke, and has brought with it a heavy mist.

On the beach, one cannot see twenty feet ahead, and the life-savers have warned all bathers not to go out over their heads, as it would be impossible to locate them in case of accident.

The hotel-keepers car their guests ate scarcely anything for breakfast and lunch to-day, and many of them are sick in their rooms on account of the fog.

Overcome by the Heat.

At 10.30 o'clock this morning Daniel Vale, twenty-eight years old, of 301 East Fourth street, was overcome by the heat in front of 320 Broadway. He was removed to the Chambers Street Hospital.

Peter Abell, forty years old, of 309 East One Hundred and Fifteenth street, was overcome by the heat while at work at One Hundred and Fifteenth street and Bloomingdale Park. He was taken to Manhattan Hospital.

Weather Forecast.

The weather forecast for the thirty-six hours ending 8 P. M. Wednesday is as follows: Generally fair both days and Wednesday warmer winds, generally southerly.

Two Claims Against the City.

Charles A. Doremus has lodged two claims with the Comptroller for $6,000 for professional services in connection with the trial of Dr. Henry C. F. Meyer. Of this he wants $5,000 for attending at the autopsy on the body of Ludwig Brandt and $1,000 for consulting with the District-Attorney and rendering him his services during the second trial.

CREATER NEW YORK'S GREATEST STORE

50 dozen Mother's Friend Percale Waists; worth 75c., at..... .49

Bloomingdale Bros., 3D AVE 59th & 60th St

SUGAR LOWER AT THE CLOSE.

Bears Came to the Front in the Late Trading.

Railway and Industrial Shares Inclined to Weakness.

There was a good buying of stocks by the professional element again this morning and with few exceptions prices ruled on a higher range. Chicago Gas and Distillers' were weak. The former declined 1 1-4, to 75 1-4, and the latter 1 3-8, to 19.

Chicago Gas was hammered on Chicago advices that the City Council last night passed an ordinance for the Universal Gas Company, supposed to be in the interest of the Mutual Fuel Gas Company. Whiskey broke on the fixing of the tax at $1 per gallon on all whiskey kept in bond for five years or less, and from $1.05 to $1.15 where it has been in bond over five and not over eight years.

In a majority of the stocks traded in to any extent the shorts appear to be nervous and run to cover on the slightest provocation. The chances for action on the tariff are now considered improved, and as railway traffic has been resumed better earnings are expected.

In addition to these matters, railroad managers are cutting down expenses wherever they can, and, in fact, reductions are being made in wages of employees. Whether this will occasion renewed trouble remains to be seen.

American Sugar rose 7-8, to 101 7-8; American Tobacco 3-4, to 86 3-4; Burlington & Quincy 1-2, to 76 1-2; Iowa Central preferred 1, to 33; Baltimore & Ohio 1 3-4, to 72 3-4; East Tennessee 2d preferred 1 1-4, to 9; Louisville, New Albany & Chicago 1-2, to 7 1-2; Missouri Pacific 7-8, to 27 3-4; Reading 5-8, to 18 1-8; Richmond Terminal 3-8, to 12 3-8; United States Cordage 3-8, to 21 7-8, and St. Paul 5-8, to 69 1-2.

Commercial bar silver sold at 62 and Mexican dollars at 50 1-2. Bar silver in London is unchanged at 28-7-16d. per ounce.

For the eleven months ending June 1 the exportation of Mexican dollars to Asia, via San Francisco, amounted to $1,774,455.

The sum of $150,000 was withdrawn from the Sub-Treasury yesterday for shipment to Canada.

Money easy at 1 per cent. on call, and foreign exchange dull at 4.87 for bankers' 60-day bills, and 4.88 for demand. The market is inclined to weakness, the inquiry being extremely light.

One of the brightest features of the situation, from a broker's standpoint, is the marked increase in the demand for bonds of all descriptions at improving prices. Government bonds are higher, coupon 4s being quoted at 113 a 119 1-4. The increase in the receipts of the Government has silenced the talk about another issue of 5 per cents. Railway mortgages are strong, and the exhaustion of buying orders leads to material advances, as the floating supply of many issues is small.

The stock market was quiet. Distillers' ruled weak and declined to 13 7-8, a number of "stop" orders being reached on the way down. S. H. Brown sold about 15,000 shares. The general list, however, was firm and few long stocks came out.

The exports, exclusive of specie, from the port of New York for the week were $6,298,262, against $8,234,338 for the corresponding week of 1893.

The steamship Paris, which sails for Europe to-morrow, will take out the following amounts of silver: J. & W. Seligman & Co., 125,000 ounces; Heidelbach, Ickelheimer & Co., 125,000 ounces; Muller, Schall & Co., 25,000 ounces, and Zimmermann & Forshay, 25,000 Mexican dollars.

At public auction to-day 10 shares Real Estate Exchange and Auction-Room, Limited, sold at 71 3-4; 1 membership New York Produce Exchange at $480, and 272 shares of the Chatham National Bank at 264.

Wabash 2ds sold down from 74 to 71 7-8, on a rumor that there might be a default. It is stated, however, that the August interest will be paid promptly when due.

The bears succeeded in making an impression upon the stock market this afternoon, not the railway list, as well as the industrial group, sold at lower figures. There were indications of selling for the "long" account.

A leading Broad street house was credited with marketing a big line of Distillers and other shares. Boston disposed of a good deal of Burlington & Quincy. The bulls were less confident about the sugar duties, and sold American Sugar fading down to 99 3-4.

The sales of listed stocks were 115,000 shares. In the unlisted department 40,900 shares of Sugar and 1,200 Lead were traded in.
