is their market values. On time, beyond quarter-day, the rates were higher, and too irregular for distinctive quotations.

*The Chicago Tribune* of Monday says:

Money has worked very close during the week, and the feeling at the banks at the close of business to-day indicates an increased difficulty in getting accommodations. No prime paper has gone a begging yet. It has all been taken by some one of the banks, but there is a very large amount of paper created in transactions not strictly mercantile which is not taken. The movement of currency to the country continues on about the same scale as during the week, and several of the banks are yet ordering currency from New-York to meet the demand.

Messrs. C. Wright & Co.'s Cotton Circular per Russia, says:

In our last Circular we quoted Middling Upland at 25c. A reaction in Liverpool, with less favorable accounts from the South as to the growing crop, caused a recovery here. The market advanced ½c. ⅌ lb, holders became stronger in their views, and buyers more cautious. The sales for the week have been 11,000 bales, taken chiefly for home consumption, with some little for export. To-day there has been a quiet feeling and mere desire to sell. We close at the annexed quotations barely maintained. The clearances have been, for Liverpool, per steamers Scotia, 304; Tarifa, 718; City of Baltimore, 509; Pennsylvania, 561; Total to Great Britain, 2,012. Havre, steamer Napoleon 112, 400. Total for the week, 2,412. The uncleared engagements to Liverpool, 1,300. Freight, steam, 3-16d. Havre, 1,250. Steam, 1c. Sail, ⅛c. Since our last an advance of about ⅛c. ⅌ lb has taken place at all the markets in the South. A fair business has been done at the enhanced rates, chiefly for domestic consumption, with some little for export. To-day there has been a quiet tone at the South with some yielding in price. We refer to reports by telegraph. Receipts at the ports are increasing, and promise soon to be large. For the past week they amounted to 20,000 bales, against 8,000 last year and 8,000 the year before. The total since 1st September already amounts to 35,000. Since Friday the receipts are large in New-Orleans, Mobile, and Savannah. So far at Charleston they are quite light. At Memphis, until yesterday, but little cotton has been received; we now look for free receipts at that point. For our export tables we give 2,000 bales, all for Liverpool, and all from New-York; 400 went to Havre from this port. We have not enough to make a point in our tables for France; 1,000 cleared at New-Orleans on the 18th inst. for Liverpool, the first of the season. The following is a statement of the movement in cotton since the 1st to 19th September:

| | 1868. | 1867. | 1866. |
|---|---|---|---|
| Receipts at the Ports | 35,000 | 18,000 | 20,000 |
| Export to Great Britain | 6,000 | 7,000 | 17,000 |
| Export to France | .... | .... | 5,000 |
| Export to ot er foreign ports | .... | 8,000 | 1,000 |
| Total Exports | 6,000 | 8,000 | 23,000 |
| Stock on hand | 50,000 | 65,000 | 255,000 |
| Of which during the past week included in the above: | | | |
| Receipts for the week | 20,000 | 3,000 | 5,000 |
| Exports to Great Britain | 2,000 | 2,000 | 3,000 |
| Exports to France | .... | .... | 1,000 |
| Exports for other ports | .... | 1,000 | .... |
| Total Exports for the week | 2,000 | 3,000 | 4,000 |

The comparative stock in Georgia, Alabama, and Florida. From Texas we have rather better accounts this week. At New-Orleans the reports from the country are unsatisfactory, and less sanguine hopes are indulged in. By telegraph we learn that the weather had become fine again, and hopes are entertained that the injury will not be as great as was feared. A friend, on whose judgment we can rely, reached New-Orleans yesterday after traveling through the cotton region, and sends us the following:

"NEW-ORLEANS, Sept. 21.—Prospects less favorable than I expected. Complaints general of damage by excessive rains and destruction by worms. Weather lately very fine, and now looks settled."

## RANKING AND FINANCIAL.

EIGHT HUNDRED AND TWENTY MILES OF THE UNION PACIFIC RAILROAD are now finished and in operation. Although this road is built with great rapidity, the work is thoroughly done, and is pronounced by the United States Commissioners to be first-class in every respect before it is accepted, and before any bonds can be issued upon it.

Rapidity and excellence of construction have been secured by a complete division of labor, and by distributing the 20,000 men employed along the line for long distances at once. It is now probable that the WHOLE LINE TO THE PACIFIC WILL BE COMPLETED IN 1869.

The Company have ample means of which the Government grants the right of way, and all necessary timber and other materials found along the line of its operations; also 12,800 acres of land to the mile, taken in alternate sections on each side of the road; also United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built, for which it takes a second mortgage as security.

THE EARNINGS OF THE UNION PACIFIC RAILROAD, from its way or local business only, during the year ending June 30, 1868, amounted to over FOUR MILLION DOLLARS, which, after paying all expenses, was much more than sufficient to pay the interest upon its Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that FIRST MORTGAGE BONDS upon such a property, costing nearly three times their amount, ARE ENTIRELY SURE.

The Union Pacific bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's office in the City of New-York, at the rate of six per cent in gold. The principal is payable in gold at maturity. The price is 102, and, at the present rate of gold, they pay a liberal income on their cost.

A very important consideration in determining the value of these bonds is *the length of time they have to run.*

It is well known that a long bond always commands a much higher price than a short one. It is safe to assume that during the next 30 years the rate of interest in the United States will decline as it has done in Europe, and we have a right to expect that such six per cent securities as these will be held at as high a premium as those of this Government, which, in 1857, were bought in at from 20 to 23 per cent above par. The export demand alone may produce this result, and as the issue of a private corporation, they are beyond the reach of political action.

Subscriptions will be received in New-York at the Company's Office, No. 20 Nassau-st., and by

JOHN J. CISCO & SON, Bankers,
No. 59 Wall-st.,

and by the Company's advertised agents throughout the United States.

$50,000.—Wanted a thorough business man, with this amount, to take charge of the manufacture and sale of ROOF'S WROUGHT-IRON SECTIONAL SAFETY BOILER, in England and other European countries. Address JOHN B. ROOT, Nos. 95 and 97 Liberty-st. New-York.

## THE MARKETS.

[Carefully reported for The Tribune.]

WEDNESDAY, Sept. 23, 1868.

ASHES—The market is inactive, and both Pots and Pearls are nominal.

COTTON—The demand has been very moderate and only to supply immediate wants; holders are rather pressing, and prices show a further decline, closing unsettled. We note 917 bales, all to spinners; quotations as follows:

| | Upland and Fla. | Mobile. | N. Orleans. | Texas. |
|---|---|---|---|---|
| Ordinary | 22c. | 22½c. | 22½c. | 22½c. |

HENRY CLEWS & Co., No. 32 Wall-st.

ST. LOUIS AND IRON MOUNTAIN RAILROAD COMPANY'S 7 PER CENT. FIRST MORTGAGE BONDS. February and August COUPONS.—The earnings of the completed road to Pilot Knob are now more than the interest on the entire mortgage of $4,000,000. Over $8,000,000 have been spent on the property, and not over $2,000,000 of bonds issued thus far. The constantly-increasing traffic of carrying ore, with the prospect of controlling all the travel from St. Louis to the Southern States, insures an enormous revenue. The Directors own 8-10ths of the stock for investment, and are interested to enrich the property as well as to economize its expenses.

THOS. ALLEN, President, St. Louis, Mo.

We the undersigned, cordially recommend these 7 per cent mortgage bonds of the St. Louis and Iron Mountain Railroad as good security. The revenue of the road will be large, and the administration of the affairs of the Company is in capable and experienced hands, and is entitled to the greatest confidence of the public.
